Neither the municipal division nor city personnel perform adequate supervisory or independent reviews of accounting functions and records. For example, no one independent of the cash custody and record-keeping functions reconciles recorded receipts to deposits, or reviews disbursements. These reconciliations cannot be performed due to various weaknesses identified in section 1.3. The receipt and deposit discrepancies and untimely disbursements identified in our audit could have been identified through an independent review of receipt, deposit, and disbursement records.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by implementing documented supervisory or independent reviews of accounting records. Without a detailed reconciliation of receipt and deposit records, including composition of receipt slips and deposits; and a documented review of bond disbursements, there is no assurance all monies have been recorded and deposited and properly disbursed.

1.3 Receipts

The municipal division lacks procedures to ensure all monies received are receipted, recorded, and deposited properly.

Recording and transmitting

For all types of receipts, adequate documentation was not maintained when individuals made payments on behalf of a defendant and deposit tickets did not adequately detail the receipts included. In addition, many receipts are handled by employees of both the municipal division and the city before deposit, and there is often no documentation to support the transmittal of monies from one employee to another.

Fines and court costs

The City Clerk does not issue receipt slips for all monies received through the violation bureau. Generic receipt slips are issued only for cash receipts or upon request by the payor, and receipt slips are not issued in numerical sequence. The former Court Administrator did not record some violation bureau receipts in the municipal division's computer system and some court receipts were not recorded timely. The former Court Administrator indicated she lacked sufficient time to record the violation bureau receipts

on a timely basis and she could not explain why certain receipts were not recorded.

Our review of city receipt and deposit records, and municipal division receipt records for the periods April 12 to May 9, 2012, and November 15 to December 12, 2012, noted the following:

- A receipt for $274.50 received by the city on May 7, 2012, was not recorded in the municipal division's computer system by the former Court Administrator or deposited by the City Clerk until August 2012. The City Clerk and the former Court Administrator could not explain why this receipt was not recorded and deposited timely.

- A check for $55 deposited on December 3, 2012, was not recorded in the municipal division's computer system.

- Six checks and money orders totaling $337 deposited from November 30 to December 13, 2012, were not recorded in the municipal division's computer system until January, February, and March 2013.

Bonds

The Police Department and the former Court Administrator did not issue receipt slips for some bond monies received. Generic receipt slips were utilized by both the Police Department and the municipal division, and the method of payment (cash, check, or money order) was not always accurately indicated on receipt slips. The former Court Administrator did not always issue receipt slips immediately when monies were received and in sequential order, and some receipt slips were issued after the monies had been deposited. Also, the former Court Administrator did not record several bonds received from other entities in the computer system immediately when received. Finally, some receipts were not deposited intact or timely, and as noted in section 1.1, some receipts were not deposited.

Our review of bond records for the year ended December 31, 2012, identified a $300 money order received for a bond by the Police Department in November 2012 was not receipted by the Police Department or the municipal division. These monies were not deposited or recorded in the system until March 2013. In addition, we noted four receipt slips for bonds received by the former Court Administrator from other entities were issued in September 2012 for monies deposited in June and July 2012. Also, a receipt slip was issued in March 2013 for monies deposited in October 2012. In addition, many bond fees received could not be traced to a deposit.

Failure to implement adequate receipting, depositing, recording, and transmitting procedures increases the risk that loss, theft, or misuse of monies will go undetected.

1.4 Bond forms

Police Department personnel do not issue bond forms in sequential order or account for the numerical sequence of bond forms issued. The Police Department does not maintain a complete log of bond forms issued. For example, neither of the two undeposited bonds discussed in section 1.1, was recorded on the bond log. Below is a listing of the bond forms recorded on the bond log during the year ended December 31, 2012:

Bond Form Numbers	Date Issued	Bond Form Numbers	Date Issued
995	January 6	12-151	March 27
998	February 26	12-152	April 19
999	March 16	12-225	May 5
1000	January 11	12-226	May 6
1001	January 30	12-240	May 12
1010	May 30		
1022	October 24		
1023	November 27		

Police Department personnel could not provide an explanation for the missing and/or skipped bond form numbers, or for bond forms issued out of numerical sequence.

To reduce the risk of loss, theft, or misuse of bond monies received, and to provide assurance all bond monies are accounted for properly, procedures to account for all bond forms should be established.

1.5 Bond disbursements

The former Court Administrator did not disburse several bonds to the city or issue refunds timely, and some bonds associated with closed cases had not been disbursed at the time of our audit. Our audit identified three bonds for $200, $300, and $300 that should have been disbursed to the city or refunded in September 2012, April 2013, and May 2013, respectively; but were not disbursed or refunded until July 10, 2013. Another $200 bond refunded in March 2013 should have been refunded in December 2012. In addition, three bonds for $263, $149, and $364, received by the former Court Administrator from other entities and deposited in July and November 2012, were disbursed to the city in March 2013. The municipal division could not locate the case files or tickets supporting these three bonds (see MAR finding number 2); therefore, we were unable to ensure these bonds were handled properly and applied or forfeited in a timely manner.

To ensure proper accounting for bond monies and to reduce the risk of loss, theft, or misuse of bond monies, bonds should be disbursed in a timely manner.

1.6 Bond records and reconciliations

The municipal division does not maintain a complete record of bond activities. Accurate book balances are not maintained and bank

reconciliations are inadequate. Monthly lists of liabilities (open bonds) are not prepared, and unidentified amounts have accumulated in the bond bank account.

A bond ledger indicating the date and amount received, related case, and date of disbursement, is not maintained. Such a record is necessary to account for all bonds received, track activities of each bond, and identify open bonds and bonds that need to be disbursed.

The city does not maintain an adequate book balance in the accounting system for the bond account, and bank reconciliation procedures do not include a comparison to book balances maintained by the former Court Administrator or an investigation of differences noted. Also, the former Court Administrator did not ensure bond account activities were accurately recorded in the bond account check register, and therefore a complete and accurate book balance was not maintained. For example, we identified three deposits totaling $833 in April and November 2012 that were not recorded in the check register. As of February 28, 2013, the city's book balance of $8,572 was $112 more than the reconciled bank balance of $8,460, and the municipal division's book balance of $6,328 was $2,132 less than the reconciled bank balance.

In addition, the municipal division does not prepare a list of open bonds or reconcile open bonds to the reconciled bond account balance. At our request, the former Court Administrator prepared a list of open bonds at February 28, 2013. Open bonds identified totaled only $4,905, or $3,555 less than the reconciled bank balance. Of the $4,905 in identified open bonds, $2,567 pertains to bonds more than a year old as of February 28, 2013.

A bond ledger is necessary to ensure proper accountability over bonds. Maintaining accurate book balances, preparing and reviewing monthly bank reconciliations, comparing city accounting records to municipal division records, and preparing and reconciling monthly lists of open bonds to cash balances are necessary to ensure the bank account is in agreement with the accounting records, to detect and correct errors, and ensure sufficient cash is available for payment of all amounts due. To properly monitor open bonds and ensure monies are appropriately disbursed, procedures should be established to routinely investigate bonds remaining on the open bonds list over a specified period of time.

1.7 Bond fees

The Police Department collects a $15 bond processing fee; however, state law does not include provisions to collect such a fee. Because adequate records were not maintained regarding these fees, total fees collected could not be determined. The Police Department should refrain from collecting bond processing fees since the department does not have statutory authority to collect this fee.

Recommendations

The City of New Melle Municipal Division:

1.1 Investigate all shortages and undeposited receipts, and review current records to determine whether there are additional unaccounted for monies.

1.2 Ensure documented periodic independent or supervisory reviews of municipal division records are performed. The municipal division should reconcile receipt records to deposits, including reconciling the composition of receipt slips to the composition of deposits.

1.3 Work with the City of New Melle and the Police Department to ensure official prenumbered receipt slips are issued immediately and in numerical sequence for all receipts. In addition, the method of payment and instances when an individual makes a payment on behalf of a defendant should be properly indicated on receipt slips. The municipal division should work with the city to document transmittals of monies between employees, ensure receipts are deposited intact and timely, and ensure itemized listings of deposits are prepared. The municipal division should also ensure all receipts are recorded in the municipal division's computer system timely.

1.4 Work with the Police Department to issue bond forms in sequential order, account for the numerical sequence of all bond forms, and maintain a complete log of bond forms issued.

1.5 Ensure bonds are disbursed to the city or refunded in a timely manner.

1.6 Maintain a complete bond ledger to account for all bond activities, and work with the City of New Melle to ensure all bonds are accounted for properly.

1.7 Work with the Police Department and discontinue collecting the bond processing fee.

Auditee's Response

The Municipal Judge, Court Administrator, City Clerk, and Chief of Police provided the following responses:

1.1 Efforts to resolve undeposited receipts noted in the audit report have been unsuccessful. The municipal division and Police Department are in the process of investigating and reviewing current records to account for all bond transactions, to be completed by April 2015. New bond procedures have been implemented.

1.2 The municipal division and Police Department are currently in the process of implementing a procedure to have the City Finance Director review the municipal division and Police Department records and reconcile receipts and deposits monthly.

1.3 The recommendation has been implemented.

1.4 The recommendation has been implemented.

1.5 The recommendation has been implemented.

1.6 The municipal division is currently in the process of implementing a bond ledger and accounting for bond activities. The new process will be implemented by May 2014. The municipal division will continue to work to account for prior bond monies in the bank account.

1.7 The bond processing fee has been discontinued.

2. Municipal Division Procedures

Procedures related to monitoring excess revenues, ticket accountability, Prosecuting Attorney approval, ticket dispositions, and organization of records need improvement. Audit work did not identify noncompliance with Section 302.341.2, RSMo, but determined the need for better records and monitoring procedures by the municipal division and city to ensure compliance with state law.

2.1 Monitoring of excess revenues

The municipal division and the city do not have procedures to track traffic tickets issued, and the related fines and court costs collected, to determine whether excess revenues should be distributed to the state Department of Revenue (DOR). Prior to August 28, 2013, Section 302.341.2, RSMo, required municipalities deriving more than 35 percent of their annual general operating revenue from fines and court costs for traffic violations occurring on a state or federal highway to remit the excess to the DOR, to be distributed to schools of the county. Effective August 28, 2013, this law was revised, reducing the 35 percent requirement to 30 percent, expanding the type of traffic violations that must be considered, and requiring cities provide an accounting for the percent of annual general operating revenue from fines and court costs in their annual financial report submitted to the State Auditor's office as required by Section 105.145, RSMo.

According to city records, fines and court costs from all sources totaled $104,564 during the year ended December 31, 2012, representing approximately 42 percent of the city's general operating revenues of

$246,338.[1] However, based on our review of 58 of 349 (17 percent) tickets issued by the Police Department between May 2012 and March 2013, and other audit procedures, it is unlikely the fines and court costs applicable to the excess revenue state law exceeded 35 percent of general operating revenue for the year ended December 31, 2012. Our review of ticket location, violation, and fines and court costs for the 58 tickets determined only approximately 65 percent of the fines and court costs were related to traffic violations on state or federal highways. Applying this percentage to total fines and court costs for 2012 reduces the 42 percent excess revenue calculation to 28 percent. Because this estimated percentage is near the statutory maximum percentage allowed and the revised state law requires an accounting for the percentage, it is important the city and the municipal division work together to track traffic tickets issued along with associated fines and court costs, and monitor for excess revenues.

Procedures to track and monitor each traffic violation and the related fines and court costs are necessary to ensure compliance with Section 302.341.2, RSMo.

2.2 Ticket accountability

Neither the Police Department nor the municipal division adequately accounts for the numerical sequence and ultimate disposition of traffic tickets issued.

Some ticket books assigned to police officers were not posted to the log of ticket books maintained by the Police Department, and the log prior to May 2012 could not be located. In addition, there are no procedures to ensure each ticket is entered into the Police Department's case management system by police officers and accounted for properly. Our review of the log and case management system noted some ticket books were not assigned to officers in numerical sequence and all tickets were not properly recorded in the case management system.

The former Court Administrator did not track tickets that required no court action, such as voided tickets and warnings. Additionally, the former Court Administrator did not use the municipal division's computer system to account for the numerical sequence of tickets received from the Police Department and entered into the municipal division's computer system.

Without a proper accounting for the numerical sequence and ultimate disposition of tickets issued, the municipal division and the Police Department cannot be assured all tickets issued are properly submitted for processing.

[1] General Revenue Fund revenues totaling $262,670 less restricted revenues totaling $16,332.

2.3 Prosecuting Attorney approval

The Prosecuting Attorney does not sign all tickets processed by the municipal division. The Prosecuting Attorney does not review and approve tickets paid through the violation bureau prior to court. In addition, the Prosecuting Attorney allowed the former Court Administrator to maintain the Prosecuting Attorney's signature stamp and stamp her signature on those tickets submitted to the DOR for suspension of driving privileges for failure to appear in court.

Missouri Supreme Court Rule 37.35 states citations shall be in writing and signed by the prosecutor and filed with the municipal division. The Prosecuting Attorney's review, documented with his or her signature, is needed to provide assurance proper cases and charges are filed with the municipal division.

2.4 Ticket dispositions

The Municipal Judge does not approve all ticket dispositions. The Municipal Judge does not review and approve traffic tickets paid through the violation bureau, or the final docket report showing ticket dispositions recorded in the system.

Without better oversight of all tickets processed, the risk of improper handling of tickets and related monies increases. To ensure the proper disposition of all cases has been entered in the municipal division records, the Municipal Judge should sign the docket to indicate approval of the recorded disposition.

2.5 Organization of records

Some municipal division records requested during the audit, including six case files and several bond bank account statements, could not be located. Since some case files could not be reviewed, we could not determine if the disposition of those tickets were properly reflected in the municipal division records. In addition, some records requested could not be readily located. It took the former Court Administrator and City Clerk several weeks to locate some records requested.

Retention of applicable records is necessary to properly account for all municipal division case financial activity. Additionally, Supreme Court Operating Rule No. 8 requires all financial records be maintained for 5 years or until completion of an audit.

Recommendations

The City of New Melle Municipal Division:

2.1 Work with the City of New Melle to track collection of fines and court costs for traffic violations to ensure compliance with the excess revenue state law.

2.2 Work with the Police Department to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

2.3 Ensure the Prosecuting Attorney signs all traffic tickets, and discontinue the practice of using the Prosecuting Attorney's signature stamp.

2.4 Ensure the Municipal Judge signs all court dockets.

2.5 Ensure records are appropriately retained, and organized efficiently so records can be readily located.

Auditee's Response

The Municipal Judge, Court Administrator, City Clerk, and Chief of Police provided the following responses:

2.1 The recommendation has been implemented.

2.2 The recommendation has been implemented.

2.3 The recommendation will be implemented by May 2014.

2.4 The recommendation will be implemented by May 2014.

2.5 *The municipal division and city are in the process of implementing the recommendation with completion expected by April 2015.*

Eleventh Judicial Circuit
City of New Melle Municipal Division
Organization and Statistical Information

The City of New Melle Municipal Division is in the Eleventh Judicial Circuit, which consists of St. Charles County. The Honorable Richard (Rick) Zerr serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury.

Personnel

At December 31, 2012, the municipal division employees were as follows:

Title	Name
Municipal Judge	Bradley Cundiff[1]
Court Administrator	Sharon Orlando[2]

[1] Judge Bradley Cundiff resigned and was replaced by Judge Jayson B. Lenox in September 2013.
[2] Sharon Orlando resigned and was replaced by Sarah Isgrigg in July 2013.

Financial and Caseload Information

	Year Ended December 31, 2012
Receipts	$104,564
Number of cases filed	840

Report No. 2014-033

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Forty-Second Judicial Circuit, City of Bourbon Municipal Division

Accounting Controls and Procedures	The Court Clerk is primarily responsible for all duties related to collecting and disbursing monies, and the Municipal Judge does not document his review. At least $337 was received but not recorded in the Justice Information System (JIS) and therefore could not be traced to deposits in the municipal court bank account. The Court Clerk does not record manual receipt slips in the JIS in a timely manner in the order received, reconcile the composition of receipts (cash, check, or money order) to the composition of deposits, or restrictively endorse checks and money orders immediately upon receipt.
Bank Reconciliations and Liabilities	The Court Clerk does not reconcile the bank account timely or follow up on reconciling items and outstanding checks. The Court Clerk does not prepare a list of liabilities for comparison to the reconciled bank account balance and is unable to agree liabilities to the account balance. At our request, the Court Clerk prepared a list of liabilities but was unable to determine why the list of liabilities was $1,012 less than the reconciled bank balance.
Monitoring of Excess Revenues	The city does not accurately assess whether it owes excess revenues from traffic tickets to the state. Our review determined the city likely owes between $34,718 and $59,155 to the Department of Revenue for the 2 years ended June 30, 2013.
Ticket Controls and Procedures	Neither the Police Department nor the municipal division adequately accounts for the numerical sequence and ultimate disposition of traffic tickets issued. Our review of tickets issued during the year ended June 30, 2013, identified three unaccounted for tickets. Police Department personnel indicated these tickets had been lost, but had no record of these tickets. The City Prosecuting Attorney does not sign tickets submitted to the municipal division, which increases the risk of improper handling of tickets and related monies.
Bad Checks	The municipal division lacks adequate procedures to account for and monitor the disposition of all bad checks submitted to the municipal division for collection, so there is no assurance all bad check complaint are processed timely. We reviewed five bad check complaints and identified an average lag of 331 days between the date of the complaint and the initial court date.

Accrued Costs	The Court Clerk does not consistently follow up on fines, court costs and restitution owed to the municipal division. For the 10 open cases we reviewed: warrants had been issued on 2 cases but were not active; 2 cases remained on the accrued costs report although the defendant was deceased; 2 defendants were behind on payments but there was no indication the Court Clerk had followed up on the cases for non-payment; and 1 case remained on the accrued costs reports although the defendant had stopped making payments to a business and the business had closed.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 15

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge
Forty-Second Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Bourbon, Missouri

We have audited certain operations of the City of Bourbon Municipal Division of the Forty-Second Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2013. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's compliance with certain legal provisions.

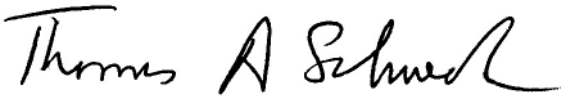
3. Evaluate the city's compliance with Section 302.341.2, RSMo, which restricts the amount of fines and court costs that may be retained from traffic violations.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) noncompliance with Section 302.341.2, RSMo. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Bourbon Municipal Division of the Forty-Second Judicial Circuit.



Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Jeannette Eaves, CPA
In-Charge Auditor:	Julie M. Moore, MBA
Audit Staff:	Terese Summers, MSAS, CPA

1. Accounting Controls and Procedures

We identified significant weaknesses in the accounting controls and procedures of the municipal division. Due to these weaknesses, there is no assurance all monies received were appropriately recorded, deposited, and distributed. According to the Justice Information System (JIS), the Missouri Courts automated case management system, fines, court costs, and bad check restitution collected during the year ended June 30, 2013, totaled approximately $271,600.

1.1 Segregation of duties

The municipal division does not adequately segregate the duties of receiving and depositing monies from recording transactions. The Court Clerk is primarily responsible for all duties related to collecting monies; posting fines, court costs, and bad check restitution received into the JIS; preparing deposits; and disbursing fines and court costs. The Municipal Judge does not document his review; however, he stated he reviews at least one deposit during each month. Also, city officials independent of the cash custody and record-keeping functions do not provide any supervision or review of the work performed by the Court Clerk.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible. If proper segregation of duties is not possible, the Municipal Judge should establish procedures to ensure a documented independent review of accounting records is performed.

1.2 Manual receipt slips and unaccounted for monies

Municipal division receipts totaling at least $337 were received, but not recorded in the JIS; and therefore, could not be traced to a deposit in the municipal court bank account. In addition, manual receipt slips issued by the Court Clerk were not recorded in the JIS in a timely manner and in the order received, and therefore, were not deposited timely and intact. Furthermore, the Court Clerk did not perform reconciliations of manual receipt slips issued to manual receipt slips recorded in the JIS. Manual receipt slips are issued during court and when the JIS is not available, and entered into the JIS prior to the deposit of the corresponding monies.

We reviewed all manual receipt slips issued during July and November 2012 and March 2013. Various discrepancies and processing delays were determined and are discussed below, making efforts to trace manual receipts to the JIS and subsequent deposit difficult and, in many instances requiring a review of records for several months after initial receipt of monies to determine their disposition. We expanded our work to include all manual receipt slips issued between July 1, 2013, and September 12, 2013, and encountered similar problems.

- One manual receipt slip issued on November 29, 2012, for $279.50 (check) for a traffic ticket payment and another manual receipt slip

issued on July 24, 2012, for $57.45 (cash) for bad check restitution had not been recorded in the JIS as of July 2013 and therefore, could not be traced to a deposit in the municipal court bank account.

- The Court Clerk does not record manual receipt slips in the JIS on a timely basis, and as a result, the corresponding monies are not deposited timely. Receipts are only included in daily deposits if they are recorded in the JIS. For example, two manual receipt slips issued for cash on March 22, 2012, were not recorded in the JIS until February 1, 2013, 317 days later, and apparently the corresponding monies were not deposited until February 4, 2013.

  In another example, a manual receipt slip issued on March 28, 2013, for $25 cash was not on hand during our cash count on May 8, 2013, even though the manual receipt slip had not been recorded in the JIS nor the cash deposited as of that date. After we requested the related case file, this receipt was recorded in the JIS on June 3, 2013.

  We performed three cash counts during audit fieldwork. Monies on hand should agree to receipt records plus change fund monies on hand. However, our cash counts did not agree to receipt records and showed monies on hand not yet receipted or recorded in the JIS. The amount of cash on hand at the time of our September 18, 2013, cash count totaled $1,497, and was $170 less than the amount of cash we estimated should be on hand by totaling the amount of manual receipt slips issued since July 1, 2013, for receipts not yet deposited, plus monies on hand and not recorded and the estimated change fund balance. The estimate of cash that should have been on hand may have been more had we reviewed additional manual receipt slips preceding July 1, 2013.

- The Court Clerk does not record manual receipt slips in the JIS in the order received and as a result, the monies recorded on these receipt slips are not deposited intact. We reviewed 30 manual receipt slips issued between July 1, 2013, and September 12, 2013, and noted 22 of the receipt slips (73 percent) were not entered into the JIS in the order received. For example, 9 manual receipt slips totaling $483 issued between August 2, 2013, and August 22, 2013, had not been entered into the JIS at the time of our review on September 18, 2013; however, 6 manual receipts issued between August 29, 2013, and September 12, 2013, had been entered into the JIS at the time of our review. The Court Clerk does not document the JIS receipt numbers on the manual receipt slips, making it difficult to determine which manual receipt slips have been recorded into the JIS.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, procedures should be established to account for manual receipt

slips and verify receipts have been recorded in the JIS timely and intact and deposited timely.

1.3 Receipting and Depositing

The Court Clerk does not reconcile the composition (cash, check, and money order) of receipts recorded in the JIS to the composition of deposits. When receipts are recorded in the JIS, the composition is indicated; however, the composition is not reconciled to the deposits prepared. Our review of 31 deposits identified 13 deposits (42 percent) with discrepancies between the amounts of cash, checks, and money orders recorded in the JIS and the amounts recorded on the deposit slips. Some of the differences appeared to relate to checks and money orders written to the court for incorrect amounts, which resulted in the incorrect amount of cash being deposited to get the total of the deposit to agree to the total of the daily report generated from the JIS. However, in one case, a $160 check was recorded in the JIS, but not included in the deposit and approximately $160 in cash was deposited. In another example, a $268 money order dated August 3, 2012, was recorded on two different receipt slips. A receipt slip was issued for $29.50 on November 19, 2012, and another receipt slip was issued for $238.50 on January 28, 2013. Because the money order was recorded on two different dates, the amount of money orders and cash recorded in the JIS and included in the deposits differed for both deposits.

Additionally, checks and money orders received by the municipal division are not restrictively endorsed until the deposit is prepared.

To ensure all monies received are accounted for properly, recorded, and deposited, the composition of receipts should be reconciled to the composition of deposits. Any discrepancies in composition or other details should be investigated and resolved. In addition, to adequately safeguard receipts, monies received should be restrictively endorsed immediately upon receipt.

Recommendations

The City of Bourbon Municipal Division:

1.1 Segregate accounting duties to the extent possible. If it is not possible to segregate duties, documented periodic reviews of municipal division records should be performed by a person independent of accounting functions.

1.2 Ensure manual receipt slips are recorded in the JIS timely and intact and the corresponding monies received are deposited timely. Additionally, the municipal division should follow up on the unaccounted for monies and attempt to recover these funds.

1.3 Reconcile the composition of recorded receipts to the composition of deposits and endorse checks immediately upon receipt.

Auditee's Response

The Municipal Judge and Court Clerk provided the following responses:

1.1 Currently, we do not have enough staff to segregate duties or ensure periodic independent reviews of records are performed.

1.2 Manual receipt slips are entered in the JIS and deposits are made as timely as the workload allows. We found where this $57.45 bad check receipt was deposited and disbursed from the restitution account. It was not recorded in JIS, because criminal charges were never filed. We believe the $279.50 check was lost.

1.3 We will begin to reconcile the composition of receipts to the composition of deposits. We will also start endorsing checks upon receipt.

Auditor's Comment

1.1 The Municipal Division should reconsider segregating accounting duties to the extent possible or ensure periodic reviews of municipal division records are performed by an independent person and documented.

2. Bank Reconciliations and Liabilities

The municipal division's procedures regarding monthly bank reconciliations and liabilities are in need of improvement.

2.1 Bank reconciliations

We noted the following concerns during our review of the municipal division's bank reconciliations:

- The Court Clerk does not reconcile the bank account in a timely manner. When we started the audit in May 2013, the Court Clerk had not performed monthly bank reconciliations since October 2012. As of September 2013, the Court Clerk had performed bank reconciliations through April 2013.

- Reconciling items identified on the bank reconciliations are not followed up on timely and are carried forward from month to month. Therefore, appropriate adjustments are not made to the financial records timely. For example, an insufficient funds check written to the court and identified as a reconciling item on the October 2012 bank reconciliation was still identified as a reconciling item on the April 2013 bank reconciliation.

- The Court Clerk does not print a listing of outstanding checks when preparing the monthly bank reconciliations. In addition, she has not

followed up on outstanding checks since she became Court Clerk in September 2011.

Monthly bank reconciliations are necessary to ensure all accounting records balance, transactions have been properly recorded, and errors or discrepancies are detected and corrected on a timely basis. Complete documentation of the reconciliations, reconciling items, and outstanding checks, should be maintained to support conclusions and corrections, and to facilitate independent reviews.

2.2 Liabilities

The Court Clerk does not prepare a list of liabilities for comparison to the reconciled bank account balance, and is unable to agree liabilities to the account balance. At our request, the Court Clerk prepared a list of liabilities at April 30, 2013, and the list totaling $11,516 was less than the reconciled bank balance of $12,528 by $1,012. The Court Clerk was unable to determine the reason for this discrepancy.

Because monthly lists of liabilities are not prepared, liabilities are not adequately reviewed to ensure bonds or other monies are disbursed in a timely manner. The Court Clerk was not aware the JIS could print a list of liabilities until we discussed this issue with her. The JIS liabilities report generated on May 15, 2013, included 12 bonds totaling $2,850 dated in 2011 and 14 bonds totaling $4,160 dated in 2012.

Monthly reconciliations between liabilities and the reconciled bank account balance are necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities. In addition, monthly lists of liabilities are necessary to ensure all bond dispositions have been properly recorded. To properly monitor bonds and ensure monies are disbursed as appropriate, procedures should be followed to routinely investigate bonds remaining on the liabilities list over a specified period of time.

Recommendations

The City of Bourbon Municipal Division:

2.1 Perform timely monthly bank reconciliations, resolve reconciling items timely and make appropriate adjustments to the accounting records, and establish procedures to identify and routinely follow up on outstanding checks.

2.2 Prepare monthly lists of liabilities and reconcile to the bank balance, promptly investigate and resolve differences, and establish procedures to review the status of liabilities to determine the appropriate disposition of funds held.

Auditee's Response

The Municipal Judge and Court Clerk provided the following responses:

2.1 Bank reconciliations have now been performed through February 28, 2014, and reconciling items have been followed up on. The Court Clerk is in the process of following up on outstanding checks.

2.2 We will print and review open items listings, reconcile to the bank reconciliations, and take appropriate action regarding old bonds.

3. Monitoring of Excess Revenues

The city's excess traffic violation revenue calculations incorrectly include restricted revenues and do not give consideration to specific traffic ticket violations or location of the violation to identify what tickets and related revenue should be included in the calculations. As a result, the city's calculations do not accurately assess whether excess revenues are due to the state.

The city performed excess revenues calculations for the 2 years ended June 30, 2013, and determined the percentage of fines and court costs for traffic violations as compared to annual general operating revenues to be less than the statutory threshold requiring payment to the Missouri Department of Revenue (DOR). However, our review of those calculations determined the city likely owes between $34,718 and $59,155 to the DOR for the 2 years ended June 30, 2013.

Prior to August 28, 2013, Section 302.341.2, RSMo, required municipalities deriving more than 35 percent of their annual general operating revenue from fines and court costs for traffic violations occurring on a state or federal highway to turn the excess over to the DOR, to be distributed to schools of the county. Effective August 28, 2013, this law was revised, reducing the 35 percent requirement to 30 percent, expanding the type of traffic violations that must be considered, and requiring the city provide an accounting for the percent of annual general operating revenue from fines and court costs in their annual financial report submitted to the State Auditor's office as required by Section 105.145, RSMo. Also, according to DOR rule, 12 CSR 10-44.100, payment of excess revenues should be made by the last day of the second month immediately following the end of the fiscal year.

For the year ended June 30, 2013, the city calculated fines and court costs to be 30 percent of general operating revenues. Based on this calculation, the city determined it did not have excess revenue from fines and court costs for the year ended June 30, 2013. Similar calculations were made for the year ended June 30, 2012, and the city determined it did not have excess revenue for the year ended June 30, 2012.

However, the revenues the city included in the excess revenue calculations included various restricted revenues and waste collection user fees, which are not general operating revenues of the city. The restricted revenue included real estate property taxes restricted for city parks and the police department, state motor vehicle sales and gasoline taxes restricted for street-related purposes, restricted court fees, etc. Since these are not general operating revenues of the city, they should be excluded from the general operating revenues amount used in the calculation of the percent fines and court costs represent as compared to general operating revenues.

The following table, using the city's revenue and expense reports, indicates the calculation of 35 percent of general operating revenues for the years ended June 30, 2013, and 2012, after excluding restricted revenues:

		Year Ended June 30,	
		2013	2012
General Operating Revenues	$	811,630	754,889
Less Restricted Revenues:			
Waste collection user fees		(43,882)	(8,529)
Police department real estate property taxes		(18,046)	(31,299)
Park department real estate property taxes		(11,938)	(9,902)
State motor vehicle sales tax		(86,908)	(81,636)
State motor vehicle gasoline tax		(64,037)	(54,792)
Grants		(27,700)	(9,986)
Crime victim compensation fees		(633)	(700)
Bond forfeitures		0	(850)
General Operating Revenues (Less Restricted Revenues)		558,486	557,195
35 Percent of General Operating Revenues	$	195,470	195,018

The city did not track traffic tickets issued by location. Upon our request, the municipal division prepared a report of traffic tickets issued by location during the year ended June 30, 2013. This report indicated fines and court costs for the year ended June 30, 2013, totaled $244,107 and of this amount, $224,021 (92 percent) related to tickets issued on state and federal highways.

The Missouri Vehicle Stops Annual Report prepared by the Police Department and filed with the Missouri Attorney General's Office for 2012 indicated 87 percent of tickets issued by the city were for violations on a state or federal highway within the city. We also selected a sample of 54 tickets issued by the municipal division for traffic violations during the period from July 2012 through May 2013, and determined that 45 of these tickets (83 percent) were issued on state or federal highways. The fines and court costs collected on those 45 tickets accounted for 92 percent of the total amount collected on the 54 tickets.

Based on the above data, the amount received from fines and court costs for traffic violations on state or federal highways would likely be between $202,033 (87 percent) and $213,644 (92 percent) based on fines and court costs reported on the city's revenue and expense report totaling $232,222 for the year ended June 30, 2013, and between $223,173 (87 percent) and $235,999 (92 percent), based on fines and court costs reported for the year ended June 30, 2012, totaling $256,521. As a result, the excess revenues to be turned over to the DOR would be between $6,563 and $18,174 for the year ended June 30, 2013, and between $28,155 and $40,981 for the year ended June 30, 2012. However, the city and municipal division should review all tickets to determine actual excess revenues.

The municipal division should work with the city to establish procedures for tracking tickets to ensure compliance in the future.

Recommendation

The City of Bourbon Board of Aldermen ensure only general operating revenues are included in the annual excess revenue calculations. In addition, the Board of Aldermen should work with the municipal division to track collections from fines and court costs for traffic violations, recalculate excess revenues for fiscal years 2012 and 2013, and make appropriate payments to the DOR for any additional excess revenues.

Auditee's Response

The Board of Aldermen, Mayor, City Attorney, and City Clerk provided the following response:

The Board of Aldermen will ensure only general operating revenues are included in the annual excess revenue calculations. In addition, the Board of Aldermen will work with the municipal division to track collections from fines and court costs for traffic violations. The Board of Aldermen will also recalculate excess revenues for fiscal years 2012 and 2013 and make appropriate payments to the DOR for additional excess revenues.

4. Ticket Controls and Procedures

Municipal division procedures regarding the accountability and disposition of tickets need improvement.

4.1 Ticket accountability

Neither the Police Department nor the municipal division adequately accounts for the numerical sequence and ultimate disposition of traffic tickets issued. The Police Department tracks the ticket book numbers assigned to each officer by maintaining the unused ticket books in envelopes and having officers sign for books. When tickets are issued, officers turn the tickets over to the Court Clerk to be processed. Neither the Police Department nor the Court Clerk tracks the numerical sequence or monitors the disposition of the individual tickets issued. We reviewed tickets issued during the year ended June 30, 2013, and identified three unaccounted for

tickets. Police Department personnel indicated these tickets had been lost by one officer and the department had no record of these tickets.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the Police Department and the municipal division cannot ensure all tickets issued are properly submitted for processing.

4.2 Ticket disposition

The City Prosecuting Attorney does not sign tickets submitted to the municipal division. Unsigned tickets are processed through the municipal division. Without formal approval by the City Prosecuting Attorney of all tickets processed the risk of improper handling of tickets and related monies increases.

Missouri Supreme Court Rule 37.35 states citations shall be in writing and signed by the prosecutor and filed with the municipal division. The City Prosecuting Attorney's review, documented with his signature, is needed to provide proper assurance cases and charges are filed with the municipal division.

Recommendations

4.1 The City of Bourbon Municipal Division work with the Police Department to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

4.2 The City Prosecuting Attorney sign all tickets.

Auditee's Response

4.1 The Municipal Judge, Court Clerk, and Police Chief provided the following response:

The Police Department is in the process of developing a spreadsheet to account for tickets.

4.2 The City Prosecuting Attorney provided the following response:

We will take steps to ensure all tickets going to the municipal division are reviewed and signed by the Attorney.

5. Bad Checks

The municipal division does not have adequate procedures in place to account for and monitor the disposition of all bad checks submitted to the division for collection. The City of Bourbon passed an ordinance allowing the municipal division to collect bad checks for city merchants.

Bad check complaint forms submitted by merchants when bad checks are turned over to the municipal division for collection are not assigned a sequential tracking number. In addition, bad check complaint forms received by the municipal division are not processed in a timely manner. We

reviewed 5 bad check complaints and identified a lag between the date the complaint was received and the initial court date ranging from 131 to 685 days (average of 331 days). Without a tracking procedure, there is no assurance all bad check complaints are processed timely.

To ensure bad check complaints are handled and accounted for properly and timely, a sequential number should be assigned to each bad check complaint form immediately upon receipt. This number should be used to track the status and disposition of the corresponding bad check.

Recommendation

The City of Bourbon Municipal Division develop procedures and records that provide sufficient information to track the receipt and disposition of all bad check complaints, and ensure all bad check complaints are processed timely.

Auditee's Response

The Municipal Judge and the Court Clerk provided the following response:

As of August 1, 2013, the Bourbon Municipal Court no longer accepts bad checks for prosecution. Merchants are asked to forward all bad checks to the Crawford County Prosecuting Attorney's office.

6. Accrued Costs

The Court Clerk does not consistently follow up on accrued costs (receivables) owed to the municipal division, including fines and court costs, incarceration costs, and court-ordered restitution. Accrued costs recorded on the JIS totaled approximately $27,000 as of July 2013.

The Court Clerk maintains manual records of all cases on a payment plan, but does not maintain an accrued costs listing of all monies owed to the municipal division. An accrued costs list is maintained on the JIS; however the Court Clerk was not aware this report could be generated until we discussed this issue with her.

We reviewed 10 open cases from the JIS accrued costs report and determined the following:

- For two cases, the case files indicated the municipal division issued warrants for non-payment; however, the warrants were not active in the law enforcement system.
- Two cases related to one defendant remained on the accrued costs report although the defendant was deceased.
- For two cases, the defendants were behind in making the required payments; however, there was no documentation in the case files to indicate the Court Clerk had followed up on the cases for non-payment.

- Another case dating back to 2001 remained on the accrued costs report although the defendant had stopped making payments on restitution to a business and the business had closed.

Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and determine appropriate handling when amounts are deemed uncollectible.

Recommendation

The City of Bourbon Municipal Division establish procedures to routinely review the accrued costs list and ensure proper follow up on amounts due, and provide information to and work with the Municipal Judge regarding amounts deemed uncollectible.

Auditee's Response

The Municipal Judge and the Court Clerk provided the following response:

We are in the process of implementing this recommendation.

Forty-Second Judicial Circuit
City of Bourbon Municipal Division
Organization and Statistical Information

The City of Bourbon Municipal Division is in the Forty-Second Judicial Circuit, which consists of Crawford, Dent, Iron, Reynolds and Wayne Counties. The Honorable Kelly Parker serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury.

Personnel

At June 30, 2013, the municipal division employees were as follows:

Title	Name
Municipal Judge	Donald A. Peterson
Court Clerk	Andrea Holland

Financial and Caseload Information

	Year Ended June 30, 2013
Receipts	$271,639
Number of cases filed	1,731

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of State Treasurer

Background

On January 14, 2013, Clint Zweifel was inaugurated for his second term as the forty-fifth Missouri State Treasurer.

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer are to be the custodian of all state funds, and determine the amount of state monies not needed for current operating expenses and invest such monies as allowed by state law. The Office of State Treasurer operates in four major functional areas: 1) accounting and banking services, 2) disbursements and records, 3) investments and deposit programs, and 4) unclaimed property.

Salary Increases

The State Treasurer's Office (STO) provided salary increases to some employees that were not provided to other state employees. In addition to a 2 percent cost of living adjustment in July 2012 (an increase provided to state employees paid less than $70,000 per year), the STO gave four employees salary increases of between 12 and 23 percent (a total annual increase of approximately $38,000). The Deputy State Treasurer said these salary increases were based on job performance, change in job responsibilities, and a desire to bring the salary of certain STO staff to a level equal to other state employees in similar positions. However, the STO did not prepare and maintain documentation justifying the pay increases and did not document how the amounts of the increases were determined.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

INDEPENDENT AUDITOR'S REPORT

Honorable Clint Zweifel, State Treasurer
Jefferson City, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the Treasurer's General Operations Fund, Treasurer's Information Fund, Central Check Mailing Service Revolving Fund, and Abandoned Fund Account Fund of the Office of State Treasurer as of and for the year ended June 30, 2013, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Treasurer's General Operations Fund, Treasurer's Information Fund, Central Check Mailing Service Revolving Fund, and Abandoned Fund Account Fund of the Office of State Treasurer, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1.A., the financial statements of the Office of State Treasurer are intended to present the financial position, and the changes in financial position, and, where applicable, cash flows of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the State of Missouri that is attributable to the transactions of the Office of State Treasurer. They do not purport to, and do not, present fairly the financial position of the State of Missouri as of June 30, 2013, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter. In addition, the State of Missouri issued its Comprehensive Annual Financial Report for the year ended June 30, 2013, and that report was prepared in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements, collectively, that are referred to in the first paragraph. The supplementary information, as listed in the table of contents, and the organization and statistical information, are presented for purposes of additional analysis and are not a required part of the financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the audit procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The organization and statistical information has not been subjected to the audit procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2014, on our consideration of the office's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Office of State Treasurer's internal control over financial reporting and compliance.

THOMAS A. SCHWEICH
Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Clint Zweifel, State Treasurer
Jefferson City, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Office of State Treasurer, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Office of State Treasurer's financial statements, and have issued our report thereon dated January 31, 2014.

Internal Control Over Financial Reporting

In planning and performing of our audit of the financial statements, we considered the Office of State Treasurer's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Office of State Treasurer's internal control. Accordingly, we do not express an opinion on the effectiveness of the Office of State Treasurer's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the office's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Office of State Treasurer's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.* However, we noted a certain matter which is described in the accompanying Management Advisory Report.

Office of State Treasurer's Response to Finding

The Office of State Treasurer's response to the finding identified in our audit is described in the accompanying Management Advisory Report. The Office of State Treasurer's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the office's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the office's internal control and compliance. Accordingly, this communication is not suitable for any other purposes. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

Management's Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of the Office of the Missouri State Treasurer's (the Treasurer's Office) financial activities for the fiscal year ended June 30, 2013.

HIGHLIGHTS

- The assets of the Treasurer's Office exceeded its liabilities by $1,374,463. The entire amount may be used to meet the office's ongoing obligations.
- The office's total net assets increased by $6,939. The increase in net assets was caused primarily by receipts exceeding disbursements in fiscal 2013.
- As of the close of the current fiscal year, the Treasurer's Office governmental funds reported combined ending fund balances of $1,350,002, an increase of $10,299 in comparison with the prior year. The total amount is available for spending as of July 1, 2013, at the discretion of the Treasurer's Office within the purposes and limits of the office's appropriation authority.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Treasurer's Office basic financial statements comprise two components: 1) fund financial statements, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Fund Financial Statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Treasurer's Office, like the State of Missouri, uses fund accounting to ensure and demonstrate compliance with statutory requirements. All of the funds of the Treasurer's Office can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the Treasurer's Office. Unlike the government-wide financial statements prepared by the State of Missouri, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

The Treasurer's Office maintains two individual governmental funds, a general fund and a special revenue fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the State Treasurer's General Operations Fund and the State Treasurer's Information Fund.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees and utilize the full accrual

basis of accounting. The Treasurer's Office maintains one proprietary fund, the Central Check Mailing Service Revolving Fund. This fund is an internal service fund, used as an accounting device to accumulate and allocate costs for centralized check mailing services provided by the Treasurer's Office to other state agencies. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the notes to the financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the state government and also utilize the full accrual basis of accounting. The Treasurer's Office maintains one fiduciary fund, the Abandoned Fund Account Fund, to account for unclaimed property turned over to the state in accordance with state statute.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the Treasurer's General Operations Fund and the Treasurer's Information Fund.

FUND STATEMENT ANALYSIS

Governmental Funds:

At the end of fiscal year 2013, the Treasurer's Office governmental funds reported combined ending fund balances of $1,350,002, an increase of $10,299 from fiscal year 2012. This entire amount is available for spending at the discretion of the Treasurer's Office within the purposes and limits of the office's appropriation authority.

Fund balances for the governmental funds are as follows:

	Treasurer's General Operations Fund	Treasurer's Information Fund	Total
Fund Balance	$1,347,015	$2,987	$1,350,002

The Treasurer's General Operations Fund was the primary operating fund for the Treasurer's Office in fiscal year 2013. At the end of fiscal year 2013, the Treasurer's General Operations Fund reported a total fund balance of $1,347,015. The net increase in fund balance during fiscal year 2013 was $10,236. Revenues of the Treasurer's General Operations Fund totaled $2,477,570, and expenditures of the Treasurer's General Operations Fund totaled $2,467,334. Contributing factors follow:

- The Treasurer's Office deposits a portion of the state's interest earnings into the Treasurer's General Operations Fund pursuant to Section 30.605, RSMo. The fiscal year 2013 ending fund cash balance saw little change from fiscal year 2012 ending fund cash balance, as the office strives to manage the fund cash balance to more closely match the expenditure authority from the fund.

The Treasurer's Information Fund was a supplemental operating fund for the Treasurer's Office in fiscal year 2013. At the end of fiscal year 2013, the Treasurer's Information Fund reported a total fund balance of $2,987. The net increase in fund balance during fiscal year 2013 was $63. Revenues of the Treasurer's Information Fund totaled $613. Expenditures of the Treasurer's Information Fund totaled $550 in fiscal year 2013. Contributing factors follow:

- In fiscal year 2013 the Treasurer's Information Fund revenues exceeded amounts expended by the fund for the preparation, reproduction, or dissemination of information or publications of the State Treasurer's Office by a minimal amount. The activities of this fund are primarily from 1) public information related cost recoveries; and 2) expenses related to exhibiting the linked deposit program at relevant functions and speaking engagements related to the Unclaimed Property program.

Proprietary Funds:

The Treasurer's Office has one proprietary fund, the Central Check Mailing Service Revolving Fund. This fund is an internal service fund, used as an accounting device to accumulate and allocate costs for centralized check mailing services provided by the Treasurer's Office to other state agencies.

The Central Check Mailing Service Revolving Fund's net position decreased by $3,360. This is primarily due to decrease in the fund cash balances caused by decreased revenues for the fund.

NEXT YEAR'S BUDGET

The Treasurer's Office budget for fiscal year 2014 saw various changes from the appropriation levels in the fiscal year 2013 budget. Several appropriations that had previously been estimated did not retain that status, therefore spending on these items can no longer change as demand increases.

- Abandoned Fund Advertising and Auctions was $225,000 (Estimated) in fiscal year 2013, and is $1,475,000 in fiscal year 2014.
- Abandoned Fund to General Revenue transfer was $30,000,000 (Estimated) in fiscal year 2013, and is $50,000,000 in fiscal year 2014.
- Linked Deposit Refunds was $100 (Estimated) in fiscal year 2013, and is $100 in fiscal year 2014.
- Biennial Transfer was $1 (Estimated) in fiscal year 2013, and is $3,000,000 in fiscal year 2014.

The statewide pay plan for fiscal year 2014 provides an increase of $500 per employee beginning January 1, 2014.

The Treasurer's Office also received a new appropriation of $225,000 in fiscal year 2014 for the purpose of funding two program models that create sustainable communities and help families achieve economic stability in a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants.

On June 29, 2009, Governor Nixon signed the Invest in Missouri legislation that reinvests $1 billion in Missouri communities. Beginning January 1, 2010, the legislation began phasing out the statutory interest rate cap that tied state time deposits to the return of short-term U.S. Treasury securities. January 1, 2014 ends the phase-out period and all financial institutions with time deposits of state funds shall pay the state a market rate of interest on all amounts deposited.

Notes to the Fund Financial Statements

OFFICE OF STATE TREASURER
NOTES TO THE FUND FINANCIAL STATEMENTS

1. Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying fund financial statements of the Office of State Treasurer have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The Office of State Treasurer has elected not to follow the Financial Accounting Standards Board's pronouncements issued after November 30, 1989, for proprietary activities.

The financial statements present the financial position, the changes in financial position and, where applicable, cash flows of only the transactions of the Office of State Treasurer. They do not present the financial position of the State of Missouri as of June 30, 2013, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with GAAP. However, the State of Missouri issued a Comprehensive Annual Financial Report for the State of Missouri for the fiscal year ended June 30, 2013, in conformity with GAAP.

B. Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds.

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Expenditures are recognized when the related fund liability is incurred except for compensated absences (accumulated vacation and compensatory time) and sick pay which are recorded as expenditures when paid.

The proprietary and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type

operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

C. Basis of Presentation

The Office of State Treasurer's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances and changes therein that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds:

1) Governmental Funds include the general funds and the special revenue funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the state. The Treasurer's General Operations Fund and the Treasurer's Information Fund are governmental funds.

2) Proprietary Funds include internal service funds. These funds account for the cost of certain services provided by the state. The Central Check Mailing Service Revolving Fund is a proprietary fund.

3) Fiduciary Funds include private-purpose trust funds. These funds account for assets held by the state in a trustee capacity or as an agent for individuals, other governments, and other funds. The Abandoned Fund Account Fund is a fiduciary fund.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 3 months or less, such as repurchase agreements. Cash balances of the Treasurer's General Operations Fund, Treasurer's Information Fund, Central Check Mailing Service Revolving Fund, and Abandoned Fund Account Fund are pooled with other state funds and invested by the State Treasurer.

E. Investments

These are long-term investments with an original maturity greater than 3 months which are expected to be held to maturity and redeemed at face value. All investments are reported at fair value.

F. Interfund Receivables/Payables

The state makes various transactions between funds to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" on the Balance Sheet and Statement of Net Position. These receivables/payables are due within one year.

G. Capital Assets

Capital assets, which include equipment, software, and software in progress, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement.

The capitalization threshold for equipment is $1,000 and for software is $5,000.

Equipment and software are depreciated/amortized using the straight-line method of depreciation/amortization over a useful life of 3 to 10 years.

H. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements since they are presented on the modified accrual basis of accounting. These long-term liabilities include the following:

Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds but are recorded as expenditures when paid.

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the state.

2. Deposits, Investments and Securities Lending Program

The Office of State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds. These funds do not include accrued interest. Described below is the portfolio that represents the "Cash and Cash Equivalents" and "Investments" as reported at June 30, 2013.

A. Deposits

The state minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the state will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50 percent at the time of deposit and deposits must be collateralized at least 100 percent with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on state law.

B. Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker’s acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2013.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the state will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer minimizes custodial credit risk by requiring that all securities be held in

the state's name at the state's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer approved collateral custodians.

The state's investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 2.5 years, and holding at least 25 percent of the portfolio's total market value in securities with a maturity of 12 months or less.

The State Treasurer minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 10 percent of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 5 percent of the total portfolio per issuer and no more than 15 percent of the total portfolio may be invested in repurchase agreements with a single counterparty. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2013, the state did not have any instances of noncompliance with these requirements and policies.

The State Treasurer requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The State Treasurer does not have any additional policies regarding credit ratings of investments.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk.

C. Securities Lending Program

The Missouri Office of State Treasurer participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.7, RSMo. As of December 2011, Citibank, National Association, began acting as the State Treasurer's custodial bank and securities lending agent.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the Office of State Treasurer. Collateral must be provided in the amount of 102 percent of the then market value of the loaned securities and accrued interest, if any. The maximum duration gap between loans and investments shall be 15 days. The maximum life of term loans shall be 90 days. The Custodian provides for full indemnification to the Office of State Treasurer

for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

3. Capital Assets

Capital asset activity for the year ended June 30, 2013, was as follows:

	Balance July 1, 2012	Increases	Decreases	Balance June 30, 2013
Governmental Activities:				
Capital Assets not being Depreciated/Amortized:				
Software in Progress	$ 18,081	$ 18,140	$ (36,221)	$ 0

Equipment, Proprietary Funds	(6,670)	(2,733)	0	(9,403)
Total Accumulated Depreciation/Amortization	(140,020)	(25,112)	7,275	(157,857)
Total Capital Assets being Depreciated/Amortized, Net	56,078	38,930	0	95,008
Governmental Activities Capital Assets, Net	$ 74,159	$ 57,070	$ (36,221)	$ 95,008

4. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2013:

	Balance July 1, 2012	Increases	Decreases	Balance June 30, 2013	Due Within One Year
Governmental Activities:					
Compensated Absences	$ 110,980	$ 98,525	$ 103,143	$ 106,362	$ 103,143
Total Governmental Activities	$ 110,980	$ 98,525	$ 103,143	$ 106,362	$ 103,143

5. Payables

A summary of accounts payable at June 30, 2013, is shown below:

	Governmental Funds	Proprietary Fund	Balance June 30, 2013
Accounts Payable:			
Vendors	$ 10,817	$ 1,123	$ 11,940
Employees	38,764	0	38,764
Total Accounts Payable	$ 49,581	$ 1,123	$ 50,704

6. Interfund Assets and Liabilities

A summary of interfund assets and liabilities at June 30, 2013, is shown below:

	Due To/From Other Funds		
	Treasurer's General Operations Fund	Central Check Mailing Service Revolving Fund	Totals
Due to Other Funds:			
General Government	$ 44,954	$ 0	$ 44,954
Totals	$ 44,954	$ 0	$ 44,954
Due From Other Funds:			
General Government	$ 0	$ 21,332	$ 21,332
Totals	$ 0	$ 21,332	$ 21,332

Interfund assets do not equal interfund liabilities because only funds related to the Office of State Treasurer are being presented, not all state funds.

7. Restatements

During fiscal year 2013, net position of the Central Check Mailing Service Revolving Fund was restated due to a decrease in amounts due from other funds following an adjustment for uncollectible amounts. A summary of this restatement is shown below:

June 30, 2012, Net Position Previously Reported	$	29,096
Prior Period Adjustment		(1,275)
June 30, 2012, Net Position Restated	$	27,821

OFFICE OF STATE TREASURER
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

The Budgetary Comparison Schedule in Required Supplementary Information (RSI) presents comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for the Treasurer's General Operations Fund and the Treasurer's Information Fund.

The Budgetary Comparison Schedule reports revenues and expenditures on a budgetary basis where "actual" revenues are recognized when cash is received, and "actual" expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with generally accepted accounting principles. A reconciliation of the two for the fiscal year ended June 30, 2013, has been presented at the bottom of the Budgetary Comparison Schedule.

The "original budget" expenditures and transfers represent the amounts originally appropriated for each fund. The "final budget" expenditures and transfers include increases and decreases to appropriations during the fiscal year.

In accordance with state statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund, therefore variances between "budgeted" and "actual" expenditures and transfers on the budgetary schedule will always be positive.

The accompanying Notes to the Supplementary Information are an integral part of this statement.

Notes to the Supplementary Information

OFFICE OF STATE TREASURER
NOTES TO THE SUPPLEMENTARY INFORMATION

1. General Capital Assets

Capital assets, which include equipment and software, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement.

The capitalization threshold for all equipment is $1,000 and software is $5,000.

Equipment and software are depreciated/amortized using the straight-line method of depreciation/amortization over a useful life of 2 to 10 years for equipment and 3 to 5 years for software. Accumulated depreciation/amortization on general capital assets at June 30, 2013, was $354,314.

2. Basis of Presentation

The amounts presented in Schedules 4 and 5 represent all funds in the state treasury and all trust funds in the custody of the State Treasurer.

State treasury funds are subject to appropriation; trust funds are not. The schedules do not include any funds or investments that are not in the custody of the State Treasurer.

3. Cash and Investments

Article IV, Section 15 of the Missouri Constitution establishes the State Treasurer as custodian of all state funds and funds received from the U.S. government. This section further authorizes the State Treasurer to place all such monies on time deposit, bearing interest, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and the State Auditor, or in obligations of the U.S. government or any agency or instrumentality thereof maturing or becoming payable not more than 5 years from the date of purchase. In addition, the State Treasurer may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law. The State Treasurer may also invest in bankers acceptances issued by domestic commercial banks possessing the highest rating issued by at least 2 nationally recognized statistical rating organizations and in commercial paper, issued by domestic corporations, which has received the highest rating issued by at least 2 nationally recognized statistical rating organizations. Investments in bankers acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchase, maintain the highest rating throughout the duration of the investment and meet any other requirements provided by law. The State Treasurer shall prepare, maintain, and adhere to a written investment policy which shall include an asset

allocation plan limiting the total amount of state money which may be invested in each investment category authorized by law.

Deposits

The State Treasurer maintains approximately 216 bank accounts throughout the state. These accounts include collection accounts which are demand deposit accounts for various state agencies, and the state's primary operating accounts which are also demand deposit accounts. Cash balances in the state's operating accounts which are not needed for immediate use are invested.

The State Treasurer's deposits at June 30, 2013, were entirely covered by federal depositary insurance or by collateral securities held by the custodial banks in the State Treasurer's name.

To protect the safety of state deposits, Sections 30.270 and 110.020, RSMo, require depositaries to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

Investments

The State Treasurer's investments at June 30, 2013, are listed by type below to give an indication of the level of risk assumed by the state at year end. All investments are insured or registered, or have collateral held by the State Treasurer or a custodial bank in the state's name.

		Reported Amount	Fair Value
Time deposits	$	559,725,267	559,725,267
U.S. government securities		2,300,958,056	2,276,250,113
Repurchase agreements		847,675,000	847,675,000
Other investments		41,285,489	41,456,072
Total Investments	$	3,749,643,812	3,725,106,452

Investments are recorded at acquisition cost except "other" investments which are recorded at par. Investments in time deposits and repurchase agreements are acquired at face value and earn a stated interest rate. Investments in U.S. government securities are acquired at fair value and mature at face value.

4. Demand Deposit and Collection Accounts

The demand deposits with US Bank on Schedule 4 consist of one central demand account at June 30, 2013 and 2012, two at June 30, 2011 and 2010, and one at June 30, 2009. The demand deposits with Central Bank consist of 31 central demand accounts at June 30, 2013, 30 at June 30, 2012, 26 at June 30, 2011, 28 at June 30, 2010, 27 at June 30, 2009.

The demand deposits with Commerce Bank consist of nine central demand accounts at June 30, 2013 and 2012, and seven at June 30, 2011, 2010, and 2009. The demand deposits with Bank of New York consist of no central demand accounts at June 30, 2013, and two at June 30, 2012, 2011 and 2010, and one at June 30, 2009. The demand deposits with Wells Fargo consist of two central demand accounts at June 30, 2013, and no central demand accounts at June 30, 2012, 2011, 2010, and 2009. The demand deposits with UMB Bank consist of one central demand account at June 30, 2013, four at June 30, 2012, and five at June 30, 2011, 2010, and 2009. Demand deposit bank balances were $21,066, $19,521,037, $19,576,124, $36,059,240, and $25,073,472, at June 30, 2013, 2012, 2011, 2010, and 2009, respectively, for US Bank; and $170,849,347, $116,710,766, $102,649,356, $9,661,807, and $101,388,206, at June 30, 2013, 2012, 2011, 2010, and 2009, respectively, for Central Bank; and $8,812,671, $10,423,780, $15,157,804, $15,083,622, and $9,081,750 at June 30, 2013, 2012, 2011, 2010, and 2009, respectively, for Commerce Bank; and $0, $75,076,252, $50,118,446, $50,224,767, and $0 at June 30, 2013, 2012, 2011, 2010, and 2009, respectively, for Bank of New York; $75,014,605 at June 30, 2013 and $0 at June 30, 2012, 2011, 2010, and 2009, respectively, for Wells Fargo; and $13,939, $249,250, $53,005,800, $55,312,039, and $46,778,874 at June 30, 2013, 2012, 2011, 2010, and 2009, respectively, for UMB Bank.

The collection bank accounts on Schedule 4 consist of three master concentration accounts and their related collection accounts. The General Concentration, Conservation Concentration, and Lottery Concentration Accounts were at Central Bank at June 30, 2013, 2012, 2011, 2010, and 2009 and have been reported above. The related collection account bank balances were $2,243,064, $2,641,064, $2,983,788, $2,533,016, and $3,080,097 at June 30, 2013, 2012, 2011, 2010, and 2009, respectively.

Banking service agreements on the central demand accounts allow the State Treasurer to invest outstanding checks up until the checks clear the bank, thereby investing an amount in excess of book balances. The negative balances at June 30 (Schedule 4) for the appropriated funds demand deposits represent the book balance net of amounts invested.

5. Special Fund Dedicated Investments

The State Treasurer is assigned the authority for recording direct investments of special funds in the accounting system. The amounts presented as special fund dedicated investments in the appropriated funds on Schedule 4 represent specific investments made or held by the State Treasurer on behalf of the Pansy Johnson-Travis Memorial State Gardens Trust Fund and the State Public School Fund. The State Treasurer is responsible for purchasing, custodial, income collection, distribution, and record-keeping duties related to the investments of these funds.

The investments of the Pansy Johnson-Travis Memorial State Gardens Trust Fund are maintained in the instruments which were transferred to the State Treasurer from the previous trustee of the fund. The investment purchases for the State Public School Fund are made in accordance with the instructions of the State Public School Fund investment committee.

MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -
State Auditor's Findings

Salary Increases

The State Treasurer's Office (STO) provided salary increases to some employees that were not provided to other state employees.

In addition to a 2 percent cost of living adjustment in July 2012 (an increase provided to state employees paid less than $70,000 per year), the State Treasurer provided significant additional salary increases to four senior level and capitol staff during fiscal year 2013. These additional salary increases totaled approximately $38,000 annually, and represented annual increases of approximately 12 to 23 percent for these four employees.

According to the Deputy State Treasurer, these salary increases were based on job performance, change in job responsibilities, and a desire to bring the salary of certain STO staff to a level equal to other state employees in a similar position. However, the STO did not prepare and maintain documentation justifying the pay increases and did not document how the amounts of the increases were determined.

Although Section 30.120, RSMo, grants the State Treasurer the authority to establish employee compensation, given the recent state budget constraints and that other state employees have generally not received such pay increases, the State Treasurer should re-evaluate the reasonableness and necessity of further additional salary increases.

WE RECOMMEND the State Treasurer discontinue providing pay increases significantly over and above those provided to other state employees in the future. In addition, for any such pay increases provided in the future, the STO should prepare and maintain documentation justifying the increases and explaining how the amounts were determined.

AUDITEE'S RESPONSE

This audit marks the Office of State Treasurer's fifth consecutive clean audit. As stated in the audit, the Auditor has found no material deficiencies in internal controls and no instances of legal or contractual noncompliance or other matters required to be reported under Government Auditing Standards.

The Auditor's finding regarding salary increases acknowledges that, pursuant to Section 30.120 RSMo, the State Treasurer has the authority to establish employee compensation. All salaries and salary increases in the Treasurer's Office are within its appropriation authority and are well within, often below, comparable positions in state government. Unlike other state agencies, the State Treasurer's Office does not utilize automatic career advancements, such as step or merit

increases. Instead, the general philosophy of the office is to hire new employees at a lower salary and then increase an employee's salary after, when possible, he or she has demonstrated a solid and high quality work performance. Additionally, as noted by the Auditor's report, those employees who received salary increases in fiscal year 2013 did so because of exceptional job performance and after the acceptance of additional job duties and responsibilities. Adherence to the recommendations made by the Auditor in this finding would encourage employers to hire new employees at the highest possible salary range because of an inability to provide raises in the future based on work performance or the employee's acceptance of new and additional responsibilities.

The ability to retain employees who exhibit excellence is fundamental to any organization's performance. The Office of State Treasurer will continue to implement prudent compensation and professional human resource practices that help it achieve its core mission and goals. The staff of the State Treasurer's Office is the foundation of that effort - protecting and investing taxpayer dollars, modernizing operations, helping families save for college, managing our state's banking system and returning millions of dollars in Unclaimed Property to the individuals who own it.

This audit confirms the Office of State Treasurer met all constitutional duties and all duties set forth in statute exactly as prescribed.

AUDITOR'S COMMENT

The audit finding recognizes the State Treasurer's authority to provide raises to staff. However, individual raises of 12 to 23 percent appear somewhat unreasonable, especially when not accompanied by contemporaneously prepared documentation of the reasons for the raises and how the amounts were determined.

STATISTICAL SECTION

Organization and Statistical Information

OFFICE OF STATE TREASURER
ORGANIZATION AND STATISTICAL INFORMATION

The State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state monies not needed for current operating expenses; and to invest such monies in interest-bearing time deposits, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, in short-term U.S. government securities, or in certain allowable commercial paper and banker's acceptances.

The Office of State Treasurer operates in four major functional areas: 1) accounting and banking services, 2) disbursements and records, 3) investments and deposit programs, and 4) unclaimed property.

The accounting and banking services area 1) maintains a fund accounting system to fulfill a statutory responsibility to keep separate accounts of the funds of the state and to allocate investment interest to funds, 2) maintains ledger controls on fund balances and appropriations to assure that no check is issued that exceeds the lawful appropriated balances, 3) controls receipt of state monies collected by state agencies and deposited in local banks throughout the state, 4) reconciles bank activity to receipt and disbursement activity reflected on the state books, 5) determines the amount of state monies not needed for current operating expenses, and 6) confirms daily disbursements with the bank as certified by the Office of Administration.

The disbursements and records area provides processing support to other departments of the State Treasurer's Office, as follows: 1) provides retrieval of state checks, and 2) controls and processes outlawed checks and processes and verifies claims for replacement checks.

The investments area places state monies not needed for current operating expenses in interest-bearing time deposits, U.S. government and agency securities, commercial paper, banker's acceptances, and repurchase agreements. This area also administers the State Treasurer's statutory linked deposit program and monitors and accounts for the collateralization of state funds.

The Unclaimed Property Division administers Missouri's Unclaimed Property Act (Chapter 447 RSMo). The Unclaimed Property Division is responsible for 1) ensuring unclaimed property is reported, 2) receiving and recording reports of unclaimed property, 3) depositing unclaimed funds to the Abandoned Fund Account Fund, 4) maintaining custody and safekeeping of abandoned or unclaimed physical property, and 5) processing owner claims for abandoned funds or physical property.

On January 14, 2013, Clint Zweifel was inaugurated for his second term as the forty-fifth Treasurer of the state of Missouri. His term will expire in January 2017.

As of June 30, 2013, the State Treasurer's Office had 42 full-time positions and 3 part-time positions to assist in the accomplishment of its mission.

Report No. 2014-035

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Audrain County

Property Tax System	As noted in our two prior audits, neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The County Clerk's account book does not indicate additions, abatements, and delinquent credits, and therefore, does not provide all information needed to perform adequate reviews of the County Collector's annual settlements. The County Commission does not document its review of the monthly additions and abatements report and does not document procedures performed to verify the County Collector's annual settlements. As a result, errors and irregularities could go undetected, and there is an increased risk of loss, theft, or misuse of property tax monies going undetected.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Management Advisory Report - State Auditor's Findings
Property Tax System 4

Organization and Statistical Information 5

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Audrain County

We have audited certain operations of Audrain County in fulfillment of our duties under Section 29.230, RSMo. In addition, Nichols, Stopp & VanHoy, LLC, Certified Public Accountants, has been engaged to audit the financial statements of Audrain County for the 2 years ended December 31, 2013. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with a legal provision, and (3) no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of Audrain County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Jeannette Eaves, CPA
In-Charge Auditor:	Joyce Thomson
Audit Staff:	Nicholas Schafer, MBA
	Dustin T. Davis

Property Tax System

As similarly noted in our prior two audit reports, neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector, who processed property tax monies of approximately $25.8 million during the year ended February 28, 2014.

The County Clerk's account book does not indicate additions, abatements, and delinquent credits, and therefore, does not provide all information needed to perform adequate reviews of the County Collector's annual settlements. The County Commission receives a monthly report of additions and abatements, but does not document its review of this report and does not document procedures performed to verify the County Collector's annual settlements. As a result, errors and irregularities could go undetected and there is an increased risk of loss, theft, or misuse of property tax monies going undetected.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable to the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are accounted for properly and could also be used by the County Clerk and County Commission to verify the County Collector's annual settlements. Properly documented approvals and independent comparisons of approved additions and abatements to changes made to the property tax system would help ensure changes to the property tax system records are proper.

Recommendations

The County Clerk maintain a complete and accurate account book with the County Collector. In addition, the County Commission and County Clerk should ensure all property tax additions and abatements are properly approved and monitored, and use the account book to review the accuracy and completeness of the County Collector's annual settlements.

Auditee's Response

The County Commission and the County Clerk provided the following response:

The County Clerk is in the process of compiling a spreadsheet that will enable her to balance with the County Collector. The County Clerk and County Commission will use this spreadsheet to review the annual settlement for the year ended February 28, 2014. The County Commission will document its review of additions and abatements monthly.

Audrain County
Organization and Statistical Information

Audrain County is a county-organized, third-class county. The county seat is Mexico.

Audrain County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 91 full-time employees and 15 part-time employees on December 31, 2013.

In addition, county operations include the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2014	2013
Steve Hobbs, Presiding Commissioner	$	39,423
Roger Young, Associate Commissioner		37,423
Thomas Groves, Associate Commissioner		37,423
Janis Deimeke, Recorder of Deeds		50,435
Shelley Harvey, County Clerk		50,435
Jacob Shellabarger, Prosecuting Attorney		73,277
Stuart D. Miller, Sheriff		61,499
Patty Meyers, County Treasurer		50,435
Todd Yager, County Coroner		19,854
Connie J. Hagan, Public Administrator		54,461
Kate Becker, County Collector (1), year ended February 28,	60,614	
Melissa Maupin, County Assessor, year ended August 31,		55,379

(1) Includes $5,050 of commissions earned for collecting city property taxes.

Financing Arrangements

The county entered into a lease agreement with a not-for-profit corporation on June 1, 1997, calling for the corporation to issue bonds of $5,595,000 for the purpose of constructing a new jail and for the corporation to lease the jail back to the county for payments totaling the principal and interest due on the outstanding bonds. The bonds are scheduled to be paid off in March 2017. The remaining principal outstanding at December 31, 2013, was

$1,675,000. Interest remaining to be paid over the life of the agreement totals $117,926.

The county entered into a lease purchase agreement with a local bank on October 29, 2013, for the purpose of making improvements to the courthouse totaling $700,000. The lease purchase agreement is scheduled to be paid off in October 2018. The remaining principal outstanding at December 31, 2013, was $700,000. Interest remaining to be paid over the life of the agreement totals $62,383.

2. Accounting Controls and Procedures 3
3.1 Commissary Controls and Procedures - Monthly turnover 6

*Includes selected findings

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Sheriff of Stoddard County, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-112, *Stoddard County Sheriff*, issued in November 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the county and Sheriff about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the Sheriff's office, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we reviewed supporting documentation submitted by the Sheriff's office and held a meeting with the Sheriff and some of his staff. Those documents included a report by the Sheriff on the status of recommendations, bank statements and reconciliations from both the Sheriff's general and inmate bank accounts, deposit slips, receipts, check registers, open items lists from each bank account, and various inmate commissary reports. This report is a summary of the results of this follow-up work, which was substantially completed during April 2014.

Thomas A. Schweich
State Auditor

Stoddard County Sheriff
Follow-Up Report on Prior Audit Findings
Status of Findings

1. Missing Monies

Significant weaknesses in internal controls allowed undeposited receipts and missing monies to go undetected. As a result of our audit inquiry, audit staff and Sheriff's office personnel noted discrepancies in the accounting records for inmate monies. In coordination with the Missouri State Highway Patrol, we audited the Sheriff's office records and procedures and determined the office manager did not deposit 321 receipts, totaling $15,139, which included $14,867 in missing monies. The office manager was terminated on April 30, 2013, and criminal charges were filed on June 5, 2013.

Recommendation

The Sheriff continue to take necessary action to recover the missing monies and work with law enforcement authorities regarding any criminal prosecution.

Status

Implemented

Restitution totaling $14,091 was paid to Stoddard County and all court-ordered fines and fees have been paid-in-full. On December 4, 2013, the court issued a suspended imposition of sentence and the former office manager was placed on 5 years' supervised probation. This case is considered closed.

2. Accounting Controls and Procedures

Accounting controls and procedures needed improvement. The Sheriff's office maintained two bank accounts, including an inmate account for depositing and tracking inmate monies and commissary purchases, and a general account for depositing and tracking bonds and inspection, permit, and civil fees.

2.1 Segregation of duties and supervisory review

Receipt and disbursement duties were not adequately segregated, and an adequate supervisory review of the accounting records was not performed. The Sheriff did not document his occasional reviews of bank reconciliations and budget reports. In addition, there was no oversight over receipting, depositing, or disbursement procedures to ensure monies were properly and timely recorded, deposited, and disbursed.

Recommendation

The Sheriff adequately segregate accounting duties or ensure an adequate independent or supervisory review of bank and accounting records is performed and documented.

Status

Implemented

Accounting duties are now segregated and various reviews of bank and accounting records are now performed. Dispatchers, the office manager, and the assistant office manager continue to record monies into the various receipt slip books. The office manager and the assistant office manager now share the responsibilities for depositing monies received, entering transactions into the various accounting systems, and disbursing monies to

the County Collector-Treasurer. The office manager and the assistant office manager review each other's work on a frequent basis. The Sheriff now reviews all deposit records and various accounting records at least monthly. We reviewed the March 2014 month-end folder, which included several documents (i.e. copies of receipt and deposit records, bank reconciliations, etc.) and observed the Sheriff's initials on several of those items indicating his review.

2.2 Receipting and depositing procedures

Receipts were often not deposited intact or timely, and the composition of monies received did not always agree to the composition of deposits. In addition, the method of payment was not always recorded on the receipt slip and did not always agree with other receipt records or to the deposit. Some monies received were not entered into the receipt records or deposited timely, and some receipts were received by dispatchers but not recorded in the dispatch receipt slip book. Further, monies (sales) collected from a soda vending machine were not recorded on receipt records or deposited routinely, and deposits varied significantly in amount. We could not determine if all soda monies collected were deposited.

Recommendation

The Sheriff establish procedures to improve receipting and depositing controls to ensure deposits are made on a timely basis, the method of payment is indicated for all receipts, and the composition of the receipts agrees to the composition of deposits. In addition, the Sheriff should ensure all monies are properly and timely recorded in the accounting records.

Status

Implemented

We reviewed the December 2013 and January 2014 bank statements for both the inmate and general bank accounts and found deposits were made around two to three times per week. All monies received by dispatchers are placed in individual envelopes with a copy of the receipt slip. Both the office manager and the assistant office manager ensure the method of payment of the receipt is correctly marked on the receipt slip and entered into the accounting records. The composition of the receipt records is reconciled to the composition of each deposit. In addition, personnel indicated receipts are entered into the accounting records on a timely basis as part of the office's daily receipt procedures.

2.3 Accounting records

Accounting records for the inmate account were not complete and accurate. In addition, some records provided by the office manager during our audit were fabricated. Our audit of the various accounting records noted the following discrepancies and concerns:

- The office manager provided fabricated manual deposit records to the audit staff for the deposit on October 22, 2012. Records provided to us

indicated different receipt slip numbers and amounts than the original deposit records or the bank provided records for this deposit.

- Receipts were not always posted to the inmate tracking system (ITI) or the computerized accounting system and discrepancies were noted between the systems. In addition, none of the missing receipts identified in MAR finding number 1 had been posted to the computerized accounting system.

- The Sheriff's office did not perform a reconciliation of information entered into the ITI system with information entered into the computerized accounting system.

Recommendation

The Sheriff ensure receipts are properly reported in the accounting systems. In addition, the Sheriff should reconcile the ITI system to the computerized accounting system for inmate transactions.

Status

Implemented

Personnel indicated inmate monies received are entered into the ITI system by the dispatchers upon receipt, verified as entered correctly by the assistant office manager, and then entered into the accounting system by the office manager. As transactions are posted to the accounting system, the office manager compares them to the ITI. In addition, inmate transactions are added and reconciled between the two systems on a monthly basis. We observed the March 2014 summary records and inmate transactions agreed between the systems.

2.4 Liabilities

A complete list of liabilities was not prepared or reconciled to the available cash balance for either the inmate or general bank accounts.

For the inmate account, the office manager maintained a list of amounts owed to inmates; however, the list was not reconciled to the available cash balance and was incomplete. We prepared a list of liabilities for the inmate account as of April 30, 2013, and noted identified liabilities exceeded the available cash balance by $11,846. Due to the failure to record some transactions and the lack of reconciliations between accounting systems, it was likely additional unidentified liabilities existed.

For the general account, records indicated liabilities agreed with the available cash balance of $2,154; however, the list of liabilities was a summary listing and was not itemized (each individual item listed) and the amounts indicated could not be tied to supporting documentation.

Recommendation

The Sheriff prepare a monthly list of liabilities and reconcile the list to the available cash balance for all bank accounts. Any differences should be promptly investigated and resolved.

Status

In Progress

We observed the March 2014 liabilities list prepared for both the general and inmate bank accounts and noted liabilities listed were adequately supported; however, the available cash balance for each bank account includes some unidentified liabilities. Sheriff's office personnel indicated $149 in the general bank account and $3,462 in the inmate bank account have been carried forward since the prior administration and specific liabilities relating to these balances have not been determined. The personnel indicated they are still reviewing records to identify how to distribute this money.

3.1 Commissary Controls and Procedures - Monthly turnover

Monies collected from commissary purchases, totaling $11,972, were not turned over to the County Collector-Treasurer for April 2012, September 2012, and November 2012. Monies (sales) from a soda vending machine were not always turned over to the County Collector-Treasurer. Additionally, monies collected from commissary purchases turned over to the County Collector-Treasurer did not always agree with supporting documentation.

Recommendation

The Sheriff ensure all commissary monies collected are turned over to the County Collector-Treasurer on a monthly basis.

Status

Implemented

Monies are now turned over to the County Collector-Treasurer on a monthly basis. We scanned records from the County Collector-Treasurer and determined monies were generally turned over within a few days after the end of each month. We also agreed the December 2013 and January 2014 turnovers to supporting records.

*Includes selected findings

THOMAS A. SCHWEICH
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Liberal, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-098, *City of Liberal*, issued in October 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the city, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we reviewed supporting documentation submitted by city officials and held meetings with city officials. Documentation reviewed included Board of Aldermen meeting minutes, ordinances, bank statements, receipt and deposit records, and various other financial records. This report is a summary of the results of this follow-up work, which was substantially completed during April 2014.

Thomas A. Schweich
State Auditor

1. Accounting Controls, Procedures, and Records

There were numerous weaknesses with accounting controls and procedures.

1.1 Segregation of duties

There was no segregation of the accounting functions, and the Board did not provide any independent or supervisory reviews. The City Clerk was responsible for receiving, recording, and depositing monies; reconciling bank accounts; preparing invoices for payment; issuing checks; and posting entries into the accounting system. Additionally, the City Clerk performed utility billing procedures and payroll related duties. Many of these duties would have normally been performed by a City Treasurer and City Collector; however, the city did not have individuals serving in these positions.

Recommendation

The Board of Aldermen consider appointing separate individuals to the position of City Clerk, City Collector, and City Treasurer to adequately segregate duties. If this is not possible, the Board of Aldermen should perform and document reviews of the City Clerk's work.

Status

Implemented

The Board still does not have individuals serving as the City Treasurer and City Collector. However, the city now has a City Clerk and a Deputy City Clerk. Currently, both the City Clerk and Deputy City Clerk receipt monies, the Deputy City Clerk prepares the deposit, and the City Clerk reviews the deposit. The City Clerk is responsible for preparing invoices for payment, printing checks, reconciling bank accounts, and reviewing utility billings. Checks are signed by the Deputy City Clerk and a Board member. Invoices are approved by the Board. Payroll reports and checks are reviewed by the Mayor, Deputy City Clerk, and Board. The Board approves the bank reconciliation each month at Board meetings. The Board also reviews a copy of the accounts payable listing, adjusting entries, bank statements, a list of all checks written for the month, and a report of bank balances by fund.

1.2 Receipting, recording, and depositing procedures

The city's receipting, recording, and depositing procedures were poor.

Rediform prenumbered receipt slips rather than official prenumbered receipt slips were issued for non-utility monies received. The city utilized several different records/methods to receipt utility monies received, and all pertinent details of monies received were not documented on utility billing stubs. Unnumbered official receipt slips were issued for some utility payments received, unnumbered unofficial receipt slips were issued for utility deposits received, and utility billing stubs used to record some utility payments did not document the payment receipt date. In addition, receipt

slips and utility stubs did not always indicate the method of payment received. Receipt slips were also not issued for some park monies received. City officials did not always record monies received timely in the accounting system or deposit it timely.

Recommendation

The Board of Aldermen ensure official prenumbered receipt slips are issued for all monies received and the numerical sequence of receipt slips is accounted for properly. The method of payment should be documented and the composition of receipts reconciled to the composition of deposits. Additionally, the Board should ensure receipts are posted to the accounting system and deposited timely.

Status

Partially Implemented

For the month of January 2014, official prenumbered receipt slips were issued for monies received (excluding utility payments), the method of payment was documented, and the composition of receipts agreed to the composition of deposits. City officials indicated that no one periodically accounts for the numerical sequence of receipt slips issued. The city is still using utility bill stubs as receipt slips for utility payments, the method of payment is not always noted on the stub, and 16 utility bill stubs for the month of January 2014 did not indicate the payment receipt date. Receipts were posted to the accounting system timely; however, several receipts reviewed were not deposited timely or intact.

1.3 Accounting records

The city did not maintain accurate accounting records.

Some disbursements were (1) not accurately recorded in the accounting system, (2) posted to the wrong fund, (3) not posted to the accounting system, and (4) posted to the accounting system twice.

Numerous and significant problems were identified with the December 31, 2012, bank reconciliation. Numerous checks were erroneously listed as outstanding, multiple deposits and credits were erroneously listed as uncleared transactions, and several adjustments were listed as uncleared transactions. Legitimate deposits in transit and an outstanding check were not recorded on the city's bank reconciliation. Also, some deposits were recorded as checks, and some checks were recorded as deposits. Further, differences existed between the December 31, 2012, reconciled bank balance and the book balance recorded in the accounting records of the Park Fund and Cemetery Fund.

Recommendation

The Board of Aldermen ensure accounting records are accurately maintained.

Status	**In Progress**
	Our comparison of checks to accounting records and review of the bank reconciliation for February 2014, showed most disbursements were recorded accurately. However, some checks were recorded twice and an adjusting entry (deposit/credit) was made to correct the errors.
1.4 Check signers	The Board did not have adequate controls over bank accounts and disbursements. While dual signatures were required on all city checks, several checks issued were signed by the City Clerk and City Superintendent and not a Board member.
Recommendation	The Board of Aldermen require at least one member of the Board to sign all checks.
Status	**Implemented**
	Our review of cancelled checks for January and February 2014 determined all checks were signed by at least one member of the Board of Aldermen.
2. Utility System Controls and Procedures	There were significant weaknesses in city operations related to utility services.
2.1 Utility rates	The city had not performed a formal review of water, sewer, gas, electric, and trash rates, and as a result, there was less assurance utility rates were set at an appropriate level.
Recommendation	The Board of Aldermen document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services and to support any rate increases.
Status	**Not Implemented**
	On January 14, 2014, the Board approved an ordinance increasing utility rates for water, sewer, electric, gas, and trash service; however, the city did not document a utility rate study to support these rate increases.
2.2 Water reconciliation	The city had not performed a reconciliation of total gallons of water billed to gallons of water pumped until we brought this issue to the attention of the Utility Superintendent. The city then performed a reconciliation for the period from January 10 to February 10, 2013. In addition, city water usage was not tracked, and without this information the city could not properly perform the reconciliation. The February reconciliation showed the city pumped 2,391,000 gallons of water and billed customers for 1,635,569 gallons, a difference of 755,431 gallons or 32 percent of water pumped. This

significant difference was indicative of water loss issues and/or possible unbilled usage, and indicated a need for follow up.

Recommendation

The Board of Aldermen ensure all water use is properly metered, gallons of water pumped is reconciled to gallons billed monthly, and investigate any significant differences.

Status

In Progress

The city's reconciliations of water billed and pumped for December 2013 showed a water loss of 31 percent, and for January 2014 a water loss of 35 percent. City officials indicated the city is currently tracking city water use. City officials indicated the current water loss is due to two water main leaks that need to be repaired or the unmetered water usage of the local fire department. City officials indicated they are currently working to ensure all needed repairs are made and utility usage is metered.

2.3 Adjustments

The City Clerk posted adjustments to the utility computer system without always obtaining independent approval or adequate documentation to support the reason for the adjustments.

Recommendation

The Board of Aldermen require someone independent of the utility system review and approve all adjustments, and ensure documentation is retained supporting such adjustments.

Status

Implemented

The January 2014 Board of Aldermen meeting minutes indicated approval of adjustments and included a detailed listing of the adjustments along with a reason for each one.

2.4 Utility deposits

The city did not prepare a monthly list of utility deposits on hand and reconcile the list to the deposit payable balance in the general ledger.

Recommendation

The Board of Aldermen ensure a list of utility deposits on hand is prepared and reconciled monthly to the deposit payable balance in the general ledger. Any discrepancies should be investigated and resolved.

Status

Implemented

The list of utility deposits on hand agreed to the deposit payable balance in the city's computerized accounting system as of January 31, 2014.

3.1 Disbursements - Procurement procedures

The city did not have a formal bidding policy and did not solicit bids for numerous services and purchases made during the year ended December 31, 2012.

Recommendation	The Board of Aldermen establish formal bidding policies and procedures, including documentation requirements regarding the bids or quotes received and justification for the bid selected.
Status	**Implemented** The Board adopted a bidding ordinance on November 12, 2013, that states purchases under $5,000 will be purchased by the city purchasing manager (City Clerk) in the most expedient manner. Purchases between $5,000 and $10,000 are to have 3 bids solicited. Purchases over $10,000 are to have 3 written bids. Notices for bids are to be advertised 5 days prior to the bid opening. Items may also be advertised in the city office. The ordinance requires Board approval for purchases over $5,000. Due to the timing of the follow up, we could not determine whether the city is adequately documenting bids or quotes received and justification for the bids selected.

3.2 Disbursements - Allocation of expenses	The city did not maintain documentation to support the allocation of expenses among funds. Additionally, there was no basis to support how payroll related expenses for employees performing multiple functions, such as the City Clerk, City Superintendent, and maintenance workers, were allocated among the various city funds.
Recommendation	The Board of Aldermen ensure city expenses are properly allocated to the applicable funds and allocations are supported by adequate documentation.
Status	**Not Implemented** The city still does not maintain current documentation to support the allocation of expenses and payroll related expenses among the applicable funds. City officials used 10-year old documentation to support salary allocations among funds for February 2014.

3.5 Disbursements - Fuel use and purchases	Fuel purchases recorded in police department mileage and fuel use logs were not reconciled to fuel billings to the city. In addition, the city had no records to ensure fuel purchases for other city equipment and vehicles were used appropriately. As a result, fuel use was not reconciled to fuel purchases.
Recommendation	The Board of Aldermen require fuel use logs be maintained for all city-owned vehicles and equipment, and ensure logs are reviewed for accuracy and reconciled to fuel purchases. Any significant discrepancies should be investigated.
Status	**In Progress** Fuel use logs were maintained for all city-owned vehicles and equipment during the month of January 2014; however, the city did not reconcile the

logs to fuel purchases. The Board of Aldermen indicated the city still plans to implement procedures to reconcile the logs to fuel purchases.

5.1 Budgetary Procedures and Financial Reporting - Budgets

Annual budgets did not contain all elements required by state law and were not approved timely. Budgets for the years ended December 31, 2012 and 2011, did not include a budget message, actual and budgeted amounts for the 2 preceding years, and beginning and ending actual and estimated cash balances. Additionally, as of March 9, 2013, the 2013 budget had not been prepared or approved by the Board, and the 2012 budget was not approved by the Board until June 2012.

Recommendation

The Board of Aldermen prepare budgets timely and in compliance with state law.

Status

Partially Implemented

The 2014 budget was approved by the Board on December 27, 2013; however, it did not include a budget message, actual and budgeted amounts for the 2 preceding years, and beginning and ending actual and estimated cash balances. The budget only included projected receipts and disbursements for the coming year.

5.3 Budgetary Procedures and Financial Reporting - Financial statements

The city did not publish financial statements in 2012 or 2011 in compliance with state law.

Recommendation

The Board of Aldermen ensure financial statements are published in accordance with state law.

Status

Partially Implemented

The city published financial statements for the Water and Sewer Fund, Electric Fund, and Gas Fund on February 6, 2014; however, the city did not publish financial statements for the General Fund.

7. Capital Assets

The city did not maintain records for its capital assets including buildings, utility system infrastructure, equipment, and other property. Additionally, assets were not tagged for specific identification, and an annual physical inventory was not performed.

Recommendation

The Board of Aldermen ensure property records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location and subsequent disposition. The Board should also properly tag, number, or otherwise identify all applicable city property and conduct and document an annual inventory.

Status

In Progress

A capital assets listing has been prepared as of December 31, 2013, and city officials indicated they are working on tagging all property.

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Second Judicial Circuit, City of Kirksville Municipal Division

Ticket Accountability

The Police Department and the municipal division do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly. For 2 of 20 tickets tested, the municipal division incorrectly entered the ticket number into the case management system without detection. Properly accounting for the numerical sequence and ultimate disposition of tickets is necessary to reduce the risk of loss, theft, or misuse of funds.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 5

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge
Second Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the City Council
Kirksville, Missouri

We have audited certain operations of the City of Kirksville Municipal Division of the Second Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's compliance with certain legal provisions.

3. Evaluate the city's compliance with Section 302.341.2, RSMo, which restricts the amount of fines and court costs that may be retained from traffic violations.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) a deficiency in internal controls, (2) no significant noncompliance with legal provisions, and (3) no noncompliance with Section 302.341.2, RSMo. The accompanying Management Advisory Report presents our finding arising from our audit of the City of Kirksville Municipal Division of the Second Judicial Circuit.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Josh Allen, CPA, CFE
Audit Staff:	Keisha Williams

Ticket Accountability

The Police Department and the municipal division do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

The Police Department tracks the ticket book numbers assigned to each officer on a log. When tickets are issued, officers enter the ticket information into a computerized system. After tickets are reviewed by supervisory personnel within the Police Department, the tickets, with the exception of those voided or filed in the Circuit Court, are forwarded to the Assistant City Prosecutor for review. The Assistant City Prosecutor may dismiss (not file) tickets issued for certain violations. For example, tickets issued for no proof of insurance may be dismissed if the defendant provides proof of insurance. These dismissed tickets are retained by the Assistant City Prosecutor. For tickets with charges to be filed, the Assistant City Prosecutor will sign the tickets and forward them to the municipal division to be entered into the case management system and processed. Neither the Police Department nor the municipal division performs procedures to review the numerical sequence of tickets issued or processed to identify missing tickets.

For 2 of 20 tickets tested, the municipal division incorrectly entered the ticket number into the case management system, making it difficult to ensure the ticket had been properly filed with the municipal division. Had the numerical sequence of tickets been accounted for, these errors may have been detected.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the Police Department and the municipal division cannot ensure all tickets issued are properly submitted for processing. A record should be maintained to account for the ultimate disposition of each ticket to decrease the risk of loss, theft, or misuse of funds.

Recommendation

The City of Kirksville Municipal Division work with the Police Department to ensure the numerical sequence and ultimate disposition of all tickets are accounted for properly.

Auditee's Response

The Municipal Judge provided the following written response:

As a result of this audit and discussion in this regard, the municipal division has further implemented a separate set of records to further verify the disposition of all tickets issued by the Police Department. These additional reports and documentation were discussed with the audit staff at the final exit conference.

Second Judicial Circuit
City of Kirksville Municipal Division
Organization and Statistical Information

The City of Kirksville Municipal Division is in the Second Judicial Circuit, which consists of Adair, Knox, and Lewis Counties. The Honorable Russell E. Steele serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury.

Personnel

At December 31, 2013, the municipal division employees were as follows:

Title	Name
Municipal Judge	Phoebe Powell Sutton
Court Clerk	Linda Sandstrom
Deputy Court Clerk	Kelli Partin

Financial and Caseload Information

	Year Ended December 31, 2013
Receipts	$139,329
Number of cases filed	1,223

ADMINISTRATION

Review of Article X, Sections 16 Through 24, Constitution of Missouri

Year Ended June 30, 2013

June 2014

Report No. 2014-039

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the review of Article X, Sections 16 through 24, Constitution of Missouri

Background

The Constitution of Missouri was amended in 1980 to add Article X, Sections 16 through 24, commonly referred to as the Hancock Amendment. This tax limitation amendment imposes restrictions on the amount of personal income used to fund state government and the amount by which fees and taxes can be increased. Mathematical formulas are used to determine the relevant threshold amounts each year.

The Hancock Amendment limits the amount of Missourians' personal income that may be used to fund state government to no greater than the portion used to do so in 1981. In other words, since 5.6 percent of Missourians' personal income went to fund state government in 1981, then no more than 5.6 percent can be used to do so in future years, unless revenues are specifically excluded by a vote of the people.

The Hancock Amendment also requires voter approval before taxes or fees can be increased by the General Assembly beyond a certain annual limit. Based upon the calculation provided by the Office of Administration, Division of Budget and Planning, the relevant annual revenue limit for fiscal year 2012 was $84.2 million.

Fiscal Year 2013 Findings

For the fiscal year ended June 30, 2013, our review determined no Hancock refunds were due. In fact, total state revenue was approximately $3.6 billion under the refund threshold. In addition, the Office of Administration, Division of Budget and Planning determined that net taxes and fees increased by a total of $28.6 million. As a result, our review concluded the state complied with these provisions of the Hancock Amendment.

The revenue limit has not been exceeded since the year ended June 30, 1999.

Because of the limited objective of this review, no overall rating is provided.

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Members of the General Assembly
and
Douglas E. Nelson, Commissioner
Office of Administration
Jefferson City, Missouri

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2013, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We had previously reported on revenues of the state for the years ended June 30, 1982 through 2012. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formula to calculate the state's revenue limit.

2. Determine the specific items included in total state revenues.

3. Verify the accuracy of the revenue limit computation and compare that limit to total state revenues.

4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background, Methodology, and Conclusions present our comments, findings, and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Douglas J. Porting, CPA, CFE
Audit Manager:	Jeffrey Thelen, CPA, CISA
Audit Manager:	Robyn Vogt, M.Acct., CPA

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, requires that no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

The results of our review determined that for the year ended June 30, 2013, total state revenue (TSR) was approximately $3.6 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2013.

The amendment also imposes an additional revenue limit, which states the general assembly shall not increase taxes or fees in any fiscal year without voter approval that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less.

For the year ended June 30, 2013, the Office of Administration, Division of Budget and Planning has determined that as a result of legislative actions net taxes and fees increased by a total of $28.6 million. As a result, the state also complied with this provision of the amendment.

The revenue limit has not been exceeded since the year ended June 30, 1999. Over the last 5 years the amount of TSR under the refund threshold has ranged from $2.7 billion to $4.4 billion.

A bar graph of TSR compared to the refund threshold follows:

Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

The following identifies the various components of the amendment and the application of the amendment to state revenues.

Formula

Article X, Section 18(a), Missouri Constitution, establishes the revenue limit formula as follows:

$$\text{Revenue limit for FY 20XX} = \frac{\text{Total state revenue (TSR) in FY 1981}}{\text{CY 1979 Missouri personal income (MPI)}} \times \text{The greater of MPI in the calendar year (CY) prior to the CY in which appropriations are made for FY 20XX or Average MPI for three CYs preceding FY 20XX.}$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) ensures that no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment. The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC).

The Office of Administration, Division of Budget and Planning (OA-BP) does not adjust the BYR for changes already made or for future changes or adjustments to this amount by the DOC. Article X, Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests that the BYR should be adjusted whenever CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI does provide an unchanging BYR for future years, which provides at least two benefits. First, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable so long as it is followed consistently.

As with the BYR, the OA-BP uses the MPI first officially published by the DOC after the close of the CY to calculate the revenue limit for the applicable fiscal year. For the reasons expressed in the preceding paragraph, we find this approach reasonable so long as it also is followed consistently.

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$2{,}232.204096}{\$\ 39{,}581.0} = .05639584891$$

In its calculations of the revenue limit the OA-BP rounded the BYR to .056395.

Article X, Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

Adjustments

Article X, Section 18(d) provides that the revenue limit may be adjusted, ". . . if responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, which was effective on July 1, 1981. In past years, the State Auditor's office (SAO) disagreed with this adjustment because state funding of these salaries was required by statute instead of by consequence of constitutional amendment. In addition, the Judicial Article Amendment was effective on August 3, 1976, which was prior to the time the Hancock Amendment was adopted by the voters on November 4, 1980. However, the Supreme Court ruled in its decision on January 27, 1998, that an adjustment to the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll is appropriate.

Composition of Total State Revenues

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not

included in TSR. These funds include university local funds; local sales and use tax fund collections made by the Department of Revenue; various funds held in trust for inmates, patients, etc.; and various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement systems. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and were not appropriated. Thus, it seems reasonable to conclude that these funds should not be included in TSR.

Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

A. Lottery Enterprise Fund

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded.

B. Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients; however, these funds are not in the state treasury and are not included in TSR. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

C. Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes these funds held in trust.

D. Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

E. Federal Funds

Article X, Section 17, Missouri Constitution, specifically excludes federal funds.

F. Proposition C Sales and Use Tax/Interest

In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded.

G. Proposition A Gas Tax and License Fee Increases

In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item BB. below.

H. Bond Sales

An attorney general opinion concluded that proceeds of the state's general obligation bonds were not to be included in TSR.

I. Refunds

Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded.

J. Interagency Sales and Receipts

Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded.

K. Soil and Water Sales and Use Tax/Interest
and
L. Parks Sales and Use Tax/Interest

In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded.

M. Redeposit of Investment Principal

The redeposit of investment principal is excluded.

N. Outlawed Checks

Outlawed checks, which are state checks that were not cashed by the payee within the time allowed, are redeposited in the state treasury and are excluded.

O. Redeposit of Loan Principal

Redeposits of loan principal are excluded.

P. Bingo

The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.

Q. Riverboat Gambling

In August 1992, the voters approved an amendment to Article III, Section 39(d), Missouri Constitution. This constitutional amendment requires that all state gaming revenues must be appropriated for public education and excludes these revenues from TSR.

In 1993, the Missouri General Assembly enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. This law repealed House Bill 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992.

Under Senate Bills 10 and 11, the legislature imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.

On November 24, 1998, the Missouri Court of Appeals, Western District entered its final decision in *Kelly v. Hanson, et. al.*, 984 S.W. 2d 540 (Mo. 1998). The Missouri Court of Appeals, Western District ruled that revenue from the one dollar portion of the state imposed two dollar admission fee payable to the state is not included in TSR, while the revenue from the payments to the state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining one dollar portion of the two dollar admission fee is also excluded from TSR because these funds are distributed

	by the Department of Revenue without deposit in the state treasury and without appropriation.
R. Redeposit of State Funds	The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.
S. Loan Proceeds	The state receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.
T. Conservation Sales and Use Tax/Interest	Pursuant to the Supreme Court decision in *Conservation Federation of Missouri, et. al., v. Richard Hanson, et. al.*, 994 S.W. 2d 27 (Mo. Banc. 1999), the revenue derived from the one-eighth of one percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.
U. State Employee Expense Reimbursement	The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.
V. Recovery Costs	Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Also, see item W. below.
W. Cost Reimbursements	Monies received from other governments for reimbursements of costs incurred by the state are excluded. Regarding items V. and W., the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.
X. Canceled Checks	Receipts derived from the redeposit of state checks that have been canceled are excluded.
Y. Local Match	Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these local match funds are not state funds, they are excluded.
Z. Proceeds of Surplus Property Sales	The proceeds from some sales of surplus property are initially deposited into the Proceeds of Surplus Property Sales Fund then disbursed from this fund to the state fund that owned the property. To avoid counting the same

receipts in TSR twice, the state excludes amounts disbursed from the Proceeds of Surplus Property Sales Fund to other state funds.

AA. WIC Rebates

The Department of Health and Senior Services (DHSS) issues food instruments for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) to program participants who use them to obtain formula at participating grocery stores and pharmacies. The participating grocery stores and pharmacies then redeem the food instruments. The food instruments are processed through the Federal Reserve System and the WIC program is charged for the food instruments presented. The DHSS records the redeemed food instruments and sends a monthly invoice to the contracted infant formula manufacturer who then rebates a portion of the sales proceeds to the state.

BB. Amendment 3 Revenue Derived From Highway Users

In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.

Section 30(a) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, ". . . The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of "total state revenues". . . ."

Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, ". . . The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of "total state revenues". . . ."

As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR.

The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item G. above.)

Sections 29, 30(c), and 30(d) have no apparent Hancock implications.

CC. Interest - Federal

Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.

Other Exclusions and Limits

Other exclusions and limits have been considered to arrive at TSR, as follows:

Cash Management Improvement Act

The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.

Agency Remitted Sales Tax

Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.

Abandoned Funds Claim Payments

Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.

Expenditure Refunds

According to Article X, Section 17(1), Missouri Constitution, total state revenue shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. The SAO had consistently used the appropriation basis to measure refunds. As a result, a difference existed. However, in its decision of January 27, 1998, the Supreme Court indicated that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. As a result, the SAO changed its calculation of expenditure refunds to the cash basis.

Tobacco Master Settlement Agreement Proceeds

The OA-BP has excluded $135,166,246 received from tobacco companies during fiscal year 2013. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorney Generals. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001.

The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2012 were as follows:

Fiscal Year	Amount
2001	$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224

The amounts received were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "*all money recovered from others for costs incurred by the state or to be incurred by the state."* The OA-BP believes these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These three research projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970

through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

Federal Reimbursement Allowance and Nursing Facility Reimbursement Allowance

The Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program when collected by an offset against Medicaid claims, is not directly deposited in the state treasury. As a result, this revenue is not included in TSR.

Compliance

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment, commonly referred to as the Hancock Amendment, requires that no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people.

Exhibit A presents a summary of the calculations of limited total state revenue (TSR) for the years ended June 30, 2013, 2012, 2011, 2010, and 2009. The results of our review determined that for the year ended June 30, 2013, TSR was approximately $3.6 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2013.

Article X, Section 18(e), Missouri Constitution, imposes an additional revenue limit, which states the general assembly shall not increase taxes or fees in any fiscal year without voter approval that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. For fiscal year 2013, the OA-BP calculated these limits at $106.1 million for the Missouri Personal Income amount and $84.2 million for the 1 percent of total state revenues amount.

For fiscal year 2013, the OA-BP determined that as a result of legislative actions net taxes and fees increased by a total of $28.6 million. As a result, the state complied with Article X, Section 18(e).

Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996*)

TAXATION

Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

Section 17. Definitions. As used in sections 16 through 24 of Article X:

(1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.

(2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.

(3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.
(a). There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the fiscal year for which the calculation is being made, or

the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b). For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c). The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d). If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

(e). **Voter approval required for taxes or fees, when, exceptions--compliance procedure.**

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly" shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase

shall be measured by the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

Section 20. Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the

revenue limit established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.
(a). Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b). The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and

additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained, shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

Section 24. Voter approval requirements not exclusive--self-enforceability.

(a). The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b). The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

* The 1996 amendment added Section 18(e).

Maries County

June 2014

Report No. 2014-040

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Maries County

Sheriff Controls and Procedures	The Sheriff's office does not prepare bank reconciliations, does not maintain book balances, and does not identify or reconcile liabilities with cash balances for any bank account. The Sheriff has not adequately segregated accounting duties, and does not conduct an adequate supervisory review of accounting records. Office personnel do not always indicate the method of payment received on receipt slips for the bond account and do not reconcile the composition of receipts to the composition of deposits. The Sheriff's office collects $100 to process applications for new concealed carry weapon permits, $38 of which is disbursed to the Missouri State Highway Patrol for a federal background check, but the Sheriff's office does not disburse the other $62 to the County Treasurer as required by state law. The Sheriff's office typically collects a fee prior to performing civil paper service and sends bills for mileage and any remaining fees once the papers have been served, but no one documents which payments have been received and no follow up is performed on unpaid amounts; therefore, the amount still owed cannot be determined. Neither the county nor the Sheriff properly solicited bids or maintained sufficient documentation for the purchase of two patrol vehicles and one truck, and the Sheriff initially overpaid for the patrol vehicles but was refunded $8,346 for each vehicle.
Sheriff Commissary Account	The Sheriff's office does not issue receipt slips for inmate monies received and does not reconcile receipts recorded on the commissary log to deposits. Monthly bank reconciliations are not performed, liabilities are not reconciled with cash balances, and no independent review of the bank statement is performed. In September 2010, the Sheriff's office received $20,000 from the Department of Justice Equitable Sharing program related to a federal asset seizure and deposited these monies into the commissary account, but state law requires the Sheriff to pay such monies into the county treasury. It appears the Sheriff's office used at least $16,300 to purchase equipment without the approval of the County Commission.
Seized Property	None of the 4 inventory logs maintained by the Sheriff's office included a complete listing of all seized property currently on hand. We selected 15 items from the inventory logs to review and could not locate 6 of the items. The Sheriff's office did not maintain a complete record of all seized property sold at the October 2012 Sheriff's sale, and 23 evidence release forms had not been signed by the Judge and/or the Prosecuting Attorney to document approval to sell the property. A similar condition was noted in our prior audit report.
Property Tax System	As noted in at least our 4 prior audit reports, neither the County Clerk nor the County Commission review the financial activities of the County Collector. The County Clerk does not maintain an account book or other records summarizing property tax transactions each month, and neither the County Clerk nor the County Commission performs procedures to verify the accuracy of the County Collector's annual settlements, which increases the risk of loss, theft, or misuse of property tax monies going undetected.

Prosecuting Attorney Fees	The Prosecuting Attorney's office is charging less in bad check fees than required by state law. Our review of 15 bad check fees found the Prosecuting Attorney's office collected fees totaling $230, but $575 should have been collected had state law been followed.
Officials' Salaries	Various elected officials were underpaid a total of approximately $13,500 during 2012, and it appears these officials have likely been underpaid since at least 2009. Section 50.327, RSMo, as amended in 2007, provides the minimum amount to be paid to each elected official, but county officials have been paid salaries that were set as a percentage of the base salary amounts authorized by state statute.
Capital Assets	As noted in at least our 4 prior audit reports, procedures and records to account for county property are not adequate. The county does not have adequate procedures in place to identify capital asset purchases and dispositions throughout the year, and the county's capital asset records are not complete and up to date.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 14

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Maries County

We have audited certain operations of Maries County in fulfillment of our duties under Section 29.230, RSMo. In addition, Casey-Beard-Boehmer PC, Certified Public Accountants, was engaged to audit the financial statements of Maries County for the 2 years ended December 31, 2012. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2012. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Maries County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Denise Huddleston, MBA
Audit Staff:	Erica Schroer, MBA
	Nicholas Schafer, MBA
	Andrew Ferguson, M.Acct.

1. Sheriff Controls and Procedures

Sheriff's office accounting procedures are not sufficient and do not provide assurance that monies collected are accounted for properly. In addition, the Sheriff's office did not solicit bids or maintain documentation to support the purchase of vehicles.

The Sheriff's office collected monies related to civil service fees, mileage, concealed carry weapon (CCW) fees, all-terrain vehicle permits, bonds, prisoner board, and other miscellaneous receipts totaling approximately $71,700 for the year ended December 31, 2012.

1.1 Bank reconciliations and liabilities

The Sheriff's office does not prepare bank reconciliations, does not maintain book balances, and does not identify or reconcile liabilities with cash balances for any of the 3 bank accounts. At December 31, 2012, the bank balances were $5,742, $3,656, and $694 in the bond, special civil, and regular bank accounts, respectively.

An office clerk indicated she reviews the bank statements to ensure all deposits and checks are included; however, formal bank reconciliations are not documented for the 3 bank accounts. Cumulative book balances are not maintained and listings of outstanding checks are not prepared. In addition, liabilities are not identified and reconciled with cash balances. Also, no review is performed to compare the bank statements to the accounting records to ensure all monies have been properly deposited and disbursed (see section 1.2).

Without maintaining a cumulative book balance and preparing monthly bank reconciliations, there is little assurance cash receipts and disbursements have been properly handled and recorded. In addition, bank and book errors may not be detected and corrected in a timely manner. Without regular identification and comparison of liabilities to the reconciled cash balance, there is less likelihood errors will be identified and the ability to both identify liabilities and resolve errors is diminished.

1.2 Segregation of duties and supervisory review

The Sheriff has not adequately segregated accounting duties and an adequate supervisory review of the accounting records is not performed. One office clerk is primarily responsible for receipting, recording, and disbursing monies for the bond, special civil, and regular bank accounts. A second office clerk is responsible for the billing and collection of payments for boarding prisoners. The Sheriff does not oversee accounting duties or perform adequate supervisory reviews of accounting records. In addition, while the duties of the two office clerks do not overlap, these office clerks have a mother-daughter relationship. Because of this relationship and lack of segregation and oversight, there is greater risk in this area.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of

duties cannot be achieved, the Sheriff should implement a documented independent or supervisory review of the records.

1.3 Method of payment

Receipt slips for the bond account do not always indicate the method of payment received, and the composition of receipts is not reconciled to the composition of deposits.

To ensure all monies are accounted for and deposited properly, the method of payment should be recorded on all receipt slips, and the composition of receipts should be reconciled to the composition of deposits.

1.4 New concealed carry weapon fees

The Sheriff's office has not disbursed fees collected for processing new CCW applications in accordance with state law. The Sheriff's office collects $100 to process applications for new CCW permits. Of the $100 collected, $38 is disbursed to the Missouri State Highway Patrol for a federal background check, and the remaining $62 should be disbursed to the County Treasurer. However, disbursements to the County Treasurer have not occurred since April 2011. The office clerk responsible for CCW permits took over these duties in April 2011 and did not know how the monies were to be disbursed. Fees for new CCW permits are deposited into the bond account. Because a listing of liabilities is not maintained for this account, the amount of CCW monies not properly disbursed is unknown.

Section 571.101, RSMo, allows the Sheriff to charge a non-refundable fee of up to $100 for processing an initial CCW application, with that fee to be paid to the treasury of the county to the credit of the Sheriff's Revolving Fund.

To adequately account for collections and reduce the risk of loss, theft, or misuse of funds, the $62 portion of each CCW application fee should be disbursed to the County Treasurer monthly. In addition, the Sheriff's office should review the balance of the bond account to ensure all CCW fees are properly disbursed.

1.5 Civil paper service fees

The Sheriff does not have proper controls to follow up and ensure the timely collection of amounts billed for civil paper service fees. The Sheriff's office collected approximately $11,300 in civil paper service fees and mileage for the year ended December 31, 2012.

The Sheriff's office typically collects a fee prior to performing the civil paper service, and sends a bill for mileage and any remaining fees once the papers have been served. Records of civil papers served and fees assessed are maintained on fee sheets and receipt ledgers. The Sheriff's office personnel indicate on these documents the amount initially paid and the remaining amount to be collected or refunded. However, no one writes "paid" next to billed amounts for which payment has been received and no

follow up is performed on unpaid amounts. As a result, an accurate accounts receivable balance cannot be determined.

To ensure amounts owed are collected on a timely basis, the Sheriff should maintain accurate and complete records of civil paper service fees and properly follow up on all unpaid amounts.

1.6 Bidding

Neither the county nor the Sheriff properly solicited bids or maintained sufficient documentation for the purchase of two patrol vehicles and one truck, totaling $91,716, in 2011. These vehicles were purchased through a lease-purchase agreement. The Sheriff stated he used state contracts to purchase the vehicles, but he was unable to provide documentation to support the state contracts used. In addition, neither the County Clerk's office nor the Sheriff's office had invoices for the vehicle purchases. At our request, invoices were obtained from the bank and the vendors.

The amount initially paid through the lease-purchase agreement for the two patrol vehicles did not agree to each vehicle's actual purchase price. The two patrol vehicles were initially purchased at a price of $33,215 for each vehicle. This amount was the price shown on the order confirmation the Sheriff received; however, the invoices obtained from the vendor reported a purchase price of $24,869 for each vehicle. Bank officials had requested the invoices after the lease-purchase agreement was signed and identified the invoice prices differed from the lease-purchase amount. In June 2011, the vendor refunded the $8,346 price difference for each vehicle to the Sheriff's office and the Sheriff used the monies to reduce the lease-purchase agreement balance. Had the Sheriff obtained invoices following the vehicle purchases and compared the invoices with the amount to be paid through the lease-purchase agreement, this discrepancy would have been avoided.

Section 50.660, RSMo, provides bidding requirements. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Consideration of purchasing options, such as local procurement or the use of state contracts, and the evaluation of various proposals, selection process, and criteria should be clearly documented to demonstrate compliance with applicable laws or regulations and to support decisions made. In addition, to ensure the validity and propriety of all purchases, sufficient documentation, such as invoices, should be maintained.

Similar conditions previously reported

A similar condition to section 1.1 was noted in at least our four prior audit reports and a similar condition to section 1.3 was noted in our prior audit report.

Recommendations

The Sheriff:

1.1 Maintain records of account balances, prepare monthly bank reconciliations, and reconcile to lists of liabilities.

1.2 Adequately segregate accounting duties or ensure supervisory reviews of accounting records are properly performed and documented.

1.3 Indicate the method of payment on all receipt slips and reconcile the composition of receipts to the composition of deposits. Any differences should be promptly investigated and resolved.

1.4 Review the balance of the bond account and ensure accumulated CCW fees as well as future fees collected are disbursed to the County Treasurer for deposit into the Sheriff's Revolving Fund.

1.5 Develop procedures to track, monitor, and pursue collection of civil paper service fees.

1.6 Work with the County Commission to ensure the use of a competitive procurement process for all major purchases and maintain adequate documentation to support decisions made and items purchased.

Auditee's Response

The Sheriff provided the following written responses:

1.1 The clerk is being removed from that position and new support staff will be trained. We will maintain account balances, prepare monthly bank reconciliations, and reconcile to liabilities.

1.2 The Sheriff's office cannot afford to hire another clerk to handle most accounting transactions so the duties cannot be segregated. However, another supervisor will perform a detailed review of the books monthly. I will also continue to perform random checks.

1.3 The method of payment will be recorded by any person receiving funds and a reconciliation to the composition of deposits will be performed at the time the deposit is prepared.

1.4 CCW fees have been turned over to the County Treasurer, and will continue to be done by the new clerk.

1.5 The new clerk will be tracking, monitoring, and pursing collection of civil paper service fees in a more timely manner, and will document such.

1.6 The Sheriff's office will purchase items on a state bid or use a competitive procurement process for major purchases.

The County Commission and the County Clerk provided the following written response:

1.6 The County Commission will set up a policy with the County Sheriff that all items be properly bid and copies be filed with the County Clerk.

2. Sheriff Commissary Account

Accounting procedures and practices for the Sheriff's commissary account, which maintains inmate monies and federal seizure proceeds, need improvement. Deposits for the commissary account totaled approximately $2,100 for the year ended December 31, 2012.

2.1 Receipt procedures and account reconciliation

Procedures for receipting and recording inmate monies are not sufficient. In addition, bank reconciliations are not performed and liabilities are not reconciled with cash balances. As a result, we were unable to ensure all monies are accounted for properly.

The Sheriff's office does not issue receipt slips for inmate monies received and receipts recorded on the commissary log are not reconciled to deposits. As a result, we could not ensure all monies recorded on the log had been deposited. In addition, the Sheriff's office does not prepare a monthly bank reconciliation and does not identify or reconcile liabilities, such as inmate balances and commissary profits, with cash balances of the commissary bank account. An independent review of the bank statement is also not performed. At December 17, 2012, the bank balance of the commissary account was $2,691. Also, records of commissary profits are not maintained. The profits earned on sales to inmates appear to be retained in the commissary bank account.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, the Sheriff should issue pre-numbered receipt slips for all monies received and reconcile the composition of receipts with the composition of deposits. In addition, monthly bank reconciliations should be prepared, and liabilities should be identified and reconciled to cash balances to ensure sufficient cash is available for the payment of all amounts due and all monies in the bank account can be identified. Prompt follow up on discrepancies is necessary to resolve errors and ensure monies are properly disbursed. Also, Section 221.102, RSMo (effective August 28, 2013), requires commissary profits to be deposited into the county Inmate Prisoner Detainee Security Fund.

2.2 Federal seizure proceeds

Purchases made with federal seizure proceeds were not approved by the County Commission and were not handled through the normal county procurement and budget process. In September 2010, the Sheriff's office received $20,000 in proceeds from the Department of Justice Equitable Sharing program related to a federal asset seizure and deposited these monies into the commissary account. Our review noted these monies appear to have been used towards the purchase of at least $16,300 in equipment for the Sheriff's office. No records are maintained to identify the amount of federal seizure proceeds, if any, remaining in the commissary account.

There is no statutory authority allowing the Sheriff to hold county monies outside the county treasury. Section 50.370, RSMo, requires every county official who receives any fees or other remuneration for official services to pay such monies to the County Treasurer. In addition, Attorney General's Opinion No. 45, 1992 to Henderson, states sheriffs are not authorized to maintain a bank account for law enforcement purposes separate from the county treasury. Also, accounting for federal seizures is important to ensure compliance with reporting requirements of Section 513.653, RSMo, and federal guidelines regarding allowable uses, record keeping, and reporting.

Recommendations

The Sheriff:

2.1 Ensure pre-numbered receipt slips are issued for all commissary receipts, and the composition of receipts is reconciled to the composition of deposits. In addition, the Sheriff should ensure a monthly bank reconciliation and listing of liabilities are prepared for the commissary account, compare liabilities to available cash balances, and promptly investigate and resolve any differences. Also, the Sheriff should ensure existing and future commissary profits are turned over to the County Treasurer to be deposited to the Inmate Prisoner Detainee Security Fund.

2.2 Disburse any remaining federal seizure proceeds to the County Treasurer and ensure all future purchases are made through the normal county procurement process.

Auditee's Response

The Sheriff provided the following written responses:

2.1 Receipt slips will be issued and reconciled. Monthly bank reconciliations and listings of liabilities will be prepared and reconciled. Commissary profits will be turned over to the County Treasurer.

2.2 All remaining federal seizure proceeds in this account will be turned over to the County Treasurer.

3. Seized Property

Seized property inventory records are not complete and accurate and a periodic inventory of all seized property is not performed. The Sheriff's office maintained 4 different inventory logs that identified seized property; however, none of the logs included a complete listing of all seized property currently on hand. In addition, none of the logs included property seized during the period of December 11, 2012, through February 4, 2013. The Sheriff and the office clerk were unable to confirm if any property was seized during that time period.

We selected 15 items from the inventory logs to review and could not locate 6 items. The Sheriff indicated 2 items had been disposed of, however, the approval of the dispositions did not appear to be documented and the dispositions had not been recorded on the logs. The Sheriff indicated the other 4 items had been sent to a laboratory for testing; however, no documentation could be provided supporting this property move had occurred.

In addition, a complete record of all seized property sold at the Sheriff's sale in October 2012 was not maintained; therefore, we could not reconcile the property sold with any of the inventory logs or the evidence release forms. We also noted 23 evidence release forms for seized property sold had not been signed by the Judge and/or the Prosecuting Attorney to document approval to sell the property. The Sheriff stated he had received signed release forms for all seized property items sold; however, approved forms for all items could not be provided. The Sheriff's office received $10,355 in proceeds from the sale of seized property.

Considering the often sensitive nature of seized property, accurate and complete inventory records of all seized property items, including information such as description, current location, case number, date of seizure, and disposition of such property, are necessary to ensure all items are accounted for properly. Section 542.301, RSMo, provides guidance for the disposition of unclaimed seized property. Proper disposal of such items would eliminate the significant risks of unauthorized access, use, or theft. Furthermore, adequate documentation should be maintained to support the chain of custody and release of seized property. Also, periodic inventories should be performed and compared to the inventory records of seized property to ensure seized property is accounted for properly.

A similar condition was noted in our prior audit report.

Recommendation

The Sheriff maintain complete and accurate seized property inventory records. Documentation of all seized property dispositions, by sales or other means, should be maintained and the approval for all dispositions should be documented and retained. In addition, the Sheriff should perform a periodic

inventory of seized property, compare it to the seized property inventory records, and investigate any differences.

Auditee's Response

The Sheriff provided the following written response:

The seized property will continue to be logged and an inventory kept. All dispositions will be properly documented and an annual physical inventory will be conducted. The Sheriff's office evidence room was completely full of evidence from previous administrations, and is now in an organized fashion. There have been no items of evidence that have been lost or misplaced.

4. Property Tax System

As noted in at least our 4 prior audit reports, neither the County Clerk nor the County Commission review the financial activities of the County Collector, who processed property tax monies of approximately $5.5 million during the year ended February 28, 2013. The County Clerk does not maintain an account book or other records summarizing property tax transactions each month, such as the total charges, additions, abatements, or delinquent credits. In addition, the County Clerk and the County Commission do not perform procedures to verify the accuracy of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector's annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

Recommendation

The County Clerk maintain an account book with the County Collector. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

Auditee's Response

The County Commission and the County Clerk provided the following written response:

Implementing. The County Clerk now has a spreadsheet to maintain an account book with the County Collector. The County Commission will review the spreadsheet and compare with the County Collector's annual settlements.

5. Prosecuting Attorney Fees

Bad check fees collected by the Prosecuting Attorney's office are not in compliance with state law. Section 570.120, RSMo, requires a fee to be charged on each bad check handled by the Prosecuting Attorney. The fee, based on the amount of the bad check, is turned over to the County Treasurer and deposited to the Prosecuting Attorney Bad Check Fund. The Prosecuting Attorney collected bad check fees totaling approximately $2,500 for the year ended December 31, 2012.

Our review of 15 bad check fees noted the Prosecuting Attorney's office collected fees totaling $230; however, had the fees been charged in accordance with state law, a total of $575 should have been collected. The Prosecuting Attorney indicated she developed a schedule to collect fees using the fees allowed by Section 570.120, RSMo, as a guide, but charged fees less than the amounts authorized by state law.

Recommendation

The Prosecuting Attorney ensure bad check fees comply with state law.

Auditee's Response

The Prosecuting Attorney provided the following response:

I was using an old statute that was changed in 2006. Bad check fees have been charged in accordance with state law since this was brought to my attention. The merchant fees were correct.

6. Officials' Salaries

Salaries paid to most Maries County elected officials during 2012 were not in compliance with state law. In addition, since at least 2009, county officials have been paid salaries that were set as a percentage of the base salary amounts authorized by state statute. For 2012, salaries paid to all county officials, with the exception of the Public Administrator, were set at approximately 96 percent of authorized amounts. However, Section 50.327, RSMo, as amended in 2007, revised requirements regarding base salaries and now provides the minimum amount to be paid to each elected official. The County Commissioners indicated they were not aware of the statutory change affecting base salaries. As a result, by not paying the base salary, the various elected officials were underpaid approximately $13,500 during 2012.

Various state statutes include salary schedules that, according to Section 50.327, RSMo, are to be used as base schedules for those county officials. The County Commission should consult with legal counsel and review salaries paid to elected officials to ensure amounts comply with state law and to evaluate if amounts are owed to officials for any underpaid salaries since 2009.

Recommendation

The County Commission review salaries paid to elected officials since 2009 with legal counsel to ensure amounts comply with state law and to evaluate if any amounts are owed to officials for underpaid salaries.

Auditee's Response

The County Commission and the County Clerk provided the following written response:

Implemented. All elected officials are currently at 100 percent of their base salary, as of July 2013. The County Commission discussed the matter with legal counsel and all back pay has been paid.

7. Capital Assets

As noted in at least our 4 prior audit reports, procedures and records to account for county property are not adequate. In addition, the county does not have adequate procedures in place to identify capital asset purchases and dispositions throughout the year. As a result, the county's capital asset records are not complete and up to date. In 2012, the County Clerk sent a request to all county officials to conduct an annual inventory and submit an inventory report to the County Clerk's office by October 10th in accordance with state law. However, not all officials have conducted the required annual inventory and inventory reports were not prepared by the County Clerk's office, the Sheriff's office, and the Road and Bridge departments.

Adequate capital asset records and procedures are necessary to ensure effective internal controls, meet statutory requirements, and provide a basis for determining proper insurance coverage. Procedures to track capital asset purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for capital assets and potentially identify unrecorded additions and dispositions, identify obsolete assets and deter and detect theft of assets. Section 49.093, RSMo, provides that the officer or the officer's designee of each county department is responsible for performing annual inspections and inventories of county property used by the officer's department and for submitting an inventory report to the County Clerk.

Recommendation

The County Commission and the County Clerk work with other county officials to ensure complete and accurate inventory records are maintained and annual physical inventories are conducted, and implement procedures for tracking capital asset purchases and dispositions throughout the year.

Auditee's Response

The County Commission and the County Clerk provided the following written response:

Implementing. The County Clerk now has a program in place to maintain and track capital asset purchases and dispositions. Annual physical inventories will be conducted.

Maries County
Organization and Statistical Information

Maries County is a county-organized, third-class county. The county seat is Vienna.

Maries County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 34 full-time employees and 18 part-time employees on December 31, 2012.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2013	2012
Ray Schwartze, Presiding Commissioner	$	25,963
Ed Fagre, Associate Commissioner		24,045
Douglas Drewel, Associate Commissioner		24,045
Mark Buschmann, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Rhonda Brewer, County Clerk		36,432
Terry D. Schwartze, Prosecuting Attorney		43,143
Harold Chris Heitman, Sheriff		40,267
Rhonda Slone, County Treasurer		36,432
David H. Martin, County Coroner		10,546
Eugene J. Meyer, Public Administrator		27,879
Jayne Helton, County Collector (2), year ended February 28,	37,180	
Judy (Logan) Honse, County Assessor, year ended August 31,		36,432

(1) Compensation is paid by the state.

(2) Includes $748 of commissions earned for collecting city property taxes.

Financing Arrangements

The county has entered into 4 lease-purchase agreements for road and bridge equipment (including a brush cutter, truck, and motor graders). Principal and interest payments are made from the Road and Bridge funds. The final payment for the lease-purchases is scheduled to occur in 2017. The remaining principal and interest due on the lease-purchase agreements at December 31, 2012, was $850,276.

The county has entered into a lease-purchase agreement for vehicles and computer equipment for the Sheriff's office. Principal and interest payments are made from the Citizens Safety Fund. The final payment for the lease-purchase is scheduled to occur in 2020. The remaining principal and interest due on the lease-purchase agreement at December 31, 2012, was $133,811.

The county has entered into a lease-purchase agreement for computer equipment and software for the County Clerk's office. Principal and interest payments are made from the General Revenue Fund. The final payment for the lease-purchase is scheduled to occur in 2019. The remaining principal and interest due on the lease-purchase agreement at December 31, 2012, was $35,802.

Fifth Judicial Circuit

Buchanan County

June 2014

Report No. 2014-041

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Fifth Judicial Circuit, Buchanan County

Accounting Controls and Procedures

The Circuit Clerk has not adequately segregated accounting duties or limited user access rights in the Justice Information System (JIS), and adequate supervisory reviews of accounting records are not performed. The Circuit Clerk does not ensure monies and related filings are timely processed. Our cash count found 845 checks and money orders totaling $53,582, some which had been on hand for more than 3 weeks and 12 of which were not restrictively endorsed. In addition, we found $83 in a safe that had not been receipted or entered in the JIS, and court personnel did not know the proper disposition of these monies. The Circuit Clerk has not established a mail log to record receipts received in the mail.

Neither the Circuit Clerk nor supervisors review non-monetary, voided and adjusting transactions in the JIS, and supporting documentation for these transaction types is not always adequate. The Circuit Clerk and the 30 court employees have the ability to enter non-monetary transactions and adjust costs in the JIS. The Circuit Clerk and 3 court employees are able to void receipt transactions in the JIS, all 3 of whom use the same password which has not been changed for several years. In addition, documentation was not prepared or retained for some of these transactions. For example, we identified a $600 payment was receipted, then voided, then subsequently receipted for $340 without explanatory documentation.

The Circuit Clerk has not disbursed garnishments within the 10 day holding period as established by Supreme Court Rule. As of July 31, 2013, the court was holding approximately $290,000 in garnishment monies due to garnishors. The Circuit Clerk has not developed adequate procedures to follow up on outstanding checks, and 117 checks, totaling $23,180, had been outstanding for over a year, with 68 of them outstanding for more than 2 years. The Circuit Clerk does not review accrued case costs owed to the court, as required by the court's formal plan for debt, and total accrued costs as of July 15, 2013, were approximately $18.8 million. The court does not properly safeguard or limit access to case files, the Circuit Clerk's signature stamp, blank checks, and unprocessed receipts, which increases the risk of loss, theft, or misuse of funds.

Law Library

The court spent $32,000 during calendar year 2012 for law library publications, subscriptions, equipment and other material, but court personnel do not maintain an inventory list of law library materials and had no documentation that physical inventories were performed.

Juvenile Office Receipts

Subsequent to our fieldwork being completed, the Chief Juvenile Officer reviewed all manual receipt slips issued between January 4, 2012, and September 6, 2013, and determined 37 receipts, totaling $1,330, are unaccounted for and had not been transmitted to the County Treasurer for deposit. Local authorities investigated, but insufficient evidence existed to prosecute anyone. Personnel changes were made and the Juvenile office no longer accepts payments.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 11

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Fifth Judicial Circuit
Buchanan County, Missouri

We have audited certain operations of the Fifth Judicial Circuit, Buchanan County, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2012. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

2. Evaluate the court's compliance with certain legal provisions and court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Buchanan County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with a legal provision and court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Fifth Judicial Circuit, Buchanan County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Todd M. Schuler, CPA
In-Charge Auditor:	Amanda Locke, M.Acct.
Audit Staff:	Andrew Behrens

1. Accounting Controls and Procedures

Significant weaknesses were identified with accounting controls and procedures.

According to court records, receipts collected during the year ended December 31, 2012, totaled approximately $5.6 million. Fines and court costs are collected; recorded in the Justice Information System (JIS), the Missouri Courts automated case management system; and deposited into the Circuit Clerk's general bank account by personnel of the Consolidated Circuit Court offices.

1.1 Segregation of duties and supervisory review

The Circuit Clerk has not adequately segregated accounting duties or limited user access rights in the JIS, and adequate supervisory reviews of accounting records are not performed. The Circuit Clerk and 30 court employees have the ability to assess fees, receipt monies, post non-monetary transactions, and adjust costs in the JIS. In addition, the Circuit Clerk and 5 of these court employees have the ability to prepare deposits and disbursements; of the 5 employees, 3 can void transactions and 1 prepares the bank reconciliation. As a result, there are instances where the Circuit Clerk and some other court employees could be responsible for transactions from initial receipt to disbursement without involvement from other court employees. Neither the Circuit Clerk nor other personnel independent of the cash custody and record-keeping functions provide adequate supervision or review of the work performed by court employees to ensure transactions are appropriate.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties to the extent possible and limiting user access rights in the JIS.

1.2 Receipt processing procedures

The Circuit Clerk has not ensured monies and related filings received are processed in a timely manner. The court had not issued receipt slips or recorded 845 checks and money orders, totaling $53,582, in the JIS for monies on hand during a cash count conducted during July 15 through July 17, 2013. These monies were comprised of receipts for garnishment applications, garnished wages, new court filings, and interrogatories. Some of these checks or money orders had been on hand for more than 3 weeks, and many of these checks or money orders were attached to unprocessed garnishment and new court filing applications. Of the checks and money orders made payable to the Circuit Clerk, we identified 12 checks had not been restrictively endorsed at the time of our cash count.

A significant portion of these unprocessed receipts and related paperwork related to service fees for garnishment applications and new court filings. Many of the payments associated with these applications were made

payable to the Buchanan County Sheriff or other county Sheriffs. The court is not entering these checks or money orders into the JIS system as non-monetary receipts, as recommended in the Office of State Courts Administrator (OSCA) Court Clerk procedure handbook, prior to forwarding them, along with the application, to the applicable payee. In addition, during our cash count, $83 was found in a safe that not been receipted or entered in the JIS, and court personnel did not know the proper disposition of these monies.

The Circuit Clerk and court personnel indicated staffing levels are not sufficient to meet workload demands and as a result, monies and respective paperwork received are not processed timely. Processing receipts and related paperwork timely; posting all receipts to the JIS when received; and restrictively endorsing checks immediately upon receipt helps reduce the risk of loss, theft, or misuse of funds.

1.3 Mail log

The Circuit Clerk has not established procedures to record mail receipts immediately upon receipt. Monies received in the mail are not recorded on a mail log. A clerk initially opens and delivers the mail to various clerks; however, that individual does not record the payments received. Instead, various clerks record and process these monies.

To reduce the risk of loss, theft, or misuse of funds, an initial record of monies received combined with procedures to reconcile these monies to the JIS and deposit records is necessary.

1.4 Non-monetary, voided, and adjusting transactions

Neither the Circuit Clerk nor supervisors review non-monetary, voided, and adjusting transactions in the JIS, and supporting documentation for these transaction types is not always adequate. Non-monetary transactions and case fee adjustments recorded during the year ended December 31, 2012, totaled approximately $4.6 million and $650,000, respectively.

Adjusting and non-monetary transactions, including judicial orders, garnishment payouts, and application of bonds, are transactions where no monies are received; however, a credit is applied or the amount due is changed. The Circuit Clerk and the 30 court employees have the ability to enter non-monetary transactions, and adjust costs in the JIS. In addition, the Circuit Clerk and 3 court employees are able to void receipt transactions in the JIS. These individuals use the same password to void receipt transactions in the JIS and the password has not been changed for several years.

Non-monetary, voided, and adjusting transactions should be supported by documentation or a judicial order. However, documentation was not prepared or retained for some of these transactions. For example, we identified a $600 payment was receipted and voided on December 14, 2012,

and then subsequently receipted for $340. No documentation could be provided to support the reason for these changes.

To ensure all non-monetary, voided, and adjusting transactions are valid and to reduce the risk of loss, theft, or misuse of funds, proper documentation should be maintained and someone independent of receipting and recording function should review and approve these transactions.

1.5 Garnishment disbursements

The Circuit Clerk has not disbursed garnishments in a timely manner. The court's procedure is to disburse the garnishment receipts after the garnishment period (ranging from 30 to 180 days) ends, rather than within the 10-day holding period as established by Supreme Court rule. As of December 31, 2012, the court was holding approximately $330,000 in garnishment monies due to garnishors, most of which had been held more than 10 days. As of July 31, 2013, the court was still holding approximately $290,000 in garnishment monies.

Supreme Court Rule 90.11 states garnishments paid shall be disbursed to the garnishor by the clerk, less costs, within 10 days and without an order of the court if the garnishee has not requested an allowance under Rule 90.12(a). Procedures should be established to ensure disbursement of garnishment payments are timely and in accordance with the Supreme Court rule.

1.6 Outstanding checks

The Circuit Clerk has not developed adequate procedures to follow up on outstanding checks. As of July 31, 2013, JIS records indicate 117 checks, totaling $23,180, had been outstanding for over a year. Sixty-eight of these checks have been outstanding for more than 2 years.

To properly monitor disbursements and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law, procedures should be established to routinely investigate outstanding checks.

1.7 Accrued case costs

The Circuit Clerk does not review accrued case costs owed to the court (court costs, incarceration costs, court-ordered restitution, and fines), as required by the court's formal plan for debt. Total accrued costs as of July 15, 2013, were approximately $18.8 million. We requested the court provide a listing of cases showing accrued case costs over 5 years old and this listing totaled approximately $7.8 million as of August 8, 2013. The court adopted a formal Administrative Plan for Collections of Court Debt, as required by Court Operating Rule 21.11. This plan calls for the court to review accounts receivable reports (accrued case costs) from the JIS and the debt collection vendor at least every 120 days and determine if any accounts should be deemed to be uncollectible and written off by court order. The court has not reviewed the required reports and thus, has not deemed any accounts to be uncollectible.

To ensure the accuracy of the accrued case costs, and to provide the Judge and Circuit Clerk with the necessary information to make a determination about collectability, accrued case costs should be reviewed at least every 120 days in compliance with the court's administrative plan.

1.8 Safeguarding assets

The court does not properly safeguard or limit access to case files, the Circuit Clerk's signature stamp, blank checks, and unprocessed receipts. Case files are maintained in boxes located on the floor in a hallway and easily accessible to the public. Blank checks and the signature stamp are both maintained in areas accessible to multiple employees, some of which do not need these items to perform their job duties. In addition, employees who use the signature stamp do not initial to indicate use nor is there any review of the documents stamped. The majority of unprocessed receipts and related paperwork discussed in section 1.2 were lying on desks throughout the office and accessible to anyone with access to the office.

Without adequate safeguards over records and other property, there is the increased risk of inappropriate access and disclosure of confidential information. To reduce the risk of loss, theft, or misuse of funds, the signature stamp, blank checks, and unprocessed receipts should be adequately safeguarded and proper controls established over use of the signature stamp.

Recommendations

The Circuit Clerk:

1.1 Segregate accounting duties, limit user access rights in the JIS to only those necessary for the user to perform job duties, and implement appropriate reviews and monitoring procedures.

1.2 Record and process all receipts and related paperwork timely and restrictively endorse all receipts immediately upon receipt. In addition, comply with OSCA guidance to record garnishments in the JIS timely.

1.3 Require preparation of an initial record of monies received by mail and reconcile it to the JIS.

1.4 Ensure adequate documentation is maintained to support all non-monetary, voided and adjusting transactions, and ensure an independent review and approval of these transactions is performed and documented.

1.5 Establish procedures to ensure garnishment payments are disbursed timely and in accordance with the Supreme Court rule.

1.6 Develop procedures to routinely follow up on outstanding checks and reissue them if necessary or dispose of these monies in accordance with state law.

1.7 Develop procedures to review accrued costs and uncollectible accounts at least every 120 days in compliance with the court's administrative plan. In addition, the Circuit Clerk should ensure any accounts written off are approved by the Judge with a court order as documentation.

1.8 Ensure court records, property, and monies are properly secured and safeguarded and controls are established over the signature stamp.

Auditee's Response

The Circuit Clerk provided the following responses:

1.1 While many of the employees have access rights to perform certain functions, only myself and three other supervisors have the password and training necessary to adjust costs in the system. I will review access rights for employees and consider segregating duties to the extent possible. I have already initiated a procedure to ensure a supervisor reviews all non-monetary transactions.

1.2 Garnishment and new filing applications are completely caught up and are now being entered into the system the same day received. Checks and money orders are now being restrictively endorsed upon receipt. Effective May 19, 2014, the court will implement e-filing which will significantly reduce the amount of paperwork processed by my office. In addition, we identified the payor of the $83 found in the safe and these monies have been properly returned.

1.3 I will do my best to implement this recommendation.

1.4& 1.6 This recommendation has been implemented.

1.5 This recommendation has been implemented. Garnishments are now paid out timely.

1.8 The case files stored in the hallway have been moved to a secure location and now that we are caught up on processing garnishment applications and new filings, unprocessed monies are no longer in the offices. I have also established controls over the signature stamp.

The Presiding Circuit Judge provided the following written response:

1.7 The Court en Banc met twice in March 2014 to discuss and approve changes to the Court's Administrative Plan for Collection of Court Debt. On March 28, 2014, a First Amended Administrative Plan for Collection of Court Debt was adopted by the Court en Banc. The changes to the Court's Administrative Plan will facilitate the judges being more effective in monitoring and collecting the outstanding debt that each judge determines to be collectible. The amended plan provides that accrued outstanding court costs on cases will be reviewed annually by the Court en Banc. In addition, the Court en Banc in its March 28, 2014, meeting identified a significant number of older cases for which the court costs were deemed to be uncollectible and entered orders to have those amounts written off by the Circuit Clerk.

2. Law Library

Court personnel do not maintain an inventory list of law library materials and could provide no documentation to show that physical inventories of law library materials were performed. Court personnel indicated expenditures for law library publications, subscriptions, equipment, and other materials totaled approximately $32,000 during the year ended December 31, 2012.

The law library, which includes legal publications and technical equipment kept in the library, is maintained for use by court personnel and the community. Physical inventories of law library materials, and reconciliation of those inventories to the inventory records, are necessary to ensure inventory records are accurate, identify unrecorded additions and dispositions, detect and deter theft of assets, and identify obsolete materials.

Recommendation

The Court en Banc and the Circuit Clerk ensure periodic physical inventories of law library materials are performed, reconciled to inventory records, and documented.

Auditee's Response

The Presiding Circuit Judge provided the following written response:

The Court en Banc has adopted procedures for an administrative assistant to prepare a listing of all library materials as they are received. A physical inventory of all library materials will be performed annually in February.

3. Juvenile Office Receipts

In September 2013, subsequent to our audit fieldwork completion, the Chief Juvenile Officer performed a review of manual receipts slips and identified $1,330 in unaccounted for monies. The Presiding Circuit Judge notified the State Auditor's office of the results of this review and subsequent actions taken by court and county personnel.

The Chief Juvenile Officer's review included all 167 manual receipts issued between January 4, 2012, and September 6, 2013. The review determined 37 manual receipts, totaling $1,330, representing payments from juveniles for various classes and substance abuse testing are unaccounted for and had not been transmitted to the County Treasurer for deposit. Multiple employees in the Juvenile office issued manual receipt slips during the period of this review and had access to cash receipts, and there were no procedures in place to verify manual receipts were entered into the accounting system and properly transmitted to the County Treasurer.

The results of the review were turned over to local authorities who conducted an investigation, but insufficient evidence existed to prosecute anyone. Personnel changes were made and the Juvenile office no longer accepts payments.

Fifth Judicial Circuit
Buchanan County
Organization and Statistical Information

The Fifth Judicial Circuit consists of Buchanan County as well as Andrew County.

The Fifth Judicial Circuit consists of four circuit judges and three associate circuit judges. The four circuit judges and two of the associate circuit judges are located in Buchanan County but may assist on cases in Andrew County. These judges preside over Divisions I, II, III, IV, V, and VI. The other associate circuit judge is located in Andrew County. Circuit personnel located in Andrew County are not included in the scope of this audit.

Personnel

At December 31, 2012, the judges, Circuit Clerk, and Juvenile Officer of the Fifth Judicial Circuit, Buchanan County, were as follows:

Title	Name
Circuit Judge, Division I	Randall R. Jackson
Circuit Judge, Division II	Weldon C. Judah
Circuit Judge, Division III	Patrick K. Robb
Circuit Judge, Division IV	Daniel F. Kellogg
Associate Circuit Judge, Division V	Keith Marquart
Associate Circuit Judge, Division VI	Ronald E. Taylor
Circuit Clerk	Mary Beattie
Juvenile Officer	Linda Meyer

Financial Information

Receipts of the Fifth Judicial Circuit, Buchanan County, were as follows:

	Year Ended December 31, 2012
Court deposits, fee, bonds, and other	$5,589,579
Child support	59,789
Interest Income	1,244
Total	$5,650,612

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Fifth Judicial Circuit, Buchanan County, were as follows:

	Year Ended June 30, 2012
Civil	6,038
Criminal	5,918
Juvenile	451
Probate	1,627
Total	14,034

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Members of the General Assembly
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a report regarding federal seizures and the proceeds therefrom to the Department of Public Safety and the State Auditor's office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, my office has compiled the information presented to us by law enforcement agencies. The compilation is limited to presenting information that is submitted. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify those law enforcement agencies that submitted federal forfeiture reports; and

2. Summarize the information reported.

Conclusions regarding compliance cannot be made regarding the law enforcement agencies that did not file a report, but results suggest the majority of law enforcement agencies did not use the federal forfeiture system during 2013.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
In-Charge Auditor:	Becky Webb, CPA, CFE
Audit Staff:	Dana Wansing, MPA

Compilation of 2013 Federal Forfeiture Reports
Executive Summary

Law Enforcement Agencies Required to Submit a Federal Forfeiture Report to the State Auditor's office

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a report regarding federal seizures and the proceeds received therefrom with the Department of Public Safety (DPS) and the State Auditor's office (SAO).

The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training (POST) program and the Justice Assistance Grants (JAG) distribution lists, and notified the law enforcement agencies of the requirement to submit reports if the agencies participated in the federal forfeiture system. The notification also included the federal forfeiture report form developed by the DPS. According to DPS personnel, the list does not represent a complete list of all law enforcement agencies, but includes all law enforcement agencies receiving funding from the DPS. Of the 690 law enforcement agencies on the list, 3 cities responded they no longer have a police department (see Appendix B). Thus, these 3 entities are not included in the reporting status, leaving 687 law enforcement agencies as the total possible reports. The following table summarizes the 2013 reporting.

Reporting Status	Number	Percentage
Agencies reporting participation (Appendix A)	137	19.94 %
Agencies reporting no participation (Appendix B)	198	28.82
Number of agencies reporting	335	48.76
Number of agencies that did not report	352	51.24
Total Possible Reports	687	100.00 %

The majority of law enforcement agencies on the list did not respond and were not required to respond if they did not participate in the federal forfeiture system. The other 335 agencies submitted a report indicating their agency either did not participate in the federal forfeiture system or did participate and provided applicable reporting data.

Law Enforcement Agencies Not Reporting

A total of 352 law enforcement agencies did not file a 2013 federal forfeiture report. Seven of these law enforcement agencies reported a December 31, 2012, fund balance on their 2012 federal forfeiture report, and are listed below.

Cameron Police Department
Eureka Police Department
Hickory County Sheriff's Department
Jefferson County Municipal Enforcement Group (JCMEG)
Normandy Police Department
Park Hills Police Department
Webster Groves Police Department

Conclusions regarding compliance cannot be made for non-reporting law enforcement agencies. This compilation work is not an audit and as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

Note: This appendix shows what each agency reported. Blanks for any item indicate the agency left that item blank and zeroes indicate the agency reported zero.

A Items reported did not mathematically foot. The beginning balance plus receipts minus expenditures did not agree with the ending balance.

B The beginning balance reported as of 01-01-13 does not agree with the ending balance reported as of 12-31-12 in Report No. 2014-006, Compilation of 2012 Federal Forfeiture Reports, or to the law enforcement agency's revised 2012 federal forfeiture report submitted to our office subsequent to release of the compilation report.

C The beginning balance reported as of 01-01-13 does not agree with the ending balance reported as of 12-31-12 in Report No. 2014-006, Compilation of 2012 Federal Forfeiture Reports, but agrees with the 12-31-12 ending balance reported in the law enforcement agency's revised 2012 federal forfeiture report submitted to our office subsequent to release of the compilation report.

D The law enforcement agency did not report in 2012 but has a beginning balance in 2013.

NATURAL RESOURCES

Division of Environmental Quality

Hazardous Waste Program

June 2014

Report No. 2014-043

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Natural Resources, Division of Environmental Quality - Hazardous Waste Program

Hazardous Waste Program Investigations

The Department of Natural Resources (DNR), Hazardous Waste Program has not completed investigations of potential environmental concerns at 23 identified or potential former manufactured gas plants (FMGP). Based on past investigations, it appears these sites have a high probability of hazardous waste contamination. State law requires the DNR to investigate all known or suspected abandoned or uncontrolled hazardous waste sites.

The DNR has not yet completed investigations of potential environmental concerns at 111 former lead smelters and 3,300 former mining waste sites. While these sites are generally exempted from being regulated as a hazardous waste site under state law, the DNR is required to conduct investigations involving releases or potential releases of hazardous substances under its cooperative agreements with the EPA. Lead is recognized as a hazardous material and can pose a threat to public health and the environment.

Brownfield Remediation Tax Credit Program

In April 2014, the Office of State Auditor issued Report No. 2014-023, *Brownfield Remediation Tax Credit Program*, which included findings directed to the DNR, Hazardous Waste Program. For example, the audit questioned several decisions related to the Carondelet Coke Project that resulted in state taxpayers primarily funding remediation costs; and noted a lack of communication between the Department of Economic Development and the DNR which allowed tax credits to be issued for a project that was not properly remediated.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Sara Parker Pauley, Director
Department of Natural Resources
and
Leanne Tippett Mosby, Director
Division of Environmental Quality
Jefferson City, Missouri

We have audited certain operations of the Department of Natural Resources, Division of Environmental Quality, Hazardous Waste Program in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2013 and 2012. The objectives of our audit were to:

1. Evaluate the program's internal controls over significant management and financial functions.

2. Evaluate the program's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the program; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the program's management and was not subjected to the procedures applied in our audit of the program.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Natural Resources, Division of Environmental Quality, Hazardous Waste Program.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	John Luetkemeyer, CPA
Audit Manager:	Dennis Lockwood, CPA
In-Charge Auditor:	Toni Wade
Audit Staff:	Sara Lewis, CPA
	Waleed Atout

Department of Natural Resources
Division of Environmental Quality - Hazardous Waste Program
Management Advisory Report - State Auditor's Findings

1. Hazardous Waste Program Investigations

The Department of Natural Resources (DNR) Hazardous Waste Program has not completed investigations of potential environmental concerns at identified or potential former manufactured gas plants (FMGP), lead smelters, and mining waste sites.

Former manufactured gas plants

The DNR has identified 23 FMGPs or potential FMGPs that have not yet been investigated. The DNR indicated 43 FMGP sites have been investigated and remediated with another 31 FMGP sites currently undergoing investigation or remediation. Of the 74 FMGPs for which an investigation has been started or completed, at least 16 FMGP sites have been enrolled in the Brownfield Voluntary Clean-up Program, 5 sites have been added to the Registry of Confirmed Abandoned or Uncontrolled Hazardous Waste Disposal Sites in Missouri, 4 sites required an EPA removal action, and 10 sites required a voluntary deed restriction to be filed to address the environmental contamination. Based upon past investigations, it appears FMGP sites have a high probability of hazardous waste contamination.

Section 260.440.2, RSMo, requires the DNR to investigate all known or suspected abandoned or uncontrolled hazardous waste sites. Section 260.375(29), RSMo, requires the DNR to control, abate, or clean up any hazardous wastes placed into or on the land in a manner that may endanger the health of humans or the environment, and to recover remediation costs from the person responsible for the waste.

Lead smelter and mining sites

The DNR has not completed investigations of 111 former lead smelters. DNR personnel indicated these sites have a high probability of contamination and/or known or suspected releases of hazardous substances. In addition, the DNR has not investigated approximately 3,300 former mining sites.

Former lead smelters and mining waste sites are generally exempted by state statute from being regulated as a hazardous waste site; however, under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), also known as the Superfund, lead is recognized as a hazardous substance and excessive levels of lead can pose a significant threat to public health and the environment. The DNR has identified about 12,800 known or potential former mining sites, estimated investigations have been conducted for about 9,500 of those sites, and reported the investigations resulted in 10 mining areas in 6 counties containing approximately 7,100 sites being placed on the National Priorities Listing (NPL). The NPL is the list of national priorities among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States and its territories. The NPL is intended primarily to guide the EPA in determining which sites warrant further investigation. The U.S. Environmental Protection Agency is responsible for

remediation of NPL sites. Some individual lead smelter and mining sites in other counties have required remediation. The DNR indicated former mining sites ranged in size from a few square yards up to several hundred acres, and the inventory of former mining sites is based on a review of historical data and references noted in geological and mining industry publications as far back as the early 1800s.

The DNR is required to conduct investigations involving releases or potential releases of hazardous substances under its cooperative agreements with the EPA. The DNR indicated the priority for site investigations is based upon potential risks to human health and the environment; however, adequate funding has not been available to complete all of the lead smelter and mining site investigation work. The preceding DNR statistics regarding investigations are as of April 1, 2014.

Recommendation

The DNR conduct site investigations on all identified and suspected hazardous waste sites as required by state law. In addition, the DNR should conduct investigations of all identified and suspected former lead smelter and mining sites.

Auditee's Response

DNR will continue to prioritize and conduct site investigations of identified and suspected FMGP sites, former lead smelter sites, mining sites, and sites impacted by releases of hazardous substances, in a manner consistent with DNR's cooperative agreements with EPA pursuant to CERCLA, as resources allow. As previously discussed with the Auditor's staff, DNR disagrees with the suggestion that DNR has failed to comply with state law.

2. Brownfield Remediation Tax Credit Program

In April 2014, the Office of State Auditor issued Report No. 2014-023, *Brownfield Remediation Tax Credit Program.* The audit included findings and recommendations directed to the Department of Natural Resources (DNR), Hazardous Waste Program. These findings and recommendations are summarized below.

2.1 Carondelet Coke Project

A number of decisions made several years ago by previous Department of Economic Development (DED) and DNR officials appear questionable. While documentation to fully explain the analytic processes no longer exist, these decisions resulted in previous owners not being required to pay the majority of the cost to remediate environmental issues. Instead, the DED will issue $12.275 million in Brownfield Remediation Tax Credits (BRTCs) to fund the cleanup costs through the BRTC program, while the 2 of 3 responsible parties will pay a total of $942,500. Questionable decisions include:

- Not taking legal action against the most recent owner that produced hazardous materials.

- Not requiring the previous owners to fund more of the costs to remediate the site. One option available to the DNR was to request the EPA to enforce the cleanup under Superfund authority.

DED officials indicated former DED officials had discussed the adequacy of the financial commitments by the two companies and the failure to include the third company or its officials in the agreement. However, the former DED officials, in consultation with former DNR officials, determined seeking additional compensation from those parties would likely require legal action (with no certain outcome) resulting in several years delay to address the environmental concerns. DNR personnel indicated the third and most recent owner refused to engage in negotiations, had filed for bankruptcy, and was believed to have no resources that could be accessed to fund the remediation. However, according to media reports, the owner also owned several industrial coke plants in other states at the time. The report also noted the DNR also did not hold previous owners responsible for environmental damages caused in other hazardous waste sites.

2.2 Remediation oversight

Lack of communication between the DED and the DNR allowed BRTCs to be issued for a project that was not properly remediated. The DED authorized BRTCs totaling $1,814,976 for a project in September 2008, and in March 2009 authorized additional BRTCs totaling $604,038. In February 2011, the DNR, unaware of the additional remediation work for which the additional tax credits were authorized, issued a certificate of completion for the project, and the DED, unaware that the certificate of completion did not encompass the additional remediation activities, issued BRTCs totaling $2,419,014. In early 2012, after receiving a complaint from a subsequent owner, a joint DNR and DED review determined (1) the site was still contaminated, (2) the developer had not properly completed some remedial activities required by the remediation plan, and (3) the DNR had not approved alternative remediation activities that included repainting rather than removing windows.

The DNR subsequently rescinded its certificate of completion for the project, and in September 2012 the Attorney General's office filed a lawsuit against the project developer to recover BRTCs issued. However, in March 2014 the parties agreed to dismiss the case. Also, the DED authorized $462,481 in additional BRTCs for the subsequent owner to perform further remediation activities.

The DED implemented new procedures to require a copy of the DNR approved remediation plan to be on file with the DED prior to authorization of BRTCs and to confirm the DNR had approved activities for which the developer requested any additional BRTCs. The DNR modified its project monitoring procedures to include verification of cleanup test results through independent sampling and testing by DNR personnel.

Recommendations

The DED and the DNR:

2.1 Ensure all reasonable efforts are made to hold responsible parties accountable for environmental damages on BRTC projects.

2.2 Comply with newly implemented procedures to ensure approved remediation activities are properly completed before issuing BRTCs.

Auditee's Response

The DED and the DNR provided the following responses.

2.1 DNR will continue to work to hold responsible parties accountable for environmental damages as warranted while working with DED to assist in the remediation of contaminated properties in order to protect the environment and return such properties to productive reuse. As indicated in the audit, DED has not authorized tax credits to any parties causing environmental issues for any of the projects reviewed. A number of decisions regarding efforts by DNR to hold potentially responsible parties liable for contamination in the project primarily discussed in the audit were made during the 1990s. DNR will continue to insure the remediation of contaminated properties.

2.2 DED and DNR will continue to comply with all procedures to ensure approved remediation activities are properly completed before issuing tax credits.

Department of Natural Resources
Division of Environmental Quality - Hazardous Waste Program
Organization and Statistical Information

The Hazardous Waste Program is under the supervision of the Department of Natural Resources (DNR), Division of Environmental Quality. The goal of the Hazardous Waste Program (HWP) is to protect human health and the environment from threats posed by hazardous waste. The program encourages the reduction of hazardous waste generation, regulates the management of hazardous waste, oversees the cleanup of contamination, promotes property reuse, and regulates removal and cleanup of petroleum storage tanks in the state of Missouri.

The HWP program includes the following sections: Brownfield Voluntary Cleanup, Superfund, Permits, Tanks, Compliance and Enforcement, Federal Facilities, and Budget and Planning. For the 2 years ended June 30, 2013, the DNR reported the numbers of clients served at sites subject to monitoring by the various sections were:

Site Type	2013	2012
Hazardous Waste Generators	4,664	4,629
Underground Storage Tanks	3,530	3,558
Brownfield Voluntary Cleanup	328	354
Superfund	309	309
Federal Facility	306	306
Drycleaner	187	209
Treatment, Storage, and Disposal	94	93
Resource Recovery	28	27
Total sites	9,446	9,485

The Hazardous Waste Management Commission has seven members appointed by the Governor who each serve a four-year term. The commission promotes hazardous waste recycling, reuse and reduction; adopts and modifies rules to implement the hazardous waste statutes; holds hearings on rules, complaints and permit appeals; and is empowered to grant variances. All members shall be representative of the general interest of the public and shall have an interest in and knowledge of waste management and the effects of improper waste management on the health and the environment. The Commission members do not have a direct role in the day to day program operations.

Commission Members at June 30, 2013

Commissioner	Term Expires
Andrew J. Bracker	April 3, 2011 (1)
James T. Frakes	April 3, 2012 (1)
Elizabeth B. Aull	April 3, 2012 (1)
Charles Adams	April 3, 2012 (1)
Michael R. Foresman	April 3, 2013 (1)
Deron Sugg	April 3, 2013 (1)

(1) Members continue to serve until a replacement is named.

Sara Parker Pauley currently serves as the Director of the DNR, and Leanne Tippett Mosby currently serves as the Director of the Division of Environmental Quality. David J. Lamb currently serves as the Program Director of the Hazardous Waste Program. At June 30, 2013, the Hazardous Waste Program had 141 employees.

Missouri State Auditor

City of DeWitt

June 2014

Report No. 2014-044

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of DeWitt

Water Fund Financial Condition	Based on the current water rate structure, the city cannot generate sufficient revenues to cover the costs of operating and maintaining the water system, and the Water Fund cash balance has declined in recent years. The city did not perform an analysis or prepare a statement of costs before implementing a $5 monthly surcharge for each water account.
Utility Controls and Procedures	The city does not maintain adequate utility account ledgers to document total monthly billings and collections, and outstanding customer account balances. The City Clerk does not maintain an adequate receipt ledger. The city does not maintain a centralized list of customer deposits, and customer deposits are not maintained in a separate fund or bank account.
Accounting Controls and Procedures	The city transferred restricted monies from the Street Fund to the Water Fund to meet the Water Fund's obligations. The city has not adequately segregated the duties of the City Clerk, does not prepare annual budgets for city funds as required by state law, and the City Clerk does not prepare formal bank reconciliations. Not all authorized signatories on the city bank accounts are covered by the city's bond.
Ordinances, Meeting Minutes, and Contracts	City ordinances are not complete, well organized, or up to date. The city did not prepare formal minutes of some Board meetings and did not retain copies of the agenda for some Board meetings. The city did not have or could not locate contracts or agreements between the city and the public water supply district that supplies water to the city, the Water System Consultant, or the City Attorney.
Payroll and Related Issues	The City Clerk did not prepare or submit documentation to the Board to support commission amounts she received as City Collector. The city classified the Meter Reader as an independent contractor without documenting reasons, and the City Clerk incorrectly reported net rather than gross wages as Social Security and Medicare wages on the 2012 W-2 forms.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 14

THOMAS A. SCHWEICH
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of DeWitt, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of DeWitt. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2013. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of DeWitt.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Susan J. Beeler, CPA, CIA
In-Charge Auditor:	Patrick M. Pullins, M.Acct., CISA

1. Water Fund Financial Condition

Water rates are not sufficient to pay for the costs of services provided. As a result, the Water Fund cash balance has declined in recent years, causing the Board of Aldermen to subsidize the Water Fund from the Street Fund to avoid a deficit cash balance. Customer utility deposits, which totaled $1,700 as of June 30, 2013, are also maintained in this fund. The table below reflects the ending cash balance of the Water Fund over the last 5 years:

Ending Cash Balance, Year Ended June 30,				
2013	2012	2011	2010	2009
$ 2,901[1]	1,103	5,463	9,716	6,193

[1] Includes a $5,000 transfer from the Street Fund. Without the transfer, the cash balance would have been negative $2,099.

The city water billing structure charges all customers a minimum fee per month, which includes the first 1,000 gallons of water usage. The next two 1,000 gallon increments (up to 2,000 gallons and up to 3,000 gallons) are billed at slightly decreasing rates. All gallons over 3,000 gallons are billed at the same rate the city pays the local public water supply district (PWSD) for the water supplied.

Based on this rate structure, the city cannot generate sufficient revenues to cover the costs of operating and maintaining the water system. In addition, the city did not perform an analysis or prepare a statement of costs before implementing a $5 monthly surcharge for each water account to offset some of these losses. Due to the immediate need of monies in the Water Fund, the city transferred restricted monies from the Street Fund to the Water Fund in order to pay current Water Fund invoices (see MAR finding number 3.1).

Water fees are user charges which should cover the cost of providing the service. The city should perform a detailed review of its water costs, including depreciation, evaluate the current fee structure at all levels, and set rates to cover the total cost of operation. Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs, which shows the increase is necessary to cover costs of providing the service. Preparing a statement of costs would not only allow the city to determine the rates necessary to support current and future operations, but also provide documentation to customers of the rationale behind the rate set.

Recommendation

The Board of Aldermen document formal reviews of water rates periodically and set the water rate to ensure revenues are sufficient to cover all costs of providing these services, including reserves for future capital improvements, and to support any rate increase.

Auditee's Response

The Board of Aldermen provided the following response:

Within the next four months we will be contracting for a formal rate study. We will set rates as needed based on that study. In addition, we will

periodically review rates to ensure they are sufficient to cover costs. We will also consider rate increases when the public water supply district raises rates. We will document these rate reviews to ensure we are in compliance with the law.

2. Utility Controls and Procedures

Controls over city utilities are not adequate.

The City of DeWitt provides water and trash services to customers and maintains approximately 60 utility accounts. The city bills customers monthly for each service, and uses the funds collected to pay the service providers. According to city records, water receipts totaled $26,177 and trash receipts totaled $5,745, for the year ended June 30, 2013.

2.1 Utility records

The city does not maintain adequate utility account ledgers. As a result, total monthly billings and collections, and outstanding balances of customer accounts cannot be easily determined. Additionally, the City Clerk does not maintain an adequate receipt ledger to support deposit amounts and details.

The city employed two different City Clerks during the year ended June 30, 2013, and each used a different utility account ledger. The current City Clerk's utility account ledger contains individual pages for each account. The first page relates to water billings and includes columns to indicate the current meter reading, usage (determined by manually subtracting the previous reading from the current reading), costs to be billed, and payments received. The second page shows trash fees billed and trash payments received.

Billings and balances

There is no indication in the utility account ledger of the total amount billed to each customer; rather, this must be determined by totaling the water and trash pages for each account. In addition, neither of the two utility account ledgers contained a running balance of each customer's outstanding balance. While most customers paid their utility bills monthly and in full, some customers only made partial payments or pre-paid their bills in advance. Both City Clerks made notations in the ledgers when this occurred, but we identified instances where the notation was not taken into account when preparing the subsequent billing, resulting in customers receiving incorrect bills.

Receipt records

The City Clerk does not maintain an adequate receipt ledger to record receipts that make up each deposit, nor does she record the method of payment (cash, check, or money order) for payments received. Prior to March 2013, the City Clerk did not maintain any receipt ledger. Instead, she recorded the applicable portion of each payment received on the water page and the trash page of the utility account ledger. The receipt date was not always recorded with these amounts. Starting in March 2013, the City Clerk began keeping a receipt ledger to document receipts making up each

deposit. However, total receipts by customer and the date and method of payment for each receipt is not recorded in the ledger.

Because the city does not (1) issue separate receipt slips for utility payments received [instead using the billing stub as a receipt slip], (2) record the method of payment for receipts, and (3) maintain an adequate record of receipts making up each deposit, there is insufficient documentation to verify the amount of utility receipts. As a result, it is difficult to reconcile payments from the ledgers to the bank deposits.

Conclusion

Documentation of total billings, collections, and outstanding balances of customer accounts, as well as maintaining a detailed receipt ledger with receipt dates and notations of the method of payment for each receipt is needed to ensure all utility costs are billed, collected, and deposited, and to reduce the risk of loss, theft, or misuse of monies.

2.2 Customer deposits

The city is not maintaining complete and adequate records related to water customer deposits. In addition, customer deposits, which constitute a liability of the city, are maintained in the Water Fund and sufficient money would not have been available to cover the deposit liability at June 30, 2013, if the city had not subsidized the Water Fund from the Street Fund to avoid a deficit fund balance (see MAR finding number 1). Customer deposits totaled $1,700 as of June 30, 2013, when adding together the individual deposit amounts indicated in the utility account ledger.

According to city policy, all new water customers are required to pay a refundable water deposit, although the city has not adopted a formal ordinance requiring deposits (see MAR finding number 4.1). Currently the city collects a $100 deposit from all new customers; however, varying amounts have been collected in the past.

The city does not maintain a centralized list of customer deposits. Instead, deposits are recorded in notations in the margins on the manual utility account ledger for each account. Therefore, the city is not aware of the total amount of monies necessary to refund the deposits, if required. Additionally, we noted unexplained differences in individual deposit amounts between the two utility account ledgers used during the year ended June 30, 2013.

Maintaining customer utility deposits in a separate fund or bank account, preparing a complete and accurate listing of the deposit liability, and periodically reconciling to the fund or account balance is necessary to ensure sufficient funds are on hand to cover potential utility deposit liabilities, provide a record of monies held for individual customers, and allow for prompt detection of discrepancies.

Recommendations

The Board of Aldermen:

2.1 Ensure records are maintained to document customer account balances and total billings and collections. In addition, the Board should ensure receipt listings are maintained that show total amounts received from each customer, as well as the date and method of payment for each receipt. The composition of receipts should be reconciled to the composition of deposits to ensure all monies are properly deposited.

2.2 Establish a separate fund or account for utility deposits, prepare a monthly listing of liabilities, and reconcile this list to the reconciled fund or bank balance monthly.

Auditee's Response

The Board of Aldermen provided the following responses:

2.1 We will implement this recommendation. We will update our ledger books to ensure all necessary information is documented. We have started maintaining a complete receipt ledger, including composition of receipts. We will reconcile the composition of receipts to the composition of deposits to ensure all monies are properly deposited.

2.2 We will open a separate bank account for the water deposits. We will prepare a list of all water deposits on hand and will reconcile that list to the monthly bank statement of the new account.

3. Accounting Controls and Procedures

Accounting controls and procedures are in need of improvement.

3.1 Restricted funds

The city transferred $5,000 in restricted monies from the Street Fund to the Water Fund in November 2012 and again in July 2013. City officials authorized these transfers because the Water Fund had an insufficient balance to meet the fund's payment obligations. The Street Fund is used to account for state motor vehicle-related revenues (legally restricted for street-related use), utility franchise tax revenues (restricted by ordinance for street lighting use), and railroad and utility tax revenues (not legally restricted). The city does not separately track the restricted and non-restricted monies within the Street Fund. Expenditures from the Street Fund during the fiscal year (not including the transfer) totaled $3,570.

City officials indicated the decision to transfer restricted Street Fund monies to the Water Fund was made because monies had been transferred from the Water Fund to the Street Fund in 2005, 2007, and 2008 (totaling $22,656) to pay for paving city streets. However, monies in both funds are restricted for

their intended purposes, and there should be no transfers between these funds. Based on these prior transfers there may be remaining interfund liabilities that need to be resolved between these two funds to ensure restricted monies are used properly.

Article IV, Section 30, Missouri Constitution, requires motor vehicle-related receipts apportioned by the state of Missouri be disbursed for street-related purposes and city Ordinance Section 10-20 requires utility franchise tax revenues to be used for street lighting and other municipal electric bills. Because the city does not separately track restricted and non-restricted monies in the Street Fund, the city cannot ensure restricted monies were used appropriately and were not transferred to the Water Fund. In addition, receipts of the Water Fund represent user fees restricted for the operation of the water system, which would be limited to buying and delivering the water to customers, repaying debt, if applicable, and repairing and replacing infrastructure.

3.2 Segregation of duties and supervisory review

The city has not established an independent oversight or adequate segregation of duties related to the City Clerk's activities.

The City Clerk's duties include receiving and depositing monies, recording receipts and disbursements, preparing and distributing checks, and preparing monthly and year-end financial reports. The City Clerk also acts as City Collector and prepares property tax bills and maintains tax records. In addition, the City Clerk signs checks and receives the bank statements. Many of the City Clerk's duties would normally be performed by a City Treasurer; however, the city does not have an individual serving in this position and there is no evidence the Board provides adequate supervision or review of the work performed by the City Clerk/Collector.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. Attorney General's Opinion No. 24, 1955 to Dodds, concluded that in a fourth-class city, the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these offices, by the same person at the same time would be incompatible. If segregating duties is not possible, a timely supervisory review by the Board of Aldermen should be performed and documented.

3.3 Budgets

The city does not prepare annual budgets for city funds as required by state law.

Section 67.010, RSMo, requires the preparation of an annual budget that shall represent a complete financial plan for the ensuing budget year, and also sets specific requirements for information to be included in the budget. Section 67.080, RSMo, provides that no expenditure of public monies shall be made unless it is authorized in a budget.

A complete and well-planned budget, in addition to meeting statutory requirements, serves as a means to manage city resources, assists in setting tax levies, and informs the public about city operations and current finances.

3.4 Bank reconciliations

The City Clerk does not prepare formal bank reconciliations for the two bank accounts (operating and water).

The City Clerk receives bank statements monthly and compares the checks that have cleared the bank to the manual check registers. The City Clerk makes a checkmark notation on the registers to indicate the checks have cleared; however, she does not prepare a list of outstanding checks. Additionally, other reconciling items, such as interest posted to the account, are not documented.

The preparation and independent review of formal monthly bank reconciliations is necessary to ensure accounting records are in balance and to identify errors in a timely manner.

3.5 Official bonding

The Mayor and Mayor Pro-Tem, who are authorized signatories on the city bank accounts, are not covered by the city's bond. Failure to properly bond individuals who have access to funds exposes the city to risk of loss.

Recommendations

The Board of Aldermen:

3.1 Determine and resolve interfund liabilities and discontinue transferring monies between restricted funds.

3.2 Adequately segregate the duties of the City Clerk/Collector. At a minimum, there should be a documented supervisory review of the city records and reconciliations.

3.3 Prepare annual budgets that include all information required by state law, and ensure the budget is formally approved and the approval is documented in the Board minutes.

3.4 Prepare formal bank reconciliations monthly, including listings of outstanding checks, deposits in transit, and other reconciling items; and investigate and promptly resolve any discrepancies.

3.5 Maintain bond coverage for all officials with access to city assets.

Auditee's Response

The Board of Aldermen provided the following responses:

3.1 We agree and will implement this recommendation.

3.2 Segregation of duties is not possible due to having only 1 employee. However, the Mayor has been doing a review of some records, but

this review was not documented. He will start documenting his review of various city records and reconciliations.

3.3 We will implement this recommendation starting with fiscal year 2015.

3.4 We have implemented this recommendation. In addition, the Mayor will review the bank reconciliations as part of his monthly review.

3.5 We will consider obtaining bond coverage for all check signers.

4. Ordinances, Meeting Minutes, and Contracts

City ordinances are not well maintained, meeting minutes and agendas are not always prepared and retained, and written contracts are not always prepared to document contractual relationships.

4.1 Ordinances

City ordinances are not complete, well organized, or up to date. Many ordinances are old and no longer relevant but have not been updated or rescinded by the Board. In addition, some relevant issues are not addressed in the city ordinances.

Several city ordinances conflict with current city practices. For example, according to city ordinance, the Mayor and members of the Board of Aldermen are each to be paid a salary; however, none of them are currently paid a salary. Ordinances set the City Clerk's salary at $10 per year and the City Collector's commission at 5 percent of property tax collections; however, the current City Clerk salary is $200 per month and the City Clerk currently receives a 10 percent Collector commission on property tax collections. Other ordinances that are outdated or not followed include one requiring all able-bodied males to spend 2 days each year working on city streets, another requiring a city prison, and others related to specific contracts for trash collection and street lighting that have ended.

In addition, the city does not have ordinances addressing current issues, such as conflicts of interest for board members or city employees, purchasing and bidding rules and procedures, fees for late utility payments, water deposit amounts, and procedures related to Sunshine Law (Chapter 610, RSMo) requests, including naming a Custodian of Records and establishing a fee structure for records requests.

Since ordinances represent legislation passed by the Board to govern the city and its residents, it is important ordinances be maintained in a complete and up-to-date manner.

4.2 Board minutes and agendas

Formal minutes of the July, October, and November 2012 Board meetings were not prepared and the city did not retain copies of the agenda for the July 2012, October 2012, February 2013, or April 2013 Board meetings to

demonstrate compliance with the Sunshine Law, related to public notification.

In one instance, according to a city newsletter published by the current Mayor (then a member of the Board of Aldermen), the prior City Clerk failed to post the notice of the July 26, 2012, special meeting as required by the Sunshine Law. When the Board realized the meeting was not posted as required by the Sunshine Law, the decision was made to destroy the minutes and not recognize the meeting as being an official meeting of the Board. However, Section 610.010(5), RSMo, defines a public meeting as "any meeting of a public governmental body subject to sections 610.010 to 610.030 at which any public business is discussed, decided, or public policy formulated."

Section 610.020, RSMo, requires a tentative agenda and a meeting notice be posted at least 24 hours prior to all meetings of a public governmental body. In addition, minutes serve as the only official permanent public record of decisions made by the Board. Therefore, it is imperative that the minutes be prepared and retained to document all business conducted.

4.3 Written contracts

The city could not locate or does not have written contracts or agreements with certain outside parties.

- The city could not locate copies of any contract or agreement between the city and the PWSD that supplies water to the city. According to the City Clerk, the two parties created the city water system in the 1950s, and the City Clerk is unaware of any documented agreement.

- The city does not have written contracts with the individuals who serve as the Water System Consultant or with the City Attorney. The city pays the Water Consultant a $100 per month retainer and the City Attorney a $50 per month retainer.

Clear and detailed written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city monies are used appropriately and effectively. In addition, Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

Recommendations

The Board of Aldermen:

4.1 Ensure ordinances are maintained in a complete and up-to-date manner.

4.2 Ensure notices and tentative agendas for board meetings are posted and retained, and meeting minutes are prepared and maintained for all meetings.

4.3 Enter into written contracts or agreements defining services provided and benefits received.

Auditee's Response

The Board of Aldermen provided the following responses:

4.1 We will work on updating ordinances over the next six months to a year.

4.2 We will ensure all future agendas and meeting minutes are prepared and retained. We will also ensure all meeting notices are posted.

4.3 We will implement this recommendation.

5. Payroll and Related Issues

The city does not maintain adequate documentation to support additional compensation paid to the City Clerk and is not in compliance with salary and wage reporting requirements.

5.1 Collector commissions

The City Clerk did not prepare or submit documentation to support the commission amount received for her duties as City Collector. During the year ended June 30, 2013, the City Clerk received an additional $312.

The City Clerk receives a 10 percent commission on property taxes collected for her role as City Collector, in addition to her salary of $200 per month. However, there is no documentation prepared or submitted to the Board to support the calculation of the commission amount. Rather, the amount is simply shown as an increase in the amount of salary due to the City Clerk on the list of bills to be approved at the next board meeting.

Adequate documentation should be maintained to support all payments made. Without obtaining and properly reviewing adequate documentation, the city cannot determine the validity and propriety of disbursements.

5.2 Wage and salary reporting

The city has classified the Meter Reader as an independent contractor and has not accurately reported wages earned by employees in the position of City Clerk.

Employment classification

The city did not document reasons for classifying the meter reader position as an independent contractor instead of as a city employee. In addition, the city failed to withhold and report payroll and income taxes on payments to each of the individuals who served as meter reader during 2013, who each received a $200 per month salary. These payments were reported to the Internal Revenue Service (IRS) on Form 1099-MISC.

The City Clerk indicated the decision to report payments to meter readers using a Form 1099-MISC resulted from a previous person in that position requesting the city not withhold any payroll taxes from his payroll check.

Section 105.300, RSMo, defines an elected or appointed officer or employee of a political subdivision as an employee for Social Security and Medicare tax purposes. For employees, the IRS requires employers to report employee compensation on W-2 forms and withhold and remit income and payroll taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes. State and federal laws require employers to pay the employer's share of Social Security and Medicare on the compensation paid to employees. Proper classification of employees is necessary to ensure compliance with various state and federal laws and regulations.

W-2 forms

The City Clerk completed the 2012 employee W-2 forms incorrectly. The City Clerk inaccurately reported net wages rather than gross wages as Social Security and Medicare wages for all three individuals employed as City Clerk during 2012, resulting in an underreporting of $158.

Conclusion

The failure to withhold and properly report payroll and income taxes for city employees makes the city potentially subject to additional tax liabilities along with penalties and interest.

Recommendations

The Board of Aldermen:

5.1 Require adequate documentation to support any additional compensation paid to city employees.

5.2 Ensure all persons hired are properly classified as employees or independent contractors in compliance with state and federal laws and regulations, and all compensation paid is subject to income and payroll taxes and properly reported.

Auditee's Response

The Board of Aldermen provided the following responses:

5.1 We will implement this recommendation.

5.2 Starting in January 2014 we are now classifying the Meter Reader as an employee. Going forward we will ensure W-2 forms are properly prepared.

City of DeWitt
Organization and Statistical Information

The City of DeWitt is located in Carroll County. The city was incorporated in 1910 and is currently a fourth-class city. The city employed two part-time employees on June 30, 2013.

City operations include water utilities, trash service (provided through the Carroll County Solid Waste Authority), street maintenance, and a city park.

Mayor and Board of Aldermen

The city government consists of a mayor and four-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen at June 30, 2013, are identified below. The Mayor and Board of Aldermen members receive no compensation.

Jesse Lybarger, Mayor
Billie Gay White, Alderwoman, Ward 1
Veronica Elliott, Alderwoman, Ward 1
Pam Vanatti, Alderwoman, Ward 2
Alvin Whitmill, Alderman, Ward 2

Financial Activity

A summary of the city's financial activity for the year ended June 30, 2013, follows:

City of DeWitt
Schedule of Receipts, Disbursements, and Changes in Cash Balances
Year Ended June 30, 2013

	General Fund	Street Fund	Water Fund	Special Water Fund (1)	Totals

Webster County Procurement Procedures and County Clerk

June 2014

Report No. 2014-045

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Webster County Procurement Procedures and County Clerk

Improper Purchases, Missing Receipts, and Unauthorized/Unapproved Purchases	The former Administrative Assistant to the County Clerk made a total of at least $17,676 in improper personal purchases with county credit cards, county charge accounts, and county checks, and this activity remained undetected for more than 3 years. In addition, this employee did not transmit $201 received to the County Treasurer, and additional monies could be missing. This employee also purchased $774 worth of items, including gift cards, a clock, and head phones, without authorization. Billy Breitenstein, the former Administrative Assistant, was charged with felony stealing and fraudulent use of a credit device on June 9, 2014.
Procurement Controls and Procedures	The County Commission and County Clerk did not adequately segregate county procurement duties or provide adequate oversight, which allowed the misappropriation to continue undetected for a significant period of time. In addition, the Administrative Assistant was allowed to use flextime during the regular work week and he sometimes worked when no one else was present, which likely contributed to the misappropriation of funds. The County Commission and the County Clerk did not perform adequate reviews of vendor jackets, credit card statements, invoices, or other supporting documentation. The Administrative Assistant sometimes created, altered, or did not submit credit card statements for review, and also misclassified purchases in the county's accounting system to conceal improper purchases. The County Commission and County Clerk lack adequate physical controls and written policies to ensure the appropriate usage of credit cards. Neither the County Commission nor the County Clerk performed adequate reviews of Staples charge account activity and supporting documentation, which allowed improper personal and unauthorized purchases. Also, because there was no reconciliations of invoices to the vendor jacket, the county overpaid Staples $1,000 in January 2013. Staples applied the overpayment to subsequent purchases, but $360 is still due the county.
County Clerk Receipts	The County Clerk did not adequately segregate accounting duties or provide adequate oversight of receipts, transmittals, and related records, which increases the risk of loss, theft, or misuse of funds going undetected. The county's controls and procedures over receipting and transmitting monies are not sufficient, and there is no assurance all monies received are transmitted. The Administrative Assistant and other office personnel did not always issue receipt slips for monies received, indicate the method of payment, issue receipt slips in numerical sequence, retain copies of voided and blank receipt slips, and did not record some monies received on the month-end transmittal report and transmit them to the County Treasurer.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
County Clerk of Webster County

We have audited certain county disbursement operations and the County Clerk of Webster County. During our audit of Webster County in fulfillment of our duties under Section 29.230, RSMo, it was determined county funds had been misappropriated. The scope of our audit included, but was not necessarily limited to January 1, 2012, through July 26, 2013. The objectives of our audit were to:

1. Evaluate the County Commission's and County Clerk's internal controls over significant management and financial functions.

2. Evaluate the County Commission's and County Clerk's compliance with certain legal provisions and county policies.

3. Determine the extent of misappropriated county funds and monies missing.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions but noncompliance with county policies, and (3) misappropriated county funds and missing monies totaling at least $18,651. The accompanying Management Advisory Report presents our findings arising from our audit of certain disbursement operations of Webster County and the Webster County Clerk.

An audit of certain operations of Webster County, fulfilling our obligations under Section 29.230, RSMo, is still in progress, and any additional findings and recommendations will be included in the subsequent report.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Pamela Allison Tillery, CPA
In-Charge Auditor:	Roberta Bledsoe
Audit Staff:	Michelle Crawford, M.Acct., CIA

Webster County Procurement Procedures and County Clerk Management Advisory Report
State Auditor's Findings

1. Improper Purchases, Missing Receipts, and Unauthorized/ Unapproved Purchases

The former Administrative Assistant to the County Clerk made improper purchases with county credit cards, county charge accounts, and county checks, and this activity remained undetected for more than 3 years. In addition, this employee did not transmit some monies received to the County Treasurer. Significant weaknesses in internal controls and record-keeping procedures resulted in these misappropriations occurring and going undetected for a significant period of time.

Numerous improper purchases for personal items totaling at least $17,676 were made from May 28, 2010, to July 26, 2013. Weaknesses with the county's procurement function indicate additional county funds could have been misappropriated. In addition, $201 of various fees and all-terrain vehicle (ATV) permit monies collected between July 9, 2012, and May 28, 2013 in the County Clerk's office were not transmitted to the County Treasurer. Problems with ATV permit and liquor license records indicate additional monies collected in the County Clerk's office could be missing. Also, various items totaling $774 purchased without authorization or approval from March 18, 2013, to July 8, 2013, were found in the County Clerk's office after termination of the Administrative Assistant.

In August 2013, personnel in the County Clerk's office determined the Administrative Assistant had fraudulently acquired a county credit card. At the request of the County Commission and County Clerk, the County Prosecuting Attorney contacted the Missouri State Highway Patrol (MSHP) on August 9, 2013, to investigate a fraudulently acquired credit card, missing records, and unauthorized access into the county's accounting system. The County Commission and County Clerk notified the State Auditor's office (SAO) on October 1, 2013, of their concerns and the related MSHP investigation, and provided documentation showing some improper purchases. Audit work by the SAO identified additional improper purchases and missing monies.

Billy Breitenstein, the County Clerk's Administrative Assistant, was terminated on July 26, 2013, for reasons unrelated to misuse of county credit cards. He was charged with felony stealing and fraudulent use of a credit device on June 9, 2014. The MSHP investigation discovered some improperly purchased items (e.g., an external hard drive, guns, and a taser) that were located in the Administrative Assistant's residence. Mr. Breitenstein was primarily responsible for all county procurement and accounting duties (assumed the duties of the accounts payable clerk who left county employment in March 2010), and receipting and transmitting of monies for the County Clerk's office.

As stated in the State Auditor's Report, the scope of our audit included, but was not necessarily limited to the period January 1, 2012, through July 26, 2013. After identification of possible misappropriation of county funds, we

applied limited procedures to county disbursement operations for the period March 1, 2010, through December 31, 2011.

The Administrative Assistant made numerous improper personal purchases totaling at least $17,676 using county funds. These purchases were made using county credit cards ($16,077), the county's Staples charge account ($1,457), and county checks ($142). The Administrative Assistant used various methods to conceal many of these personal purchases. In addition, cash receipts for various fees totaling $161 recorded on receipt slips issued by personnel in the County Clerk's office were not transmitted by the Administrative Assistant to the County Treasurer. An additional $40 associated with the issuance of ATV permits by the Administrative Assistant was not transmitted to the County Treasurer during this time period. Also, various items that had not been authorized/approved, totaling $774, were purchased by the Administrative Assistant through use of the county's Staples charge account. These items were found in the County Clerk's office after termination of the Administrative Assistant. See MAR finding numbers 2 and 3 for more information regarding these various transactions.

Conclusion

The lack of adequate controls and procedures and the absence of proper oversight by the County Commission and County Clerk, as further discussed throughout this report, resulted in the untimely detection of the misappropriated and missing monies. The Supporting Documentation of Improper Purchases, Missing Receipts, and Unauthorized/Unapproved Purchases section at the end of this report provides details regarding the misappropriated and missing monies.

Recommendation

The County Commission and County Clerk work with law enforcement authorities regarding any criminal prosecution and take necessary action to recover the misappropriated monies.

Auditee's Response

The County Commission and County Clerk provided the following written response:

The County Commission and County Clerk will work with and fully cooperate with law enforcement, the judicial system, and any other authorities regarding any and all criminal prosecutions and take any and all necessary action to recover the misappropriated monies.

2. Procurement Controls and Procedures

Significant weaknesses exist in the procurement controls and procedures of the county.

2.1 Segregation of duties and oversight

The County Commission and County Clerk did not adequately segregate county procurement duties or provide adequate oversight of procurement functions and records. The Administrative Assistant was primarily responsible for all county procurement duties, including obtaining approved invoices from county officials, filing and retaining invoices, entering the invoices into the computer system, generating a vendor jacket (a summary of invoices used by the County Clerk and County Commission to document their review and approval), and printing and mailing checks. In addition, the Administrative Assistant often acted as a purchasing agent and made purchases for several county offices. The County Commission and County Clerk did not perform adequate reviews of vendor jackets, credit card statements, invoices, and other supporting documentation.

Also, according to County Clerk's office personnel, the Administrative Assistant was allowed to use flextime during the regular work week (Monday through Friday), and he sometimes worked when no one else was present in the courthouse. This unsupervised time likely contributed to the Administrative Assistant's ability to manipulate records and conceal the misappropriations.

Proper segregation of duties helps to ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, the County Commission and County Clerk should implement an adequate documented independent supervisory review of the procurement records.

2.2 Credit cards

Controls and procedures over credit cards need improvement. The county purchased items and services totaling approximately $270,000 through use of 32 credit cards from March 1, 2010 through July 26, 2013.

Personal purchases

The County Commission and the County Clerk did not perform adequate reviews of vendor jackets, credit card statements, invoices, and other supporting documentation, and, as noted in MAR finding number 1, personal purchases made by the Administrative Assistant through use of county credit cards totaling $16,077 went undetected. We discuss the Administrative Assistant's efforts to conceal personal purchases along with other problems including lack of documentation and inadequate reviews in the following bullet points. Some purchases are discussed in more than one point.

- The Administrative Assistant did not always submit credit card statements to the County Commission and County Clerk for their review, created some credit card statements, altered some transactions on credit card statements (using correction tape), and marked some transactions "void" on credit card statements to conceal personal purchases made. Personal purchases totaling $1,255 were made and concealed by the Administrative Assistant by creating statements and altering or marking transactions void on credit card statements. We also noted instances where invoices or receipts for credit card transactions were paid prior to the county receiving the monthly credit card billing statement. Had the County Commission and County Clerk reviewed credit card statements along with invoices or receipts supporting each itemized transaction, some of these improper purchases would likely have been timely detected.

  The Administrative Assistant also concealed personal purchases made by misclassifying the purchases in the accounting system and on the vendor jacket approved by the County Commission and County Clerk. For example, several personal purchases for law enforcement items were coded to the general revenue "miscellaneous" or buildings and grounds "miscellaneous" account code in the accounting system, and personal fuel purchases were coded to the Sheriff's office and the Road and Bridge department.

- Adequate supporting documentation was not maintained for some credit card transactions. For example, the County Commission approved a credit card payment totaling $5,293 for which there was no supporting documentation. This payment was coded as "supplies" in the county accounting system and the only support in county records was the signed warrant/check dated September 4, 2012. However, this amount actually represented a past due amount reported on a credit card statement with a closing date of September 1, 2012. Additionally, in April 2013, the Administrative Assistant duplicated and re-submitted previously paid credit card invoices/supporting documentation to the County Commission for 3 legitimate county purchases totaling $5,351 to conceal past due amounts and personal purchases. These invoices were previously paid and included on December 2012 and January 2013 vendor jackets. The County Commission re-approved all 3 duplicated and re-submitted invoices.

  Additionally, the county had no supporting documentation for personal purchases made by the Administrative Assistant totaling $15,124. At our request, the county obtained some of these invoices from vendors, and many of the remaining unsupported purchases were made from vendors the county typically does not do business with such as

Groupon; Amazon Marketplace; and Advertising, Premiums & Incentives.

- The Administrative Assistant made personal purchases totaling $3,751, and the billing and/or shipping address on the invoices was his personal address. The Administrative Assistant purchased a pair of binoculars using the county's "purchasing" credit card and a pair of night vision binoculars using the county's "Webster County #1" credit card. The Administrative Assistant left both pair of binoculars at a police department in a city in a neighboring county, where he worked as a reserve officer. We observed both pair of binoculars and verified they were purchased with county credit cards. Both pair of binoculars are now in the custody of the MSHP.

- The Administrative Assistant made personal purchases on county holidays or weekends totaling $5,230. His job duties did not require him to work on holidays or weekends.

The County Clerk and County Sheriff reviewed all transactions presented in the Supporting Documentation of Improper Purchases, Missing Receipts, and Unauthorized/Unapproved Purchases section at the end of this report and verified these purchases were not legitimate purchases related to county operations.

Detailed supporting documentation, such as itemized receipts and vendor invoices, should be maintained for all credit card transactions and reconciled to the credit card statements by someone other than the cardholder. Without adequate supporting documentation and proper approval, the county is unable to ensure purchases are for legitimate goods or services.

Policies and procedures

The County Commission and County Clerk do not have adequate physical controls or written policies to ensure appropriate usage of credit cards. In addition, the county paid late fees ($3,014) and finance charges ($819) totaling $3,833 from July 2010 through July 2013.

- The Administrative Assistant made personal purchases totaling $6,617 from the county credit card assigned to him, made personal purchases totaling $5,655 from a credit card he opened in November 2012 (without approval of the County Commission and County Clerk), and made personal purchases totaling $4,076 from 4 of 5 other county credit cards that were stored in the County Clerk's vault. County Clerk's office personnel believed 1 of the 5 cards (disaster card) in the vault was inactive; however, the Administrative Assistant made a $299 purchase at a pawn shop using that card.

- The County Commission and County Clerk allowed county officials and employees to make personal purchases on county credit cards, and adequate reviews of these purchases and the related reimbursements were not performed. The Administrative Assistant did not include personal checks for reimbursement of personal purchases totaling $575, even though he made notations that he had enclosed personal checks on several credit card statements and supporting documentation.

In October 2005, the County Commission implemented a written credit card policy stating, "Original receipts must be submitted for each purchase prior to payment from county funds. Any person failing to submit documentation becomes personally responsible for payment of the charges concerned (including late fees or service charges, if any). Failure to provide documentation or payment will result in the charges being deducted from the person's next paycheck and the immediate loss of credit privileges."

The County Commission and County Clerk should review credit card assignments and usage to evaluate each employee's or office's continued need for a card, limit use to official purposes only, restrict access to shared cards, and adopt formal written policies documenting the appropriate use of county credit cards. Failure to adequately account for active credit cards could result in additional loss, theft, and misuse going undetected. In addition, failure to pay bills promptly exposes the county to unnecessary costs.

2.3 Charge account and checks

The County Commission and the County Clerk did not perform adequate reviews of Staples charge account statements, county checks, invoices, and other supporting documentation. As a result, personal purchases made by the Administrative Assistant through use of the county's Staples charge account ($1,457) and county checks ($142) went undetected, as noted in MAR finding number 1.

Personal purchases

The Administrative Assistant made personal purchases totaling $1,457 using the Staples charge account from September 2012 to June 2013, and all checks for these purchases were signed by the County Clerk, the County Treasurer, and a member of the County Commission. There was no indication the County Commission or County Clerk reviewed or approved the vendor jackets or invoices for $1,139 of these purchases. In addition, the Administrative Assistant used Staples reward program coupons earned from county purchases to purchase $843 of the $1,457 items. He purchased kitchen and household items, electronic equipment, and a gift card through use of the coupons.

In addition, the county issued 2 checks totaling $142 to vendors for personal purchases of the Administrative Assistant in November 2012 ($20), and May 2013 ($122). The vendor jacket prepared by the Administrative

Assistant for the $20 payment indicated the payment was for postage and handling. No other supporting documentation was found related to this payment; however, we identified other personal purchases with this vendor on county credit cards. The $122 check was for the personal purchase of a Taser holster and cartridge, and a related personal purchase of a Taser and 10 other cartridges was made through use of a county credit card in April 2013.

Overpayment

Our review of payments to Staples identified an overpayment of $1,000 in January 2013. The vendor jacket generated by the Administrative Assistant reported $1,114 due to Staples, while the related invoice only showed $114 due. Staples applied the overpayment to subsequent purchases; however, $360 is still due to the county. No reconciliation of invoices to the vendor jacket was performed by the County Commission or County Clerk, and as a result, the overpayment went undetected.

Unauthorized/unapproved purchases

Various items that had not been authorized/approved for purchase, totaling $774, were purchased by the Administrative Assistant through use of the county's Staples charge account. These items were found in the County Clerk's office after termination of the Administrative Assistant. Personnel in the County Clerk's office indicated the Administrative Assistant may have purchased some of these items to be given out at employee events. These items included a camcorder, head phones, earpods, a bar speaker, silver clock, pens, and several gift cards, and were purchased using county funds or through use of vendor reward program coupons earned from county purchases.

Conclusion

Detailed supporting documentation, such as itemized receipts and vendor invoices, should be maintained for all charge account transactions and county checks, and reconciled to the monthly statements and checks by someone other than the purchaser. Without adequate supporting documentation and proper approvals, the county is unable to ensure purchases are for legitimate goods or services.

Recommendations

The County Commission and County Clerk:

2.1 Adequately segregate the procurement function to the extent possible or ensure supervisory reviews of accounting records are performed and documented.

2.2 Adopt formal policies and procedures for credit card usage that include criteria for identifying employees that should be assigned a card and limits use to official purposes only, restrict access to shared credit cards, require adequate documentation be maintained and reconciled to billing statements, and require purchases be approved by someone other than the card user. In addition, the

County Commission and County Clerk should implement procedures to ensure bills are paid timely to avoid late fees and finance charges.

2.3 Require adequate documentation be maintained and reconciled to monthly charge account statements, and require purchases be approved by someone other than the purchaser.

Auditee's Response

The County Commission and County Clerk provided the following written responses:

2.1 The County Commission and County Clerk will take the necessary steps to ensure documented supervisory reviews of accounting records and the supporting documentation, which includes, but is not limited to segregating the responsibility of purchasing on behalf of the county and the accounts payable on behalf of the county.

2.2 The County Commission and the County Clerk will review all current credit card assignments and usage to evaluate the necessity of county credit card(s) issued to any employee or office of Webster County. Based on the evaluation of the necessity for a county credit card, appropriate actions will be taken to limit the number of credit cards being issued or utilized and monetary limits will be instituted. A reminder of the county's written policy will be re-submitted to each employee/office for review of the credit card(s) use guidelines, which includes, but is not limited to a requirement that the card(s) be used only for official purposes, adequate documentation to be submitted for all purchases, to reconcile the documentation to the billing statement(s), and that someone other than the purchaser approve the item(s) purchased. The shared county credit cards will be maintained and secured in the county vault; such card(s) will require that the user sign a record sheet evidencing the signing in and out of the card(s). The County Commission and County Clerk will enforce the written policy that requires all bills are paid in a timely manner to avoid late fees or finance charges.

2.3 The County Commission and the County Clerk will ensure that itemized receipts and invoices are maintained for all charge account transactions and county checks/monies. We will require that the receipts and invoices be reconciled to monthly statements/invoices by someone other than the person designated as the purchaser.

3. County Clerk Receipts

Significant weaknesses exist in receipting and transmittal controls and record-keeping procedures in the County Clerk's office. The County Clerk's office collected approximately $14,000 in liquor license, ATV permit,

notary commission and service, and other miscellaneous fees during the year ended December 31, 2012.

3.1 Segregation of duties

The County Clerk did not adequately segregate accounting duties or provide adequate oversight of receipts, transmittals, and related records. The County Clerk's Administrative Assistant received monies, recorded transactions, maintained accounting records, transmitted monies to the County Treasurer, and prepared month-end reports. The County Clerk or other office personnel did not perform a comparison of records prepared by the Administrative Assistant to the monies transmitted to the County Treasurer.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, the County Clerk should implement an adequate documented independent or supervisory review of the accounting records.

3.2 Receipting and transmitting

Controls and procedures over receipting and transmitting monies are not sufficient. As a result, there is no assurance all monies received are transmitted, and, as noted in MAR finding number 1, some monies received were not transmitted to the County Treasurer.

- The Administrative Assistant and other office personnel did not issue receipt slips for some monies received (receipt slips were only issued upon request), and the method of payment (cash, check, or money order) was not always recorded on receipt slips.

- The Administrative Assistant and other office personnel did not always issue receipt slips in numerical sequence. Multiple receipt books were used concurrently. Original (top) copies of some voided and blank receipt slips were not retained, and some receipt slips were skipped and not properly defaced to prevent later use.

- The Administrative Assistant did not record some monies received on the month-end transmittal report, did not transmit these monies to the County Treasurer, and these monies ($161) are missing.

Properly receipting and recording receipts on month-end reports, recording the method of payment, and transmitting monies received intact are necessary to ensure receipts are adequately safeguarded and to reduce the risk of loss, theft, or misuse of funds going undetected.

3.3 ATV permits and liquor licenses

The County Clerk or Administrative Assistant did not properly account for the numerical sequence of ATV permits and liquor licenses issued, and there is no procedure to reconcile ATV permits and liquor licenses issued to fees collected and amounts transmitted. ATV permits and records indicate 4 ATV permits were issued by the Administrative Assistant (including one to

himself); however, receipt slips were not issued for these monies nor were the monies ($40) transmitted to the County Treasurer. In addition, during our review of the ATV permit log maintained by the Administrative Assistant, we could not account for 12 of 70 ATV permit numbers used during the period July 1, 2012, to July 26, 2013. As a result, additional monies related to ATV permits could be missing. In addition, 3 liquor license numbers were used twice.

To adequately account for collections and reduce the risk of loss, theft, or misuse of funds, the numerical sequence of permits and licenses should be accounted for properly and compared to fees recorded and transmitted. In addition, a complete and accurate permit log should be maintained.

Recommendations

The County Clerk:

3.1 Adequately segregate receipting and transmittal duties to the extent possible or ensure supervisory reviews of accounting records are performed and documented.

3.2 Issue receipt slips for all monies received, with the method of payment documented, reconcile the composition of receipt slips to the composition of transmittals, and transmit receipts intact to the County Treasurer. The County Clerk should also ensure receipt slips are issued in numerical sequence, all copies of voided and blank receipt slips are retained, and the numerical sequence of receipt slips is accounted for properly.

3.3 Account for the numerical sequence of permits and licenses, ensure the permit log is complete and accurate, and reconcile permits and licenses issued to fees recorded and transmitted.

Auditee's Response

The County Clerk provided the following written responses:

3.1 The County Clerk will implement a segregation of responsibilities to ensure more efficient checks and balances regarding monies, including, but not limited to the segregation of the receipt of monies, the recording of transactions of monies, maintenance of the accounting records, transmittal of the monies to the Webster County Treasurer and the preparation of the month-end reports. The County Clerk will perform a documented review of accounting records each month.

3.2 The County Clerk will utilize one receipt book for all monies received, which will document the method of payment, such as cash, check or money order, on every receipt provided and the initials of the individual making such receipt. The composition of monies

collected will be compared to the composition of monies transmitted to the Webster County Treasurer. In addition, a log will be maintained for comparison to the receipts provided and monies collected. The County Clerk will require that receipts be issued in numerical sequence, with skipped/voided slips being retained and stapled to the carbon copy in the receipt book. A copy of the applicable receipt book pages will be provided, along with the monies, to the County Treasurer for review and accountability purposes.

3.3 The County Clerk will continue to maintain a log for all permits and licenses issued. However, such log will be reconciled with the receipt book evidencing the monies received. In addition, a policy will be instituted that requires permits and license forms be purchased from a third party vendor and in pre-printed numerical sequence to ensure the numbers cannot be altered at time of issuance.

Webster County Procurement Procedures and County Clerk Organization and Statistical Information

Webster County is a county-organized, third-class county, and the county seat is Marshfield.

Webster County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in appropriating and approving the disbursement of county funds and accounting for county property. The County Clerk is the chief fiscal and administrative officer of the county, whose duties include issuing county checks and maintaining records of disbursements approved for payment by the county commission, issuing county licenses, and collecting various county fees for remittance to the county treasury.

The County Commission and County Clerk as of December 31, 2012, are listed below:

Officeholder
Paul Ipock, Presiding Commissioner
Susan Knust, Associate Commissioner (1)
Denzil Young, Associate Commissioner
Stanley Whitehurst, County Clerk

(1) Ward Jones replaced Susan Knust on January 1, 2013.

Total Personal Purchases using County Credit Cards			$	16,347.89

(1) Credit card statement was created, altered, or transactions were marked "void" to conceal personal purchases.

(2) The billing and/or shipping address on the invoice was the County Clerk's Administrative Assistant's personal address.

(3) County Clerk's Administrative Assistant documented on the statements this item was a personal purchase, and he had included a personal check; however, the credit card company provided documentation to verify a personal check was not included.

(4) Purchase was made on a county holiday or a weekend.

(5) An invoice was not retained and as a result, a description of items purchased could not be determined; however, credit card statements identified the transaction date, vendor, location, and amount. In addition, applicable county officials indicated these were not purchases for their offices based upon the information obtained from the credit card statements and some of the vendors listed were not typically used by the county. These transactions total $2,718.69.

(6) Items were left by the Administrative Assistant at a police department in a city in a neighboring county, where he worked as a reserve officer.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Worth County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Worth County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by McBride, Lock & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Worth County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Worth County, Missouri as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Worth County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Worth County, Missouri, as of December 31, 2013 and 2012, or the changes in its financial position for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash balances of each fund of Worth County, Missouri, as of December 31, 2013 and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended, on the basis of the financial reporting provisions prescribed or permitted by Missouri Law described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Worth County, Missouri's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 25, 2014, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The

purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of these statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Worth County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Recorder, Prosecuting Attorney, Public Administrator, Treasurer and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Worth County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those

principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the following funds:

Fund	2013	2012
911 Maintenance		X
Conservation Rock		X
Telecommunications		X

10. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

Fund	2013	2012
Special Road & Bridge		X
Assessment		X
Emergency Rock		X
Special Gravel Tax		X
Disaster Flood and Ice		X
Law Enforcement Training		X
Senior Citizen Services		X
Law Enforcement Sales Tax	X	
Conservation Rock	X	

Also, the actual expenditures of the funds in Note 1.D.9 above exceeded budgetary authority to the extent that formal budgets were not adopted for these funds.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for calendar years 2013 and 2012 were:

	2013	2012
Real Estate	$ 16,209,660	$ 15,869,580
Personal Property	9,493,020	8,701,430
Railroad and Utilities	3,895,749	3,244,182

For calendar years 2013 and 2012, the County Commission approved tax levies per $100 of assessed valuation of tangible taxable property as follows:

	2013	2012
General Revenue	$0.8472	$0.8496
Special Road & Bridge	$0.8270	$0.8293
Senior Citizen Services	$0.0499	$0.0500

In addition, the County assesses a Special Gravel Tax in the amount of $1 per agricultural acre. The assessed valuation of agricultural land in the County was $162,758 and $162,760 for the years December 31, 2013 and 2012, respectively.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned

from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund’s portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash and investments include both deposits and short-term investments. Investments are considered short-term when original maturities are less than one year. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions, and short-term U.S. Treasury bills.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013 and 2012, the carrying amount of the County's deposits was $650,208 and $689,362, respectively, and the bank balances were $717,804 and $737,848, respectively. Of the bank balances, $250,000 and $250,000 for December 31, 2013 and 2012, respectively, were covered by federal depository insurance and the remainder was covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2013 and 2012, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue and Road & Bridge funds. These amounts, all of which were secured by pledged collateral amounted to $1,997,868 and $1,725,695 at December 31, 2013 and 2012, respectively.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 573-632-9203.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2013 and 2012, the County collected and remitted to CERF employee contributions of approximately $18,228 and $16,057.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with an unlimited amount of sick time -- to accrue at one day per complete calendar month of employment. Upon termination, an employee is not compensated for any unused accrued sick time. Vacation time is accrued for full and part time employees depending on length of employment. Vacation time accrues as follows: less than three years of service – one week per year; three through seven years of service – two weeks per year; eight or more years of service – three weeks per year. Employees may not carry over unused vacation days from one year to the next. Upon termination, no more than ten days of unused vacation shall be paid to the employee.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following debt outstanding at December 31, 2013:

A. $97,243 for the capital lease of a 2011 Case motor grader. The lease is paid in annual installments of $26,169 due on August 1 each year through 2017, with interest at 3.013%. The schedule of remaining payments is below:

Payment Date	Principal Due	Interest Due	Total Payment
August 1, 2014	$ 23,239	$ 2,930	$ 26,169
August 1, 2015	23,939	2,230	26,169
August 1, 2016	24,661	1,508	26,169
August 1, 2017	25,404	765	26,169

B. $146,887 for the capital lease of a 2012 Case motor grader. The lease is paid in annual installments of $39,614 due on November 25 each year through 2017, with interest at 3.103%. The schedule of remaining payments is below:

Payment Date	Principal Due	Interest Due	Total Payment
November 25, 2014	$ 35,056	$ 4,558	$ 39,614
November 25, 2015	36,144	3,470	39,614
November 25, 2016	37,265	2,349	39,614
November 25, 2017	38,422	1,192	39,614

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2013 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through April 25, 2014, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Worth County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Stand*ards issued by the Comptroller General of the United States, the financial statements of Worth County, Missouri as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise Worth County, Missouri's basic financial statements and have issued our report thereon dated April 25, 2014.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered Worth County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Worth County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Worth County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and recommendations as items 1 and 2 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Worth County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and recommendations as items 3 and 4.

We also noted an other matter that we reported to management of Worth County, Missouri, in the accompanying schedule of findings and recommendations section as item 5.

Worth County, Missouri's Response to Findings

Worth County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. Worth County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the County Commission and
Officeholders of Worth County, Missouri

Report on Compliance for Each Major Federal Program

We have audited Worth County, Missouri's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Worth County, Missouri's major federal program for the years ended December 31, 2013 and 2012. Worth County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Worth County, Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Worth County, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Worth County, Missouri's compliance.

Opinion on Each Major Federal Program

In our opinion, Worth County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013 and 2012.

Report on Internal Control over Compliance

Management of Worth County, Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Worth County, Missouri's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expression an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Worth County, Missouri's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purposes.

WORTH COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C – SUBRECIPIENTS

The County provided no federal awards to sub-recipients during the years ended December 31, 2013 and 2012.

WORTH COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements:

Type of Auditors' Report Issued:	Unmodified
Internal Control Over Financial Reporting:	
- Material weakness(es) identified?	___ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	__X__ Yes ____ None Reported
- Noncompliance material to financial statements noted?	__X__ Yes ___ No

Federal Awards:

Internal Control Over Major Programs:	
- Material weakness(es) identified?	____ Yes __X__ No
- Significant deficiencies identified that are not considered to be material weaknesses?	____ Yes __X__ None Reported
Type of Auditor's Report Issued on Compliance For Major Programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with section .510(A) of Circular A-133?	____ Yes __X__ No

Identification of Major Programs:

CFDA Number(s)	Name of Federal Program or Cluster
20.205	Highway and Transportation – Highway Planning and Construction

Dollar Threshold Used to Distinguish Between Type A and Type B Programs:	$300,000
Auditee Qualified as low-risk:	____ Yes __X__ No

SECTION II – FINANCIAL STATEMENT FINDINGS

Financial Statement Findings Required to be Reported in Accordance with Generally Accepted Governmental Auditing Standards:

1. Pay Rate Authorizations
2. County Fuel Usage
3. Budgetary Controls
4. Accounting for Transfers
5. Inadequate Investment Policy

Summary Schedule of Prior Audit Findings:

1. Accounting for Transfers
2. Special Road & Bridge Foreman Certified His Own Timecard
3. Budgetary Controls
4. Stale Outstanding Checks on Treasurer's Bank Reconciliation
5. Timely Filing of Collector's Annual Settlement
6. County Fuel Usage

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

1. Pay Rate Authorizations

Condition: The County does not maintain documentation to support the approval of pay rates for hourly employees. Salaries for elected officials and their deputies are approved through the annual budget documents, however, the hourly rates for non-salaried employees are not formally approved by the County Commission and/or the employees supervisor. Currently the Deputy Clerk keeps an informal list of salary levels at her desk to use as a reference during payroll processing. Cost of living increases are noted in the Commission Minutes, however, the minutes only indicate a percentage increase and do not constitute an approved pay scale. Without adequate documentation of approved pay rates, payroll expenditures, which constitute a significant portion of the County's total expenditures, cannot be properly supported.

Recommendation: We recommend that the County maintain documentation to support the approved pay rates of all hourly employees within the County.

County's Response: The County Commission will approve a list of employee salaries as presented by the County Clerk, each year in December.

Auditor's Evaluation: The response is appropriate to correct the concern.

2. County Fuel Usage

Condition: The County Road & Bridge department is not adequately monitoring fuel usage by employees using fuel from the County's bulk fuel tanks. The County has begun keeping fuel logs, however, there were significant variances in the gallons of fuel purchased and the gallons used per the logs. The County Clerk indicated that this was likely due to some fuel logs being lost or employees not recording fuel usage every time it is consumed. Regular reconciliations of the gallons used per the fuel logs and the gallons purchased will improve accountability of the County's fuel expenditures.

Recommendation: We recommend that the County implement procedures to reconcile Road & Bridge department fuel usage logs to gallons purchased on a regular periodic basis.

County's Response: The maintenance man that is currently taking care of the problem has a good understanding of what needs to be done, and will maintain better records. The county clerk made spreadsheets for them to use to reconcile the gas. They will reconcile every two weeks when the fuel is delivered. The county clerk will also put the information into a spreadsheet as a double check.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

3. Budgetary Controls

Condition: Actual expenditures exceeded budgeted amounts for seven funds in 2012 and for two funds in 2013. A list of the individual funds can be found at Note 1.D.10 in the notes to the financial statements. State statutes prohibit the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures that expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting.

In addition, the County did not adopt formal budgets for the 911 Maintenance, Conservation Rock, and Telecommunications funds for 2012. These funds were introduced during 2012 after the annual budget document was approved in January.

Recommendation: We recommend that the County ensure that formal budgets are adopted for all funds and that the County not approve expenditures in excess of budgeted amounts and properly amend the budget in a public meeting when unforeseen circumstances arise that necessitate increased expenditures.

County's Response: The County will make sure to adopt formal budgets for any new accounts that they decide to start.

The County will ensure that formal budgets are adopted for all funds and we will not approve expenditures in excess of budgeted amounts.

The new commissioners have a better understanding of the budget process, so I don't see a problem with this in the future.

Auditor's Evaluation: The response is appropriate to correct the concern.

4. Accounting for Transfers

Condition: The financial statements of the County as presented in the annual budget document present transfers between funds. However, the transfers reported in both 2012 and 2013 did not balance, in that transfers to other funds were not in agreement with transfers from other funds. In most cases, this was the result of transfers being misclassified as revenues or expenditures in either the receiving or disbursing fund. This has the affect of overstating revenues and expenditures as recorded in the annual budget documents. All transfers in must be accompanied by a corresponding transfer out. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2013 and 2012.

Recommendation: We recommend that the County ensure that transactions between funds are recorded as transfers in and out and that they are in balance at all times.

County's Response: The County Clerk and her deputy will work out a process to have a double check for all transfers in and out of accounts to see that they are recorded correctly.

Auditor's Evaluation: The response is appropriate to correct the concern.

OTHER MATTERS

5. Inadequate Investment Policy

Condition: The County had adopted an investment policy on October 31, 2000, however, the policy was not sufficient to meet the requirements of state statutes. RSMo Section 30.950 requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend that the County adopt a revised investment policy that complies with the requirements of state statutes.

County's Response: The County will adopt a revised investment policy that complies with the requirements of state statutes, and the recommendations of the auditors.

Auditor's Evaluation: The response is appropriate to correct the concern.

WORTH COUNTY, MISSOURI
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditors' follow-up on action taken by Worth County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2009 and 2008.

1. *Condition:* Transfers in and out as recorded in the County's annual budget document did not equal in either 2008 or 2009.

   Status: Repeated. See Finding No. 5.

2. *Condition*: The Special Road and Bridge Foreman certified his own timecard.

   Status: Resolved.

3. *Condition*: A formal budget was not adopted for one fund in 2008 and two funds in 2009. Also, expenditures were approved in excess of budgeted amounts for five funds in 2008 and seven funds in 2009.

   Status: Repeated. See Finding No. 4.

4. *Condition:* The Treasurer's bank reconciliations contained several checks that had been outstanding for more than six months.

   Status: Resolved.

5. *Condition:* The Collector's Annual Settlements for the years ended February 28, 2009 and 2010 were not filed timely.

   Status: Resolved.

6. *Condition:* Records of fuel usage by Road & Bridge department employees are not maintained, so gallons purchased cannot be reconciled to gallons dispensed.

   Status: Repeated. See Finding No. 3.

Thomas A. Schweich

Missouri State Auditor

Taney County

July 2014

Report No. 2014-047

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Taney County

County Disbursements	The county paid a software vendor $297,598 for a new property tax system that is not being fully utilized and overpaid a road project contractor $20,825. The county lacked adequate bidding documentation for 97 office machines costing approximately $95,000 and did not obtain proposals for legal services or enter into a written agreement with one law firm.
County Sales Tax	The county does not adequately account for road and bridge capital improvement sales tax monies as required by state law, and some personnel costs allocations lack support. The county did not calculate the required sales tax reduction of the property tax levy or properly report levy reductions to the State Auditor's office.
County Budgeting and Planning	The County Commission did not adequately plan for a $1.2 million certificates of participation payment and had to make the payment from the Sewer Fund. Some county budgets do not reasonably reflect anticipated financial activities, and errors made by the County Auditor in the 2013 budget documents went undetected. The county could pay off its bonded indebtedness for sewer projects to avoid interest costs.
County Procedures	The County Treasurer and County Auditor do not adequately reconcile accounting records. The county has not adequately determined which employees need county credit cards and establish appropriate spending limits and lacks effective monitoring procedures for fuel and vehicle use.
Property Tax System	The County Collector did not correctly distribute $434,118 in utility taxes to various school districts. Neither the County Clerk nor the County Commission adequately reviews the activities of the County Collector. The former County Assessor changed the application of property tax levies in the property tax system and taxes were not properly levied to some Taney County Fire Protection District residents.
Assessment Fund Reimbursements	Since 2007 the county did not receive $956,000 in property tax assessment reimbursements from the state because the former County Assessor and other county officials failed to comply with approved assessment maintenance plans and applicable state law.
Payroll and Personnel Issues	Two part-time salaried directors do not prepare timesheets, and the county does not perform background checks on employees in sensitive information technology positions.
Sheriff Seized Property and Evidence	The Sheriff's office had seized cash on hand that should have been released and had $3,270 that should have been on hand that could not be located. The Sheriff maintains seized property in several locations but records and procedures to account for these items are inadequate.
Sheriff Controls and Procedures	The Sheriff has not adequately segregated accounting duties, and receipting and depositing procedures need improvement.
Sheriff Commissary Records and Procedures	Accounting duties are not adequately segregated, inmate monies are not deposited timely, and the jail administrator does not perform bank reconciliations or prepare monthly lists of liabilities to reconcile to available cash balances. The jail administrator does not maintain records to account for prepaid telephone cards sold to inmates.

Public Administrator Controls and Procedures	The Public Administrator failed to adequately track money owed to wards and held some money for an extended time, including $4,088 in checks held between 1 to 4 months. The Public Administrator submitted some mileage reimbursement claims without sufficient detail, and the computerized accounting system allows users to change check numbers and dates.
Prosecuting Attorney Controls and Procedures	Accounting controls and procedures need improvement. One clerk receives and records all monies and is also able to post adjustments without independent approval. Monies are not recorded immediately, bank reconciliations and a periodic list of liabilities are not prepared, the accounting system allows the user to postdate or backdate receipts or checks, and the office is not proactive in identifying cases with unpaid receivables. Some delinquent taxes are not transmitted timely, and seized cash was not disposed of timely.
County Collector Controls and Procedures	Receipting and depositing procedures need improvement, and the list of liabilities is not adequately reconciled to the protested tax account balance.
Airport Controls and Procedures	Accounting duties are not adequately segregated, receipting procedures need improvement, lease contracts are not adequately monitored, and fuel purchased is not reconciled to fuel sold.
Transfer Station Controls and Procedures	Accounting duties are not adequately segregated, receipting and depositing needs improvement, and credit cards and transfer tickets are not being reconciled to supporting documentation.
Sunshine Law	The County Commission does not always cite specific reasons for closing meetings and sometimes discusses unallowable topics in closed meetings.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 54

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Taney County

The State Auditor was requested under Section 50.057, RSMo, to audit Taney County. In addition, Lisa C. Wright, Certified Public Accountant, was engaged to audit the financial statements of Taney County for the year ended December 31, 2012. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2012. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Taney County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Donna Christian, CPA, CGFM
	Pamela Allison Tillery, CPA
In-Charge Auditor:	Roberta Bledsoe
Audit Staff:	Michelle Crawford, M.Acct., CIA
	Connie James
	David Olson

1. County Disbursements

Procedures relating to procurement and disbursement of county funds need significant improvement.

1.1 Property tax system

The county paid a software vendor $297,598 for a new property tax system (including tax billing and collection, integrated mapping and real property appraisal, and personal property appraisal software modules) that is not being fully utilized. Our prior audit report issued in 2002, addressed similar concerns regarding the county's handling of the purchase of a new property tax system. Sufficient improvements have not been made, and we noted various problems with the county's efforts to implement another property tax system and monitor the related contract.

In April 2011, the County Commission solicited proposals and subsequently signed a contract with a software vendor on May 2, 2011, for the software modules (noted above) utilized by the County Assessor, County Clerk, and County Collector. The contract price was $225,000 plus two addendums ($96,517) for a total approved contract cost of $321,517. The county has paid the software vendor $190,000 of the $225,000 contract price, the full amount of the two addendums, and an additional $11,081 for digital sketches not provided for in the contract or addendums. We noted several problems with the county's contract and payments to the vendor.

- The contract does not include a timeline for implementation of the software modules or a deadline date by which the vendor has to successfully transition the county from the old software system to the new software modules. As of May 2013, more than 2 years after the contract was signed, county officials have identified several problems with the new software modules and have been utilizing both the old and new systems/modules to ensure taxes are properly assessed, charged, and collected.

- The software vendor sent the county an invoice dated April 28, 2011, for $100,000 prior to the county signing a contract with the vendor on May 2, 2011. The county paid this invoice on May 9, 2011. It is unclear why the vendor invoiced the county prior to the contract signing.

- The former County Assessor approved the invoices, and the county paid the software vendor the full cost ($147,000) for the integrated mapping and real property appraisal and personal property appraisal modules in May and October 2011, and February 2012, even though the modules were not being fully utilized and had not been accepted by the county. The contract only required the county to pay 50 percent or $73,500, 10 days after signing the contract, and the remaining 50 percent upon acceptance.

- One of the contract addendums ($90,842) for additional work to compile 50,468 digital sketches of real property structures was signed on May 21, 2012 (24 days before opening of the related bids). County Commission meeting minutes indicate bids for digital sketches were opened on June 14, 2012, this software vendor was the only bidder, and this bid was approved by the County Commission. Additionally, the former County Assessor approved the invoices, and the county paid this vendor $101,923 for the sketches ($11,081 more than the contract addendum price). There were no change orders to support the additional amount paid.

Since signing the software contract in April 2011, the county has also paid the property tax software vendor for the older property tax system approximately $10,000 to keep that system updated and serviced.

In September 2013, the County Collector sent a letter to the current software vendor to terminate the tax billing and collection module of the contract because of problems with the module. The county had paid $20,000 for this module, which is 50 percent of the contract amount of $40,000. As of April 2014, the current County Assessor is using the integrated mapping and real property appraisal and personal property appraisal modules; however, county officials said they are in the process of bidding out the entire property tax system again and plan to terminate the current agreement when a new system is procured.

To ensure county funds are spent appropriately, contract terms should include implementation dates, the county should not pay invoices dated prior to contract approval or until all contract terms have been met, and contract addendums should not be signed prior to official bid openings and selection. To ensure the amounts paid are valid, change orders should be approved by the County Commission prior to the completion of the additional work.

1.2 Road project overpayment

The County Commission failed to properly monitor payments to a road project contractor and overpaid the contractor $20,825.

The county bid and subsequently entered into a written contract totaling $450,565 for road improvements; however, the county paid the contractor $471,390. According to the engineering firm that maintains the road project records, an incorrect bid amount was recorded by the engineering firm on the first application of payment and that amount was used by the contractor on the following four applications of payment. These applications were reviewed and approved by the County Commission, but were not compared to the original bid and contract amounts. As a result, the county overpaid the contractor. The County Commissioners were unaware of this overpayment until we discussed it with them in May 2013.

Adequate reviews of disbursement documentation are necessary to prevent overpayments. The county should work with the engineer and the contractor to obtain a refund of the $20,825 overpayment.

1.3 Printers

The county's documentation regarding the bidding and purchase of 97 machines (59 printers and 38 all-in-one printers that provide multifunctional services including copying, printing, faxing, and scanning) for approximately $95,000 between December 2012 and June 2013 was not adequate. The county did not retain adequate documentation of the state bids and the related contracts, and its selection process to show compliance with state law, and the County Commission only approved the purchase of some of these machines.

The December 6, 2012, County Commission meeting minutes state, "The Commission gave their support to purchase 30 machines today via the state contract for cost saving measures." No documentation of the County Commission's approval for the purchase of the additional 67 machines was maintained. Also, the county could not readily provide bid documents to support these purchases. After numerous requests for documentation, county officials eventually provided a price list on April 25, 2013, and prices agreed for some of the machines purchased to the multi-year state contracts. Twenty-one of the 97 machines purchased for $42,585 could not be agreed to state contract prices. A year later in May 2014, the county provided additional documentation to support prices for 7 of these 21 machines totaling $27,447.

Documentation of state bids, contracts, and the county's selection process and criteria should be retained to demonstrate compliance with state law and support decisions made. Failure to document purchase approval prior to initiating purchases of goods or services limits the County Commission's ability to monitor, control, and track disbursements.

1.4 Legal services

The county's procedures for obtaining and documenting legal services need improvement.

The County Commission did not obtain proposals for legal services provided by 2 law firms and did not have a written agreement during most of 2012 with one of these law firms. The county paid approximately $127,000 in legal fees for the year ended December 31, 2012.

The County Collector did not obtain proposals for legal services costing approximately $10,000 during 2012 relating to the utility tax distribution error (see MAR finding number 5.1). In addition, the County Collector does not have a written agreement with a law firm providing services on bankruptcy cases, and the firm was paid approximately $4,000 for these services during 2012. The County Collector maintained a list of law firms considered, but proposals were not obtained. Neither Chapter 52, RSMo,

nor other statutory provisions give a county collector authority to hire an attorney. In addition, Section 56.670, RSMo, gives the county commission (no other officeholders) authority to hire a private attorney. In addition, Section 56.631, RSMo, authorizes the county commission to appoint a county counselor, and 56.640, RSMo, requires the counselor to represent the county and all departments.

While professional services may not be subject to standard bidding procedures, soliciting proposals for legal services is good business practice, helps provide a range of possible choices, and allows the county to make a better-informed decision to ensure necessary services are obtained from the best-qualified provider after taking expertise, experience, and cost into consideration. Also, Section 432.070, RSMo, requires contracts for political subdivisions to be in writing, and written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Recommendations

The County Commission:

1.1 Monitor contracts for compliance, ensure satisfactory progress is made by contractors prior to payment, and ensure change orders are prepared and submitted for its review and approval prior to completion of the related work.

1.2 Adequately review disbursement documentation to ensure compliance with contract terms. Also, the County Commission should work with the vendor to obtain reimbursement for the $20,825 overpayment.

1.3 Maintain documentation of state bids, contracts, and their selection processes and criteria to ensure compliance with state law and to support decisions made. Also, the County Commission should ensure all purchases are properly approved and documented.

1.4 Solicit proposals for legal services and enter into written contracts defining services provided and benefits received. Also, the County Commission should work with the County Collector to ensure future legal services are appropriately obtained as provided by state law.

Auditee's Response

The County Commission provided the following written responses:

1.1 The County Commission was approached in 2011 by the County Clerk, County Collector, and County Assessor to pursue the purchase of a new computer taxation system. The County Collector informed the County Commission, County Assessor, and County Clerk that she would purchase a new system, if approved by the

County Commission, through her Tax Maintenance Fund. The County Commission approved the purchase of a new system upon recommendation of the before stated elected officials. The County Commission did not enter into negotiations with or pursue any vendor. This endeavor, including invoicing and monitoring of software implementation, was overseen by the County Clerk, County Collector, and County Assessor. Upon recommendation of the County Clerk, County Collector, and County Assessor, the contract and addendum were signed by the Presiding Commissioner, and invoices were handled and approved by the County Commission through the normal county disbursement process.

The County Commission has engaged legal counsel that will ensure all future county contract terms include implementation dates, and the County Commission will ensure invoices are not paid until contract terms have been met.

1.2 *This project was paid in part through a grant with the balance coming from county funds. As such, the County Commission contracted with an engineering firm to oversee the project. All invoices were prepared and submitted through the engineering firm.*

The contracting firm is currently reimbursing Taney County at the rate of $2,000 per week until the $20,825 is paid in full. As of June 4, 2014, Taney County has received $14,000 from the contracting firm.

The County Commission will establish review procedures to ensure oversight of all future projects managed by engineers and other contracted services.

1.3 *The County Commission believes that the auditor's staff was not provided with all requested relevant information regarding this issue at the time of the audit. All 97 machines were purchased using state cooperative contracts. Moving forward we will adjust the process to close all possible gaps in our documentation process and approval process.*

1.4 *We currently have written contracts on file with County Commission counsel, and counsel is retained on a case-by-case basis for litigation. We have advised the County Collector of Missouri law pertaining to the hiring of an attorney.*

The County Assessor provided the following written response:

1.1 I am striving to work with the County Commission, the County Clerk, and the County Collector to obtain a new property tax system.

The County Auditor provided the following written response:

1.2 This has been corrected.

The County Collector provided the following written response:

1.4 In the future, I will work with the County Commission to obtain legal services for the County Collector's office.

2. County Sales Taxes

County procedures related to road and bridge capital improvement sales tax do not comply with state law, and some disbursement allocations do not have adequate support.

2.1 Capital improvement sales tax and allocations

The county has not ensured road and bridge capital improvement sales tax (CIST) monies are deposited in a separate fund or disbursed only for their intended purposes, as required by state law. In addition, some disbursements allocated to the Road and Bridge Fund may not be reasonable and are not adequately supported.

In April 2007, county voters renewed a 1/2-cent CIST under Section 67.700, RSMo, for the purpose of improvement and construction of roads and bridges to replace a 1/2-cent sales tax that was expiring. This sales tax is set to expire March 31, 2017.

These CIST monies are deposited into the county's Road and Bridge Fund and are commingled with other road and bridge related monies, including restricted monies (e.g., County Aid Road Trust and grant monies). The Road and Bridge Fund is used for all road and bridge related disbursements including operating expenses. The county does not specifically identify or track the use of the CIST monies or the balance of CIST monies within the Road and Bridge Fund. As a result, it is not clear whether the road and bridge capital improvement sales tax monies have been properly utilized. The county received approximately $6.7 million in road and bridge CIST monies during the year ended December 31, 2012, and has received similar amounts of CIST monies annually and deposited them into the Road and Bridge Fund. The receipts, disbursements, and balance for CIST monies need to be tracked to ensure the funding is used for its restricted purpose.

In addition, the county allocated personnel costs totaling approximately $99,000 for various employees to the Road and Bridge Fund without

adequate supporting documentation. For example, 50 percent of the salaries and benefits of the Human Resource Director, Employees Benefit Clerk, and Purchasing Agent are allocated to the Road and Bridge Fund, with no documentation showing the basis for the allocation percentage. Also, the salary and benefits of one of two mechanics is paid from the Road and Bridge Fund and the other is paid from the General Revenue Fund. Both mechanics perform work for the road and bridge department and the Sheriff's office; however, no documentation is maintained indicating how the allocation of their salaries was determined.

Section 67.700, RSMo, allows counties to impose a sales tax for any capital improvement purpose designated by the county in its ballot, and requires the monies received from the sales tax to be deposited in a separate fund and used solely for the designated capital improvement purpose. The proper allocation of expenses is necessary for the county to accurately determine the results of operations of specific activities, thus enabling the county to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to county funds should be based on specific criteria, such as the number of hours worked by each employee, and documentation of allocations should be retained.

2.2 Property tax levy reductions

The county did not prepare property tax levy reduction calculations or properly report levy reductions to the State Auditor's office.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Taney County voters enacted a 1/2-cent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement and in the following year calculate any excess property taxes collected based upon actual sales taxes collected. These sales tax monies, which total approximately $6.7 million annually, are deposited into the General Revenue Fund.

Sales tax calculations and reporting

The County Clerk does not calculate the required sales tax reduction of the property tax levy. The required sales tax reduction for 2012 was approximately $3.35 million for 50 percent of sales taxes collected.

For many years the county has chosen to set the general revenue and road and bridge property tax levies at zero. For 2008 and prior years the county incorrectly certified the full reduction of each levy as a voluntary reduction instead of as a sales tax reduction or combination of sales tax and voluntary reductions. As a result, the tax rate ceiling for the county's General Revenue Fund and Road and Bridge Fund were lowered to zero in 2009. In calculating the property tax rate ceiling for 2009, the State Auditor's office followed Section 137.073.5(4), RSMo (amended in 2008), which provides a

voluntary reduction taken in a non-reassessment year (even year) results in a reduced tax rate ceiling during the subsequent reassessment year (odd year).

Section 137.073.5(4), RSMo, allows a governing body, in a year following general reassessment, to increase a previously voluntarily reduced tax rate, for a reduction taken in a prior non-reassessment year, to the tax rate ceiling that would have been effective in the current year had no voluntary reduction been taken. However, the county has not taken action to restore these ceilings, and they have remained at zero since 2009.

County officials were apparently unaware of the impact of the 2008 voluntary reduction and of the county's zero tax rate ceilings, and from 2009 to current has continued to certify reductions of the general revenue and road and bridge levies as voluntary. On tax rate forms submitted to the State Auditor's office the county incorrectly reported prior year ceilings (in effect if voluntary reductions had not been taken in 2008), although the ceiling for each fund was zero, and then reflected a full voluntary reduction.

As previously noted, the county could reinstate its property tax rate ceiling in 2014. In addition, Section 137.073.6(3), RSMo (amended in 2013), allows a taxing authority to submit amended tax rate forms to the State Auditor's office in the event the taxing authority incorrectly completed the forms or made clerical errors.

Road and Bridge Fund levy reduction

Because reducing the general revenue property tax levy to zero is not sufficient to compensate for 50 percent of the sales taxes collected, the county must also reduce the road and bridge property tax levy. However, a full reduction of the road and bridge levy for this purpose is not required. According to our calculations and had the county's tax rate ceiling not been reduced to zero, the county could have reduced the 2012 road and bridge property tax levy by 0.0772 or approximately $768,000 in property tax revenues, rather than the full 0.1945, to satisfy the county's overall 50 percent rollback requirement. To properly document decisions related to the road and bridge ceiling and levy assessed, the county needs to ensure it is utilizing correct ceiling information and identifying levy reductions as sales tax or voluntary as appropriate.

To ensure property tax levies are properly set and property tax ceilings are maintained, the County Commission and County Clerk should ensure property tax levies are adequately reduced by 50 percent of sales tax revenue and are accurately reported and certified as such. Documentation of calculations and tax rate setting decisions is important to demonstrate compliance with statutory provisions and serve as a reference tool should questions arise. Further, to ensure road and bridge funds are spent in accordance with state law, the County Commission should monitor the portion of the Road and Bridge Fund property tax levy reduction that relates to the sales tax rollback.

Recommendations

The County Commission:

2.1 Ensure monies received from the capital improvement sales tax are deposited in a special fund and used solely for the designated purpose.

2.2 Work with the County Clerk to properly calculate and report property tax reductions (sales tax or voluntary).

Auditee's Response

The County Commission provided the following written responses:

2.1 The county combined the Road and Bridge Fund with the Special Road and Bridge Trust Fund for the ease of operation. Taney County was advised that the funds could be combined, but that the county should adequately track capital expenditures. The two funds were combined, yet the County Auditor did not track capital improvements expenditures. Capital improvement expenditures were also not tracked by road and bridge department staff, or by the County Commission.

The Presiding Commissioner asked road and bridge department personnel to assist him in breaking out all capital expenditures as recommended by the State Auditor's staff, and this was accomplished. The County Commission has again informed the County Auditor that capital improvements needed to be tracked separately. Should it be necessary, the County Commission will either separate and track capital expenditures or separate the funds for future years.

The County Commission will undertake a study to determine whether the salaries shall continue being paid at the current percentages or at some other breakdown based upon actual percentages worked.

2.2 The County Clerk provided forms to the County Commission with levy reductions. The County Clerk informed the County Commission that sales tax reductions had already been made and the County Commission accepted the County Clerk's calculations before voluntarily rolling county levies back to zero. The County Commission accepted, signed, and presented the forms back to the County Clerk. The County Commission will involve itself completely by recalculating and ensuring that the County Clerk's figures are correct in the future.

It should be noted that the ultimate goal of the County Commission, in rolling potential levies back to zero, was to ensure that Taney

County taxpayers would not be paying any property taxes to the Taney County government.

County Commissions have understood from the very first passage of this sales tax that either the General Revenue levy or the Road and Bridge levy can be rolled back first, leaving a balance in the second fund. This County Commission understands that we had a choice to impose a property tax on the citizens of Taney County; however it was our conscious decision to not impose this allowable tax for county government usage, thereby keeping taxes on our citizens intentionally lower.

The County Auditor provided the following written response:

2.1 I will work with the County Commission to ensure monies received from the capital improvement sales tax are either accounted for separately or deposited in a special fund and used solely for the designated purpose.

3. County Budgeting and Planning

Budgeting procedures of the County Commission and the County Auditor need improvement.

3.1 Sales tax monies and debt payment

The County Commission did not adequately plan and budget for the April 2013 judicial center certificates of participation (COP) payment of $1.2 million.

In April 2000, Taney County voters approved 2 propositions that provided for a 1/2-cent general sales tax under Section 67.547, RSMo. Proposition A renewed the already existing 1/2-cent sales tax (previously authorized for sewer purposes) for a period of 20 years. Proposition B authorized the county to expend the sales tax revenues (from the countywide sales tax proposed in Proposition A) for the additional purpose of providing law enforcement facilities. The ballot language did not specify what portion of the sales tax monies collected would be used for each of the 2 authorized purposes. This sales tax generates approximately $6.7 million annually and these monies are deposited into the Sewer Fund.

In November 2005, Taney County voters approved a 1/8-cent law enforcement sales tax under Section 67.582, RSMo. This sales tax generates approximately $1.6 million annually. Prior to December 2012, these monies were deposited into the county General Revenue Fund. However, in December 2012, the county decided these monies should be accounted for separately and created a Law Enforcement Sales Tax Fund where these monies are now deposited.

2013 COP payment

In November 2006, the county issued Lease COP Series 2006 for the construction of a new judicial facility. Until 2013, principal and interest payments on the COP were made from the county General Revenue Fund and covered by law enforcement sales tax monies deposited into that fund. The county budgeted the 2013 COP payment from the Law Enforcement Sales Tax Fund. However, when the COP payment was due in April 2013, the fund had only accumulated sales tax revenue of approximately $400,000.

Because adequate funds were not available in the Law Enforcement Sales Tax Fund, the County Commission authorized a $1.2 million COP payment from the Sewer Fund. The County Commission supported this decision because Proposition B had added a "law enforcement facilities" purpose to the general sales tax and a written legal opinion from one of the county's attorneys concluded usage of the monies in this way was valid.

However, the county had not budgeted for the COP payment to be made from the Sewer Fund during 2013. In addition, the county budgeted the full payment from the Law Enforcement Sales Tax Fund without adequately anticipating the shortfall in sales tax revenues that would exist by the payment due date. As a result, county funds were not spent as intended.

Law enforcement sales tax monies are generated throughout the year and used for various operating expenses. Therefore, the full amount of COP payments will not be available at the time payments are due, and the county needs to adequately plan and budget for future COP payments.

To ensure disbursements are made from the proper fund and budgets closely reflect anticipated disbursements, the County Commission should adequately plan during the budget process for the timing of large disbursements.

Sales tax ballot measures

Regarding Proposition A and Proposition B approved by voters in 2000, it may have been improper for the county to submit a ballot measure to voters asking to add the purpose of "providing law enforcement facilities" to the existing 1/2-cent general sales tax previously designated for sewer purposes. These purposes are not related. Courts have concluded that ballots with multiple purposes are not always improper, but there should be a natural relationship between the issues addressed in a single ballot. To ensure propriety of ballot language and sales tax purposes, the County Commission should consult with legal counsel regarding ballot language supporting any future sales taxes proposed to voters.

Sales tax use designation and deposits

Because voters approved 2 separate uses for the general sales tax monies, but a specific portion for each purpose was not designated, the County Commission can determine how the monies will be used. It would be

appropriate for the County Commission to consider the sewer and law enforcement facility needs periodically and during the annual budget preparation process, and determine if allocating a certain percentage for each purpose is appropriate. In addition, the monies should be deposited into the appropriate fund, rather than being transferred at a later date to cover related expenses.

Generally accepted accounting principles and various legal restrictions require receipts and disbursements associated with specific activities be reflected in the fund established to account for those activities.

3.2 Budgetary practices

The County Commission and County Auditor do not ensure budgets for some county funds reasonably reflect anticipated financial activity and cash balances. This weakness reduces the effectiveness of the budget as a tool for monitoring and controlling disbursements. The county significantly overestimated disbursements resulting in actual ending cash balances greatly exceeding budgeted ending cash balances. The following table presents a comparison of budgeted to actual ending cash balances at December 31, 2012:

County Fund	Budget	Actual
General Revenue	$ 6,478,478	9,814,825
Road and Bridge	5,011,343	9,335,792
Sewer	11,792,113	29,766,985
Transfer Station	0	463,135
Recorder Technology	0	431,473
911	0	404,724
Tax Maintenance	0	166,984
Prosecuting Attorney Bad Check	0	119,474
Prosecuting Attorney Delinquent Tax	0	90,421
Sheriff Civil	0	74,900
Sheriff Revolving	0	64,894

Disbursements were significantly overestimated for most county funds. For example, budgeted disbursements for the General Revenue Fund were approximately $15.8 million and actual disbursements were approximately $13 million; and budgeted disbursements for the Sewer Fund were approximately $25.6 million and actual disbursements were approximately $5 million. Additionally, approved budgets for some county funds included a significant amount for contingency expenses. For example, the Road and Bridge Fund budget included a budget line item of about $2.9 million for contingency expenses out of the fund's $10.7 million total disbursements budget, but only $40,000 of this line item was spent.

For the budget documents to be of maximum assistance to the county as a planning tool and to adequately inform the public of the current financial

position and operations, the budgets should reflect reasonable estimates of receipts and disbursements, and the anticipated ending cash balances. The practice of routinely budgeting to spend the majority of all available resources decreases the effectiveness of the budget as a planning tool and as a control over disbursements.

Our prior audit report issued in 2002 addressed similar concerns.

3.3 Budget review

County personnel did not identify errors in the 2013 budget document.

The county's budget is prepared by the County Auditor and approved by the County Commission. Our review of the budget spreadsheet showed it contained formula errors and incorrect data resulting in misstatements.

- The available funds reported for the 2013 General Revenue Fund on the appropriation order signed by the County Commission was approximately $25 million, while the available funds reported in error on the total page of the budget was approximately $44 million. The $19 million error on the budget was caused by a formula error on the General Revenue Fund total page.

- Employee fringe benefits reported as disbursed from the General Revenue Fund were understated by approximately $760,000 for 2012 and $710,000 for 2011 (approximate 37 percent understatement for each year) as a result of a formula error in the fringe benefit section of the budget. These inaccurate totals were also reflected on the total page for all disbursements from the General Revenue Fund, which further caused total disbursements to be calculated in error in other locations on the budget document.

- The estimated and actual ending cash balances were not presented on the 2013 General Revenue Fund budget. The fund had an actual ending cash balance of approximately $10 million.

In addition, the County Auditor did not enter some actual information correctly into the budget from the county's accounting records.

- Receipts of approximately $4 million and disbursements of $2 million for the Road and Bridge Fund were omitted from the 2011 actual amounts included on the 2013 budget. During 2012, the County Commission combined the Road and Bridge Fund with the Road and Bridge Trust Fund; however, only the activity of the Road and Bridge Trust Fund was entered on the budget.

  The 2012 actual receipts reported on the 2013 budget were understated by approximately $76,000. Several revenue accounts were not

accurately reported including understating transfers into the General Revenue Fund by approximately $42,000 and understating airport fuel revenue by approximately $15,000 as well as other smaller errors.

Budget documents are an essential tool for the efficient management of county finances. To be of maximum assistance as a planning tool and to adequately inform the public, budgets should be reconciled to financial records and reviewed for accuracy and completeness.

3.4 Sewer sales tax

As discussed in section 3.2, the County Commission has not projected realistic disbursements for the Sewer Fund for several years, and actual ending cash balances were much higher than projected ending cash balances. Additionally, the sewer district's master plan for current and future projects has not been updated since 2007.

In April 2000, voters passed a capital improvement sales tax under Section 67.547, RSMo, for the purpose of extending and improving the sewer systems in the county. This sales tax generates approximately $6.7 million annually, and disbursements were approximately $4.9 million for 2012 and $4.3 million for 2011. As a result, the accumulated cash balance increased from approximately $25 million at December 31, 2010, to approximately $30 million at December 31, 2012. According to the county's 2014 budget document, the December 31, 2013, Sewer Fund ending balance was approximately $25.2 million.

The county has outstanding bonded indebtedness from sewer projects of approximately $10.1 million with payments of approximately $1 million due annually. These bonds carry interest rates ranging from 3 to 5.25 percent and mature in 2023. In January 2015, the county could elect to pay off any remaining bonds outstanding before the bonds mature; however, the County Commission has made no formal plans for early payoff.

To properly document the future use of the large accumulated cash balance in the Sewer Fund, the County Commission should approve a reasonable estimate of disbursements in the budget, prepare a long-term plan for the use of these funds, and consider using the excess accumulated cash reserves to pay off the bonded indebtedness early.

Recommendations

The County Commission:

3.1 Adequately plan for the timing of large disbursements, such as the judicial center COP payment during the budget process. The County Commission should consider the sewer and law enforcement facility needs periodically and determine if establishing a percentage to be used for each purpose is appropriate, and the sales tax monies

should be deposited into the appropriate funds, rather than being transferred at a later date to cover related expenses.

3.2 Ensure budget estimates for receipts and disbursements are based on actual expected occurrences.

3.3 Ensure the county budget is accurate and complete.

3.4 Approve a reasonable estimate of disbursements in the Sewer Fund budget, prepare a long-term plan for the use of these funds, and consider using the excess accumulated cash reserves to pay off the bonded indebtedness early.

Auditee's Response

The County Commission provided the following responses:

3.1 Chapter 67.582(3) of the Missouri Revised Statutes of Missouri provides that: "All revenue received by a county from the tax authorized under the provisions of this section shall be deposited in a special trust fund and shall be used solely for providing law enforcement services for such county for so long as the tax shall remain in effect." The County Auditor and a prior County Commission had elected to place these revenues into the General Revenue Fund instead of a special trust fund. This County Commission feels it was complying with Missouri law when it created a trust fund as required under RSMo 67.582(3).

During the 2013 budgetary process, the County Commission discussed the possibility of paying the bond issue out of Sewer Fund reserves as earlier approved by voters through Proposition B, and then repaying the Sewer Fund when the sales tax had generated enough money. The County Commission did in fact pay the bond issue out of the Sewer Fund and later repaid the Sewer Fund when enough voter approved sales tax had been generated. Following the payment, the decision was announced and explained during an open County Commission meeting.

For the sake of transparency, the County Commission formally budgeted the 2014 bond payment directly out of the Sewer Fund as authorized under Proposition B, and also budgeted for repayment to the Sewer Fund from the voter approved law enforcement tax.

3.2 The County Commission developed budgets with an ultra-conservative approach. These decisions were in reaction to a severe downswing in the American economy. The 2014 budget has been developed with a watchful eye on anticipated revenues and expenditures.

3.3 The County Commission did discover multiple formula errors in the budget document provided to the County Commission by the County Auditor. It was the belief of the County Commission that all formula errors made by the County Auditor had been discovered by the County Commission and corrected by the County Auditor.

It is the understanding of the County Commission that the County Auditor pulls county budgetary information from the county's accounting software into a spreadsheet that he has developed for the specific purpose of budgetary manipulation and development. The County Commission receives its revenue and expenditure information from this source, and utilizes this information for the development of all county budgets.

The County Commission is in complete agreement and will initiate necessary safeguards immediately to protect the sanctity of the county budgetary process.

3.4 The County Commission has completely revised and updated the budgetary process for sewer sales tax projects and expenditures. During 2013, the County Commission was presented with a preview of a 3 year plan for sewer projects and expenditures from the Sewer District. In addition, the County Commission was informed that the Taney County Regional Sewer District will be moving forward with a new master plan for current and future projects.

The County Commission is in the process of creating an environmental services department which will be charged with specific monitoring and reporting responsibilities regarding projects and expenditures of sewer sales tax dollars.

The County Commission has paid off every penny allowable for early payoff which will save Taney County taxpayers approximately $500,000 in interest payments. In December 2013, a principal payment of $5,603,250 was made.

The County Auditor provided the following written response:

3.3 I will ensure all parts of future county budgets are accurate and complete.

4. County Procedures

The County Treasurer and County Auditor do not adequately reconcile accounting records. Controls and procedures over credit card purchases and vehicle and fuel use need improvement.

4.1 Reconciliation procedures

A reconciliation between the annual settlement prepared by the former County Treasurer and actual amounts reported on the county budget prepared by the County Auditor was not performed. The beginning cash balance at January 1, 2012, for the Sewer Fund reported by the former County Treasurer on her annual settlement was approximately $336,000 less than the beginning cash balance reported by the County Auditor on the 2013 budget. Both the former County Treasurer and the County Auditor were unaware of the reporting differences. The County Auditor indicated a programming error in the county's accounting system caused disbursements posted to one line item in 2012 to reduce the beginning balance at January 1, 2012, throughout the year. A correction was made to the accounting system in October 2013.

To ensure errors and omissions are detected on a timely basis and to provide accurate financial reporting, the County Treasurer and the County Auditor should reconcile the annual settlement to the county budget.

4.2 Credit cards

The county has not adequately evaluated which employees need county credit cards and has not assigned individual transaction limits to credit cards. During the year ended December 31, 2012, credit card purchases totaled approximately $580,000.

Of 82 credit cards issued to county personnel, 23 cards were not used during the last 6 months of the year ended December 31, 2012, and 18 credit cards had 5 or fewer transactions totaling less than $500 for that time period. With 41 credit cards having limited or no activity, it is questionable whether employees needed the cards.

In addition, credit cards do not have individual transaction limits and monthly spending limits range from $300 to $20,000 with a county monthly cycle credit limit of $350,000. Because some monthly credit cards limits are as high as $20,000, consideration should be given to establishing individual transaction limits to further control significant purchases.

To adequately control the use of credit cards and to reduce the risk of loss, theft, and misuse going undetected, the County Commission should review credit card assignments and usage to evaluate each employee's continued need for a credit card and establish individual transaction limits.

4.3 Vehicle and fuel use

The county has not established effective monitoring procedures regarding fuel and vehicle use. Without effective procedures, fuel could be obtained for non-county use and the county's vehicle fleet may not be used in an efficient and appropriate manner.

The county's February 2013 inventory listing showed 127 vehicles and equipment are maintained for all county services excluding law enforcement. The Road and Bridge department maintains 8 bulk fuel tanks

at 3 locations to fuel these vehicles and equipment. During the year ended December 31, 2012, bulk fuel purchases totaled approximately $480,000.

Mileage and fuel usage logs are not maintained for numerous county vehicles and equipment, and fuel use is not adequately reviewed and reconciled to fuel purchases.

Procedures for reviewing fuel use and reconciling use to fuel purchased are necessary to ensure the reasonableness and propriety of fuel use and disbursements. Also, mileage and fuel usage logs are necessary to document the appropriate use of vehicles and to support fuel charges. Failure to account for fuel purchases could result in loss, theft, and misuse going undetected.

Recommendations

The County Commission:

4.1 Ensure the County Treasurer and County Auditor reconcile the annual settlement to the county budget and promptly investigate any differences.

4.2 Evaluate the need for each credit card issued and establish appropriate individual transaction limits.

4.3 Establish adequate records and procedures to effectively monitor vehicle and fuel use by requiring mileage and fuel usage logs for all vehicles and equipment, reconciling fuel used to fuel purchases, and promptly investigating any significant discrepancies.

Auditee's Response

The County Commission provided the following written responses:

4.1 The Commission will monitor the County Treasurer and County Auditor in their reconciliation of the annual settlement to the county budget.

4.2 Taney County has developed a county credit card policy. In addition, individual transaction limits have been established, and we will review card assignments and limit the number of cards, as needed. Should further reviews or updates to the current policy be needed, the County Commission will undertake the task.

4.3 The County Commission will review all policies currently in place and establish changes throughout the system as needed.

The County Treasurer provided the following written response:

4.1 This computer error has been corrected and safeguards will be put in place to prevent such errors in the future.

The County Auditor provided the following written responses:

4.1 I will work with the County Treasurer to reconcile the annual settlement to the county budget, and promptly investigate any differences.

4.2 I will work with the County Commission to evaluate the need for each credit card issued and establish appropriate individual transaction limits.

4.3 I will work with the County Commission to establish adequate records and procedures to effectively monitor vehicle and fuel use by requiring mileage and fuel usage logs for all vehicles and equipment, reconciling fuel used to fuel purchases, and promptly investigating any significant discrepancies.

5. Property Tax System

Utility tax distributions totaling $434,118 were incorrectly distributed to school districts for the years 2001 through 2010. The County Commission, County Clerk, and County Auditor do not adequately review the activities of the County Collector and County Assessor.

5.1 Utility tax distributions

The County Collector did not correctly distribute utility taxes to various school districts in the county for the years 2001 through 2010, resulting in distribution errors totaling $434,118. Based upon our calculations the school districts were over/(under) paid as follows.

School District	Property Taxes Owed to District	Property Taxes Distributed to District	Amount Over/(Under) Paid
Forsyth R-III	$ 24,930[1]	0	(24,930)
Branson R-IV	440,838[2]	31,649[1]	(409,188)
Hollister R-V	311,163	434,118[2]	122,955
Kirbyville R-VI	427	311,163	310,736
Mark Twain R-VIII	0	427	427

[1 & 2] The property taxes owed differ from the property taxes distributed due to a second distribution based on manual calculations.

The primary reason for these errors was a programming mistake in the tax extension phase of the property tax system that caused the school district names to not be in alignment with their respective distribution calculation. As a result, the Branson R-IV School District received Forsyth R-III School District's distribution, the Hollister R-V School District received Branson R-IV School District's distribution, the Kirbyville R-VI School District received Hollister R-V School District's distribution, and the Mark Twain R-VIII School District received Kirbyville R-VI School District's distribution. Forsyth R-III School District received no property tax

distribution because no taxes were collected for the Mark Twain R-VIII School District.

The County Collector relied on the property tax system for the distribution calculations and did not manually verify the calculations or compare the distributions to the tax statements, resulting in the distribution error going undetected for 10 years. In addition, reviews performed by the County Auditor did not detect this error.

At the request of various school district officials, the County Collector contracted with a consultant in March 2012, to recalculate the utility tax distributions for 2001 through 2010. Our calculations of amounts over/(under) paid noted above were consistent with those determined by the consultant in a report dated May 2012, with only minor differences related to the Mark Twain R-VIII School District.

Two school districts are involved in ongoing litigation over distribution of the 2001 through 2010 utility tax monies. The utility tax distributions were correctly calculated for the 2011 and 2012 tax years.

To ensure all future distribution calculations are correct, the County Collector and County Auditor should implement procedures to properly review all calculations and distributions for accuracy.

5.2 Account book

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes, and no evidence was provided to indicate procedures are performed to verify the accuracy and completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, and misuse of property tax monies going undetected.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all tax charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector's annual settlements. Such procedures are intended to establish checks and balances related to the collection of property taxes.

5.3 Delinquent taxes

The County Clerk does not prepare or verify the accuracy of the delinquent tax books totaling approximately $7 million at February 28, 2013, and the

County Commission also does not verify the accuracy of the delinquent tax books prepared and printed by the County Collector. According to the County Collector, she randomly tests the accuracy of several tax statements, but does not document this procedure. The County Clerk does not perform procedures to verify the totals of the delinquent tax books, and County Commission meeting minutes only indicate that the County Commission received the delinquent tax books.

Section 140.030, RSMo, requires the County Collector to prepare delinquent tax listings. Section 140.040, RSMo, requires the County Commission to examine and correct the listings, and Section 140.050, RSMo, requires the County Clerk to make the listings into delinquent tax books and charge the County Collector with the amount of delinquent taxes to be collected. If it is not feasible for the County Clerk to prepare delinquent tax books, at a minimum, the County Clerk should verify the accuracy of the delinquent tax book and document approval of the tax book amounts to be charged to the County Collector.

5.4 Tax book changes

The County Commission did not approve additions to personal property taxes totaling over $600,000 and did not approve personal property taxes outlawed totaling $188,000 during the year ended February 28, 2013. As a result, changes to the amount of the taxes the County Collector is charged with collecting are not properly monitored. Minutes of the County Commission meetings indicate the personal property taxes outlawed were presented to the County Commission by the County Collector; however, the County Commission did not approve a court order authorizing the removal of these taxes from the tax books.

Section 137.260, RSMo, assigns responsibility to the County Clerk for making corrections to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make changes to the tax books, an independent reconciliation of approved additions and outlawed taxes to actual changes made to the property tax system would help to ensure changes are proper.

5.5 Fire district taxes

The former County Assessor changed the application of the 2011 and 2012 property tax levies in the property tax system for the portion of the Central Taney County Fire Protection District located within the city of Forsyth, and as a result, taxes for this district were not properly levied to some city of Forsyth residents. This change was not detected until officials from the fire protection district contacted the county. While the County Clerk had procedures in place to review the tax book, procedures were not sufficient to identify these changes made by the former County Assessor. According to the County Collector approximately $44,000 was not charged for real property taxes for the 2 years ended February 28, 2013. The amount of personal property taxes not charged for that period has not been determined.

In April 2013, the Taney County Circuit Court ordered the county to levy these remedial taxes that were not previously levied. In February 2014, the Taney County Circuit Court further ordered the county to levy these 2011 and 2012 remedial taxes as a current tax and no penalties or interest shall be imposed on any taxpayer for 1 year from the date of the tax statement submitted to the taxpayer.

To ensure property taxes are properly charged to county taxpayers, a thorough review of changes made to the property tax system is necessary.

Recommendations

5.1 The County Collector and County Auditor ensure future utility tax distributions are computed properly and reviewed for accuracy.

5.2 The County Clerk maintain an account book with the County Collector. In addition, the County Clerk and County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

5.3 The County Commission and County Clerk should verify the accuracy of the delinquent tax books prior to charging the County Collector with the property tax amounts.

5.4 The County Commission and County Clerk review and approve personal property tax additions and personal property taxes outlawed.

5.5 The County Commission ensure remedial taxes are levied in accordance with Taney County Circuit Court's judgment. In addition, the County Clerk should review all changes made to the property tax system by the County Assessor and recalculate total taxes charged to each taxing district to ensure tax books are accurate.

Auditee's Response

The County Commission provided the following written responses:

5.1 The County Commission realizes that the accurate distribution of all tax dollars to our schools and other political subdivisions is critically important. The lack of manual calculations and comparisons of distributions to the tax statements has convinced the County Commission that proper checks and balances of these tax funds are desperately needed. The County Commission will research Missouri law for a determination of whether school funds should be statutorily distributed by the County Treasurer or the County Collector. The County Commission fully agrees with the State Auditor in that the County Collector and County Auditor

should ensure that future utility tax distributions are computed properly and reviewed for accuracy.

5.2 The County Commission agrees with the State Auditor that the County Clerk should maintain an account book with the County Collector. The County Commission believes that the County Clerk is statutorily charged with the responsibility of reviewing and monitoring the financial activities of the County Collector.

5.3 The County Commission believes it is the County Clerk's responsibility to make/prepare the delinquent tax book. The County Commission believes it should review the delinquent tax book when presented by the County Clerk before charging the County Collector for the collection of taxes. The County Commission will review all County Commission responsibilities and comply with said laws.

5.4 The County Commission has requested and is now receiving all additions to personal property taxes and all outlawed personal property taxes for approval.

5.5 The County Commission will ensure that remedial taxes are levied in accordance with the Taney County Circuit Court's judgment.

The County Collector provided the following written response:

5.1 I have implemented procedures to be able to balance the railroad and utility program for all schools to assure monies are distributed as charged.

The County Auditor provided the following written responses:

5.1 Procedures have been implemented to check these calculations.

The County Clerk provided the following written responses:

5.2 An account book was recently implemented. The account book will be used to review the accuracy and completeness of the County Collector's annual settlement.

5.3 I plan to verify the accuracy of the delinquent tax books prior to charging the County Collector with property tax amounts.

5.4 Procedures for reviewing and approving personal property tax additions and outlawed taxes have been implemented.

5.5 I had procedures in place and performed reviews of the tax book, but these changes were not identified. The county has purchased a new property tax system, and I am working with the programmer to develop a report of all changes made by the County Assessor prior to the Board of Equalization meeting, which will be reviewed for accuracy in the future.

The County Assessor provided the following written response:

5.5 I am striving to work with the County Collector and County Commission to correct past errors. In the future, the application of the levies of the fire protection district will be correctly applied.

6. Assessment Fund Reimbursements

The Missouri State Tax Commission (STC) withheld approximately $956,000 in property tax assessment reimbursement claims from Taney County since 2007, because the county failed to fully comply with approved assessment maintenance plans and applicable state law regarding property assessments.

After the STC withheld all quarterly reimbursements to the county for the state fiscal years ended June 30, 2007, 2008, and 2009, the STC entered into 2 assessment maintenance plan agreements with former County Assessor Strahan and the County Commission (the first agreement was for the period July through December 2009 and the second agreement was for the period January 1, 2010, through December 31, 2011). These agreements required the County Assessor to assess all taxable property in the county uniformly and at the statutorily required percentage, and also required compliance with various statutory and constitutional provisions pertaining to property assessments. Subsequent analysis and studies conducted by the STC determined problems with some property assessments lacking uniformity and not reflecting market values. As a result, obligations of the county's assessment maintenance plans were not met and additional quarterly reimbursements were withheld for the state fiscal year ended June 30, 2011. An addendum to the 2010-2011 maintenance agreement was entered into by the STC, the former County Assessor, and the County Commission in July 2011. The addendum established expectations for the remainder of the 2011 calendar year, and required its provisions be incorporated into the 2012-2013 maintenance plan. The STC determined there was a lack of compliance with the 2012-2013 maintenance plan and the STC issued a compliance order in December 2012 requiring the County Assessor and all assessing officials to comply with the county's assessment maintenance plan; and indicated state reimbursements would be withheld until property assessments met uniformity and value requirements. Quarterly reimbursements were withheld for the state fiscal year ended June 30, 2013, and also for the first 2 quarters of state fiscal year ended June 30, 2014. The STC reimbursed the county $138,777 on May 15, 2014, for the first 2

quarters of state fiscal year ended June 30, 2014. Lost revenues to the county by state fiscal year are listed in the following table.

State Fiscal Year Ended June 30,		Amount of Reimbursement Claims	Amount of Reimbursements Received	Amount of Lost Reimbursements
2007	$	243,498	0	243,498
2008		248,694	0	248,694
2009		248,694	0	248,694
2010		165,796	165,796	0
2011		165,796	86,996	78,800
2012		155,281	155,281	0
2013		136,611	0	136,611
2014		138,777	138,777	0
Total	$	1,503,147	546,850	956,297

Note: This information was obtained from the STC.

The amounts of the reimbursements fluctuate each year based upon available funding through the STC.

Section 137.750, RSMo, provides state funding to qualifying counties for a portion of the costs and expenses of the assessor. Compliance with state law and constitutional provisions and approved county maintenance plans when assessing property, is necessary to ensure state reimbursements are received.

Recommendation

The County Commission, County Assessor, and all assessing officials continue to work with the STC to correct assessment noncompliance so that the county is eligible for full assessment reimbursements.

Auditee's Response

The County Commission provided the following written response:

The audit announces that Taney County has lost approximately $956,000 in reimbursements from the State Tax Commission over the last several years. These are funds from the state of Missouri that Taney County would have received, had the State Tax Commission deemed Taney County was in compliance with the Tax Commission's wishes. The Tax Commission had stated that the values of older homes and structures within Taney County needed to be assessed at higher values. Increasing the values of older homes and structures within Taney County would have shifted an enormous tax burden onto many of the senior citizens within Taney County resulting in much higher taxes.

The position of the previous County Assessor, the County Board of Equalization, and the County Commission was contrary to the position of the State Tax Commission. The Taney County Assessor and the Taney

County Commission believed the county was in compliance with Missouri law. They had conducted their own ratio studies and concluded that the Tax Commission was incorrect in their findings. Taney County officials felt strong enough in their findings that they brought suit against the Missouri State Tax Commission. Eventually, a judge in Cole County found against some of the county's arguments.

The Taney County Assessor made an attempt to appease the State Tax Commission during the assessment process of 2009. The County Assessor's office presented over 13,000 increases. The Tax Commission reinstated state funding to Taney County, however the Board of Equalization, as its last act of the summer board meeting, rolled all increases back by 50%. The State Tax Commission once again withheld state funding from Taney County.

The current Taney County Commission agrees that Taney County could have and possibly should have received assessment expenses from the state of Missouri during the period denoted by the State Auditor. However, there were mitigating circumstances that should be considered.

Taney County Commissions over the past few years have elected to spend local county tax dollars on the assessment process rather than succumbing to acceptance of monies from the state, and the strings tied to those monies, which would force higher taxes on Taney County citizens.

There have been no major changes in assessment procedures or the local index, however, Taney County has recently received funds from the State Tax Commission representing some period of time in the past (no accompanying documentation for time reimbursed was included with the check). We believe the Tax Commission and the county position have been positions of politics; the current Taney County Commission believes it is time for both the Tax Commission and Taney County to move forward in a cooperative spirit.

7. Payroll and Personnel Issues

Procedures related to timesheets and background checks need improvement.

7.1 Timesheets

Timesheets are not prepared by the Information Systems Director and the Emergency Management Director. Both are part-time salaried employees and are not required to submit documentation of hours worked and/or tasks performed. According to the payroll clerk, the Information Systems Director's annual salary of $51,892 is based upon 18 work hours per week and the Emergency Management Director's annual salary is $8,690 regardless of the number of hours worked.

Timesheets are necessary to document and monitor hours actually worked to substantiate payroll disbursements. Additionally, the county personnel manual requires the county to keep accurate time records for every employee.

7.2 Background checks

The county does not perform formal background checks on employees who work in sensitive information technology positions. According to the Human Resource Director, she only reviews the state courts automated case management system prior to offering a job to potential new employees; however, this review is not documented. While the case management system is a good resource, it is not sufficient to show out of state and federal violations, suspended imposition of sentence violations, and personal credit history, etc., which may be needed due to the sensitive nature of these positions.

According to accepted standards,[1] background checks should be performed for new employees and periodically for current employees dependent on the sensitivity and/or criticality of the job function. Without performing appropriate background checks, there is an increased risk of exposing sensitive information to an employee with a criminal background.

Recommendations

The County Commission:

7.1 Require the Information Systems Director and the Emergency Management Director to submit timesheets.

7.2 Ensure complete periodic background checks are performed on employees who have access to sensitive information.

Auditee's Response

The County Commission provided the following responses:

7.1 The County Commission will address the issue regarding timesheets for these employees with the County Human Resource Director.

7.2 Background checks were completed on employees who work in sensitive positions, including the information systems department; however, documentation of these background checks will be retained in the future, and the type of background check obtained will be scrutinized and improved.

8. Sheriff Seized Property and Evidence

The Sheriff has not established adequate controls and records for seized cash and property. In addition, the Sheriff's office does not have procedures to dispose of seized cash held for many years.

Seized cash

The Sheriff's office records of seized cash at April 2013, show the Sheriff was holding approximately $77,000 for 50 cases. Our review of 10 of these 50 cases determined the following:

- Seized cash totaling $3,270 from 2 cases was not on hand and disposition of the cash was not documented. In one case, $2,550 was seized and there is no documentation the cash was released; however, the cash was not located. In another case, $3,320 was seized and documentation indicates $2,600 was transmitted to the court leaving a balance of $720 to be released to the defendant. The Sheriff's records do not document the cash was released to the defendant and the cash is not on hand. We contacted the defendant, who indicated the cash had not been received. As a result, cash totaling $3,270 could not be located and cannot be accounted for properly.

- Seized cash totaling $10,373 was still on hand although the case was dismissed in February 2012.

- Seized cash totaling $2,500 from one case was still on hand even though a 1998 court judgment had been obtained releasing the seized cash.

- Seized cash records indicate $1,369 of cash seized for one case was released to the court; however, the seized cash was located with other seized property evidence. Sheriff's office personnel were unaware this cash was with the other evidence.

- Cash totaling $6,440 seized in March 1995 was still on hand without any documentation the Sheriff had attempted to dispose of the funds. No case has been filed with the Circuit Clerk's office in relation to this cash.

Seized property

The Sheriff maintains seized property items at the county impound lot, barn, and evidence room. Records and procedures to account for these items are inadequate.

- Seized property items are maintained in multiple locations and there is no overall inventory list that identifies the storage location of specific items.

- Seized property is not always tagged and identified. For example, we noted a dismantled rifle at the barn without a tag. The Evidence Officer

said the rifle has been in the seized evidence area since prior to when he took his position and he does not know its status.

- Periodic physical inventories of seized property items are not conducted; and procedures have not been implemented to periodically review cases and dispose of related seized property items when appropriate and in accordance with court judgments.

- Not all firearms are stored at the Sheriff's evidence room as required by office policy. We noted a pistol and rifle (noted above) stored at the county barn.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of theft or misuse of the stored items. Complete and accurate inventory records should be maintained and periodic physical inventories should be performed and the results compared to inventory records to ensure seized property is accounted for properly. Section 542.301, RSMo, provides guidance for the disposition of unclaimed seized property. Proper disposal of such items would eliminate the significant risks of unauthorized access, use, or theft.

Recommendation

The Sheriff ensure a complete and accurate seized cash and property inventory record is maintained and a periodic physical inventory is conducted and reconciled to the records, and investigate any differences. The Sheriff should also make timely and appropriate dispositions of seized property.

Auditee's Response

The Sheriff provided the following written responses:

A complete and accurate seized cash and property inventory record will be maintained. A periodic inventory will be conducted and reconciled to the records and any discrepancies will be investigated and recorded. I hope to implement these records and physical inventory by January 2015. I have already taken steps to dispose of old seized property.

9. Sheriff Controls and Procedures

Controls and procedures need improvement. During 2012, the Sheriff's office processed approximately $570,000 in civil and criminal process fees, concealed carry permits, bonds, and other miscellaneous receipts.

9.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and independent or supervisory reviews of accounting records are not performed. One clerk performs all the duties of receiving, recording, depositing, and disbursing monies related to civil and criminal monies and another clerk performs all these duties related to concealed carry permit monies. Neither the Sheriff nor other office personnel perform a documented review of accounting records or a comparison of monies received to those deposited or transmitted.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are essential.

9.2 Receipting and depositing

Receipting and depositing procedures need improvement.

- Receipt slips are only issued if requested for civil and criminal process fees, concealed carry permits, and miscellaneous fees. An unofficial generic receipt slip book is used, but only 13 receipt slips were issued during 2012. Fees for concealed carry permits are recorded on a spreadsheet, but the method of payment (cash, check, or money order) is not recorded. All other civil and criminal process fees and miscellaneous fees are posted to a computer program, but the numerical sequence of transaction numbers assigned by the program is not accounted for by the clerk, and the transaction numbers do not appear in sequential order on the generated reports.

- Bond monies are recorded in a separate unofficial generic receipt slip book, copies of voided receipt slips are not always retained, and bond forms are not prenumbered.

- Cash bonds are not always deposited timely. For example, 3 bonds totaling $1,600 were received on November 15, 2012, but not deposited until November 20, 2012. Cash bonds are generally deposited once or twice per week.

- Documentation is not maintained for bond monies received and subsequently transmitted to a court in another county rather than deposited. For example, 2 money orders totaling $1,500 were received, recorded in the bond receipt slip book, and then mailed to a court in another county without any documentation to support the disposition of the money orders. Copies of the money orders were not retained, and there was no information on the receipt slip to indicate the payee. We verified the Carroll County Circuit Court received these money orders.

To ensure all monies received are properly handled and deposited or transmitted, and reduce the risk of loss, theft, or misuse of funds, adequate receipting, depositing, and transmitting procedures are needed.

Recommendations

The Sheriff:

9.1 Segregate accounting duties to the extent possible or ensure adequate independent or supervisory reviews of accounting and bank records are performed and documented.

9.2 Issue official prenumbered receipt slips for all monies received, record the method of payment, account for the numerical sequence of receipt slips and transaction numbers, deposit monies timely, and maintain supporting documentation of monies transmitted to other entities. The Sheriff should also issue prenumbered bond forms and account for the numerical sequence of bond forms.

Auditee's Response

The Sheriff provided the following written responses:

9.1 I have instructed the clerks to clearly document who prepares and reviews bank reconciliations on bank statements. Also, the Chief Deputy will perform independent reviews and comparison of monies received to those deposited or transmitted.

9.2 Prenumbered receipt books were implemented in May 2013. Prenumbered receipts indicating the method of payment are issued for all monies.

The transaction number assigned to a receipt can be matched to a name on a deposit slip and a full description of the transaction can be found in the system. I also plan to implement a new records management system later this year.

A prenumbered bond receipt book has already been implemented in the jail. Copies of all receipts, including voided receipts, are retained and the numerical sequence of receipts slips is now being accounted for. Also, we plan to implement prenumbered bond forms so they can be accounted for.

Cash bonds are picked up by the records clerk from a locked bond box, and the money is counted by the clerk and jail personnel. A copy of the receipt is dated and initialed by each of them. While the records clerk is not always available, all bonds are deposited on the day they are picked up from the locked drop box.

Money orders or cashier's checks made out to courts other than Taney County cannot be deposited into the Sheriff's bond account. In the future, we will indicate on the bond receipt slip the date these bonds are mailed to the applicable court.

10. Sheriff Commissary Records and Procedures

We identified several problems with the records and procedures accounting for commissary monies. Deposits into the commissary account totaled approximately $229,000 for the year ended December 31, 2012.

The Sheriff operates a 264 bed jail, housing Taney County inmates and inmates from cities and neighboring counties. The Sheriff maintains a

separate checking account to handle personal inmate monies and provides a commissary through an outside vendor. The monies received, commissary purchases made, and available cash for each inmate are recorded in a computerized accounting system. Inmates order items from the commissary through a kiosk and the payment is deducted from their balance. Commissary profits are paid directly from the outside vendor to the County Treasurer. Any remaining personal monies are paid to inmates upon their release through a smartcard (prepaid credit card) refund.

10.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and independent or supervisory reviews of accounting records are not performed. The administrative assistant performs the duties of receiving, recording, depositing, and disbursing commissary monies. Neither the Sheriff nor other office personnel perform a documented review of accounting records or a comparison of monies received to those deposited.

Additionally, the jail administrator and the administrative assistant are married to each other. The supervision of a related employee could compromise a supervisor's objectivity when assigning duties or evaluating employee performance. Also, related employees with receipt handling responsibilities increase the risk of collusion and theft or misuse of county funds.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are essential and include comparing daily receipt activity to deposits.

10.2 Inmate deposits and refunds

The administrative assistant does not deposit inmate monies timely. These monies are only deposited approximately once a week. Additionally, documentation of inmate refunds is not maintained. At the time of release, an inmate's monies are loaded on a prepaid credit card and given to the inmate; however, the inmate does not sign to verify receipt of the card.

To safeguard receipts and reduce the risk of loss, theft, or misuse of funds, all monies should be deposited timely, and to validate refunds were made to the inmate, documentation of refunds made should be signed by both the inmate and the Sheriff office employee issuing the refund.

10.3 Bank reconciliations and liabilities

The jail administrator does not perform formal bank reconciliations or prepare monthly lists of liabilities to reconcile to the available cash balances of the commissary bank accounts. The Sheriff's office maintains an old commissary account that was primarily used until August 2013, when a new commissary account was opened. Additionally, a third commissary bank account is maintained by the commissary vendor to issue prepaid credit cards to inmates for inmate monies on hand at the time of release from jail.

We requested the jail administrator generate bank reconciliation and liability reports from the computerized accounting system maintained for these 3 accounts as of October 31, 2013. Our review of these reports noted the following concerns:

- The reconciled bank balance of the old commissary account was ($670), while the book balance in the computerized accounting system was ($12,820). Deposits in transit of $146 and outstanding checks totaling $816 were erroneously posted to this account in the accounting system, resulting in a net difference totaling ($12,150) between the adjusted reconciled bank and book balances.

- The bank balance of the new commissary account was $138,345, while the book balance in the computerized accounting system was $109,403. Additionally, the bank balance of the vendor commissary account was $3,600, while the book balance in the computerized accounting system was $52,305.

  Receipts totaling $49,724 were erroneously posted in the computerized accounting system to the vendor commissary account while the related monies were actually deposited into the new commissary account. Additionally, $1,041 was transferred from the new commissary account to the vendor commissary account in October 2013, but the transfer was not recorded in the computerized accounting system until November 2013. Other recording errors for receipts and voided transactions totaling $389 were not identified and posted to the computerized accounting system for the new commissary account until November 2013. After considering these various adjustments needed to book balances due to errors we noted, differences still exist between the bank and book balances for both accounts.

- The list of liabilities for these 3 accounts totaled $144,242, while the reconciled bank balances totaled $141,945, indicating a shortage of $2,297. The liabilities include amounts that need to be turned over to the County Treasurer for commissions on telephone cards (net of operating expenses paid from the commissary account [$124,804]), medical fees ($9,068), and interest income ($1,445).

Without preparing monthly bank reconciliations, identifying liabilities, and reconciling computerized accounting records and liabilities to cash balances, there is little assurance cash receipts and disbursements have been properly handled and recorded, sufficient cash is available for the payment of all amounts due, and all monies in the bank account can be identified. Prompt follow up on discrepancies is necessary to resolve errors and ensure monies are properly disbursed. Old outstanding checks should be timely resolved. In addition, Section 221.102, RSMo (effective August 28, 2013), requires each county jail to keep revenues from its canteen or commissary in a separate account and pay for goods and other expenses from that account,

allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (profits) into the county Inmate Prisoner Detainee Security Fund.

Our prior audit report issued in 2002 addressed similar concerns.

10.4 Inmate telephone card procedures and controls

The jail administrator does not maintain records to account for prepaid telephone cards purchased and sold to inmates, and on hand. Batches of telephone cards are periodically purchased and held by the jail administrator until sold to inmates. During 2012, $36,000 in telephone cards were purchased for resale. The contract with the telephone card vendor indicates $20,000 in complimentary cards are to be provided each year of the 5-year contract. However, the jail administrator indicated he was not aware of this provision and complimentary cards valued at $20,000 were received during 2010, but not during 2011 and 2012. After we brought this issue to the Sheriff's attention, the complimentary cards for 2011 and 2012 were received in March 2013, and the complimentary cards for 2013 were received in April 2013.

To ensure telephone cards are properly recorded and handled, detailed inventory records should be maintained. Inventory records should document the beginning number of telephone cards, cards purchased, cards sold, and the ending balance of cards. Periodic physical inventory counts should be performed and reconciled to inventory records. Loss, theft, or misuse of the telephone cards and receipts may go undetected without adequate telephone card records and procedures. In addition, contracts should be reviewed to ensure all contracted items are provided.

Recommendations

The Sheriff:

10.1 Segregate accounting duties to the extent possible or ensure documented independent or supervisory reviews of accounting and bank records are performed.

10.2 Deposit inmate monies timely, and ensure documentation of inmate refunds made include a signature from the inmate and applicable Sheriff's office employee.

10.3 Prepare monthly bank reconciliations and lists of liabilities for all accounts, compare liabilities to the available cash balances, and promptly investigate and resolve differences. The Sheriff should ensure all existing and future commissary profits are deposited to the Inmate Prisoner Detainee Security Fund. The Sheriff should dispose of old outstanding checks in accordance with state law and correct recording errors in a timely manner.

10.4 Develop records and procedures to adequately account for the purchase and sale of telephone cards. In addition, inventory records

of telephone cards should be maintained and reconciled to purchases, sales, and a physical inventory count.

The Sheriff provided the following written responses:

10.1 I have instructed the clerks to clearly document who prepares and reviews bank reconciliations on bank statements. Also, the Chief Deputy will perform independent reviews and comparison of monies received to those deposited or transmitted. Also, a kiosk is being placed in the booking area of the jail in order for inmates to deposit their own monies. The kiosk will eliminate anyone in the jail of receiving, recording, and depositing these monies. The kiosk should be in place by the end of June 2014.

10.2 I will make sure that all money is deposited daily and ensure inmates sign all inmate refund receipts.

10.3 I will ensure that monthly bank reconciliations and lists of liabilities for all accounts are performed. We will compare liabilities to the available cash balances and investigate and resolve any differences. All balances in the commissary account will be transferred to the Inmate Prisoner Detainee Security Fund on a monthly basis. I will ensure old outstanding checks are disposed of in accordance with state law and recording errors are corrected each month as they are identified.

10.4 We have developed and implemented a form to account for the tracking and inventory of telephone cards, which includes conducting a physical count of phone cards on hand.

11. Public Administrator Controls and Procedures

The Public Administrator failed to adequately track money owed to wards and holds some money for extended periods of time before depositing it to help wards retain Medicaid eligibility. We also identified weaknesses involving mileage reimbursements and computerized accounting system controls.

The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Associate Circuit Court - Probate Division, and is responsible for the financial activity of approximately 100 individuals.

11.1 Receipting and depositing

The Public Administrator does not have a receipting system in place to properly track and document when monies owed are received on behalf of wards. Additionally, checks received by the Public Administrator on behalf of the wards are often held for extended periods of time before deposit to help wards retain Medicaid eligibility, and checks are not restrictively endorsed until the deposit is prepared.

Tracking receipts

Our review of 7 Medicaid eligible wards identified 2 instances where money owed to the ward was not properly tracked and received by the Public Administrator. In one instance, the Public Administrator failed to identify an alimony payment that was not received in October 2012. We brought it to her attention on October 23, 2013, and the payment was received and deposited on October 31, 2013. Additionally, the court order for the alimony indicates the ward is to receive $865 monthly; however, only $360 is typically received monthly.

In another instance, a ward's payroll checks for March 13 and July 31, 2012, totaling $343, were not recorded and deposited by the Public Administrator. After our April 2013 inquiry, the Public Administrator contacted the employer and learned the checks had not cleared the bank and the employer had already direct deposited the $343 into the ward's bank account in December 2012. The Public Administrator had not identified or followed up on these checks and indicated the ward failed to give her these checks. The Public Administrator authorized this employer to direct deposit the ward's bi-monthly wages in August 2012; however, the Public Administrator was not aware the employer had replaced the uncleared checks with the December direct deposit.

Depositing receipts

On November 26, 2012, we counted 30 checks totaling $79,210 held by the Public Administrator, of which 20 checks totaling $4,088 had been held for 1 to 4 months based upon check issue dates. We also determined 15 payroll checks for one ward issued between October 2011 and August 2012 were each held at least a month before being deposited.

According to the Public Administrator, checks are often held for future expenses so a ward's estate assets remain below Medicaid eligibility limits. Our review of Medicaid eligibility forms identified some differences between reported cash balances and actual cash balances. For example, a Medicaid eligibility form filed for one ward on September 14, 2012, showed a bank account balance of $529; however, the reconciled bank balance was $795. Further, the Public Administrator was holding three payroll checks totaling $360 and the ward was holding two payroll checks totaling $343. As a result, the ward's available cash was $1,498 and not the $529 reported by the Public Administrator.

Also, checks are not restrictively endorsed until the deposit is prepared further subjecting the checks being held to the risk of loss, theft, or misuse.

Conclusion

To properly track all monies owed and received on behalf of the wards and to adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, a log should be maintained to document monies owed and received, monies should be deposited timely, and checks should be restrictively endorsed immediately upon receipt. In addition, Section

208.210.1, RSMo, requires recipients to notify county welfare offices if they possess property that affects their right to receive benefits. Further, Section 208.210.2, RSMo, provides that if it is found that a recipient or spouse possessed income in excess of the amount reported that would affect his/her right to receive benefits, the amount of benefits may be recovered as a debt to the state.

11.2 Mileage reimbursements

Mileage claim forms submitted by the Public Administrator to the county for reimbursement did not always contain sufficient detail, and as a result, mileage claim forms were not always accurate.

Our review of 2 monthly mileage claim forms submitted in 2012 noted one instance where details provided on the claim form did not agree with the amount of miles claimed for reimbursement. For example, from July 8 to July 10, 2012, the Public Administrator indicated she went to Columbia, St. Louis, and Mt. Vernon for a total of 839 miles; however, based on the locations documented on the claim form, mileage should have totaled only 649 miles. When we questioned the number of miles claimed for these locations, the Public Administrator indicated she failed to include all travel locations during those days.

Section 50.333.10, RSMo, allows the county to reimburse county officials and employees for each mile actually traveled in the performance of their official duties. To ensure mileage paid is accurate, mileage claim forms should include sufficient detail of locations traveled.

11.3 Computer system controls

The Public Administrator's computerized accounting system allows the user to change check numbers and dates in the system once a check has been printed and issued. For example, in response to our inquiry the Public Administrator indicated a check number that was not included on an annual settlement was voided. However, upon her further review of the computerized accounting system, the Public Administrator determined she had incorrectly entered the wrong check number as void. At that point she made a change to the computerized accounting system to change the recorded check number.

To ensure all disbursements are properly recorded and to reduce the risk of loss, theft, or misuse of funds, the Public Administrator should work with the computer software vendor to ensure adequate controls are put in place that prevent actions such as changing check numbers and dates.

Recommendations

The Public Administrator:

11.1 Maintain a log to document all monies received and due, and properly monitor the receipt of payments owed to wards. In addition, the Public Administrator should discontinue the practice of

holding checks. The Public Administrator should also report accurate asset information for wards to the Department of Social Services (DSS), Family Support Division, and contact DSS to determine whether any monies are due to the state. In addition, monies should be deposited timely and checks restrictively endorsed immediately upon receipt.

11.2 Provide adequate documentation including sufficient details of locations traveled for all mileage reimbursements.

11.3 Work with the computer software vendor to ensure adequate controls are in place to allow for the proper accountability of all transactions.

Auditee's Response

The Public Administrator provided the following written responses:

11.1 In the future, I plan to use my electronic calendar to prompt me so that I can track payments owed and due to wards, and checks will be deposited in a timely manner and endorsed upon receipt. As has been the policy of my office, any extra monies that a ward received is spent on ward purchases such as personal needs, dental insurance, pre-need funeral plans, and special needs trust accounts. While I believe no money is owed to the Department of Social Services, in the future, I will contact the Department of Social Services to determine whether any monies are due the state.

11.2 In the future, physical addresses will be submitted for mileage reimbursements.

11.3 The computer software vendor has been contacted to ensure controls are in place to allow proper accountability of all transactions.

12. Prosecuting Attorney Controls and Procedures

Improvements are needed in accounting controls and procedures of the Prosecuting Attorney's office. Criminal restitution, delinquent taxes, and bad check restitution and fees collected at the Prosecuting Attorney's office totaled approximately $500,000 during the year ended December 31, 2012.

12.1 Adjustments and reversals

One clerk, who is responsible for receiving and recording all monies, also has the ability to post adjustments and reversals to the computerized accounting system without obtaining independent approval. Common reasons for adjustment and reversal entries recorded in the computerized accounting system include recording errors and the dismissal of cases. Adjustments totaling $250,305 were made during 2012. The clerk could not

provide a total for all reversals made in 2012 because she could only generate a daily reversal report.

To reduce the risk of loss, theft, or misuse of funds, and ensure the validity of all adjustments and reversals, adjustments and reversals should be reviewed and approved by a supervisor.

12.2 Receipting and recording

Procedures for receipting and recording need improvement.

- Monies received are not always recorded immediately upon receipt and are not properly secured prior to deposit. The Prosecuting Attorney requires 2 clerks to be present when money is recorded in the computerized accounting system. When only 1 clerk is in the office and a payment is received, a photocopy of the payment is provided to the payer as a receipt and the payment is held in an unlocked drawer until the payment can be recorded in the presence of 2 clerks.

- The numerical sequence of computerized receipt numbers is not accounted for properly. The computerized accounting system assigns a sequential receipt number and generates a receipt slip each time a payment is entered. The computerized accounting system also assigns a receipt number to adjusting and reversal entries; however, the receipt numbers associated with reversal entries are not included in the collection reports generated by the Prosecuting Attorney's office. Our review of October 2012 receipt numbers identified 16 of 162 receipt numbers assigned during this time period were associated with reversals and were not included on collection reports generated by the Prosecuting Attorney's office. According to the software programmer a computer update of the system would resolve this issue; however, the Prosecuting Attorney's system has not been updated since May 2010.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, receipts should be recorded immediately upon receipt, held in a secure location, and the numerical sequence of receipt numbers accounted for properly. Receiving timely software updates are necessary to ensure computerized reports are complete and accurate, and system improvements are utilized.

12.3 Bank reconciliations and liabilities

The Prosecuting Attorney's office manager does not prepare accurate bank reconciliations for the restitution and bad check bank accounts. The office manager only compares the ending bank balance on her computerized accounting system to the ending balance on the bank statement and does not ensure deposits in transit and outstanding checks are accurate. The December 31, 2012, restitution account bank reconciliation listed 143 checks totaling $29,158 as outstanding for over a year when these checks had actually cleared the bank during 2010 and 2011. We identified similar problems with the bad check account bank reconciliation.

The Prosecuting Attorney does not identify liabilities. At our request in February 2013, corrections to the December 31, 2012, bank reconciliations were made and a list of liabilities for both accounts was prepared. The restitution account reflected a shortage of approximately $500 when compared to liabilities while the bad check account had a balance in excess of liabilities of approximately $900.

The preparation of complete and accurate monthly bank reconciliations is necessary to ensure accounting records are in balance and to identify errors in a timely manner. Additionally, a list of liabilities should be prepared monthly and reconciled to cash balances to ensure sufficient cash is available for the payment of all amounts due and all monies in the bank account can be identified.

12.4 Accounts receivable

The Prosecuting Attorney's office does not generate a monthly list of unpaid bad checks and restitution, and is not proactive in identifying cases with unpaid receivables. Improvements are needed to better monitor and pursue collection of receivables.

At our request, the clerk contacted the software programmer for instructions to generate an accounts receivable report. As of January 16, 2013, the bad check accounts receivable listing included 1,075 defendants with amounts due totaling $658,172 and the restitution accounts receivable listing included 479 cases with amounts due totaling $2,881,565. We reviewed 10 bad check cases and 12 restitution cases and identified 8 cases totaling $285,508 that were no longer collectible for reasons such as bankruptcy or case dismissal. For example, the clerk was unaware of a case dismissed in May 2012 following a plea agreement until we asked about the case in March 2013.

Further, probation termination dates were not accurately recorded or updated in 4 of 12 restitution cases reviewed. These dates are used to ensure collection of monies prior to a defendant's release from probation.

A complete and accurate list of unpaid bad checks and restitution would allow the Prosecuting Attorney's office to more easily review the amounts due and to take appropriate steps to ensure collection of amounts owed.

12.5 Delinquent tax collections

Office personnel are not always transmitting delinquent taxes collected for the Missouri Department of Revenue (DOR) timely. We noted 2 checks totaling $1,535 were receipted on August 22, 2012, and September 4, 2012, but not transmitted to the DOR until October 19, 2012. According to the clerk, efforts are made to transmit these monies to the DOR twice a month. To ensure all receipts are accounted for properly, transmittals should be made on a timely basis.

12.6 Computer system controls

The computerized accounting system allows the user to postdate or backdate receipts and checks without an audit trail. On November 26, 2012, we observed an unsigned check prepared and on hand dated December 3, 2012. The clerk indicated the check was a replacement check and she will print replacement checks periodically through the month, but she will usually date them for the date she plans to perform her monthly check run. The ability to postdate or backdate receipts and disbursements transactions allows possible manipulation of financial data and less assurance of its validity.

To properly account for all monies received and disbursed, all receipts and checks should be dated on the date received and/or disbursed. Consideration should be given to working with the software programmer to add control features to the program to prevent receipts or checks from being postdated or backdated.

12.7 Seized cash

Seized cash held by the Prosecuting Attorney's office was not disposed of in a timely manner. Seized cash records from the Sheriff's office indicate $2,885 seized in 2009 was transferred to the Prosecuting Attorney in April 2010. The seized cash was still on hand in May 2013, although a court judgment of forfeiture to release the funds was issued in March 2012. After it was brought to the attention of the Prosecuting Attorney, all funds were released in June 2013.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of theft or misuse of the stored items. Timely disposal of such items would eliminate the significant risks of unauthorized access, use, or theft.

Recommendations

The Prosecuting Attorney:

12.1 Require supervisory review and approval for all adjustments and reversals.

12.2 Record all monies immediately upon receipt, store monies in a secure location, and account for the numerical sequence of receipt numbers.

12.3 Prepare accurate and complete bank reconciliations and a list of liabilities monthly, and reconcile the cash balances to the list of liabilities. Any differences should be promptly investigated and resolved.

12.4 Maintain an accounts receivables record and establish procedures to monitor and collect accounts receivables. The Prosecuting Attorney should also periodically review case information for accuracy.

12.5 Ensure all delinquent taxes collected are transmitted to the DOR timely.

12.6 Ensure receipt slips and checks are issued in sequential order and contact the software programmer to add control features that prevent a receipt or check from being postdated or backdated.

12.7 Make timely and appropriate dispositions of seized property.

Auditee's Response

The Prosecuting Attorney provided the following written responses:

12.1 We now create a paper trail of supervisory reviews and approvals for all adjustments and reversals. Such supervisory approvals were previously not documented.

12.2 We are now using manual pre-numbered receipt slips that provide a numerical sequence of all payments received, and we feel that this has improved our record keeping in this area. All monies are recorded immediately upon receipt and stored in a secure location until they can be delivered to the County Treasurer.

12.3 The County Treasurer now maintains these bank accounts, with deposits being made and disbursements (checks) being written from her office.

12.4 We are already monitoring accounts receivables more diligently than before the audit, conducting reviews at least once per month, and closing out old accounts.

12.5 Rather than holding payments for the state until such a time that multiple payments can be sent at once, our office is now transmitting payments to the Department of Revenue much more timely.

12.6 The County Treasurer now controls these monies and issues checks to crime victims. We also utilize pre-numbered sequential receipts manually rather than generating receipts through our computer software provider.

12.7 All forfeited monies mentioned have been accounted for, and have been forwarded on. We aim to be better aware of what evidence is kept in our secure evidence room, and what evidence has been returned to the seizing agencies, so that forfeited funds are not inadvertently retained.

13. County Collector Controls and Procedures

The County Collector's receipting, depositing, and reconciling procedures need improvement.

13.1 Receipting and depositing

Procedures for receipting and depositing need improvement.

- The County Collector does not account for the numerical sequence of receipt numbers assigned by the computer system. The 4 collection stations (cash drawers) share the same sequence of receipt numbers; therefore, skipped numbers occur in the receipt number sequence on the daily cash reports generated for each station. No one in the County Collector's office accounts for the numerical sequence of the receipt numbers when reviewing the daily cash reports and preparing deposits.

- Receipt numbers are not issued for partial payments received. In addition, the method of payment is not indicated on the partial payment reports, and, as a result, the composition of partial payments received is not reconciled to the composition of deposits. Partial payments are handled separately from other payments and a separate daily report is generated at the time of the deposit. Additionally, monies received for partial payments are not always deposited timely. For example, partial payments totaling $3,234 received from the period of November 21, 2012, to December 2, 2012, were not deposited until December 4, 2012.

To ensure all monies received are properly recorded and deposited and to reduce the risk of loss, theft, or misuse of funds, the County Collector should account for the numerical sequence of receipt numbers, issue receipt numbers for partial payments received, indicate the method of payment, reconcile the composition of receipts to the composition of deposits, and deposit partial payments timely.

13.2 Protested tax reconciliations

The list of liabilities prepared for the protested tax account is not adequately reconciled to the protested tax account balance. As a result, a $3,034 overpayment for a protested tax refund made in October 2012 was not identified by the County Collector until April 2013. The County Collector requested and subsequently received a refund of the overpayment. Additionally, as of February 28, 2013, the balance in the protested tax account exceeded the list of liabilities by $5,984. The County Collector indicated the difference may be accumulated interest.

Regular comparison of liabilities to the available cash balance is necessary, to identify errors in a timely manner, and ensure accounting records are in balance, sufficient cash is available for the payments of all amounts due, and all monies in the bank account can be identified.

Recommendations

The County Collector:

13.1 Implement procedures to account for the numerical sequence of receipt numbers. For partial payments, the County Collector should work with the computer software programmer to ensure receipt numbers are issued and the method of payment is documented. In addition, the County Collector should reconcile the composition of receipts to the composition of deposits, and make deposits timely.

13.2 Reconcile the protested taxes list of liabilities to the reconciled bank account balance monthly and promptly investigate any differences. The County Collector should also identify the source of the $5,984 and distribute as appropriate and in accordance with state law.

Auditee's Response

The County Collector provided the following responses:

13.1 With the new software program I will be able to follow the sequence order daily, as the drawers are balanced and deposits are made. The programmer will have the method of payment print on each drawer report on the pay-in-advance program. I plan to continue to deposit partial payments weekly.

13.2 In the future, I will balance my interest quarterly and transfer the accumulated interest annually to the county General Revenue Fund to avoid future errors.

14. Airport Controls and Procedures

Controls and procedures of the county's airport need improvement. The county operates an airport where office, hangar, and apron space is rented, and fuel is sold. The county's airport has an advisory board, an airport manager, and 5 employees. Approximately $600,000 was collected for the year ended December 31, 2012. These monies were deposited by the airport manager into a county bank account held by the County Treasurer and recorded in the Airport Fund.

14.1 Segregation of duties

The airport manager does not adequately segregate accounting duties or ensure independent or supervisory reviews of the accounting records are performed. Five airport employees including the office manager collect monies. In addition, the office manager has recording, depositing, and reconciling responsibilities and no one adequately reviews receipt and deposit records. As a result, the office manager is responsible for some transactions from initial receipt to reconciliation without adequate independent or supervisory review.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are essential.

14.2 Receipting

Airport personnel do not record monies immediately upon receipt. Rather, receipts are posted to the computerized accounting system when deposits are prepared. Additionally, receipt slips are only issued for cash receipts.

To ensure all monies received are properly recorded and deposited and to reduce the risk of loss, theft, or misuse of funds, monies should be recorded immediately upon receipt, and receipt slips issued for all monies collected.

14.3 Lease contracts

The county does not adequately monitor hangar rental lease and the car rental company lease contracts. In addition, the airport manager signs all hangar lease contracts on behalf of the county including his own hangar lease contract. The airport received approximately (1) $121,000 from hangar leases, and (2) $27,000 from the car rental company during 2012.

During our review of the 32 hanger leases billed in June 2012, 14 were billed at a higher rate and 2 were billed at a lower rate than the rates per the hanger lease contracts. The airport manager indicated the Airport Board approved a rate increase in May 2011, and some of the hanger lease contracts have not been updated, and the 2 lower rates were verbally renegotiated after the contract was signed. The airport manager gave us a copy of a letter dated June 15, 2011, airport customers received explaining the rate increase for single-engine aircraft storage. While the letter indicated these rates were for single-engine aircraft storage, the hanger lease contracts did not indicate this information.

The airport's lease contract with a car rental company for office space requires monthly lease payments of $500 plus a 4 percent commission based upon car rental fees and mileage collected by the car rental company. The contract further provides for the county to request an independent certified audit of the car rental company's monthly and annual reports to verify the accuracy of the commission. However, the county has not requested an audit or verified the commission or amount of car rental fees and mileage collected. Additionally, according to the airport manager, no lease payments were received from the car rental company during the last 4 months of 2012, because the car rental company was paying remodeling costs in lieu of lease payments. The contract was not revised for the change in lease payments during the remodeling period.

Contracts should be updated and renewed periodically to ensure the terms of the contract are still accurate. To ensure monthly lease payments received from the car rental company are accurate, the county should verify the amount of car rental fees and mileage collected as provided for in the contract. Allowing the airport manager to sign his own contract creates a conflict of interest, and airport lease contracts should be signed by someone independent of the contract, and filed with the County Commission to ensure county officials are adequately informed of airport revenues.

14.4 Fuel reconciliations

Reconciliations of airport fuel purchased to fuel sold are not performed. While the airport manager and office manager indicated they review the gallons of fuel purchased and sold, no formal reconciliation is performed. Inquiries were made in March 2013, regarding these reviews of fuel purchased and sold; however, the airport manager did not provide documentation showing a reconciliation of fuel purchased and sold to audit staff until April 28, 2014. Purchases of airport fuel totaled approximately $250,000 and sales of airport fuel totaled approximately $300,000 for the year ended December 31, 2012.

To ensure fuel purchased by the airport is accounted for properly, procedures should be established to periodically reconcile fuel purchased to fuel sold and significant differences should be investigated.

Recommendations

The County Commission:

14.1 Adequately segregate accounting duties to the extent possible or ensure an adequate independent or supervisory review of accounting and bank records is performed and documented.

14.2 Ensure monies are recorded timely and require issuance of receipt slips for all monies received.

14.3 Periodically update contracts, implement procedures to monitor lease revenues from the car rental company, ensure contracts are signed by someone independent of the contract, and require contracts to be filed with the County Commission.

14.4 Ensure fuel purchases are periodically reconciled to fuel sold and significant differences are promptly investigated.

Auditee's Response

The County Commission provided the following responses:

14.1-4 The County Commission will work cooperatively with the Airport Board to implement these recommendations.

The Airport Manager provided the following written response:

14.1 I will segregate accounting duties to the extent possible or ensure an adequate independent or supervisory review of accounting and bank records is performed and documented.

14.2 I will ensure monies are recorded and receipt slips will be issued for all monies received.

14.3 I will periodically update contracts, and implement procedures to monitor lease revenues from the car rental company. I will ensure

contracts are signed by someone independent of the contract, and file contracts with the County Commission.

14.4 I will ensure fuel purchases are periodically reconciled to fuel sold and significant differences promptly investigated.

15. Transfer Station Controls and Procedures

Controls and procedures of the county's transfer station need improvement. The county operates a transfer station where individuals and businesses can bring trash for transfer to a landfill. Fees are charged based on the amount and type of trash brought into the station. Approximately $1 million in fees were collected for the year ended December 31, 2012.

15.1 Segregation of duties

Accounting duties are not adequately segregated and a supervisory review of accounting records is not performed. The transfer operator has receiving, recording, depositing, and reconciling responsibilities; and is the administrator for the transfer station computerized accounting system allowing her to add new customers, change addresses, add new prices, create reports, and edit information. As a result, the transfer operator is responsible for transactions from initial receipt to reconciliation without supervisor involvement. Since the transfer operator is responsible for collecting fees, good internal controls require that she not have unlimited system access rights to make system changes.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are essential. In addition, to preserve the integrity of financial data, controls should be implemented to limit administrative access to the computerized accounting system.

15.2 Receipting and depositing

The numerical sequence of ticket numbers assigned by the computerized accounting system is not adequately tracked and the method of payment received is not recorded. Vehicles bringing trash to the transfer station are weighed before entering and upon leaving the location to determine the fee amount to charge. The computerized accounting system calculates the fee based upon the difference in weight and prints a ticket for the customer indicating the amount to be paid.

- Neither the transfer operator nor the County Treasurer accounts for the numerical sequence of ticket numbers issued. Ticket numbers do not appear in sequential order on daily receipt reports provided to the County Treasurer, and ticket numbers issued for nonpaying customers, such as the county road and bridge department or charge customers, are not included on daily cash reports.

- The transfer operator does not record the method of payment (cash, check, money order, and debit/credit card) in the system. As a result, the composition of receipts is not reconciled to the composition of deposits.

To ensure all monies received are properly recorded and deposited and to reduce the risk of loss, theft, or misuse of funds, the numerical sequence of ticket numbers issued should be accounted for properly, the method of payment received should be recorded, and the composition of receipts should be reconciled to the composition of deposits.

15.3 Credit card reconciliations

The former County Treasurer did not adequately reconcile credit card receipt transactions at the transfer station to credit card deposits in the county's bank account. During our review of credit card transactions for June 2012, we noted credit card transactions for June 4, 2012, totaled $315; however, only $282 was deposited into the county bank account by the credit card company. There was no documentation to indicate the county was aware of the difference. When questioned about the difference in March 2013, the County Auditor contacted the credit card company for an explanation and learned the $33 difference was a charge that had been disputed in March 2012. This amount was deducted from the June 2012 credit card receipts.

To ensure all credit card transactions are properly received and have been accounted for properly, reconciliations of credit card transactions should be performed and any differences identified and promptly investigated.

15.4 Reconciliations

The transfer operator and County Treasurer do not perform monthly reconciliations of total amounts billed (based on tickets issued to customers), payments received, and amounts unpaid.

The transfer operator prints monthly invoices from the transfer station computerized accounting system for charge customers only and provides them to the County Treasurer. The County Treasurer uses the invoices to post accounts receivable information into the county's computerized accounting system and generates another invoice that is mailed to customers. A monthly reconciliation of total amounts billed, payments received, and amounts unpaid is not performed. As a result, the transfer operator nor the County Treasurer have any assurance that all monies billed (ticketed) have been collected. According to the former County Treasurer's records, approximately $665,000 of the fees received during 2012 relate to customer charges.

Monthly reconciliations are necessary to ensure all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected on a timely basis.

Recommendations

The County Commission:

15.1 Segregate accounting duties to the extent possible or ensure an adequate independent or supervisory review of accounting and bank records is performed, and limit administrative access to computer functions.

15.2 Ensure the numerical sequence of ticket numbers issued is accounted for properly, review the county road and bridge department tickets for propriety, record the method of payment, and reconcile the composition of receipts to the compositions of deposits.

15.3 Properly reconcile credit card transactions to deposits in the county's bank account and promptly investigate any differences.

15.4 Ensure monthly reconciliations of the amounts billed (ticketed) to amounts collected and delinquent accounts are performed and documented.

Auditee's Response

The County Commission provided the following written responses:

15.1-3 The County Commission will address these recommendations.

15.4 The County Commission will work cooperatively with the County Treasurer to address the recommendation.

The Transfer Station Supervisor provided the following written response:

15.2 A report which includes all ticket numbers is generated by the transfer station; however, this report has not been provided to the County Treasurer. In the future, we plan to provide this report to the County Treasurer so that the numerical sequence of ticket numbers can be accounted for.

The County Treasurer provided the following written response:

15.3 When I became County Treasurer in January 2013, I began printing the credit card statement for the transfer station each month. I compare each credit card transaction to each credit card deposit on my bank statements. This check and balance system will allow me to see any debits and/or credit transactions the credit card company performs to our account.

15.4 I will work with the transfer station to implement a better monthly reconciliation. I believe a new computer system for the Transfer Station and Treasurer's office would help reach this goal.

16. Sunshine Law

Procedures over open and closed meetings of the County Commission need improvement. The County Commission held 114 closed sessions during 76 meetings during the year ended December 31, 2012.

Open meeting minutes do not always document the specific reasons or section of law allowing a meeting to be closed. During 2012, open meeting minutes typically indicated the County Commission would enter into a closed session to discuss legal, real estate, personnel, and sealed bids. However, while in the closed session, the County Commission would only discuss one or two of these topics and not all four as indicated by the open meeting minutes.

In addition, some issues discussed in closed sessions were not allowable by law. These issues included the county's health insurance, a new county personnel manual, and an employee medical leave of absence policy.

The Sunshine Law, Chapter 610, RSMo, indicates the specific reasons for the closed meeting shall be voted on at an open meeting and limits discussion topics and actions in closed meetings to only those specifically allowed by law.

Recommendation

The County Commission ensure specific reasons for closing a meeting are documented, and discuss only allowable topics in closed meetings.

Auditee's Response

The County Commission provided the following written response:

The County Commission, since there are multiple legal issues, almost always discusses one or more legal issues. There are numerous personnel issues that the County Commissioners are constantly dealing with including termination discussions. The county has been working for two years actively pursuing the purchase of real estate. During legal reviews with legal counsel all issues are discussed. The County Commission will closely monitor the posting of all closed sessions, and make a conscious effort to limit the closed session reasons to only the intended topics.

Taney County
Organization and Statistical Information

Taney County is a county-organized, first-class county. The county seat is Forsyth.

Taney County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 228 full-time employees and 16 part-time employees on December 31, 2012.

In addition, county operations include the Senate Bill 40 Board and the Senior Citizens' Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2013	2012
Ronald Houseman, Presiding Commissioner	$	53,000
Danny Strahan, Associate Commissioner		51,000
Jim Strafuss, Associate Commissioner		51,000
Robert A. Dixon, Recorder of Deeds		53,000
Donna Neeley, County Clerk		53,000
Jeffrey M. Merrell, Prosecuting Attorney		113,112
Jimmie Russell, Sheriff		58,000
Helen Soutee, County Treasurer		53,000
Kevin Tweedy, County Coroner		16,000
Carol S. Davis, Public Administrator		53,000
Sheila L. Wyatt, County Collector, year ended February 28,	53,000	
James Strahan, County Assessor, year ended August 31,		53,000
Rick C. Findley, County Auditor		53,000

Financing Arrangements

In April 2002, the voters of Taney County passed a $30 million bond issue for the purpose of extending and improving the sewer system of the sewer district. The capital improvement sales tax passed by voters in April 2000, has been pledged for the repayment of revenue bonds issued in 2004. In 2004, the Sewer District entered into an agreement with the Missouri Leveraged State Water Pollution Control Revolving Fund to sell $15,590,000 in Wastewater System Revenue Bonds, Series 2004C. The bonds bear interest at 3 percent to 5.25 percent. The interest paid is offset by an interest subsidy from the Department of Natural Resources Water Protection Program. Interest payments are due semi-annually on January 1 and July 1 of each year with annual principal payments due January 1 of each year. The bonds also require an administrative fee payable annually on January 1 of each year at 0.714 percent of the outstanding principal balance. According to the Taney County's independent audit report, the principal balance remaining at December 31, 2012, was $10.1 million and interest remaining totaled $2,949,717.

On November 15, 2006, Taney County issued Lease Certificates of Participation Series 2006 for the construction of a new judicial facility. The average annual interest is 4.25 percent and the certificates are payable in annual installments ranging from $655,000 to $1,500,000 and mature on December 31, 2023. According to Taney County's independent audit report, the principal balance remaining at December 31, 2012, was $14,985,700 and interest remaining totaled $4,551,898.

*Includes selected findings

THOMAS A. SCHWEICH
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Savannah, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-127, *City of Savannah*, issued in November 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the city, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we reviewed supporting documentation submitted by city officials, and held a meeting with city officials. Documentation reviewed included city code and ordinances, cash balance reports, Treasurer's reports, utility reports, deposit reconciliations, meeting minutes, inventory logs, timesheets, contracts, and ticket logs. This report is a summary of the results of this follow-up work, which was substantially completed during April through June 2014.

Thomas A. Schweich
State Auditor

City of Savannah
Follow-Up Report on Prior Audit Findings
Status of Findings

1. Water and Sewer Systems

There were significant weaknesses regarding water and sewer operations. As a result, there was less assurance water and sewer rates were established at an appropriate level and properly billed and collected.

1.1 Financial condition

Prior Boards of Aldermen failed to properly address the weak financial condition of the Combined Water and Wastewater Fund (water/sewer fund).

Since at least August 2006, the city had not funded reserve accounts, including debt service, debt service reserve, and depreciation/replacement, as required by bond covenants of the water/sewer fund revenue bonds.

Recent Boards took actions to address the financial condition of the water/sewer fund. Since 2010, the Board increased water and sewer rates and reduced debt payments by refinancing various revenue bonds. However, city officials indicated it would take several years at the increased rates to collect sufficient revenues to fulfill the reserve requirements.

Recommendation

The Board of Aldermen continue to monitor the financial condition of the Combined Water and Wastewater Fund, and ensure required accounts are properly funded in compliance with bond covenants.

Status

Implemented

The condition of the Combined Water and Wastewater Fund has stabilized. We reviewed the cash balance report for February 2014 and noted the required reserve accounts are fully funded as required. In addition, the Board entered into an agreement with a financial advisor in December 2013. The financial advisor's duties include consulting with the city on current and future debt financing projects by recommending the size, structure, specific terms and conditions of a debt issue and presenting information regarding methods of sale. The financial advisor completed and presented a utility rate study to the Board on May 5, 2014, and will provide annual utility rate studies.

1.2 User rates

The city did not always raise water and sewer rates based on an adequate cost analysis to ensure rates were sufficient.

The city did not prepare an adequate cost analysis to support the approximate 30 percent increase in water rates approved in November 2010.

In response to a February 2012 study by a professional engineer and recommendations from a citizens' ad hoc committee on water rates, the Board increased water rates in May 2012 by 48 percent, with annual automatic increases of 3 percent each year until May 2017. In May 2013, the Board rescinded the automatic increases starting May 2014. According

to city personnel, the Board planned to review and evaluate rates on an annual basis.

In addition, the city did not prepare an adequate cost analysis to support an increase in sewer rates approved in September 2011.

Subsequently, in November 2011, the city completed the Missouri Department of Natural Resources Rate Assist (Wastewater) Program with the assistance of the Missouri Rural Water Association. The program results indicated the current sewer rates were generating sufficient revenues. However, sewer rates had not been analyzed and had remained the same since November 2011, and it was unclear if the rates were sufficient.

Recommendation

The Board of Aldermen ensure adequate cost studies are prepared that consider all relevant expenses such as operating expenses, debt obligations, and future repair/maintenance costs and capital improvements. The Board should also consider periodically obtaining a formal water and/or sewer rate study from a professional engineer to ensure rates are sufficient.

Status

Implemented

The Board obtained a utility rate cost study, the results of which were presented at the May 5, 2014, Board of Aldermen meeting. The study recommended a sewer rate increase of 3, 4, or 5 percent and concluded water rates are sufficient. The analysis included current debt and a moderate amount for system capital improvements. A sewer rate increase of 4 percent was approved by the Board on May 19, 2014. Also as indicated above, the financial advisor will perform annual utility rate studies.

1.3 Delinquent accounts

The city had not developed adequate policies and procedures regarding handling and accounting for delinquent utility accounts. As of May 2013, accounts delinquent for over 30 days totaled $103,680.

Recommendation

The Board of Aldermen establish policies and procedures regarding the collection of delinquent accounts.

Status

Implemented

The Board approved an ordinance amending the section of the City Code concerning collection of delinquent accounts, including partial payment agreements, in April 2014. The new policy states an account outstanding for 60 days should be submitted to a collection agency and all collection costs, including costs for adjudication, will be borne by the debtor. In addition, the policy states an account outstanding for 5 years will be written off as uncollectible. The city entered into a written agreement in April 2014 with a firm to perform debt collection services.

1.4 Adjustments

Adjustments to customer account balances were not reviewed and approved by an independent person. The Deputy City Clerk collected and posted payments and had the ability to adjust account balances. These adjustments were not reviewed or approved by the City Clerk or City Administrator. As a result, there was an increased risk that unsupported or unauthorized changes could be made to the utility system.

Recommendation

The Board of Aldermen require adjustments to account balances be reviewed and approved by an independent person. In addition, the Board should receive a report of adjustments on a periodic basis.

Status

In Progress

The City Administrator stated he began approving monthly adjustment reports in October 2013 and provided an example from June 2014. As of the date of our follow-up meeting, the City Administrator had not provided a report of adjustments to the Board; however, he indicated in the future he will provide a report to at least one member of the Board.

1.5 Partial payments

The City Administrator did not approve partial payment arrangements, and these arrangements were not always in compliance with city policy. The Deputy City Clerk sometimes allowed customers with delinquent water accounts to make alternative payment arrangements. Partial payment arrangements were granted in the event of a water service line break.

As of May 2013, there were five partial payment arrangements. None of the arrangements were in compliance with city policy.

Recommendation

The Board of Aldermen ensure partial payment agreements are in accordance with city policy and approved by the City Administrator.

Status

In Progress

The Board approved an ordinance amending the section of the City Code concerning collection of delinquent accounts, including partial payment agreements, in April 2014. Under the new policy, if a customer claims inability to pay the outstanding bill in full and the delinquency was due to a water service line break, the City Administrator may enter into a written payment agreement with the customer. However, because the City Administrator has not entered into any new partial payment agreements since the policy was amended, the city could not demonstrate that the recommendation has been fully implemented.

1.6 Penalty and disconnect of service

The city did not always assess the late penalty or disconnect services for city officials and employees when their utility payment was received after the due date or shutoff date.

We noted an employee was not assessed a penalty for paying his bill after the due date, and the employee's service was not disconnected even though his bill was paid after the shutoff date. We also noted an elected official was not assessed a penalty for paying her bill after the due date.

Recommendation

The Board of Aldermen ensure the late penalty and water disconnect procedures are applied to city officials and employees, when applicable.

Status

Implemented

The City Administrator indicated he reviews the cutoff register each month and will contact any employees or city officials on the list as a reminder their water will be shut off if payment is not received on the due date. We noted the City Administrator's signature on the cutoff register for April 2014 documenting his review.

1.7 Water usage not billed

The city did not charge most city departments for water usage at city-owned facilities. As a result, the cost of water was not being properly allocated to city operations. Only the Parks Department and golf course were charged for water usage.

Recommendation

The Board of Aldermen charge all city departments for water consumption at city-owned facilities.

Status

Not Implemented

The City Administrator indicated the city's financial advisor will be researching this possibility for the next budget year.

1.8 Bulk water sales

The city did not have sufficient procedures to ensure monies received from the bulk water sales machine were deposited. While a meter tracked the total gallons sold monthly, the city did not have procedures to reconcile monies collected to water dispensed.

Recommendation

The Board of Aldermen develop reconciliation procedures to ensure revenue from the bulk water sales machine is deposited and reasonable.

Status

In Progress

In January 2014, a log of monthly collections and meter readings was developed. The log indicates the date, the amount collected, and the meter reading at the time of collection. We reviewed the log of monthly

collections and meter readings for 2014; however, a reconciliation to ensure the amount collected is accurate based on the water dispensed is not performed. The City Administrator indicated he is developing a procedure to determine if the amount collected is appropriate for the amount dispensed.

2.1 Accounting Controls, Records, and Procedures - Restricted revenues

The city did not track the balance of various restricted revenues. These restricted monies included state motor vehicle-related revenues, Law Enforcement Training (LET) fees, one-half cent sales tax revenues, and grant monies.

These restricted monies were accounted for in the General Fund. Although the annual revenues and expenditures of these restricted monies were separately tracked within the General Fund, the balances of these restricted monies were not. As a result, the city could not determine at a point in time what portion of the General Fund represented restricted monies.

Recommendation

The Board of Aldermen determine the balance of restricted monies in the General Fund and establish separate funds or a separate accounting of these monies.

Status

Implemented

The April 2014 Treasurer's report included the revenue, expenditure, and cash balance activity for restricted revenues.

2.2 Accounting Controls, Records, and Procedures - Expense allocation

The City Administrator did not use actual costs or other documented rationale for allocating wages and applicable withholdings of certain employees between the city's funds or assessing an administrative fee to certain city funds to cover costs incurred by the General Fund.

According to city personnel, wage allocation percentages were based on workload estimates made by each employee. Although city employees prepared timesheets, the timesheets showed no detail of activity or department. Also, actual administrative wages for the year ended September 30, 2012, were not allocated by the percentage allocation indicated in the city's budget.

Recommendation

The Board of Aldermen ensure payroll costs allocated to applicable city funds are supported by adequate documentation. In addition, the city should develop a methodology for determining the appropriate administrative fee to be charged to various funds. Thorough and detailed documentation of the rationale and calculation of the fee should be maintained.

Status

In Progress

Since at least October 2013, employees document on timesheets the total hours worked for each city department each week. We reviewed a timesheet for one employee from January 2014 and a timesheet for another employee from March 2014 to confirm this information is tracked. The City Administrator indicated an average personnel cost will be calculated for each department using 12 months of timesheets from those employees that perform tasks in more than one department for use in allocating salaries by department for the 2015 budget. In addition, the City Administrator indicated the city is working with the Park Board and the Golf Committee to determine the administrative fees for those departments.

3. Golf Course

We identified significant weaknesses in golf course controls, policies, and procedures.

3.1 Segregation of duties

Segregation of duties was not adequate and there was no supervisory review of collection activities for monies collected by golf course staff. Various staff, including the golf course manager, received, recorded, and deposited monies collected, and there was no independent review of these activities.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee segregate the duties of receiving, recording, and depositing golf course monies to the extent possible. If proper segregation of duties cannot be achieved, timely supervision or independent reviews of the golf course records and transactions should be performed.

Status

In Progress

The City Administrator indicated proper segregation of duties is not possible. Instead, supervisory reviews have been implemented. We reviewed a log of deposits in use since November 2013; however, the log is not signed to indicate who reviewed the daily deposits. We also reviewed a log of daily register counts in use since April 2014; the person conducting the count initials the log. In addition, the City Administrator indicated unannounced cash counts by someone outside the department will be performed periodically when the summer season begins.

3.2 Receipts

Golf course personnel did not always record the correct method of payment received (cash, check, or credit card) on receipt slips issued from the cash register. Checks received were recorded as cash.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee require the method of payment be recorded on receipt slips, and the composition of receipts be reconciled to the composition of deposits.

Status

Implemented

We reviewed a deposit report for April 1, 2014. The method of payment was correctly recorded in the cash register and the composition of receipts was reconciled to the composition of the deposit.

3.3 Change fund

The golf course did not maintain the change fund at a constant amount. According to golf course personnel, the balance of the change fund was $800; however, our cash count of the change fund on March 26, 2013, was $852.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee maintain the change fund at an authorized amount. In addition, the fund should be periodically counted and reconciled to the authorized balance by an independent person.

Status

Implemented

We reviewed the change fund log, which documents the date, amount, and initials of the individual who performed the count of the change fund and noted the change fund has been maintained at a constant amount since November 2013.

3.4 Golf course prices/fees

Neither the Board nor the advisory committee had reviewed and approved the prices/fees established by the golf course manager and considered related costs for items including, concession food and drink, merchandise, green fees, membership fees, and cart rentals.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee evaluate concession and golf course prices/fees and related costs on a periodic basis. In addition, concession and golf course prices/fees should be approved by the advisory committee and authorized by the Board.

Status

Implemented

The City Administrator indicated prices and fees have been evaluated and were approved at the June 2014 Golf Committee meeting.

3.5 Inventory

The golf course manager did not perform a periodic physical inventory of golf course concession items and merchandise or reconcile the inventory to sales and purchases of the concession items/merchandise.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee develop procedures to periodically reconcile inventory on hand to the sales and purchases of golf course concession items and merchandise.

Status

In Progress

We reviewed documentation of physical inventory counts conducted in April and May 2014. The City Administrator indicated a reconciliation of the physical inventory to sales and purchases will be completed in the near future.

3.6 Closed meetings

The advisory committee did not always follow Sunshine Law requirements relating to closed meetings as required by Chapter 610, RSMo. The advisory committee held five closed meetings from October 2012 to June 2013. The notices for closed and open meetings and related agendas were combined into one document. Additionally:

- The vote of each member for closing a meeting was not documented in the open meeting minutes.
- The minutes of open meetings typically did not document the reason(s) for closing the meeting. The reason for holding a closed meeting was documented for only one meeting.
- Minutes of open meetings did not always document that a closed meeting was held. One closed meeting held was not documented.
- Meeting notices/agendas used the same statement for each meeting to indicate the potential for a closed meeting, instead of citing the specific exception as the reason for a closed meeting, when applicable. The statement indicated ". . . may enter into closed executive session . . . regarding personnel, the lease or sale of real estate, or legal or privileged matters . . . ."
- Minutes for closed meeting were not prepared. For one closed meeting, handwritten comments were retained.

Recommendation

The Board of Aldermen in conjunction with the golf course advisory committee ensure the notices/agendas state the specific reasons for going into a closed session, the reason and vote of each member to close a meeting is recorded in the open minutes, and minutes of closed meetings are prepared. In addition, only the items allowed by state law should be discussed in closed meetings and limited to only those specific reasons cited to justify such a closed meeting. Decisions and the vote of each member made in closed meetings should be properly disclosed to the public.

Status

Implemented

The City Attorney made a presentation on the Sunshine Law to all city boards and committees on May 19, 2014. The golf course advisory

committee held a closed session on June 9, 2014; the notice/agenda and open and closed minutes complied with the Sunshine Law requirements.

4.1 Parks and Recreation - Segregation of duties

Segregation of duties was not adequate and there was no supervisory review of collection activities for monies collected by department staff. Various staff members, including the department director, activities director and pool manager, received, recorded, and deposited monies collected at the department office, baseball field and pool concession stands, and pool, and no independent review of these activities was performed.

Recommendation

The Board of Aldermen in conjunction with the Park Board segregate the duties of receiving, recording, and depositing department monies to the extent possible. If proper segregation of duties cannot be achieved, timely supervision or independent review of the work performed by the department is necessary.

Status

In Progress

As of the date of our follow up meeting, the city and Park Board had not segregated the duties of receiving, recording, and depositing park monies; however, the City Administrator indicated a process to ensure supervisory oversight of receipts at concession areas is being developed and should be in place prior to the beginning of the respective summer seasons.

4.2 Parks and Recreation - Receipts

Department staff did not always issue pre-numbered receipt slips, maintain records of monies received, or reconcile the method of payment recorded on register tapes to the composition of deposit. In addition, department staff did not reconcile concession inventories purchased to the amount sold. As a result, there was little assurance that all monies collected were properly deposited.

Recommendation

The Board of Aldermen in conjunction with the Park Board require receipt logs and/or pre-numbered receipt slips be prepared for monies received that are not recorded by the cash register, the method of payment be recorded on receipt slips, and the composition of receipts be reconciled to composition of deposits. Also, procedures should be developed to periodically compare concession sales to purchases, and ensure cash register tapes for pool receipts are reconciled to deposits and the reason(s) for differences promptly investigated and documented.

Status

In Progress

The City Administrator indicated a new cash register has been purchased for the pool entrance and new cash registers will be purchased in the near future for pool concessions and youth park concessions. The pool entrance cash register has been programmed to track the number of entrants in addition to the different types of memberships and daily passes sold. In addition, the

register allows for the composition of receipts to be reconciled to the composition of deposits. Once purchased, the concession cash registers will be programmed to correspond to items of sale and will also allow for the composition of receipts to be reconciled to the composition of deposits. We reviewed a new inventory sheet developed by the department. The City Administrator indicated the staff are being trained on the use of the inventory sheet and inventory procedures. Once trained, staff will perform a weekly physical inventory count to be reconciled to sales and purchases. The Park Board Finance Committee will review the logs for inventory and cash reports on a monthly basis and more often as needed.

4.3 Parks and Recreation - Concession prices and pool fees

The Park Board had not reviewed and approved concession prices and pool fees, such as entry fees and pool memberships, established by the department Director, or evaluated the related costs.

Recommendation

The Board of Aldermen in conjunction with the Park Board evaluate concession prices and pool fees and related costs on a periodic basis. In addition, concession prices and pool fees should be approved by the Park Board.

Status

Implemented

The Park Board reviewed and approved all fees for the Parks Department in the March 2014 meeting. In addition, concession prices were reviewed and approved at the May 2014 Park Board meeting.

4.4 Parks and Recreation - Written agreements

The Park Board did not have written agreements with various organizations, including the local school district, for arrangements related to the use of city baseball fields and sports complex, operations of city youth program, or the city maintenance of athletic facilities for the local school district.

Recommendation

The Board of Aldermen in conjunction with the Park Board enter into written agreements defining services provided and benefits received with entities using department facilities/personnel.

Status

Implemented

The Buildings and Ground and Equipment Committee has developed memorandums of understanding with local swim teams and the Savannah R-III School District. A memorandum of understanding with all outside entities that use city facilities will be required before the entities are allowed use of the facilities.

4.5 Parks and Recreation - Deficits

The Park Board approved deficit fund balances for the Parks and Recreation Certificates of Participation Fund budgets.

Recommendation	The Board of Aldermen in conjunction with the Park Board discontinue approving deficit budgets.
Status	**Implemented** There were no deficits budgeted in the Park Board's 2014 budget.

4.6 Parks and Recreation - Budgeted expenditures	The Park Board did not adequately review and monitor monthly budget to actual reports and amend budgets when necessary. For the year ended September 30, 2012, actual expenditures exceeded budgeted expenditures by $350 and $28,541 for the Parks and Recreation Fund and Parks and Recreation Certificates of Participation Fund, respectively.
Recommendation	The Board of Aldermen in conjunction with the Park Board ensure actual expenditures do not exceed amounts budgeted.
Status	**Implemented** We reviewed the Budgetary Comparison Schedule for the Parks and Recreation Fund for the year ended September 30, 2013, and noted actual expenditures did not exceed budgeted expenditures. In addition, the City Administrator indicated the Treasurer of the Park Board submits a monthly summary of the financial condition of the fund for the Board's review. Any line item that has a higher expenditure rate than expected for that period of time is reported and brought to the Park Board Finance Committee's attention to determine if a budget amendment is needed.

5.1 Procurement and Contracts - Procurement	The city did not always solicit competitive proposals or bids for purchases of goods and services. City Code, Chapter 25 requires bids to be obtained for supplies and contractual services estimated to cost more than $2,500. The city did not solicit competitive proposals for its bond underwriter, bond counsel, or financial advisor related to bond issuances, and had used the same vendors for these services for many years. The city did not solicit competitive proposals or bids or maintain documentation of sole source vendors for several significant purchases of goods and services during the year ended September 30, 2012. As a result, the city could not ensure the best and lowest price was obtained. According to city personnel, some purchases were considered sole source purchases because the city had purchased these items from the same vendor for many years or because the vendor was the only local vendor. City personnel also indicated they solicited phone quotes for one purchase, but did not retain this documentation. Also, instead of the city purchasing

concession items in bulk for both the parks/pool and golf course, parks and golf course personnel made their own purchases, as needed.

Recommendation

The Board of Aldermen ensure proposals or bids are solicited when the annual estimated cost of an item or service exceeds $2,500, and documentation is prepared and retained for phone quotes and sole source procurements.

Status

Implemented

The City Administrator indicated formal bids were solicited for carbon dioxide for the water plant in March 2014 and requests for proposals were solicited for financial advisory services in November 2013. The city provided documentation related to the bids for both of these contracts.

6.1 Personnel Policies and Procedures - Taxable benefits

The city did not report certain taxable benefits on employee W-2 forms. Each full-time employee was provided the following:

- An annual family golf membership.
- A family swimming pass.
- One free rental of the Clasbey Center per year.
- Employees with 20 or more years of service were provided two cemetery plots at the city cemetery at no cost to the employee.

The city employed 24 full-time employees on September 30, 2012. Possible unreported taxable benefits (excluding the cemetery plots) for the year were $19,920 to $30,000.

Recommendation

The Board of Aldermen develop procedures to ensure applicable taxable benefits are reported on employee W-2 forms.

Status

In Progress

The City Administrator indicated the city is still in the process of codifying and updating the Personnel Manual. Employee benefits are being reviewed as part of this process and the city will develop procedures to ensure taxable benefits are reported on employee W-2 forms.

6.2 Personnel Policies and Procedures - Longevity pay

The city made longevity payments totaling $5,030 in December 2012. These payments represented additional compensation for services already rendered and violated the Missouri Constitution.

Recommendation — The Board of Aldermen discontinue longevity payments to employees.

Status — **Not Implemented**

While the City Administrator indicated a legal opinion on this matter has been requested from the City's Attorney, longevity payments were made in December 2013 and a decision has not been made as to whether longevity payments will be continued.

7. Closed Meetings

We identified weaknesses in closed meeting policies and procedures.

7.1 Notices/agendas

The Board used the same statement in each meeting notice/agenda to indicate the potential for a closed meeting, instead of citing the specific exception as the reason for a closed meeting, when applicable. The city combined its meeting notices and related agendas in one document. The statement indicated "The Board of Alderman may enter into closed executive session . . . regarding personnel, the lease or sale of real estate, or legal or privileged matters . . . ."

Recommendation — The Board of Aldermen ensure meeting notices/agendas state the specific reasons for going into a closed meeting.

Status — **In Progress**

The City Attorney made a presentation on the Sunshine Law to all city boards and committees on May 19, 2014. In addition, we reviewed current notices/agendas and noted a statement indicating the potential for a closed meeting is no longer included. However, the Board has not gone into closed session since November 2013. The Board plans to follow Sunshine Law requirements relating to closed meetings in the future.

7.2 Allowable topics

The Board discussed some items in closed meetings that were not allowed by state law.

Recommendation — The Board of Aldermen ensure issues discussed in closed meetings are allowed by state law.

Status — **In Progress**

The City Attorney made a presentation on the Sunshine Law to all city boards and committees on May 19, 2014. However, the Board has not gone into closed session since November 2013. The Board plans to follow Sunshine Law requirements relating to closed meetings in the future.

7.3 Specific reason

The Board sometimes discussed issues other than the specific reason cited in the open minutes for going into a closed meeting. For example, in several

closed meetings the Board discussed legal matters; however, the open minutes cited personnel issues as the specific reason for going into closed session.

Recommendation

The Board of Aldermen limit issues discussed in closed meetings to only those specific reasons cited for closing the meeting.

Status

In Progress

The City Attorney made a presentation on the Sunshine Law to all city boards and committees on May 19, 2014. However, the Board has not gone into closed session since November 2013. The Board plans to follow Sunshine Law requirements relating to closed meetings in the future.

9. Capital Assets

The city did not maintain complete and detailed records of all capital assets, including land, buildings, vehicles, equipment, furniture, and infrastructure (e.g. roads, street lights, storm sewers, etc.). The city also did not tag or otherwise identify capital assets as property of the city, or perform an annual physical inventory of city property.

The city's audited financial statements for the year ended September 30, 2012, valued city property at approximately $28.6 million ($17 million after depreciation), and the city insurance coverage for capital assets totaled approximately $15 million.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained, assets are tagged for identification, and annual physical inventories are performed and compared to detailed records.

Status

In Progress

We reviewed physical inventories performed during the past fall/winter months. In addition, the City Administrator indicated assets have been tagged and a quote has been requested from the city's independent auditor to prepare detailed capital asset records. Once this work has been completed, the city plans to perform annual physical inventories.

10.1 Tickets - Ticket accountability

The police department issued traffic tickets, which were sent through the City Attorney to the Andrew County Associate Circuit Division for processing. The police department maintained a record of traffic ticket books assigned to and traffic tickets issued by police officers; however, the disposition of traffic tickets was not documented.

Recommendation

The Board of Aldermen ensure the police department properly accounts for the ultimate disposition of all tickets issued.

Status

Partially Implemented

The City Attorney now maintains a log of tickets that are not filed or are dismissed. In addition, the City Administrator indicated the police department obtains a monthly report of case dispositions from the Andrew County Associate Circuit Division. However, the police department's record of traffic ticket books assigned to officers and traffic tickets issued, the City Attorney's record of traffic tickets submitted to her for prosecution, and the reports of case dispositions from the court are not compared to ensure the ultimate disposition of all tickets issued is accounted for. The City Administrator indicated the city does not have the resources available at this time to perform this function.

REVENUE and ADMINISTRATION

Contract License Office Bidding and Procurement

July 2014

Report No. 2014-049

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue and Office of Administration, Contract License Offices, Bidding and Procurement

Non-Compete Agreements	The Department of Revenue (DOR) and Office of Administration (OA) do not prohibit contract agents from requiring employees to sign non-compete agreements that limit competition. Since 20 points are awarded during the bid evaluation process for retaining current staff, these non-compete agreements could hinder a new bidder.
Contract Extensions and Renewals	The DOR and OA extended license office contracts beyond the time frames allowed by the contract terms, and the DOR did not request 4 contract renewals until after the contracts had already expired resulting in license offices operating with no contract in place. Of the 120 offices with extension options exercised, 91 percent were extended past the 120 days allowed by the contract.
Return to State	As noted during our prior audit, bidders receive points during the evaluation process for the "return to state" (a firm, fixed percentage of fees earned that the bidder agrees to remit to the state) amount proposed, but no statutory authority exists for the return to state provision, and its use conflicts with the legislatively set processing fees. It also results in disparities in the amounts the offices return and does not provide for all offices to pay an equitable share of DOR oversight costs. The officers returned to the state more than $1.1 million in fees in both fiscal years 2013 and 2012.
Cost/Benefit Analysis	As noted during our prior audit, the DOR has not performed analyses to determine the optimum number of contract licenses, where those offices should be located, or the fiscal impact on the state when an office is open or closed.

In the areas audited, the current overall performance of these entities was **Fair**. * The Follow-up section of the report notes most of the prior recommendations have been implemented.

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
John R. Mollenkamp, Acting Director
Department of Revenue
and
Douglas E. Nelson, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain aspects of the Bidding and Procurement of contract license offices by the Department of Revenue and the Office Administration in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate policies and procedures pertaining to the bidding and procurement of contract license offices.

2. Evaluate compliance with certain legal provisions pertaining to the bidding and procurement of contract license offices.

3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions pertaining to the bidding and procurement of contract license offices.

4. Evaluate the extent to which recommendations included in our prior audit report were implemented.

For the areas audited, we identified (1) the need for improvement in policies and procedures, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and operations, and (4) recommendations from the prior audit that have not been implemented.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards

require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	John Luetkemeyer, CPA
Audit Manager:	Susan J. Beeler, CPA, CIA
In-Charge Auditor:	Corey McComas, M.Acct., CPA
Audit Staff:	Joshua Shope, M.Acct.

Department of Revenue and Office of Administration
Contract License Offices, Bidding and Procurement
Introduction

Background

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution, as the central collection agency for state revenues. The DOR is headed by the Director of Revenue who is appointed by the Governor with the advice and consent of the Senate. Section 136.030(2), RSMo, provides the director of revenue shall make provisions for the collection of motor vehicle registration fees, driver's license fees, motor vehicle sales and use tax, and all other taxes. The Motor Vehicle and Driver Licensing (MV/DL) Division facilitates the registration of motor vehicle, trailer, and marine craft in the state, and the licensing of all operators of motor vehicles residing in the state, as well as tax collection.

The License Office Bureau, under the management of the MV/DL Division, is responsible for administering the operations of contract license offices throughout the state, which totaled 178 as of April 1, 2014. Additionally, a central license office is operated by the DOR in Jefferson City. Pursuant to Section 136.055, RSMo, the Director of the DOR appoints contract agents to operate the contract license offices. The contract agents do not receive compensation from the DOR, but receive fees, set by statute, for each type of transaction processed by the office. The contract agent is responsible for all expenses of the contract license office, including the compensation of office employees, office furniture, and supplies. However, the OA furnishes certain computer equipment for processing the transactions.

Historically, the DOR maintained contract license offices throughout the state that were managed by contract agents selected and appointed by the Governor. In October 2006, the DOR began awarding contract license offices through a competitive bidding process.

Effective August 2009, Section 136.055, RSMo, requires contract license offices to be awarded though a competitive bidding process. This bidding process must give priority to organizations and entities that are exempt from taxation (not-for-profit) under the Internal Revenue Code, and political subdivisions such as municipalities, counties, and fire protection districts. Also, ". . . fees collected by a tax-exempt organization may be retained and used by the organization." The following table shows the total collections remitted to the DOR by the contract license offices and the total processing fees assessed and retained by the contract agents for the 2 years ended June 30, 2013.

	Year Ended June 30,	
	2013	2012
Total collections	$ 759,901,179	804,206,134
Total processing fees	30,885,638	31,705,945

Although the Office of Administration (OA), Division of Purchasing and Materials Management manages the bidding process for the contract license offices, the DOR assists with developing the terms of the Request for Proposals (RFP). In accordance with Chapter 34, RSMo, a contract license office contract must be awarded to the lowest and best offeror. Appendix B lists the criteria used to evaluate submitted proposals.

Prior to August 2013, contract license office contracts typically ran for a year, with three 1-year renewal periods. Starting in August 2013, contracts are typically for a period of 4 years. However, a contract may be canceled at the discretion of the DOR. The contract license office contracts include a requirement allowing the State Auditor to audit the offices.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the 69 contract license office bids/proposals awarded from April 2012 through March 2014. We reviewed the bidding process for 10 bids/proposals awarded. We selected some contract license offices with the same contract agent for more than one office; offices where some controversy over the award had come to our attention (concerns received by the State Auditor's office); and offices with a large difference in the points awarded during the bid evaluation. We determined whether:

- Various clauses and requirements in the RFP issued for that specific office were consistent with other RFPs issued during the same general time period.
- Bids/responses were received before the stated deadline.
- The OA performed due diligence for compliance with various requirements, such as contract license office employee background checks and offeror status (not-for-profit entity [NFP], disabled veteran, etc.)
- The reasons for the rejection of a bid/response and/or for allowing an entity to rebid were documented and reasonable.
- A best and final offer request was properly sent to all bidders, if applicable.
- Modifications to the RFP or evaluation system during the bidding process were significant to cause a rebid of the office.
- The evaluation of the office appeared fair and reasonable, and evaluation points were properly awarded.

If an entity was awarded more than one office, we determined whether the same and/or similar bid/responses to the various RFP requirements were consistently evaluated.

In addition, we used the publication *State and Local Government Procurement: A Practical Guide* and the research brief *Administrative Fees: Creative Funding for Central Procurement in Difficult Economic Times*, both issued by the National Association of State Procurement Officials as criteria for bidding and procurement best practices.

Our methodology included conducting interviews with appropriate DOR and OA personnel, as well as certain external parties; reviewing written policies and procedures; reviewing applicable state law; reviewing and evaluating DOR and OA bidding and procurement records and other pertinent documents; and testing certain transactions.

We obtained an understanding of internal controls that were significant within the context of the audit objectives and assessed whether such controls had been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that were significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Department of Revenue and Office of Administration
Contract License Offices, Bidding and Procurement
Management Advisory Report - State Auditor's Findings

1. Non-Compete Agreements

The Department of Revenue (DOR) and Office of Administration (OA) have not prohibited contract agents from requiring employees to sign non-compete agreements that limit competition related to the license office procurement process.

Some contract license office agents have entered into non-compete agreements with office personnel that prohibit employees from working for another contract agent within a specific distance from their current office for a specific timeframe after termination of employment. For example, one agreement specified the employee could not work for another license office for a period of at least 180 days and within a 25 mile radius of the current office location. Since 20 points are awarded during the bid evaluation process for retaining current staff, these agreements could hinder a new bidder from proposing to keep the current staff or hinder a current employee from bidding on the office.

In early 2014, the DOR and OA modified the standard RFP language to change how supervisory personnel are proposed for each office. Instead of listing certain individuals and their qualifications, the RFP now requires general personnel credentials be proposed and then the agent awarded the contract must hire supervisory personnel to meet the proposed credentials. The subsequent proposed employees are subject to approval from the DOR. However, this new RFP language does not change how other office personnel are proposed and points are still awarded for retention of current staff.

To ensure open competition for license offices, the DOR should prohibit contract license offices from requiring employees to sign non-compete agreements. This practice limits competition for the contracting of the license offices and is not in the DOR's best interest.

Recommendation

The DOR and OA prohibit license offices from requiring employees to sign non-compete agreements and eliminate evaluation points related to retention of current staff.

Auditee's Response

The DOR provided the following written response:

The Department has taken steps to minimize the impact that non-compete agreements have on the contract RFP process. The Department removed the requirement to list the names of the potential staff to work at the office and points are now awarded on the bidder's response to years of experience of proposed management staff and retention of existing staff. The Department will take this recommendation under advisement and continue discussions with the OA.

The OA provided the following written response:

The OA, in conjunction with the DOR, took steps to minimize the impact of the situation in which this recommendation is focused. The RFP provision that required a bidder to list the names of the potential staff has been removed from the RFP. Instead, points are awarded based upon years of experience for proposed positions. As always, bidders receive points for their commitments to offer existing staff employment under the new contract. OA will take this recommendation under advisement as any implementation of this recommendation will need to occur in the next round of bidding for the 178 offices in order to ensure contractual uniformity for all fee offices.

2. Contract Extensions and Renewals

The DOR and OA extended license office contracts beyond the time frames allowed by the agent contract provisions. In addition, the DOR did not request four contract renewals until after the contracts had already expired resulting in license offices operating with no contract in place.

Under the license office contracts signed prior to August 2013, the contracts typically ran for a year, with three 1-year renewal periods. The contracts also authorized 120 day extensions to provide time for the DOR and the OA to rebid the contract for the office.

Extensions

Of the 120 offices with extension options exercised, the DOR and OA extended 109 (91 percent) beyond the 120 day extension allowed by the original contract. In addition, 108 offices had two of more 120 day extensions. According to contract documentation and OA personnel, the additional contract extensions have been completed pursuant to Section 34.045, RSMo, which states the Commissioner of Administration may waive the requirement of competitive bids or proposals to prevent or minimize serious disruption in state services or to ensure the integrity of state records. However, this statute relates to competitive bids or proposals for supplies in the event of an emergency or when immediate expenditure is necessary for repairs to state property, and is not intended for extending existing contracts. Further, since license office contracts provide for extensions of only 120 calendar days, the DOR and OA lacked authority to extend the contracts beyond that time period. In addition, one contract license office refused to extend its contact beyond the 120 days, resulting in a temporary closure of the office.

Renewals

The DOR did not request the OA process renewals for four offices until after the original contracts had expired. As a result, these offices continued to operate for periods ranging from 4 to 16 months before contract renewals were finalized. According to DOR personnel, delays occurred because the four contract license offices did not provide documentation verifying contract compliance in a timely manner.

Conclusions

By allowing extensions beyond time periods authorized by contract provisions and not renewing contracts before expiration, the DOR is at risk of discontinuing services the offices are no longer obligated to provide. In addition, with no contract in place for the offices with non-renewed contracts the DOR would have had no recourse to discipline the office for not following the agency's policies and procedures in regards to the operation of those license offices. Operating without a contract also exposed the DOR to undue risk if funds or inventory had gone missing in the affected offices.

Recommendation

The DOR and OA discontinue extending license office contracts beyond the time frames allowed by agent contract provisions. In addition, the DOR should implement procedures to ensure contract renewals are requested and finalized before contracts expire.

Auditee's Response

The DOR provided the following written response:

The Department agrees with this recommendation and has taken steps to stagger future expiration dates of agent contracts to balance the work load of reviewing and awarding the many license offices throughout the state.

The OA provided the following written response:

OA recognizes that awarding a new contract prior to the end of the current contract is preferred. Nevertheless, it is not always possible to bid, evaluate, and award a new contract before the expiration of the current contract. As such, extensions of current contracts are utilized and allowed in such situations pursuant to Section 34.045, RSMo, in order to avoid disruption of vital state services in the communities being served. Over 180 fee office contracts were previously awarded, and in this situation, the current contracts expire on similar dates. To avoid this compression of workload in the future, OA, in conjunction with DOR, is staggering future expiration dates of these contracts.

3. Return to State

As noted during the prior audit, the DOR's assessment and collection of oversight costs from contract license offices may not be fair and legal. There are no statutory provisions that authorize the DOR and the OA to request a "return to state" (a firm, fixed percentage of fees earned that the bidder agrees to remit to the state) in the contract license office competitive bidding process. Additionally, the current practice of using the return to state as part of the bidding process has resulted in disparities among the offices, and does not provide for all offices to pay an equitable share of DOR oversight costs. The return to the state for all contract license offices totaled $1,194,374 and $1,147,317 for the fiscal years ended June 30, 2013 and 2012, respectively.

Beginning in January 2009, as part of the RFP, bidders may return to the state a firm, fixed percentage of the processing fees earned. In the evaluation process, a bidder may currently receive up to ten points for the return to state, weighted in relation to the returns offered by other bidders for a particular contract. If no return to the state is included in the RFP, the bidder receives no points. Since the DOR spends time and resources to oversee and provide technical support to the contract license offices, the return to state helps defray some of these costs. In addition, because the contract agent makes a profit by handling state-mandated transactions, the DOR believes it is appropriate for agents to return some of the fees collected to the state.

However, no statutory authority exists for the return to state provision, and the current practice of using this provision in the bidding process negates and is in conflict with past legislative actions to set processing fees. Section 136.055, RSMo, specifically establishes that contract license offices collect certain processing fees on the transactions processed as full compensation for services provided. Specific statutory authority also exists to require a competitive bidding process for the awarding of the contract license offices, and for priority to be given to organizations and entities that are exempt from taxation under the Internal Revenue Code, and political subdivisions such as municipalities, counties, and fire protection districts.

The current practice of requesting a return to state has resulted in significant disparities in the amounts the offices return. For example, for the year ended June 30, 2013, return to state percentages ranged from 0.01 percent to 15.31 percent. This practice does not ensure contract license offices pay an equitable share of DOR oversight costs. The DOR incurs personal service and expense/equipment costs in the management and monitoring of contract license offices. These costs include, but are not limited to, providing the offices with computer equipment/software to process the transactions, field coordinators who regularly visit each office to ensure proper procedures are followed, and central office staff who ensure daily deposits and reports are proper

According to a National Association of State Procurement Officers research brief, *Administrative Fees: Creative Funding for Central Procurement in Difficult Economic Times* issued in September 2009, many states utilize an administrative fee as a method to support certain procurement/management activity. Typically, these fees ranged from 0.5 percent to 2 percent, with 1 percent being the most common charge. An administrative fee assessed on each contract license office could help maintain and increase the effectiveness and level of service provided by the DOR. Assessing an administration fee on the volume of transactions and/or fees collected by each contract license office may be a more equitable method of recovering

costs associated with DOR oversight of the contract license offices. However, assessing an administrative fee will require enabling legislation.

The OA, DOR, and General Assembly should evaluate and address the current practices and inequities related to the competitive bidding process for contract license offices.

Recommendation

The OA and DOR work with the General Assembly to determine the appropriateness of the return to state provision.

Auditee's Response

The DOR provided the following written response:

The return to state provision in the RFP is optional and each bidder determines the amount (if any) they can commit to returning back to the state to help defray administrative cost. The Department will continue to evaluate this recommendation together with OA.

The OA provided the following written response:

Section 34.042, RSMo, requires the state award contracts to the lowest and best offeror. The fee office contracts do not involve the state paying the fee agent for services performed. Instead, the fee agent charges the public for the services provided, and can contract to return some of those funds to the state. Many offerors commit to no return to the state. Factoring in a return to the state allows for a consideration of "lowest." Furthermore, 1 CSR 40-1.060 (5) provides: "The [Division of Purchasing] may include contract clauses requiring the awarded contractor to issue a payment to the state or the state's designee for a stated percentage as outlined in the contract." Nevertheless, OA will assist the General Assembly and the Department of Revenue with any policy review on this issue.

Auditor's Comment

As explained in the audit finding, no statutory authority exists for the return to state provision. The CSR cited in the OA's response was created by the OA and is not authorized by statute.

4. Cost/Benefit Analysis

As noted during the prior audit, the DOR has not performed analyses to determine the optimum number of contract license offices, where those offices should be located, or the fiscal impact on the state when an office is opened or closed.

As of April 1, 2014, 178 contract license offices operate throughout the state and the DOR operates an office in Jefferson City. There is typically a contract license office in each county seat, with multiple offices in urban areas such as St. Louis, Kansas City, and Springfield. Currently the only reason the DOR would remove a license office location is if there are no bidders when a new RFP is issued for that location.

An analysis that considers criteria such as population, distances between offices, and revenues collected, could provide a basis to support the elimination, consolidation, or addition of contract license offices throughout the state. The cost to the state when eliminating, consolidating, or adding an office should also be considered. For example, eliminating an office could reduce oversight costs incurred by the DOR, but also could inconvenience taxpayers. Without such cost-benefit analyses, the department cannot ensure motor vehicle and driver's license services are provided to the public in the most economical and advantageous manner.

Recommendation

The DOR periodically prepare an analysis to determine the optimum number and location of contract license offices.

Auditee's Response

The DOR provided the following written response:

The department continues to prepare analytical reports of data such as transaction volumes, customer comments, wait times, and fees collected, and maintain a map of offices. We also thoroughly review non-response bids and evaluate customer impact.

Contract License Offices, Bidding and Procurement
Follow-up on Prior Audit Findings

This section reports the auditor's follow-up on action taken by the Department of Revenue (DOR) and Office of Administration (OA) on findings in the Management Advisory Report (MAR) of our prior audit report issued for the 3 years ended June 30, 2011.

1. Evaluation of Bids/Proposals

1.1. The DOR did not make its evaluation tool available to bidders. The RFP provided five categories for proposals to be evaluated, while the DOR evaluation tool contained a detailed list of subcategories with specified points assigned to each category, which was not available to bidders.

1.2. The DOR did not prepare written criteria for its evaluation of oral conferences. Since no written criteria was created the scores were subjectively awarded.

1.3. The DOR did not require contract managers to perform certain documented supervisory activities, when the contract and office manager were separate individuals. As a result, the practice of awarding points when different individuals served as the office and contract managers did not ensure better segregation of duties actually occurred.

1.4. In one instance, DOR personnel did not comply with the criteria of the evaluation tool when evaluating a bid proposal. This deviation may have affected the ultimate award of the office.

Recommendation

The OA and DOR:

1.1. Include the DOR evaluation tool in the RFP to ensure bidders clearly understand and address all requirements.

1.2. Develop written criteria for the evaluation of oral conferences.

1.3. Require certain documented supervisory activities be performed by contract managers when the contract and office manager are separate individuals before determining the amounts of points to award for the office manager.

1.4. Take steps to ensure bid evaluators understand and follow the evaluation tool criteria.

Status

1.1. Implemented. The DOR has increased the level of detail regarding the evaluation process in the current RFP. The explanation of requirements and a breakdown of points awarded are included in the bid documentation available on the OA's web site.

1.2. No longer applicable. Oral conferences are no longer a part of the evaluation process.

1.3. Implemented. The current RFP includes requirements for supervisory responsibilities to be conducted by the contract managers.

1.4. Implemented. All evaluations reviewed followed the evaluation criteria.

2. Non-Compliant Bids/Proposals

The OA did not consistently reject all non-compliant bids/proposals. For the 20 contract license offices reviewed, the OA rejected noncompliant bids/proposals in 7 offices. However, other noncompliant bids/proposals were not rejected. During 2009, the OA determined a not-for-profit entity (NFP) did not comply with a significant requirement in the RFP. However, the OA allowed the NFP to rebid 10 other office contracts and to change bid/proposals for 5 pending office contracts in the Best and Final Offer (BAFO) process. In addition, the OA did not reject a bid/proposal to a BAFO when the NFP submitted the bid/proposal later than the timeframe specified in the BAFO.

Recommendation

The OA ensure the same standards are applied to the RFPs and BAFOs as set forth by the National Association of State Procurement Officers (NASPO) best practices.

Status

Implemented. Audit work conducted showed the OA applied standards consistently and rejected noncompliant bids/proposals tested.

3. Preference Points

For 9 of 20 (45 percent) offices reviewed, the points awarded for NFPs and political subdivisions were increased from 5 points to 7 points during the evaluation of the bids/responses for that office. In addition, it was unclear why the points for this preference were increased when these entities were already receiving a preference.

Recommendation

The OA and DOR refrain from changing criteria for awarding points after an RFP has been issued. Also, the OA and DOR should prepare and maintain documentation to support decisions which allow a preference and/or priority be given to certain entities in the evaluation process.

Status

Implemented. We noted no occasions in which the evaluation criteria was changed after an RFP was issued.

4. Return to State

There were no statutory provisions that authorized the DOR and OA to request a "return to state" (a firm, fixed percentage of fees earned that the bidder agreed to remit to the state) in the contract license office competitive bidding process. Additionally, the practice of using the return to state as part

of the bidding process resulted in disparities among the offices, and did not provide that all offices pay an equitable share of DOR oversight costs.

Recommendation — The OA and DOR work with the General Assembly to determine the appropriateness of the return to state provision.

Status — Not implemented. See MAR finding number 3.

5. Policies and Procedures

5.1. The length of time between the issuance of the RFP and awarding the office was not timely for some contract license offices. For 11 of 20 awards reviewed, it took 6 months or more between the RFP date and the award date.

5.2. The DOR did not perform an analysis to determine the optimum number of contract license offices, where those offices should be located, or the fiscal impact on the state when an office is opened or closed.

Recommendation

5.1. The OA and DOR evaluate and implement procedures to ensure contract license offices are awarded in a timely manner.

5.2. The DOR periodically prepare an analysis to determine the optimum number and location of contract license offices.

Status

5.1. Implemented. Audit work indicated offices were awarded within reasonable timeframes.

5.2. Not implemented. See MAR finding number 4.

*Includes selected findings

THOMAS A. SCHWEICH
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Bolivar, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-139, *City of Bolivar*, issued in December 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the city, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we met with city officials and reviewed supporting documentation they provided us. Documentation reviewed included a report by the City Administrator of the status of recommendations, Board of Aldermen meeting minutes, ordinances, bank statements and reconciliations, receipt and deposit records, payroll records, monthly financial reports, city policies, financial statements, and disbursement and bid documentation. This report is a summary of the results of this follow-up work, which was substantially completed during May and June 2014.

Thomas A. Schweich
State Auditor

City of Bolivar
Follow-Up Report on Prior Audit Findings
Status of Findings

1. Financial Monitoring

The Board of Aldermen failed to adequately monitor the financial condition of the city. The city had improperly used street monies to finance Park and Cemetery operations and had not effectively planned how to make principal and interest payments for the aquatics center for the next 27 years. Additionally, the city was facing several significant future financial obstacles that could result in a continuing decline of the city's financial condition.

The Board did not act upon the independent CPA audit recommendation to adequately monitor revenues and expenditures to ensure city funds maintained adequate cash reserves, and continued to operate during 2011 as if the city had sufficient reserves.

The city's Park Fund required significant subsidization from the Street Fund, Capital Improvement Sales Tax Fund (CIST), and General Fund. According to the city's 2011 audit report, the city inappropriately used restricted street monies for Park and Cemetery operations. As of December 31, 2012, the city had not appropriated funds to repay the remaining $397,868 balance owed to the Street Fund. In 2012 the city transferred $55,000 from the General Fund to the Cemetery Fund to cover maintenance costs.

The Water and Sewer Fund operated at a loss for 2 of the last 3 years, resulting in an accumulated loss of approximately $100,000 for the 3 years ended December 31, 2012.

The General Fund unrestricted cash balance was historically at a low level until 2012 when the balance showed some growth. However, this growth was largely due to a significant increase in transfers from other restricted city funds. These transfers were questionable and lacked adequate documentation. The city's unrestricted $234,938 cash balance represented less than one month's operation.

Additionally, the growth in the General Fund's unrestricted cash balance was offset by potential future costs related to city buildings. The city also had other outstanding liabilities.

Recommendation

The Board of Aldermen closely monitor the overall financial condition of all city funds, perform long-term planning, and ensure disbursements are closely monitored and receipts are maximized. The Board of Aldermen should also make efforts to reduce subsidizing other funds, avoid improper interfund transfers, and develop plans to repay amounts owed to the Street Fund.

Status

In Progress

The General Fund unrestricted balance as of December 31, 2013, was $421,945; an increase from 2012. The city required assistance from the city's financial statement auditors to determine the balance and financial record adjustments in May 2014 to reflect the appropriate balance. The Board is monitoring the overall financial condition including revenues, disbursements, and budget to actual information. City officials also provide the Board a monthly disbursement report and balance sheet prior to each meeting. We saw this information when reviewing the most recent Board packets. The City Administrator also stated city staff plan to conduct work sessions with the Board to discuss long-term planning and options for financing future capital improvement projects.

City officials are reviewing revenues and expenditures to reduce subsidizing other funds. The City Clerk indicated some transfers to subsidize the Park Fund were still necessary, but the city is working to reduce transfer amounts. The City Administrator indicated the city has not made any improper interfund transfers in 2014. The Board approved and city officials made transfers from the CIST Fund to various funds based on the independent CPA auditor's recommendations. City officials said they will develop a plan to repay the Street Fund after completion of the 2013 financial statement audit.

2. Aquatics Center

The Board's failure to properly plan the financing, construction, and operation of the city's new aquatics center resulted in excessive costs and negatively impacted the city's financial condition. Aquatics center financing proposals solicited, received, and approved by the Board did not agree with the actual financing the city ultimately obtained. In addition, proposals were not solicited for bond counsel. The city did not adequately monitor construction costs. The city did not adequately project anticipated costs to operate the aquatics center, which significantly exceeded estimates. Also, the city had not reviewed accounting records of the Young Men's Christian Association (YMCA), which operated the aquatics center, to confirm financial information reported by the YMCA was accurate.

Recommendation

The Board of Aldermen should ensure adequate planning and monitoring is performed and documented on future projects. The Board of Alderman should also review the financial operations of the aquatics center and determine the appropriate course of action to minimize the amount of city subsidies required for the debt service payments and operating expenses.

Status

In Progress

The City Administrator stated the city intends to adequately plan and monitor any future projects. The city developed a plan to reduce aquatics center costs by only operating for the months of April through October. Further, the city voided the previous agreement with the YMCA and the city

is now operating the aquatics center. The City intends to closely monitor expenses and revenues and city officials indicated any major purchases for the aquatics center will be approved by the Board. The city's bond rating has improved and, in the long term, the city intends to refinance the aquatics center certificates of participation for a better interest rate when allowed by terms of the bond covenant.

3.1 Restricted Funds - Administrative transfers

Administrative transfers into the General Fund had increased significantly and exceeded the amount of expenses the city classified as administrative in the accounting records. Additionally, the type of expenses classified as administrative was questionable and the city continued to change methods for calculating administrative transfer amounts without adequate documentation to support calculation methods.

Recommendation

The Board of Aldermen allocate expenditures to city funds based on specific criteria and retain documentation to support these allocations. Further, the city should review allocations in 2012 and 2013 and review expenses designated as administrative costs for proper classification and make corrections as necessary.

Status

In Progress

The city now allocates administrative expenditures to city funds in proportion to the monthly expenditures from the fund. Only administrative employees and properly classified designated administrative expenditures are included in the pool of expenditures allocated to the other funds. Allocations for January through April 2014 were made in May 2014. The Finance Officer stated she waited to complete these transactions until after the city completed additional accounting system training to ensure she properly entered the information in the accounting system. We recalculated the allocation amounts for April 2014 and noted no concerns. City officials determined prior allocations made in error in 2013 and reversed the entries on March 24, 2014. We reviewed the changes and noted no concerns. The City Clerk indicated a review of 2012 transactions is planned.

3.3 Restricted Funds - Use of restricted funds

The city operated with negative balances for some funds in the city's checking account. The city routinely paid disbursements from funds showing negative balances within the pooled cash checking account. There was an overall positive cash balance in the pooled checking account because these disbursements were covered by funds with positive balances. This practice resulted in inappropriate borrowing of restricted monies.

Recommendation

The Board of Aldermen ensure adequate monies are available within the respective fund in the city's pooled cash bank account prior to making disbursements.

Status

In Progress

The city has implemented additional procedures to prevent the inappropriate use of restricted funds. The City Administrator indicated disbursements will not be allowed if a fund reflects a negative balance. At the time of our review in April 2014, the pooled cash account showed negative balances in some funds. The City Administrator stated this problem was due to pending adjustments from the city's financial statement auditor. After the adjustments were made and as of May 27, 2014, the pooled cash account showed positive balances for all funds except the Wastewater Improvements Fund. City financial records show bond revenues due to this fund exceed the negative balance.

3.4 Restricted Funds - Tracking and recording restricted receipts

The city was not properly tracking and recording various restricted receipts. The city received Federal Equitable Sharing Funds from the U.S. Department of Justice and deposited these monies into the city's pooled cash checking account without tracking the related interest receipts, disbursements, and balances of these restricted monies. Law Enforcement Training (LET) fees were received by the city from the municipal division and were not properly recorded as restricted monies.

Recommendation

The Board of Aldermen determine the amount of equitable sharing monies and LET monies held by the city and establish separate funds or a separate accounting of these monies.

Status

In Progress

The city established and the Board approved separate funds and bank accounts for the LET and equitable sharing monies on March 18, 2014. As of May 28, 2014, the City Clerk had not deposited funds into either account. However, the Finance Officer is working with the police department clerk and the accounting system programmer to ensure the appropriate amounts are transferred.

4.1 Disbursements - Bidding

The city had not always solicited bids for the purchase of goods and services over $10,000 and did not issue purchase orders or contracts for all purchases over $100, as required by city code.

Recommendation

The Board of Aldermen solicit bids and complete purchase orders as required by city code.

Status

In Progress

The City Administrator indicated he has emphasized with city officials the need to comply with bidding requirements in city code when purchasing goods and services. The City Clerk maintains a schedule of routine contracts

for goods and/or services requiring periodic bids, such as uniforms and copier services, to ensure contracts are bid timely. We reviewed the requests for bids and proposals related to wastewater treatment plant engineering services, city hall construction, and banking services, and noted no concerns. Purchase orders are now required for all purchases in excess of $500. Before processing an invoice for payment, the Accounts Payable Clerk verifies if a purchase order exists. We reviewed two April 2014 disbursements that required a purchase order and noted one had an existing purchase order and the other had a purchase order, but it was created after the goods were purchased. The Accounts Payable clerk indicated if a purchase order is not present she will contact the appropriate parties to ensure a purchase order is obtained.

4.2 Disbursements - Professional services

Professional services were frequently obtained without the benefit of a competitive selection process. While city policy required bids for goods and services exceeding $10,000, the policy did not distinguish the handling of professional services from other services.

Recommendation

The Board of Aldermen solicit proposals for professional services and consider expanding the city's purchasing/bidding policy to address professional services.

Status

In Progress

The city requested proposals for legal, audit, and information technology services in 2013 and 2014. We reviewed the proposals and selection process for audit services and noted no problems. The City Administrator indicated the Board is in the process of revising all city policies and is considering revising the bid policy to specify professional services.

4.3 Disbursements - Engineering services

The city did not always document its evaluation and selection of engineering services in accordance with state law, and when qualifications were solicited from engineering firms the documentation was not adequate to support the selection.

Recommendation

The Board of Aldermen comply with state law when procuring engineering services and document the evaluation and selection process.

Status

In Progress

The City of Bolivar has an existing contract with an engineering firm that ends in November 2014. The city requested qualifications from engineers for an upcoming wastewater treatment plant project in January 2014. We reviewed the request for qualifications, but the Board has not completed the evaluation and selection process.

4.4 Disbursements - Weapons purchase

The city disbursed $6,545 in federal grant funds in January 2011 for weapons not received. According to police department documentation, the city paid a vendor $10,075 in advance for various weapons, and nearly 3 years later, 7 weapons with a total cost of $6,545 had not been received by the department. Additionally, this vendor was given police department ammunition purchased by the city through a state contract and valued at approximately $600 in exchange for applying a coating on two department weapons.

Recommendation

The Board of Aldermen discontinue the practice of paying for goods in advance and bartering with city assets, and consult outside legal counsel regarding legal action on recovering city monies.

Status

Implemented

The City Administrator and Police Chief indicated they do not plan any similar advance purchase or bartering transactions in the future. City officials said they attempted to negotiate the recovery of these monies, but they have been unsuccessful and the city has not received the ordered goods. The city's legal counsel believes the costs of litigation will be more than the value of goods the city did not receive.

4.7 Disbursements - Late fees and finance charges

The City Clerk did not ensure payroll taxes were deposited and bills were paid in a timely manner causing the city to incur late fees and finance charges.

Recommendation

The Board of Aldermen implement procedures to ensure bills and payroll taxes are paid timely.

Status

Implemented

The city implemented new accounts payable procedures in February 2014, including hiring a new Accounts Payable Clerk. The Accounts Payable Clerk files pending invoices by due date. Approximately 10 to 15 days before the due date, invoices are pulled from the pending file to ensure processing, approval, and payments are made prior to the due date. We reviewed invoices processed on April 29, 2014, and noted they were all processed prior to the due date. Our review of some prior invoices identified 1 payment due in January 2014 was not paid until February. This problem preceded the hiring of the new Accounts Payable Clerk. We also reviewed the April 24, 2014, payroll tax disbursement and noted it was properly approved and paid timely.

4.8 Disbursements - Forms 1099-Misc

Forms 1099-Misc were not always filed when required and some forms contained errors when filed with the Internal Revenue Service (IRS).

Recommendation

The Board of Aldermen implement procedures to ensure Forms 1099-Misc are accurately filed as required by law.

Status

Implemented

City officials reviewed each vendor in the accounting system to determine if they would require a Form 1099-Misc and classified them appropriately within the system. The city plans to send out a new vendor application annually to each vendor to ensure all information is correct and update the vendor information in the accounting system as needed. The accounting system automatically generates a Form 1099-Misc based on the vendor classification. We reviewed the Forms 1099-Misc issued for 2013 and noted no problems.

5. Employee Leave Records and Procedures

We noted concerns with the city's conversion to a new leave policy, and the handling and payouts of some leave balances did not have documented Board approval. Some high level city employees accumulated more leave than authorized. Additionally, problems were noted with leave payments to terminated employees and employee leave records.

5.1 Sick leave payout

Procedures used to convert employees' accumulated leave time based on the guidelines established by the new leave policy have resulted in the city paying sick leave benefits owed to employees in quarterly installment payments without clear approval from the Board or consulting with the city's legal counsel. In addition, when city employees were terminated or resigned in April 2012, the city did not pay some of these employees their sick leave balance owed upon termination, but continued paying them quarterly.

Recommendation

The Board of Aldermen ensure procedures followed to convert to the new employee leave policy are adequately documented and approved by the Board, and consult with legal counsel regarding the appropriateness of paying amounts due to terminated employees in installment payments.

Status

Implemented

On January 28, 2014, the Board voted and approved to continue to pay active employees quarterly for sick leave benefits owed. The Board also approved paying any terminated employees still owed sick leave benefits for their remaining balance rather than continuing quarterly installment payments. The city paid $11,775 to these terminated employees for their accumulated sick leave as of December 31, 2013. The amount paid was supported by system generated payroll registers.

5.2 Employee leave time

Several high level city employees accumulated more paid time off (PTO) leave than authorized by city policy or employment contracts, received

payment of leave time upon termination that did not comply with city policy, and had incomplete or inaccurate leave records.

Recommendation

The Board of Aldermen ensure city employee leave accumulations agree with city policy or employment contracts, former employees are compensated for accumulated leave in accordance with city policy, and employee leave records are accurately maintained.

Status

In Progress

The city implemented additional procedures to ensure leave accumulations are properly calculated in accordance with city policy or employment contracts. The Human Resources Director is now responsible for monitoring and approving all leave accumulations processed by the payroll clerk. The Board approved a policy allowing the City Administrator to offer prospective employees additional PTO accrual hours beyond the amounts already in city policy. The Board also approved a policy stating employee leave will be determined by the records kept in the payroll system and not by any other means to avoid possible disputes over conflicting records.

We reviewed payroll records and leave documentation for 2 pay periods in April 2014 and all leave was properly approved. We traced selected leave to the payroll system and noted at least one employee's compensatory leave taken was an hour higher in the system than on her time records. In addition, there was no leave request form for this compensatory time. The City Clerk indicated that all employees who left employment in 2013 and 2014 were paid the accrued PTO reported in the accounting system.

6. Accounting Records and Procedures

City accounting records and financial reports provided to the Board were inaccurate, bank reconciliations were not performed timely, and interfund transfers were not always approved or accurately recorded.

6.1 Accounting records

The City Clerk's accounting records contained inaccuracies, resulting in errors on monthly financial reports provided to the Board. In addition, numerous journal entries were posted to the accounting records monthly without review or approval by an independent source, and many journal entries were posted several months after the accounting period ended.

Recommendation

The Board of Aldermen establish procedures to ensure accounting records accurately report financial activity and account balances, all journal entries are valid and posted timely, and someone independent of recording and reporting financial activity reviews and approves all journal entries.

Status

In Progress

In November 2013, city officials began reviewing all 2013 transactions recorded in the accounting system and had to adjust many of them to ensure

the accuracy of the financial information. The city also adjusted financial records after the independent CPA auditor's review. The Finance Officer is responsible for entering all journal entries. Prior to entering a journal entry, the Finance Officer reviews to ensure the entry is necessary. Journal entries are approved by the City Administrator or City Clerk. We reviewed journal entries for 2014. We noted the journal entries contained initials; however, all journal entries did not include supporting documentation. The Deputy City Clerk indicated that she was still in the process of putting all supporting documentation with the journal entry reports at the time of our follow-up work in April 2014. Documentation pertaining to some journal entries was made available to us at that time, and the Deputy City Clerk was able to explain the various entries for which the support was not yet available.

6.2 Bank reconciliations

Bank reconciliations were not performed timely and did not always agree to city accounting records. At the start of our audit in October 2012, the city had not reconciled accounting records to the bank statement for the pooled cash account since February 2012. As of May 23, 2013, the city was still several months behind with the last completed bank reconciliation dated January 31, 2013.

In addition, completed bank reconciliations often did not agree to the cash balance recorded in the city's accounting records. At December 31, 2011, the pooled cash bank account reconciliation reflected a cash balance that was approximately $46,000 lower than the accounting records, while at December 31, 2012, the reconciliation reflected a cash balance that was approximately $12,000 higher than the accounting records. Further, the city did not retain a copy of the April 30, 2012, pooled cash bank reconciliation and could not reprint one from the accounting system.

The city also maintained an employee health trust bank account for the payment of a portion of employees' $5,000 health insurance deductible. The bank reconciliation for the account showed a negative balance of $2,950 caused by inadequate transfers from the city's pooled cash account to cover the checks written. Additionally, four checks totaling $9,408 issued to 2 former and 2 current employees had not been negotiated at December 31, 2012, and no procedures were performed by city personnel to follow up on and reissue these checks.

Recommendation

The Board of Aldermen ensure bank reconciliations are performed monthly and agree to accounting records and bank reconciliation reports are retained. Also, the Board should ensure proper amounts are transferred to the employee health trust account, and outstanding checks are followed up in a timely manner.

Status

In Progress

Bank reconciliations are now done monthly by the Deputy City Clerk and reviewed by the City Clerk or another administrative staff member. Transfers to the employee health trust account are now processed by human resource staff and reviewed by the City Clerk.

We reviewed the February 2014 pooled cash account and March 2014 employee health trust account bank reconciliations. The March 2014 pooled cash account reconciliation was still in process as of the date of our follow-up meeting in April 2014.

For the pooled cash account reconciliation, we noted old outstanding items remain unresolved including automatic bank drafts dating back to 2012, and checks and deposits in transit over a year old. The City Clerk indicated some of these items related to uncorrected duplicate entries and city personnel are working to resolve them with the help of the system programmer. Also, the reconciliation did not take into account some outstanding items and the reconciled balance is less than the general ledger pooled cash balance. For the employee health trust bank account we also noted outstanding checks and deposits in transit over a year old remain unresolved.

6.3 Transfers

Some transfers between funds were posted to the accounting records but not approved by the Board, and other transfers approved by the Board were not posted to the financial records.

Recommendation

The Board of Aldermen ensure transfers between funds are properly approved and all approved transfers are posted to the accounting records.

Status

Implemented

The Board approved a policy requiring city staff to receive Board approval before making any transfers between funds. The city transferred funds in May 2014 after the city's independent CPA auditor suggested adjustments for 2013 and 2014. The Board approved all of the transfers.

7. Controls and Oversight

We identified serious weaknesses in the controls and oversight of several city functions.

7.1 Segregation of duties

The Board had not segregated duties or performed an adequate review of the work performed by the City Clerk. The City Clerk was responsible for all record-keeping and accounting functions of the city, including maintaining all accounting records, reconciling bank accounts, signing checks, authorizing purchases, and maintaining payroll records. Adequate independent reviews of her work were not performed. While the Board received detailed monthly financial reports, these reports were not always accurate and errors were not identified and corrected.

Recommendation

The Board of Aldermen adequately segregate the duties of the City Clerk. At a minimum, there should be a documented supervisory review of the reconciliation between city records and banking records.

Status

Implemented

The Board approved additional procedures in February 2014 so that no one employee has access to all aspects of transfers, journal entries, disbursements, or payroll. The Deputy City Clerk prepares the bank reconciliations and the City Clerk reviews the reconciliations. Accounts payable duties have been segregated and checks are now signed by three individuals including the City Clerk, Mayor, and Mayor Pro Tem. The City Treasurer signs if one of the other signors is unavailable. The city also assigned oversight of payroll duties to the Human Resource Director.

7.2 Cash controls

Five employees, including two utility clerks, the meter reader, the City Clerk, and the payroll clerk, had the combination code to the safe where city staff stored monies until deposited. Additionally, the accounts payable clerk was responsible for counting receipts and preparing the deposits, and the Human Resource Director sometimes maintained the key to the locked bank bag containing the deposit.

Recommendation

The Board of Aldermen limit access to cash receipts.

Status

Implemented

The city implemented additional controls to limit access to cash receipts. The City Clerk stated access to the safe has now been restricted. Utility collections are counted by the utilities clerk and verified by the utilities supervisor before transmission to the City Clerk's office. The cash is then placed into a locking bank bag and picked up by the Deputy City Clerk from the utilities department. The Finance Officer unlocks the bag, verifies the various amounts transmitted; then locks the bag for transport to the bank for deposit. The Accounts Payable Clerk is responsible for picking up the deposit receipt from the bank after the deposit is complete. The Accounts Payable Clerk provides the deposit receipt to City Clerk staff for comparison to utility department records, the accounting system, and the bank's online records. We reviewed the deposits for the period of April 24, 2014, through April 28, 2014, and noted a review was documented. We also walked through the receipting process at the utilities department and noted no problems.

7.3 Password controls

Passwords were not kept confidential and not periodically changed to help ensure they remain known only to the assigned user and to reduce the risk of compromised passwords. Additionally, the City Clerk, who maintained oversight responsibilities over the collection and disbursement of city funds, acted as administrator of the city computer system and had access to all

employee passwords. Passwords were regularly shared among employees responsible for collecting city receipts. Throughout the day the two utility clerks, meter reader, and other city employees shared two computer terminals and cash drawers to process receipts without logging in under their own password when they changed terminals.

Recommendation

The Board of Aldermen require confidential unique user identifications and passwords for all employees, and appropriately restrict access to cash drawers. Additionally, the Board should appoint an appropriate computer system administrator who does not have financial and accounting responsibilities or other conflicting duties.

Status

Implemented

City officials reset all passwords used to access the accounting system and implemented procedures to automatically reset passwords every 90 days. Only the City Administrator can authorize a new user identification or a password reset. The city implemented procedures requiring the use of unique user identifications and prohibiting employees from utilizing other users' passwords. Cash drawers are no longer shared. The Human Resource Director, who is separate from the accounting duties, is now the system administrator.

7.4 Accounting system controls

Information in the computerized accounting records did not always agree with the information on actual checks issued. The computerized accounting system allowed the user to change the date, payee, and amount of checks posted to the accounting system after checks have been printed.

Recommendation

The Board of Aldermen contact the software provider to request additional control features to the city accounting system that will prevent changes from being made to check data after the checks have been issued.

Status

In Progress

City financial personnel recently attended training on the accounting system. The city worked with the system provider to assign access control to the Human Resource Director. Any changes must be approved by the City Administrator. The City Administrator stated once all bank reconciliation issues are addressed, the city will implement a new procedure requiring financial personnel to close the month's transactions in the accounting system each month. After these transactions, the system will not allow changes to check information.

8.1 Payroll and Related Matters - Payroll reporting and tax withholdings

Retirement plan withholdings and compensation paid to volunteer firemen were not properly taxed and reported.

Recommendation

The Board of Aldermen establish procedures to ensure IRS regulations are followed regarding the taxing and reporting of employee compensation and benefits.

Status

Implemented

The city reassigned all payroll reporting activities including employee tax withholdings and benefit calculations under the Human Resource Director. The City Administrator stated the city reviewed the retirement withholding errors and corrected the errors in the system and made appropriate tax payments. The city now pays firemen as employees and withholds appropriate taxes.

8.2 Payroll and Related Matters - Commuting mileage

The commuting use of city vehicles was not reported to the IRS. The City Administrator and Police Chief drove city vehicles to commute to and from work. The City Administrator's employment contract required a mileage log documenting the use of the city's vehicle; however, a log was not maintained. Former Police Chief Hamilton drove a city vehicle to his home located approximately a 94 mile round trip from the city limits of Bolivar. Although the Police Chief indicated he was on 24-hour emergency call, considering the distance from his home it was questionable whether he could have responded in a reasonable amount of time to an emergency from his residence. Further, former Police Chief Hamilton did not maintain a mileage log.

Recommendation

The Board of Aldermen require usage logs be maintained to differentiate between personal, commuting, and business mileage; and ensure commuting and personal mileage are reported in compliance with IRS requirements.

Status

In Progress

The Board approved a policy in February 2014 requiring a mileage log for all city-owned vehicles. The city requires employees to document the mileage at the beginning and ending of each trip. We reviewed selected mileage logs maintained in public works vehicles, police vehicles, and the City Administrator's vehicle for February, March, and April 2014. The mileage logs do not include a specific place to document the type of use, but employees are expected to record personal mileage. The City Administrator documented personal mileage on his logs. Some logs were not complete and did not include beginning and ending mileage, and/or the purpose of the

trip. The City Clerk stated commuting mileage was not reported on 2013 W-2 forms, but the city plans to report this mileage in the future now that logs are required.

8.3 Payroll and Related Matters - Contracted labor

The city did not document the reasons for classifying some employees as independent contractors rather than employees. The city did not withhold payroll and income taxes from payments made to these individuals. Rather, these payments were reported to the IRS on Forms 1099-Misc.

Recommendation

The Board of Aldermen ensure all persons hired are properly classified as employees or independent contractors in compliance with state and federal laws and regulations, and all compensation paid is subject to income and payroll taxes and properly reported.

Status

Implemented

The City Administrator stated the city will no longer hire temporary employees as independent contractors. Instead the city plans to consider all such labor as part-time employees. The City Administrator indicated the city has not hired any contracted labor in 2014.

8.5 Payroll and Related Matters - Automatic payroll deposits

There was no independent review of the City Clerk's authorization for automatic deposits of employee payroll checks, tax withholdings, and payments to third party employee benefit providers.

Recommendation

The Board of Aldermen ensure automatic payroll deposits and related transactions are properly reviewed and approved by someone independent of the City Clerk's duties.

Status

Implemented

The city implemented additional procedures to segregate the payroll process. We reviewed the April 25, 2014, payroll direct deposit reports and noted the reports were reviewed and approved by the Finance Director, who is independent of the payroll process, and the Human Resource Director. After approval, the City Clerk completes the transaction for disbursement.

8.6 Payroll and Related Matters - Timesheets

Supervisors did not always sign timesheets indicating their review and approval. Additionally, unapproved timesheets included one where the employee reported overtime, others where reported leave was not supported by a leave request form or the form submitted was not approved in accordance with city policy, and another with a calculation error in the number of hours worked.

Recommendation

The Board of Aldermen ensure timesheets are signed by supervisors to document their review and approval.

Status

Implemented

The city requires department heads to review all timesheets. Staff in the City Clerk's office also recalculate the hours on each timesheet before processing. We reviewed time records for 2 pay periods in April 2014 and noted all timesheets were signed by the employee and the appropriate department head to show approval.

9. City Procedures and Written Agreements

City procedures for business licenses and permits needed improvement, and contractual agreements were not always followed or in writing.

9.1 Building licenses and permits

The city did not have adequate procedures in place to follow up on unpaid business licenses. The City Administrator waived building permit fees without approval by the Board. In addition, business licenses were not prenumbered and procedures were not in place to compare business licenses issued to the amount of fees deposited.

Recommendation

The Board of Aldermen ensure business licenses are prenumbered and reconciled to fees received. Collection procedures should be developed for unpaid business licenses, and any fees waived should be approved by the Board.

Status

In Progress

Business licenses are now prenumbered. We reviewed a business license transaction from April 30, 2014, and the license was prenumbered and all required information was obtained. At the date of the follow-up meeting the Deputy City Clerk was working on reconciling the business licenses to fees received; and the City Clerk plans to review the reconciliations. The City Clerk indicated the Deputy City Clerk is also in the process of reviewing all unpaid business license records. She indicated the Deputy City Clerk determined some unpaid balances are for businesses that no longer exist or do business in the city and the system is being updated to reflect this information. The City Administrator indicated that all permit fees waived will be approved by the Board.

9.2 Written agreements

The city did not have a written agreement to support economic development contributions of $20,000 or with the Bolivar Special Road District for administrative services.

Despite the city's poor financial condition, the city leased real estate to a not-for-profit (NFP) organization for $1 per year while incurring an annual debt service payment on the property of $55,979.

The city has a written lease agreement with a private contractor to operate the city's airport for $1 per month. The agreement covers the contractor

providing aircraft for charter or hire; offering flight instruction; selling, leasing, and repairing aircrafts; and operating a restaurant. During 2012 the city paid $20,148 to the contractor in commissions on fuel sold at the airport; however, the contract indicated the city retained control over fuel sales and did not provide for the payment of fuel commissions.

Recommendation

The Board of Aldermen ensure all agreements are in writing and monitor for compliance with contract terms.

Status

In Progress

All contracts are now being prepared by the City Attorney and approved by the Board by ordinance. The City Administrator indicated the city no longer leases property to the not-for-profit and the city is in the process of entering into an agreement with the Bolivar Special Road District. The City Administrator indicated the city will enter into membership agreements with the Chamber of Commerce and Springfield Regional Development Council. The City Administrator also indicated the city plans to monitor all agreements. The City Clerk indicated the city amended its written agreement with the airport contractor in March 2014 to address paying commissions for fuel.

10. Budgets and Financial Reporting

The city did not properly prepare or monitor budgets and had not complied with state law by publishing and reporting financial information.

10.1 Budgets

The Board is provided budget to actual financial information at its meetings, but the Board is not adequately reviewing the information to ensure disbursements remain within budgeted appropriations.

Budget documents for 2012 and 2013 did not include the actual beginning and estimated ending available resources for city funds. In addition, the 2013 budget document did not include receipts and disbursements related to the city's trash service.

Recommendation

The Board of Aldermen properly monitor actual disbursements compared to budgeted amounts, ensure disbursements do not exceed budgeted appropriations, and prepare annual budgets that contain all information as required by state law.

Status

In Progress

The February and March 2014 Board meeting minutes included a council report showing a comparison of budget to actual disbursements. The City Administrator indicated the city will only amend the budget with Board approval and prior to disbursements. We noted the 2014 budget does not include 2013 estimated or actual ending balances. The City Administrator

stated financial personnel were working to ensure the accuracy of the 2013 amounts recorded in the accounting system before including this information.

10.2 Financial reporting

The city did not publish financial statements or submit annual financial reports to the State Auditor's office as required by law.

Recommendation

The Board of Aldermen publish semiannual financial statements and submit annual financial reports to the State Auditor's office as required by state law.

Status

Implemented

The city published a semiannual financial statement for the period ended December 31, 2013, on January 31, 2014. We reviewed the published statement and noted it was complete but included a calculation error. The city submitted its audited 2013 annual financial reports to the State Auditor's office on June 30, 2014, as required by state law.

11. Utility System Controls

Sewer rates were increased without preparing a statement of costs as required by law, controls over utility adjustments and deposits needed improvement, and a reconciliation of customer utility deposits to accounting records was not performed.

11.1 Water and sewer rates

The city increased sewer rates in December 2012 without preparing a statement of costs or maintaining documentation of how the rate increase was calculated. Additionally, water rates had not been reviewed or changed since 2006.

Recommendation

The Board of Aldermen ensure a statement of costs is prepared to support utility rate increases, and document formal reviews of water and sewer rates periodically to ensure revenues are sufficient to cover all costs of providing these services.

Status

In Progress

The city contracted with an engineering firm in May 2014 to perform a study of water and sewer rates including an evaluation of related costs. The study is in progress.

11.2 Utility adjustments

Controls over adjustments posted to customer utility accounts needed improvement. The city used a manual form to document the approval of adjustments, but had no procedures in place to compare adjustments posted to the computer to the manual approval forms to ensure all adjustments were properly approved and only approved adjustments were made to customer accounts. Additionally, reports of adjustments were not generated and reviewed and approved. Further, the city's utility system was capable of

documenting supervisory approval for all created, edited, and adjusted utility account files electronically; however, this feature was not utilized.

Recommendation

The Board of Aldermen ensure all adjustments are properly approved.

Status

Implemented

The city now requires review of utility adjustments by the Finance Officer and approval by the City Administrator. We reviewed three adjustments made in April 2014 for water leaks reported by customers and noted documentation was maintained to support the adjustments. The Finance Officer signed off on the manual adjustment forms and the City Administrator initialed the forms to show his approval.

11.3 Utility deposits

The total of customer utility deposits was not reconciled to the amount reported in the city's accounting records. As of December 31, 2012, utility system records indicate deposits totaling $114,085 were being held; however, the city's accounting records indicated $116,281 was being held in the city's pooled cash account for utility deposits.

Recommendation

The Board of Aldermen ensure customer deposits are reconciled to the cash balance and differences are investigated.

Status

In Progress

The Finance Officer indicated she plans to reconcile the utility deposit listing to accounting records in the near future. The Finance Director indicated the cash collection module of the accounting system requires adjustment before the reconciliation can occur because some airport hangar deposits and utility deposits are comingled on the deposit listing. Once required adjustments are made, she can begin the reconciliation process.

12. Property Controls and Records

City property records were not complete, and fuel and vehicle usage was not properly monitored. In addition, the police department needed to improve seized property records and procedures.

12.1 Asset records and inventories

Property records did not include all necessary information, physical inventories were not routinely performed, and some city property was not tagged or properly identified as belonging to the city.

Recommendation

The Board of Aldermen ensure property records are adequately maintained and include all pertinent information for each asset, such as cost, acquisition date, and identifying number; annual physical inventories are conducted; and city assets are tagged to display ownership.

Status

In Progress

The City Clerk is in the process of inventorying city property. She reviewed technology equipment and vehicle inventories and plans to inventory the remaining city property by the end of summer 2014. The city plans to begin tagging all assets after the inventory work is complete. We reviewed the completed technology inventory list and noted it did not include the asset acquisition date and cost. The City Administrator indicated the city plans to develop complete asset records including all pertinent information, such as cost and acquisition date, once staff complete the inventories and asset tagging.

12.2 City fuel and vehicle usage

The city had not established effective monitoring procedures regarding fuel and vehicle use. Fuel logs did not include all fuel pumped from city bulk fuel tanks and these fuel logs were not reviewed or used to reconcile fuel used to fuel purchased. Also, employees were not required to submit fuel tickets associated with fuel pumped at local gas stations, and odometer readings were not reviewed by department directors for reasonableness. Further, fuel bills were not always reviewed and approved by department supervisors before payment.

Additionally, usage logs were not maintained for city vehicles to ensure vehicles were properly utilized and to ensure the vehicle was a necessary and justified expense. An evaluation of usage to determine if the number of vehicles was necessary and justified had not been performed.

Recommendation

The Board of Aldermen establish adequate records and procedures to effectively monitor vehicle and fuel use. Bulk fuel inventory records should be maintained, invoices should be reviewed and approved, and fuel use should be reconciled to fuel purchases. Any discrepancies should be investigated. The Board should also ensure receipts for fuel purchases are submitted to the finance department and reconciled with fuel invoices. In addition, the Board should evaluate vehicle usage to determine if all vehicles are needed.

Status

In Progress

The Board approved a fuel usage policy in February 2014 that requires each vehicle to have a fuel mileage log and each employee to document the mileage and maintain fuel receipts for each fueling. The receipts are submitted to the Accounts Payable Clerk at the end of each month. We reviewed the March 2014 fuel bill and noted the Accounts Payable Clerk reconciled receipts to the bill. We noted all of the March 2014 mileage logs and receipts were not turned into the Accounts Payable Clerk to allow mileage and fuel records to be reviewed for reasonableness. For any missing receipts the Accounts Payable Clerk indicated she contacted the appropriate

department head and she was able to locate all necessary information. The Public Works Director also reconciled bulk fuel invoices to bulk fuel usage and only noted minor differences. The City Clerk stated city officials are reviewing the city's fleet of vehicles and are in the process of disposing of older vehicles and determining what equipment and vehicles are needed.

12.3 Police department seized property controls

The police department maintained seized property records on three different computerized systems, with each system tracking property for a separate date range depending on when the property was received. When a new computerized property system was put in place, inventory from the prior system(s) was not merged into the newer system. As a result, one complete control log of property was not maintained, making records cumbersome and difficult to follow. There was also no documentation to indicate that a physical inventory of seized property had been performed and compared to the computerized inventory records.

Additionally, the police department was holding numerous property items that should have been disposed.

Several concerns regarding the improper use or disposition of seized property inventory were brought to our attention and were referred to the proper law enforcement agency for further investigation.

Recommendation

The Board of Aldermen ensure the police department maintains a single complete inventory record of all evidence and seized property, performs a physical inventory of all items and compares it to the inventory records, and properly disposes of older seized items as applicable.

Status

In Progress

The Police Chief implemented procedures to address deficiencies identified in a November 2012 audit of the property room, including adopting a new property and evidence policy in March 2014. The city hired two part-time staff for the property unit who conducted a complete inventory of the property room in October 2013. The city also consolidated all of the property inventory records. The Police Chief indicated he plans to review the discrepancies identified during the inventory process. Property unit staff are in the process of requesting property dispositions from the various courts so older property can be returned or disposed of as appropriate. Access to the property unit has been limited to 3 people. We reviewed property room procedures, a destruction list, and inventory records, and noted no concerns.

13.1 Ordinances and Sunshine Law Issues - City ordinances

Some city ordinances were not followed and some fees were not consistent with or authorized by city ordinance. For example, city code provides for the election of a city collector every 2 years and assigns duties to the position; however, city officials indicate the City Collector performs no city

functions. Also, some license and utility fees are not set by ordinance or charged in accordance with city ordinance.

Recommendation

The Board of Aldermen ensure city ordinances are followed and maintained in an up-to-date manner and reflect current city operations.

Status

In Progress

City officials are reviewing current ordinances to determine if they include all license and utility fees and indicated they will ensure ordinances are maintained, updated, and reflect current operations. The City Clerk periodically sends new ordinances to a contracted company that updates the city code. All 2013 ordinances are included in the city code and the City Clerk recently submitted 2014 information to be updated. The City Administrator indicated the city will review the City Collector position and seek a legal opinion regarding the position.

13.3 Ordinances and Sunshine Law Issues - Closed meeting discussions

Some topics discussed and voted on in closed board meetings were not allowable under the Sunshine Law.

Recommendation

The Board of Aldermen ensure only topics allowed by state law are discussed in closed board meetings.

Status

Implemented

The City Administrator indicated no unallowable topics will be discussed in closed session. The City Administrator stated the city is in the process of scheduling Sunshine Law compliance training presented by the Attorney General's office for Board members. The City Attorney also stated he is working to ensure compliance during closed meetings. We reviewed closed meeting minutes for the period of December 2013 through April 2014 and noted no unallowable topics discussed.

Thomas A. Schweich

Missouri State Auditor

First Judicial Circuit

Clark County

July 2014

Report No. 2014-051

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the First Judicial Circuit, Clark County

Missing Monies and Other Questionable Transactions	At least $3,743 was received but not deposited, and another $750 in pro se divorce filing fees could be missing or uncollected. Also, 32 manual receipt slips were removed from the receipt slip books and could not be located, which may indicate additional funds are missing. In addition, at least $7,688 was not collected due to the non-assessment of fines and court costs, the manipulation of case balances and collectability statuses, and one case balance was never entered into the Justice Information System (JIS). As a result, misappropriated court funds and missing monies totaled at least $12,181. The former Circuit Clerk has been arrested and charged with 2 counts of felony stealing.
Accounting Controls and Procedures	The court has not adequately segregated accounting duties and has not established adequate supervisory or independent reviews, which increases the likelihood of errors, loss, theft, or misuse of funds going undetected. The Circuit Clerk's office lacks proper controls or procedures for manual receipt slips. The office used multiple receipt slip books concurrently, receipt slips were not accounted for properly, receipt slips were not always timely recorded in the JIS, and there was no independent review to ensure proper handling of receipts and receipt slips. Receipts are not always deposited timely, payments received in the mail are not recorded on a mail log, none of the 11 checks included in our cash count were restrictively endorsed, 6 cashier sessions were left open for up to 2 weeks, the composition of receipts did not agree to the composition of deposits, and electronic payments are not posted to the JIS until the end of the month. The Circuit Clerk's office does not properly document, review, or approve non-monetary transactions, adjustments, and voids; has not established a formal administrative plan for the collection of court debt or payment plans; and does not always assess time payment fees as required by court rules. The court does not generate liabilities reports to ensure monies are disbursed in a timely manner and reconciled bank balances are sufficient to cover liabilities.
Circuit Court Procedures	The court did not prepare budgets for various funds, and the Law Library Fund budget was incomplete. The court does not reconcile the change fund and the petty cash fund at the end of each day, and they are not kept in a safe, secure location. The change fund was not maintained at a constant amount, and the petty cash fund was not maintained on an imprest basis. Reportedly the former Circuit Clerk periodically retrieved money from the Ex Officio Recorder of Deeds' office to replenish the court's petty cash fund. The court refused to accept bond monies from the Sheriff's office until a case number was assigned, which increases the potential for loss, theft, or misuse of funds. Court employees did not log off their computers when unattended or keep passwords confidential, and computers did not shut down after a period of inactivity. The user account of one former employee was not disabled until 6 months after the employee resigned. The court did not prepare an annual report of passport fees charged and expenditures of those fees, as required by state law.

Law Library Fund Controls and Procedures	The court has not adequately segregated accounting duties for the Law Library bank account and financial activities, and an independent review is not performed. In addition, bank reconciliations were not prepared.
Drug Court Deposits	Court personnel do not always timely deposit receipts, and some cash receipts were held as long as 23 days before deposit.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Supporting Documentation for Missing Cash Receipts and Possible Additional Missing Funds 21

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
First Judicial Circuit
Clark County, Missouri

We have audited certain operations of the First Judicial Circuit, Clark County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to January 1, 2012, through July 31, 2013. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

2. Evaluate the court's compliance with certain legal provisions and court rules.

3. Determine the extent of misappropriated court funds and monies missing.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. Certain receipt records were not provided to us because the circuit court was unable to locate those records for various time periods. As a result, we could not audit certain potential transactions or information related to transactions because of this limitation imposed on the scope of our audit. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We reviewed all available manual receipt slip books, which included manual receipt slips for the periods 2001, 2003, and 2011 through 2013. Manual receipt slips were likely issued in other years; however, those manual receipt slip books could not be located.

Except as discussed in the second paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Clark County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions and court rules, and (3) misappropriated court funds and missing monies totaling at least $12,181. The accompanying Management Advisory Report presents our findings arising from our audit of the First Judicial Circuit, Clark County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Chris Vetter, CPA
In-Charge Auditor:	Steven Re', CPA
Audit Staff:	Andrew Behrens
	Keisha Williams

1. Missing Monies and Other Questionable Transactions

From January 2012 through July 2013, monies were determined to be missing from circuit court receipts. Additional missing monies were discovered dating back to 2001. Misappropriated court funds and missing monies totaled at least $12,181.

In July 2013, the State Auditor's office received a hotline call and was also contacted by the Clark County Prosecuting Attorney concerning the likelihood of missing monies in the circuit court. Mary Jones (former Circuit Clerk) was placed on suspension from her duties as Circuit Clerk by the Presiding Judge on Wednesday, July 24, 2013. The Office of State Courts Administrator (OSCA) was notified and took possession of bank statements and reconciliations, check registers, and manual receipt slip books on Thursday, July 25, 2013, the same day Ms. Jones resigned as Circuit Clerk. On Friday, July 26, 2013, these records were provided to the State Auditor's office. In addition, the Missouri State Highway Patrol (MSHP) was notified of the situation by the Clark County Prosecuting Attorney and conducted their own investigation. Ms. Jones was arrested by the MSHP on June 6, 2014, and charged with 2 counts of felony stealing.

Our audit determined receipts totaling at least $3,743 were received but not deposited. Additional receipts totaling at least $750 could also be missing or uncollected, based on payments likely received for filing fees paid when pro se divorce cases are filed. Also, 32 manual receipt slips were removed from the receipt slip books and could not be located, indicating additional funds could also be missing. Further, revenue totaling at least $7,688 may never be collected due to non-assessment of fines and court costs in the Justice Information System (JIS), the Missouri courts automated case management system, manipulation of JIS case balances due or collectability status without judicial orders, and one case balance was never entered into the JIS.

Accounting duties in the circuit court were not adequately segregated. The former Circuit Clerk and all deputy court clerks receipted monies and made entries in the JIS, including fee adjustments, voids, and docket entries. There were no supervisory or independent reviews performed. In addition, the former Circuit Clerk prepared and signed all deposit slips and made all deposits, was the only person authorized to sign checks, and performed month-end close out procedures and reconciliations. Ms. Jones was primarily responsible for the cases in which problems were identified, and her signature was noted on the majority of manual receipt slips discussed.

The section titled Supporting Documentation for Missing Cash Receipts and Possible Additional Missing Funds includes several tables documenting the transactions discussed below. We reviewed all available manual receipt slip books, which included manual receipt slips for the periods 2001, 2003, and 2011 through 2013. Manual receipt slips were likely issued in other years; however, those manual receipt slip books could not be located.

Undeposited cash receipts

Cash receipts totaling $3,743 were recorded on manual receipt slips or a manual ledger or initially recorded in the JIS but were not deposited. As noted in MAR finding number 2.2, manual receipt slips were used periodically throughout the month and during the month-end close out procedures. For all manual receipt slips we reviewed, the former Circuit Clerk was responsible for depositing the related receipts.

- A deputy court clerk issued a manual receipt slip for $1,063 in cash on January 23, 2001, for fines and court costs. However, the cash was not deposited or recorded on the case party fee sheet in the case file.

- The former Circuit Clerk did not deposit or record in the JIS 8 manual receipt slips she issued totaling $970 in cash for fines and court costs. In addition, no court costs were assessed for 6 of the cases and court records indicate all 8 cases are closed.

- The former Circuit Clerk did not deposit and disburse to Scotland County $955 in cash received for domestic violence classes held in Clark County. A deputy court clerk recorded $955 in payments received in defendant ledgers. Periodically, monies were turned over to the former Circuit Clerk for disbursement to Scotland County; however, the former Circuit Clerk did not deposit or record the $955 in the JIS. Instead, the former Circuit Clerk prepared a letter to the Clark County Treasurer requesting $1,200 for monies she explained she had paid in error to the Clark County Community Service Fund instead of the Batterer's Intervention Program in Scotland County for 2 of the domestic violence cases. The County Treasurer issued a check for $1,200 to the former Circuit Clerk, which was deposited and then disbursed along with other domestic violence class monies to Scotland County as part of a check for $1,475. Available documentation showed only $600 of the $1,200 had been paid in error to the Community Service Fund. As a result, Clark County suffered a $600 loss. In addition, the deputy court clerk issued receipt slips for only 11 of the 27 payments that comprised the $955.

- The former Circuit Clerk entered a $724.50 cash receipt in the JIS as a fee adjustment on June 24, 2009. The cash had originally been received on March 31, 2004, and was never deposited. A judicial order to support the fee adjustment could not be located. According to information provided by a deputy court clerk and her written account of the sequence of events, the deputy court clerk initially received and entered the $724.50 cash receipt in the JIS on March 31, 2004. The deputy court clerk then voided the transaction because it interfered with the former Circuit Clerk's month-end procedures. In addition, the deputy court clerk told us she placed the $724.50 in an envelope in the case file and handed it to the former Circuit Clerk for future deposit. The monies were never deposited or re-entered into the JIS. In late 2010 or early

2011, the deputy court clerk found the case file, which included the envelope she had placed the monies in; however, only $24.50 was in the envelope resulting in $700 of missing monies.

- The former Circuit Clerk issued a manual receipt slip for a cash receipt totaling $50 in fines and court costs, but did not deposit the monies. She both recorded and voided, but did not re-enter, the receipt in the JIS on April 30, 2012.

- A deputy court clerk issued a manual receipt slip on March 18, 2013, for $30; however, the case party fee sheet indicated the former Circuit Clerk recorded in the JIS and deposited only $25 in fines and court costs, resulting in $5 of missing monies.

Possible additional missing monies

Court costs totaling $750 were not assessed for 5 civil cases (pro se divorce cases) requiring a filing fee to be paid at the time the case is initiated. There was no evidence in the receipts records or the JIS to show these filing fees had been collected or deposited. We received confirmation from the petitioner for 1 of the 5 civil cases indicating he paid a $150 filing fee to the court; however, he was unable to provide a paid receipt. All of the cases have been closed.

Potential loss of outstanding fines and court costs

A review of court records indicated the processing of fines and court costs for cases totaling $7,688 were not consistent with the Judge's orders on the case docket sheets. We identified unsupported fee adjustments, failure to assess fines and court costs, and changes made to case collection status. These actions resulted in $0 balances due for some cases and lowered balances due for other cases. As a result, potential court revenues have gone uncollected. Court personnel indicated defendants for all but 2 cases discussed below are relatives of the former Circuit Clerk. These relationships were confirmed by county personnel.

- The former Circuit Clerk entered 2 fee adjustment transactions totaling $2,023 into the JIS. Judicial orders to support the adjustments could not be located.

- Fines and court costs totaling $484 were not assessed for 4 cases in the JIS prior to disposition of the cases. The docket sheets for these cases indicate court costs were ordered by the Judge and should have been assessed prior to the disposition of the cases in the JIS.

- The collection status on 6 cases with balances due totaling $798 appears to have been changed by the former Circuit Clerk without the support of a judicial order. Four of the 6 cases, with a total balance due of $265, were changed to "exempt from collection" and 2 cases with a total balance due of $533 were changed to "uncollectible" on July 15, 2013. Court and county personnel indicated all 6 cases were for relatives of

the former Circuit Clerk. Further, at the time of our review, payment cards for 4 of the 6 cases could not be located. On September 6, 2013, a relative of the former Circuit Clerk arrived unsolicited at the circuit court office and returned all 4 missing payment cards to the deputy court clerk. The relative also provided a written statement indicating the former Circuit Clerk gave instructions to pay her in person when none of the deputy clerks were in the office.

- A case was not updated in the JIS with a balance due of $4,383. The case was originally maintained on manual case sheets until the JIS was implemented in September 2001.

The lack of segregation of duties and inadequate controls as discussed in the remainder of this report resulted in the failure to detect these discrepancies.

Recommendation

The Court en Banc and the Prosecuting Attorney continue to work with law enforcement officials regarding criminal prosecution related to the missing funds, including restitution of missing funds.

Auditee's Response

The Court en Banc provided the following written response:

The Court en Banc is cooperating with law enforcement and the Prosecuting Attorney regarding any criminal prosecution related to missing money.

The Prosecuting Attorney provided the following written response:

On June 6, 2014, Mary D. Jones was charged with 2 felony Counts of stealing over $500.00. These charges followed an extensive investigation by Sergeant Bradley D. Ream and Karen Laves of the Missouri Division of Drug and Crime Control.

The Defendant is scheduled to be arraigned in Clark County Circuit Court on June 24, 2014, at 10:00 a.m. before the Honorable Judge Mike Greenwell of Shelby County, Missouri, Circuit Court.

2. Accounting Controls and Procedures

Significant weaknesses were identified with accounting controls and procedures. As a result, several receipts were not accounted for properly.

2.1 Segregation of duties and oversight

As discussed in MAR finding number 1, the circuit court has not adequately segregated the duties of receiving and recording receipts, preparing deposits, and disbursing funds, and has not established adequate supervisory or independent review procedures.

The former Circuit Clerk accepted receipts from the public, accumulated receipts accepted by the deputy court clerks, and processed all deposits. In addition, she was responsible for all disbursements, month-end reporting, and reconciliations prior to her resignation on July 25, 2013. As a result, there were instances when the former Circuit Clerk was responsible for transactions from initial receipt to their disbursement without involvement from other clerks. No independent reviews of the former Circuit Clerk's work were performed.

The circuit court has still not adequately segregated accounting duties. All 3 deputy court clerks still have access to process receipts, record transactions, voids and fee adjustments, and prepare month-end disbursements in the JIS. Also, 2 of the 3 clerks have "cash boss" permission rights which allow them to prepare deposits and process month-end reports. In addition, the deputy recorder of deeds, who previously performed some circuit court duties, has "cash boss" permission rights in the JIS. One change that has occurred is the same deputy court clerk reconciles each cashier session to the monies collected and the Circuit Clerk prepares deposits and compares the total to the deputy court clerk's total.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. Segregating duties to the extent possible, along with periodic supervisory or independent reviews of records, would reduce the possibility of errors, loss, theft, or misuse of funds going undetected.

2.2 Manual receipt slips

The Circuit Clerk's office had not established proper controls or procedures for manual receipt slips. We reviewed all available manual receipt slip books, 5 in total, which were located in the Circuit Clerk's office and in a storage room. These 5 books pertained to 2001, 2003, and 2011 through 2013. Based on the court's typical use of manual receipt slips, it appears multiple books are missing.

Multiple manual receipt slip books were used concurrently and numerous manual receipt slips were missing or not used. In addition, manual receipt slips issued by the court were not recorded timely or reconciled to the JIS, deposited timely, or reviewed by a supervisor or someone independent of the receipting process. We identified several manual receipt slips issued for monies received which were not later deposited or entered into the JIS. A manual receipt slip book was accessible to all clerks for use at any time until September 2013, when the Circuit Clerk's office implemented new procedures. Currently, manual receipt slips are only used when the JIS is unavailable.

The following concerns were noted during a review of manual receipt slips:

- Five generic prenumbered manual receipt slip books were used to record monies received periodically throughout the month. In addition, manual receipt slips were used to record all monies received on the last day of each month as instructed by the former Circuit Clerk while she was performing the month-end procedures.

- Receipt slips were not accounted for properly. Our review of the 5 manual receipt slip books available identified 32 receipt slips for which the original and carbon copies were torn from the receipt slip books and not retained. In addition, 8 receipt slips were skipped, 7 receipt slips were issued out of order, and a case number was not documented on 14 receipt slips. Also, 17 manual receipt slips were issued to record monies paid to the Ex Officio Recorder of Deeds' office, and the former Circuit Clerk used 12 receipt slips to record payments received related to personal business transactions. The former Circuit Clerk also served as the Ex Officio Recorder of Deeds.

- Manual receipt slips were not always recorded timely in the JIS or deposited timely. Of 89 manual receipt slips issued from April 2011 through July 2013, 38 (43 percent) were not recorded in the JIS or deposited for 3 or more business days after receipt. In addition, 22 manual receipt slips issued for monies received were not later recorded in the JIS or deposited. Monies corresponding to these 22 manual receipts are considered missing (see MAR finding number 1) and are identified in the Supporting Documentation for Missing Cash Receipts and Possible Additional Missing Funds section.

- There was no independent review to ensure manual receipt slips issued were properly recorded in the JIS and subsequently deposited. Receipts are only included in daily deposits if they are recorded in the JIS as monetary transactions (see MAR finding number 1).

Controls over manual receipt slips are necessary to adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds. Necessary controls include utilizing one official prenumbered manual receipt slip book at a time, limiting or restricting their use, accounting for the numerical sequence, indicating the method of payment, and ensuring proper and timely recording and reconciliation of the receipts in the JIS. In addition, effective January 1, 2014, Court Operating Rule (COR) 4.53.2 restricts courts using the JIS or other approved local automated systems to issue manual receipt slips only when the automated system is unavailable or as authorized by order of the presiding judge.

2.3 Receipting and depositing procedures

Procedures related to receipting and depositing receipts are in need of improvement. The following issues were noted:

- Payments received in the mail are not recorded on a mail log, issued a receipt slip, or restrictively endorsed immediately upon receipt. Instead, various court clerks receive the checks or money orders and process the monies received.

- None of the 11 checks included in our July 29, 2013, cash count totaling $1,454 were restrictively endorsed.

- Six cashier sessions in the JIS totaling $8,384 were left open from December 14, 2012, through December 24, 2012, and the monies related to these sessions were not deposited until December 28, 2012. Closing cashier sessions untimely can result in delays in depositing and completing reconciliations, and increases the possibility that errors will go undetected.

- The composition (cash, check, or money order) of receipts as recorded in the JIS did not agree to the composition of the December 11, 2012, deposit. Cash per the composition of receipts was $110 more than the composition of the deposit.

- Electronic payments made online by credit/debit card and debt collection payments are not posted to the JIS until the end of the month. The court is notified daily when electronic payments have been received. For example, electronic payments received from December 4, 2012, through December 26, 2012, totaling $2,164 were not receipted and posted in the JIS until December 28, 2012. As a result, case file updates are delayed and errors may not be detected timely.

An initial record of monies received in the mail combined with procedures to reconcile these monies to the JIS and deposit records is necessary to adequately safeguard receipts. In addition, restrictively endorsing checks immediately upon receipt, posting all receipts to the JIS when received, maintaining receipts in a secure location until deposited, reconciling the composition of receipts to the composition of deposits, and depositing all receipts in a timely manner help to lessen the risk of loss, theft, or misuse of funds.

2.4 Non-monetary transactions, adjustments, and voids

Non-monetary transactions, adjustments, and voids in the JIS are not properly documented or reviewed and approved by persons independent of the receipting process. Non-monetary transactions, including debt adjustment, uncollectible bad debt write-offs, bonds applied, and debt exempt from collection are transactions in which no monies are received; however, credit is applied to the account balances. Adjustments include the reduction or non-assessment of fines and court costs in which the amounts due are changed or not assessed in the JIS. Voids include non-monetary and

monetary transactions. The former and current Circuit Clerk and all deputy court clerks are allowed to enter non-monetary transactions, adjustments, and void receipt transactions in the JIS. Most non-monetary transactions and adjustments should be supported by a judicial order reducing the defendant's debt owed. However, the Circuit Clerk's office did not maintain documentation for numerous non-monetary transactions, adjustments, and voids that occurred during the audit period. Several transactions were possibly made to conceal missing monies (see MAR finding number 1).

Adequate documentation and independent review and approval of non-monetary transactions, adjustments, and voids are necessary to help ensure such transactions are appropriate and reduce the risk of loss, theft, or misuse of funds.

2.5 Accrued costs

The Circuit Clerk's office has not established a formal administrative plan for the collection of court debt and payment plans, and does not always assess time payment fees as required by COR 21. As of October 29, 2013, 199 cases with accrued costs totaling $93,000 were not associated with payment plans and 332 cases had not been assessed time payments fees totaling $8,300, per reports obtained from the JIS. In addition, the Circuit Clerk's office has not taken steps to perform additional collection efforts or write off balances owed. Accrued court costs totaled approximately $1.7 million as of July 31, 2013.

A review of 15 cases with balances due identified the following debt collection and payment plan problems:

- The payment plans for 6 cases were not initiated timely, ranging from 2 to 8 years after disposition. Three of the 6 cases were never sent to debt collection. No additional collection efforts have been made for 8 of the cases reviewed. Also, 4 cases did not have a payment plan letter sent to the individual and 1 case file could not be located.

- Several cases had payment terms which did not appear to be reasonable and no judicial order to support the payment amounts or schedule. For example, a case with 2 payment plans has one plan with monthly payments of $50 with the final payment due on June 15, 2040, and the other plan with monthly payments of $15 with the final payment due on November 15, 2073. Six cases totaling approximately $120,000 in accrued costs required payment of the full amount due on the date the payment plan was executed.

- One case which had a change of venue to another county still appeared on the accrued cost listing. The case should have been transferred to Ralls County; however, a payment plan was initiated by Clark County and tax intercept payments are currently being received by Clark County.

Reviewing the listing of accrued costs due to the court would allow the Circuit Clerk to take appropriate steps to ensure amounts owed are collected. Adherence to the provisions of COR 21, as adopted by the Missouri Supreme Court, is required for courts automated on the JIS. COR 21.11 requires the court to develop a formal administrative plan to include settlement agreements, payment plans, coordination with probation and parole, collection of board bills, review and write off of accounts receivables deemed uncollectible, and sanctions for non-payment of debt. Also, COR 21.13 requires all divisions of the circuit courts, except municipal divisions, to assess a $25 time payment fee on all cases not paid in full within 30 days of disposition. Failure to follow these rules could result in lost revenue and in loss, theft, or misuse of funds.

2.6 Liabilities

The court did not properly monitor liabilities. Liabilities reports are not generated in the JIS for review to ensure monies are disbursed in a timely manner and reconciled bank balances are sufficient to cover liabilities. As of July 31, 2013, the Circuit Clerk's case liabilities list totaled $68,083, which was $20 less than the reconciled bank balance. A detailed liabilities list had not been generated from January 2013 through June 2013. In addition, court personnel indicated they could not determine when the last review had been performed.

We reviewed all 215 cases on this list, which includes numerous cases that appear to be inactive and several cases dating back to 2007. We determined monies should have been applied or disbursed for 78 cases as follows.

- Liabilities held for 19 criminal cases disposed prior to July 31, 2013, were not applied or disbursed. Liabilities for these 19 cases totaled approximately $17,200, of which approximately $13,000 was bond monies. This included a $7,000 bond for 1 case that was disposed in July 2012. The court should have applied $6,693 to the case and refunded the remaining $307 to the defendant.

- The court has collected approximately $6,000 on 52 civil cases, 5 juvenile cases, and 2 criminal cases and held the monies in suspense rather than applying the monies to the cases. The 59 cases were all disposed prior to July 31, 2013. Of the approximately $6,000 collected, $325 pertains to filing fees received for 2 civil cases in March 2007; however, no costs were assessed on the cases and the monies were never applied to the cases or refunded.

Based on our review, liabilities could have been reduced by approximately $23,200 (34 percent) had court officials properly monitored cases and applied and disbursed monies related to those cases in a timely manner.

To ensure cash balances are sufficient to cover liabilities and monies are properly disbursed, monthly liabilities reports should be generated from the

JIS and procedures should be followed to routinely investigate monies remaining on the liabilities report over a specific period of time.

Recommendations

The Court en Banc and Circuit Clerk:

2.1 Segregate accounting duties to the extent possible, limit user access rights within the JIS to only those necessary for the user to perform job duties, and implement appropriate reviews and monitoring procedures.

2.2 Ensure one manual receipt slip book is used at a time and the use of manual receipt slips is limited as required by court rule. The Circuit Clerk should also ensure manual receipt slips are recorded timely in the JIS and the monies deposited timely. In addition, the Circuit Clerk should ensure manual receipt slips are only used for circuit court transactions, the numerical sequence accounted for properly, and the case number documented on the receipt slip. Further, the Circuit Clerk should ensure manual receipt slips are reviewed and reconciled to the JIS and to the related deposits by someone independent of the receipting process.

2.3 Require an initial record of monies received by mail be prepared and reconciled to the JIS, restrictively endorse checks and money orders immediately upon receipt, and require receipt slips be issued for all monies on a timely basis. In addition, the Circuit Clerk should maintain monies collected in a secure location and deposit receipts timely.

2.4 Require an independent review and approval of all non-monetary transactions, adjustments, and voids made in the JIS, and retain adequate documentation to support these transactions.

2.5 Develop a formal administrative plan for debt collection and payment plans to ensure compliance with court operating rules. In addition, the Circuit Clerk should perform periodic reviews of cases with outstanding amounts due.

2.6 Generate monthly liabilities reports from the JIS and establish procedures to review the status of liabilities to determine the appropriate disposition of funds held on closed or inactive cases.

Auditee's Response

The Court en Banc and the Circuit Clerk provided the following written responses:

2.1 Since July, the segregation of duties has been addressed by having a cash box in a Deputy Clerk's desk where all the deposits are

placed securely. That clerk does the deposit, verifying cash and check totals against the JIS deposit sheet. Once the deposit is reconciled, the entire deposit is given to the Circuit Clerk for her to reconcile the cash and checks and the total amount of the deposit. The Deputy Clerk and Circuit Clerk are both signing off on all the deposits as they are checked. In addition, the Circuit Clerk and the Deputy Clerk responsible for deposits are receipting money only when necessary, as when there are no other Deputy Clerks available or the office is extremely busy.

The issues of voids and retakes in JIS will be addressed by notification to OSCA that only 2 individuals may handle those processes. Since July 2013, there have been less than 10 voids and retakes.

Each clerk has limited security access to JIS, which only pertains to their specific job duties.

2.2 *Manual receipts will not be utilized unless on a case by case basis, in the event of extraordinary circumstances and then, only by order of the Presiding Judge. If manual receipts are issued, each receipt will be reviewed and reconciled to JIS by a clerk that did not issue the receipt.*

2.3 *The Circuit Clerk is the only person opening mail. Checks and money orders are restrictively endorsed immediately upon receipt. Deposits shall be made at least once a week and more frequently, if necessary. All cash payments will be maintained in a mail log immediately upon receipt.*

Receipt slips will be issued as the cash payment is logged. Payments received will be placed in a secure cash box in the deputy clerk's desk until deposited.

The Deputy Clerk is posting the electronic payments – credit/debit card payments, debt collection payments and tax offset payments – weekly.

2.4 *Non-monetary transactions, adjustments, and voids are being documented by the Deputy Clerk and reviewed independently by the Circuit Clerk. There have been less than 10 voids since July 2013. Uncollectible bad debt write-offs have been performed - only with judicial order - since July 2013. No one is marking any debt "exempt from debt collection" or "uncollectible." The issuance of voids and retakes will be addressed by OSCA limiting access to the Circuit Clerk and one Deputy Clerk.*

2.5 The Court En Banc will comply with the recommendations of the audit.

On Associate criminal cases, the Judge has reviews every month on his cases to determine who is and is not making payments on their cases. Also, the Associate Judge and the Deputy Clerk have written off as bad debt approximately $125,000 by judicial order.

Also, the Deputy Clerk is reviewing old cases without payment plans and without the $25 time payment fee in order to update and correct those files.

Also, the Deputy Clerk has created a listing of all the Circuit probationers and their outstanding balances in order to work with Probation and Parole and the Presiding Judge in order to keep up on receivables. The Presiding Judge will review all delinquent receivables quarterly.

2.6 The Deputy Clerks have worked diligently on the liabilities list that totaled $68,083 on July 31, 2013. As of April 30, 2014, that amount has decreased to $53,051 and consists of a large balance in bonds on old traffic and misdemeanor cases - $33,566. The Associate Circuit Judge and Deputy Clerk are currently looking at procedures to forfeit monies on the appropriate traffic cases. Also, the Prosecuting Attorney will be contacted to take action to dismiss some cases and forfeit monies on criminal cases.

The Deputy Clerks have reviewed and paid out all civil cases that involved monies held in suspense. Costs have been assessed and applied on cases that were at issue during the audit. JIS reports are being generated and reviewed monthly to keep this up to date.

3. Circuit Court Procedures

Budgets were not prepared for various funds and the Law Library Fund budget was incomplete. In addition, controls over the Circuit Clerk's change fund and petty cash fund need improvement. Also, bond monies from the Sheriff's office were not accepted timely, computer password confidentiality was not maintained, and annual reports for passports were not prepared.

3.1 Budgets

Budgets were not prepared for the Circuit Clerk's Interest Fund, Time Payment Fee Fund, and the Passport Fee Fund. In addition, the budget prepared for the Law Library Fund did not include any revenue information or prior years' comparative expenditure information. Although the court is primarily funded by the state and county, the interest, time payment fee, law library, and passport fee monies are spent at the discretion of the court. Approximately $18,500 was disbursed through these funds from January 1, 2012, through July 31, 2013.

Preparing a complete and accurate budget for all public funds aids in the fiscal management of the monies, provides a means to effectively monitor actual costs and revenues, and provides an avenue for both the county and the public to be fully informed of the court's financial picture.

3.2 Change fund and petty cash fund

Several weaknesses were noted concerning the change fund and the petty cash fund.

- The change fund and the petty cash fund were not reconciled at the end of each day or located in a safe, secure location. The cash box for each fund was located in an unlocked file cabinet which is accessible by all court employees and other individuals who are granted access to the Circuit Clerk's office.

- The change fund was not maintained at a constant amount. A cash count of the change fund on July 29, 2013, totaled $234. A deputy court clerk indicated the change fund should have been maintained at a constant amount of $200. Also, the same deputy court clerk indicated an additional $150 received for an unidentified case was missing from the change box.

- The petty cash fund was not maintained on an imprest basis. A deputy court clerk indicated she was not aware of the authorized amount originally establishing the petty cash fund. A cash count of the petty cash fund on July 29, 2013, identified a balance of $25. There were no receipts documenting any purchases. In addition, unidentified cash located in the former Circuit Clerk's desk and two deputy court clerks' desks totaling $44 was counted.

- According to the three current deputy court clerks and the deputy recorder of deeds, the former Circuit Clerk would periodically retrieve monies from the Ex Officio Recorder of Deeds' office miscellaneous cash monies to replenish the court's petty cash fund.

To safeguard against possible loss, theft, or misuse of funds, change funds and petty cash funds should be maintained at a constant amount or imprest basis and the funds should be periodically counted and reconciled to the authorized balance by an independent person. In addition, funds should be placed in a secure location and access limited to authorized personnel. Also, the petty cash fund should only be replenished through reimbursement of disbursements made by the County Treasurer.

3.3 Bond monies

According to court personnel, the court would not accept bond monies from the Sheriff's office until a case number is assigned. For example, bond monies totaling $1,450 for four cases received from the Sheriff's office were deposited by the Circuit Clerk's office one to three months after the date the Sheriff's office wrote the check to the court. Upon initially receiving these

checks, the court returned them to the Sheriff's office because case numbers were not yet assigned. However, the JIS allows bonds to be receipted in the system before a case number is assigned. After a case number is established, the case can then be linked to the appropriate bond payment. In addition, the former Circuit Clerk did not issue receipt slips documenting the receipt of bond monies received from the Sheriff's office.

To reduce the potential for loss, theft, or misuse of funds, bond monies from the Sheriff's office should be promptly accepted and receipted into the JIS. In addition, to establish proper accountability over bond receipts and the transmittal between offices, receipt slips should be issued for monies received from the Sheriff's office.

3.4 Passwords and computer inactivity

Court employees did not log off their computers when unattended, passwords were not kept confidential, and a security control was not in place to shut down computers after a certain period of inactivity. In addition, the user account of a former court employee who resigned in April 2013 was not disabled until October 2013. As a result, unauthorized individuals including former court personnel could access an unattended computer and have unrestricted access to programs and data files.

To prevent unauthorized access, users should log off computer workstations when unattended, and passwords should be kept confidential and changed periodically to help limit unauthorized access to computer terminals, files and programs to only those individuals who need access for completion of job responsibilities. In addition, security controls should be implemented to shut down the system after a certain period of inactivity. Also, all inactive user accounts should be deleted.

3.5 Passport fees

The circuit court did not prepare an annual report of passport fees charged and expenditures of those fees, as required by state law. The circuit court processed 121 passport applications and collected $17,470 in passport processing fees from January 2, 2012, through July 31, 2013. The court retained $25 of each passport fee totaling $3,025.

Section 483.537, RSMo, states, "The clerk of any state court who, by deputy or otherwise, takes or processes applications for passports or their renewal shall account for the fees charged for such service and for the expenditure of such fee in an annual report made to the presiding judge and the office of the state courts administrator."

Recommendations

The Court en Banc and Circuit Clerk:

3.1 Prepare annual budgets for the Circuit Clerk's Interest Fund, Time Payment Fee Fund, and Passport Fee Fund, and provide copies of these budgets to the county budget officer. In addition, the Circuit Clerk should ensure all budgeted funds contain revenue information

and the comparative statements of actual or estimated expenditures for the two previous years.

3.2 Maintain the change fund and the petty cash fund at a constant/imprest basis and periodically reconcile the ending balance. In addition, the Circuit Clerk should ensure monies are maintained in a secure location and the petty cash fund is replenished through disbursements made by the County Treasurer.

3.3 Accept and record bond monies into the JIS and issue corresponding receipt slips when bond monies are received from the Sheriff's office.

3.4 Ensure employees log off their computers when unattended and passwords remain confidential and are changed periodically. In addition, the Circuit Clerk should establish a security control requiring computers to shut down after a certain period of inactivity and delete all user accounts for inactive employees.

3.5 Ensure passport fees and expenditures are reported in accordance with state law.

Auditee's Response

The Court en Banc and the Circuit Clerk provided the following written responses:

3.1 Budgets were prepared in December 2013 for budget year 2014. Budgets will include revenue information and actual estimated expenditures for the previous two years.

3.2 The change fund and petty cash fund are maintained at a constant balance of $200, and $6, respectively. They are reconciled weekly and kept in a secure location. Any disbursements from the petty cash fund are reimbursed by the County Treasurer.

3.3 Recommendations have been implemented.

3.4 Recommendations have been implemented by OSCA. Employees are directed to log off computers when they are unattended. The computers automatically lock after five minutes of not being used, requiring a confidential password to regain access.

3.5 This recommendation has been implemented.

4. Law Library Fund Controls and Procedures

The court has not adequately segregated accounting duties and an independent review is not performed related to the Law Library bank account and financial activities. A deputy clerk performs all accounting duties including recording receipts, depositing monies, and writing and signing checks. In addition, bank reconciliations are not prepared. At our request, the deputy court clerk prepared a bank reconciliation as of July 31, 2013, and the reconciled bank account balance agreed to the book balance.

Internal controls would be improved by segregating duties. If proper segregation of duties is not possible, at a minimum, periodic and documented reviews of the records should be performed by an independent individual. In addition, monthly bank reconciliations should be prepared by someone independent of the accounting functions.

Recommendation

The Court en Banc and Circuit Clerk ensure accounting duties are adequately segregated or independent reviews are performed periodically. In addition, bank reconciliations should be prepared monthly and periodically reviewed.

Auditee's Response

The Court en Bank and the Circuit Clerk provided the following written response:

The recommendation has been implemented. The Associate Circuit Judge is performing independent reviews.

5. Drug Court Deposits

Receipts are not always deposited on a timely basis. During our review of receipts collected from January 1, 2012, through July 31, 2013, deposits were typically made once or twice a month, and some cash receipts were held as long as 23 days before deposit. Total receipts deposited during that time period were approximately $53,000.

The failure to deposit timely increases the risk of loss, theft, or misuse of funds.

Recommendation

The Court en Banc and the Drug Court Supervisor ensure deposits are made timely.

Auditee's Response

The Court en Bank, the Circuit Clerk, and the Drug Court Supervisor provided the following written response:

This recommendation has been implemented. Deposits are being handled through JIS. Deposits are made at least once a week.

First Judicial Circuit
Clark County
Organization and Statistical Information

The First Judicial Circuit consists of Clark County as well as Schuyler and Scotland Counties.

The First Judicial Circuit consists of one circuit judge and three associate circuit judges. The circuit judge hears cases in Clark, Schuyler, and Scotland Counties and presides over Circuit Division I. Of the three associate circuit judges, one is located in Clark County and presides over Associate Circuit Division II. The other two associate circuit judges are located in Schuyler and Scotland Counties. Circuit personnel located in Schuyler and Scotland Counties are not included in the scope of this audit.

Personnel

At July 31, 2013, the judges, Circuit Clerk, and Juvenile Officer of the First Judicial Circuit, Clark County, were as follows:

Title	Name
Circuit Judge, Division I	Gary Dial
Associate Circuit Judge, Division II	Rick R. Roberts
Circuit Clerk (1) (2)	vacant
Juvenile Officer	Eric DeRosear

(1) Kay Biggerstaff was appointed as Circuit Clerk on October 1, 2013, to replace Mary D. Jones, who resigned on July 25, 2013.
(2) In Clark County the Circuit Clerk also serves as the Ex Officio Recorder of Deeds.

Financial Information

Receipts of the First Judicial Circuit, Clark County, were as follows:

Receipts	Period from January 1, 2013, through July 31, 2013	Year Ended December 31, 2012
Court deposits, fee, bonds, and other	$258,270	428,268
Drug Court	19,868	33,413
Interest Income	157	1,596
Total	$278,295	463,277

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the First Judicial Circuit, Clark County, were as follows:

	Year Ended June 30,	
	2013	2012
Civil	324	329
Criminal	894	941
Juvenile	27	32
Probate	55	37
Total	1,300	1,339

Total	$ 4,383

[1]All manual receipt slips, except receipt number 10904, were signed by the former Circuit Clerk.

[2]The JIS user identification noted the former Circuit Clerk made the fee adjustment.

[3]All transactions in the JIS are assigned receipt numbers, including monetary receipts, non-monetary receipts, and voids.

[4]The manual receipt slip was signed by former Circuit Clerk.

[5]The defendant is a relative of former Circuit Clerk.

Thomas A. Schweich

Missouri State Auditor

Livingston County Collector-Treasurer and Property Tax System

July 2014

Report No. 2014-052

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Livingston County Collector-Treasurer and Property Tax System

Background	Section 52.150, RSMo, requires the State Auditor to audit the office of a County Collector after being notified of a vacancy in that office. A vacancy occurred in the office of the County Collector-Treasurer of Livingston County on April 1, 2014. A successor was appointed and sworn into office effective April 2, 2014. The scope of our audit included, but was not necessarily limited to, the year ended February 28, 2014, and the period from March 1, 2014, to April 1, 2014.
County Collector-Treasurer's Procedures	As discussed in several prior audit reports, the County Collector-Treasurer did not have a procedure throughout the audit period to reconcile the available cash balance to existing month-end liabilities.
Computer Controls	The County Collector-Treasurer has not established adequate password controls to reduce the risk of unauthorized access to office computers and data. Security controls are not in place to shutdown a computer after a certain period of inactivity or lock it after a specified number of incorrect logon attempts.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 6

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
County Collector-Treasurer
Livingston County, Missouri

We have audited the County Collector-Treasurer and Property Tax System of Livingston County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On April 1, 2014, a vacancy occurred in the office of the County Collector-Treasurer of Livingston County. A successor was appointed and sworn into office effective April 2, 2014. The scope of our audit included, but was not necessarily limited to, the period from March 1, 2014, to April 1, 2014, and the year ended February 28, 2014. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector-Treasurer and county management and was not subjected to the procedures applied in our audit of the County Collector-Treasurer and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any monies owing to the county or the former County Collector-Treasurer. For the areas audited, we identified (1) deficiencies in internal controls, and (2) no significant noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector-Treasurer and Property Tax System of Livingston County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Todd M. Schuler, CPA
In-Charge Auditor:	Julie A. Moulden, MBA, CPA

1. County Collector-Treasurer's Procedures

As similarly discussed in several prior audit reports, the County Collector-Treasurer did not have a procedure throughout the audit period to reconcile the available cash balance to month-end liabilities. Based on our review, the reconciled bank account balance of $166,288 exceeded identified liabilities of $165,535 by $753 as of March 31, 2014. The County Collector-Treasurer's office processed property tax collections of approximately $12 million during the year ending February 28, 2014.

Without a regular comparison of liabilities to the reconciled cash balance there is less likelihood errors will be identified and the ability to resolve errors is diminished. Differences must be adequately investigated and explained.

Recommendation

The County Collector-Treasurer prepare monthly lists of liabilities, reconcile the lists to the available cash balance, and promptly investigate any differences.

Auditee's Response

The County Collector-Treasurer provided the following response:

I will prepare a listing of liabilities monthly, compare it to the reconciled bank balance beginning with the July 2014 reconciliation, and investigate any differences identified.

2. Computer Controls

The County Collector-Treasurer has not established adequate computer controls. As a result, the County Collector-Treasurer's office records are not adequately protected and are susceptible to unauthorized access.

2.1 Password controls

The County Collector-Treasurer has not established adequate password controls to reduce the risk of unauthorized access to office computers and data. Only the County Collector-Treasurer's computer is set up to ensure passwords are changed periodically. Passwords are not required to be changed on a periodic basis for the other 3 computers in the office.

The security of a computer password is dependent upon keeping passwords confidential. However, since passwords do not have to be periodically changed, there is less assurance passwords are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of unauthorized access to and use of computers and data.

2.2 Security controls

Security controls are not in place in the County Collector-Treasurer's office to shutdown a computer after a certain period of inactivity or lock it after a specified number of incorrect logon attempts. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs

and data files. Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The County Collector-Treasurer:

2.1 Require unique passwords for each employee that are confidential and periodically changed to prevent unauthorized access to computers and data.

2.2 Require each employee's computer to have security controls in place to shutdown the computer after a certain period of inactivity and lock it after a specified number of incorrect logon attempts.

Auditee's Response

The County Collector-Treasurer provided the following response:

I am in the process of working with our IT professional to implement these recommendations.

Livingston County Collector-Treasurer and Property Tax System Organization and Statistical Information

The County Collector-Treasurer bills and collects property taxes for the county and most local governments. Pursuant to Section 54.030, RSMo, the term for which collector-treasurer's are elected expires on the first day of April. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Martha Peery served as County Collector-Treasurer until April 1, 2014. Paula McCoy was appointed the County Collector-Treasurer and sworn into office on April 2, 2014.

The County Collector-Treasurer received compensation of $4,210 for the period March 1, 2014 to April 1, 2014. During the year ended February 28, 2014, the County Collector-Treasurer received compensation of $54,813. Compensation was in accordance with statutory provisions.

Thomas A. Schweich

Missouri State Auditor

Forty-Second Judicial Circuit

Village of Leasburg
Municipal Division

August 2014

Report No. 2014-053

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Forty-Second Judicial Circuit, Village of Leasburg Municipal Division

Accounting Controls and Procedures	The Court Clerk's accounting duties are not adequately segregated, and there was not adequate supervision or review of her work. The Court Clerk does not compare open bonds reported by the municipal division to bond liabilities reported by the village to ensure they agree. Village officials did not always submit the state's portion of certain fees monthly in accordance with Supreme Court Operating Rules, and the Court Clerk does not always submit accurate monthly reports to the state.
Municipal Division Procedures	The Court Clerk does not consistently document the final dispositions of cases on the court dockets for each case brought before the court, and case information was missing on 17 of the 18 docket sheets we reviewed. Rather than reviewing the docket sheets and documenting his approval, the Municipal Judge lets the Court Clerk use his signature stamp on court dockets and other documents. Similarly, the Court Clerk has the authority to amend tickets and uses the Prosecuting Attorney's signature stamp to sign all tickets, making it impossible to determine whether the Prosecuting Attorney approved tickets and any related amendments. The Municipal Judge does not sign warrants issued and has not given written authorization for the Court Clerk to sign on his behalf, so there is no documentation the warrants were authorized. The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly, and, until we brought it to her attention, the Court Clerk did not file a monthly list of all cases heard with the village.

In the areas audited, the overall performance of this entity was **Fair**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge
Forty-Second Judicial Circuit
and
Municipal Judge
and
Members of the Board of Trustees
Leasburg, Missouri

We have audited certain operations of the Village of Leasburg Municipal Division of the Forty-Second Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's compliance with certain legal provisions and court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions and court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Village of Leasburg Municipal Division of the Forty-Second Judicial Circuit.

A petition audit of the Village of Leasburg, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Chris Vetter, CPA
In-Charge Auditor:	Candi Copley

Forty-Second Judicial Circuit
Village of Leasburg Municipal Division
Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended December 31, 2013, the municipal division collected approximately $15,000 in fines and court costs.

Monies collected by the Court Clerk are deposited into a municipal division bank account maintained by the Village of Leasburg. Village personnel are responsible for performing bank reconciliations, issuing checks and preparing financial statements for the municipal division. Village officials transferred control of the municipal division bank account to the Court Clerk in January 2014.

1.1 Oversight procedures

The Court Clerk's accounting duties are not adequately segregated and neither the Municipal Judge nor other village personnel independent of the cash custody and record-keeping functions provide adequate supervision or review the work performed by the Court Clerk. The Court Clerk collects and deposits all bonds and fines and court costs and prepares a cash control log recording receipt activity between monthly court dates. The former Village Clerk did not reconcile the composition (cash, checks, and money orders) of receipts to the composition of monies deposited. The former Village Clerk also did not investigate discrepancies identified on some 2012 cash control logs. The Court Clerk subsequently resolved all of these discrepancies through a comparison of manually issued court receipt slips to the cash control log.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible. If proper segregation of duties is not possible, the Municipal Judge should establish procedures to ensure a documented independent review of accounting records is performed.

1.2 Bond liabilities

The Court Clerk does not compare open bonds reported by the municipal division to bond liabilities reported by the village to confirm village records are in agreement with court records and bond monies are properly held.

Monthly reconciliations between the open bonds reported by the municipal division and the monies held in the municipal division's bank account by village officials are necessary to ensure proper accountability over open cases and to ensure monies held in trust are sufficient to meet liabilities.

1.3 Disbursements

Village officials do not always submit amounts paid for the state's portion of Crime Victim's Compensation and Peace Officer Standards and Training fees monthly. Additionally, municipal court proceedings are not held in May or December; however, fines and court costs collected through the violations bureau (VB) during these months were not remitted until July and February, respectively.

Supreme Court Operating Rule 21 indicates that state court costs collected by the municipal division should be disbursed within 30 days of receipt.

1.4 Monthly reports

The Court Clerk does not always submit accurate monthly reports to the state. For example, the Court Clerk recorded on the cash control log the amount collected for one case was payment of restitution instead of court costs. As a result, court costs assessed on this case were not accurately reported or remitted to the state.

Supreme Court Operating Rule 4.28 requires accurate monthly reports of cases filed and fines and court costs collected be verified by the Court Clerk or Municipal Judge and submitted to the Office of State Courts Administrator. To ensure monthly reports are accurate, the municipal division should reconcile amounts included on the various reports with amounts posted to village records.

Recommendations

The Village of Leasburg Municipal Division:

1.1 Segregate accounting duties to the extent possible. If it is not possible to segregate duties, documented periodic reviews of municipal division records should be performed by a person independent of accounting functions.

1.2 Reconcile bond liabilities to the monies held in the bank account. Unidentified differences should be promptly investigated and resolved.

1.3 Disburse court monies within 30 days of receipt.

1.4 File accurate monthly reports with the state.

Auditee's Response

The Municipal Judge and Court Clerk provided the following written responses:

1.1 Since the Court Clerk took control of the court checking account in January 2014, procedures have been implemented for monthly reviews of court records by the Municipal Judge. The Municipal Judge also reviews and initials monthly court bank statements and bank reconciliations.

1.2 Bonds are now being held and monitored by the Court Clerk. Bond monies are reconciled with bond liabilities monthly. Any unidentified differences will be investigated promptly.

1.3 The Court Clerk now completes reports at the end of each month and disburses court liabilities in a timely manner.

1.4 Although the Court Clerk agrees with this finding, court records are normally in agreement with case files and this error was an unusual oversight. Court reports are now completed monthly and submitted to the state in a timely manner.

2. Municipal Division Procedures

Municipal division procedures need improvement.

2.1 Case dispositions

The Court Clerk does not consistently document the final dispositions of cases on the court dockets for each case brought before the court. The Municipal Judge does not always review and sign backer sheets for traffic and ordinance tickets paid at the VB.

The Court Clerk documents some case information for each client on the front of the case file folder instead of the docket sheet. We reviewed 18 municipal court cases and case information was missing on 17 of the 18 docket sheets. In addition, the Municipal Judge does not always review and document his approval of court dockets for traffic tickets paid at the VB, and the Municipal Judge does not review or document his approval of other court dockets after case dispositions are recorded. Instead, the Municipal Judge allows the Court Clerk to use his signature stamp on court dockets and other documents. For 13 of the 18 cases reviewed, a facsimile stamp of the Judge's signature was used on the docket sheet to indicate approval of the court's orders.

Supreme Court Operating Rule 4 requires municipal divisions to maintain a docket or backer sheet for each case. All information regarding the case should be documented including, but not limited to, a copy of the ticket, case number, defendant name, sentence, bond information, warrant information, and disposition of the case. Accurate recording of the case information is necessary to ensure all fines and court costs have been properly collected and deposited. In addition, to ensure the recorded disposition of all cases is proper, the Municipal Judge should sign the docket or backer sheet to indicate approval of the recorded disposition and discontinue allowing the use of his facsimile signature.

2.2 Prosecutor approval

The Prosecuting Attorney does not sign all tickets processed by the municipal division and the Prosecuting Attorney's approval of amended or dismissed traffic tickets is not clearly documented.

The Prosecuting Attorney allows the Court Clerk to maintain his signature stamp and stamp his signature on traffic tickets. We reviewed the same cases discussed in section 2.1 for the Prosecuting Attorney's signature. The traffic tickets for all 18 cases had been signed using a facsimile stamp of the Prosecuting Attorney's signature.

The Court Clerk is allowed to amend speeding violations up to 14 miles over the speed limit when the defendant is not represented by counsel and additional non-moving violations when the defendant is represented by counsel to non-moving violations and to nolle pros (dismiss) traffic violations issued for no proof of insurance if the defendant later provides proof of insurance. Charges are amended by the Court Clerk based on a recommendation schedule approved by the Prosecuting Attorney and the Prosecuting Attorney has provided the Court Clerk with a pre-signed Recommendation for Disposition form allowing the Court Clerk to amend charges and collect the related fines and court costs through the traffic VB without further review by the Prosecuting Attorney. It is not possible to determine which charges were amended by the Prosecuting Attorney or amended by the Court Clerk and there is no indication charges amended by the Court Clerk were later reviewed by the Prosecuting Attorney to ensure their propriety.

The ability of the Court Clerk to amend tickets and apply the Prosecuting Attorney's signature by facsimile stamp without a review by the Prosecuting Attorney is a significant control weakness, and increases the likelihood of tickets being handled improperly and the risk of loss, theft, or misuse going undetected. Supreme Court Rule 37.35 states citations shall be in writing and signed by the prosecutor and filed with the municipal division. The Prosecuting Attorney's review, documented with his signature, is needed to provide assurance proper cases and charges are filed with the municipal division. Additionally, to ensure the proper disposition of all cases has been entered in the municipal division records, the Prosecuting Attorney should sign or initial all amended or nolle pros tickets indicating his review and approval.

2.3 Warrants

The Municipal Judge does not sign warrants issued and has not issued written authorization for the Court Clerk to sign warrants on his behalf. Without the signature or written authorization, there is no documentation the warrants were authorized. The municipal division issues warrants to defendants who miss court appearances or do not pay their fine.

Supreme Court Rule 37.45 states a warrant shall be signed by the judge or by the clerk of the court when directed by the judge for a specific warrant. To ensure warrants are properly issued in accordance with Supreme Court rules, the municipal judge should sign warrants or provide specific written authorization for the Court Clerk to sign warrants.

2.4 Ticket accountability

The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly. The police department maintains a record of ticket books assigned to each officer. As tickets are issued by the police department, they are given to the municipal division for processing. However, there are no procedures to account for the numerical sequence of

all tickets issued or to ensure all tickets issued have been provided to the municipal division. We reviewed tickets issued during the year ended December 31, 2013, and identified eight unaccounted tickets. After numerous requests, police department personnel were able to locate these tickets in July 2014.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the municipal division and the police department cannot be assured all tickets issued are properly submitted for processing. A record should be maintained accounting for the ultimate disposition of each ticket issued to decrease the risk of loss, theft, or misuse of funds.

2.5 Report of cases heard

The Court Clerk did not file a monthly list of all cases heard with the village until we brought it to her attention. Without such a report, village officials cannot effectively monitor municipal division activity and ensure monies are properly remitted.

Section 479.080.3, RSMo, and Supreme Court Operating Rule 4.29 require the Court Clerk to prepare a monthly list of all cases heard in the municipal division court, including the names of the defendants and fines and court costs imposed, to be verified by the Court Clerk or Municipal Judge and filed with the village. In addition, Article III, Section 800.120 of the Municipal Court Operating Ordinance also requires such a report to be filed with the Village Clerk.

Recommendations

The Village of Leasburg Municipal Division:

2.1 Ensure the proper disposition of cases is documented on the court dockets or backer sheets and all court dockets and backer sheets are signed by the Municipal Judge.

2.2 Ensure the Prosecuting Attorney signs all tickets and reviews and approves all amended and nolle pros tickets.

2.3 Ensure warrants are signed by the Municipal Judge or the Court Clerk, when directed by the Municipal Judge for a specific warrant.

2.4 Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

2.5 Ensure a monthly list of cases heard in the municipal division is filed with the village in accordance with state law and court operating rules.

Auditee's Response

The Municipal Judge and Court Clerk provided the following written responses:

2.1 All case dispositions are now documented in each case file and case files, including VB cases, are now reviewed by the Municipal Judge. Case backer sheets are reviewed and signed by the Judge.

2.2 Ticket procedures will be discussed with the Prosecuting Attorney. The municipal division will implement procedures to be compliant with state laws.

2.3 An authorization letter consistent with Supreme Court Rule 37.45 is currently being drafted to allow the Court Clerk authorization to sign warrants when specific warrants are requested by the Judge.

2.4 The municipal division does not believe accounting for the numerical sequence of tickets is the responsibility of the Court Clerk. However, a spreadsheet has been created by the Court Clerk to account for the numerical sequence and ultimate disposition of traffic tickets issued. The Court will request the police officer to make copies of all voided tickets for this purpose.

2.5 The Court Clerk's prepared monthly report will now be submitted to the Board of Trustees monthly.

The Prosecuting Attorney provided the following response:

2.2 This recommendation will be implemented.

Forty-Second Judicial Circuit
Village of Leasburg Municipal Division
Organization and Statistical Information

The Village of Leasburg Municipal Division is in the Forty-Second Judicial Circuit, which consists of Crawford, Dent, Iron, Reynolds, and Wayne counties. The Honorable Kelly Parker serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the village treasury.

Personnel

At December 31, 2013, the municipal division employees were as follows:

Title	Name
Municipal Judge	Joseph Purschke
Court Clerk	Sandra Martin

Financial and Caseload Information

	Year Ended December 31, 2013
Receipts	$14,933
Number of cases filed	180

State Auditor's Letter 2

Status of Findings*

1. Missing Monies 3
2. Accounting Controls and Procedures 3

*Includes selected findings

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Sheriff of New Madrid County

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-113, *New Madrid County Sheriff*, issued in November 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the Sheriff and County Commission about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the Sheriff's office, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we reviewed the written status of recommendations and supporting documentation submitted by the Sheriff's office, and held discussions with the Sheriff and Sheriff's Office Manager. Documentation reviewed included court documents, bank statements, receipt and deposit records, and various other financial records. This report is a summary of the results of this follow-up work, which was substantially completed during February and March 2014. While working with the Sheriff's office in conducting the follow-up work, a $500 cash bond was determined to be missing, and concerns related to the handling of inmates' monies and personal property were identified. Additional work related to inmate monies and personal property was completed during April and May 2014, and the results and conclusions are addressed in a letter to the New Madrid County Sheriff dated August 13, 2014, and released as Report No. 2014-055.

Thomas A. Schweich
State Auditor

New Madrid County Sheriff
Follow-Up Report on Prior Audit Findings
Status of Findings

1. Missing Monies

Cash receipts totaling $79,766 recorded on one-write receipt slips issued by Deborah L. Cowan, a commissioned Sheriff's Deputy (Deputy), were not deposited. Unrecorded checks received were substituted into these deposits for the recorded cash receipts not deposited. Problems with concealed carry weapon (CCW) records indicated CCW fees totaling at least $2,900 could be missing. The Deputy was placed on administrative leave on April 3, 2013, terminated her employment on April 23, 2013, and was charged with felony theft/stealing charges on July 30, 2013. On October 22, 2013, the county received $45,000 in restitution for a portion of the missing monies.

Recommendation

The Sheriff take necessary action to recover the missing monies and continue to work with law enforcement authorities regarding any criminal prosecution.

Status

Implemented

On November 7, 2013, the court ordered a suspended imposition of sentence, and the defendant was placed on 5 years of supervised probation with special conditions requiring full restitution of an additional $44,000 at the rate of $1,467 per month. The defendant admitted to stealing more CCW monies; and therefore she agreed/was ordered to pay a total of $89,000 (more than the $79,766 reported as missing). In addition to the $45,000 restitution payment made in October 2013, the defendant made payments of $4,500 on January 22, 2014, $3,000 on March 10, 2014, and $4,000 on June 3, 2014, for a total of $56,500.

2. Accounting Controls and Procedures

Significant weaknesses exist in accounting controls and record-keeping procedures in the Sheriff's office.

2.1 Segregation of duties and supervisory review

The Sheriff did not adequately segregate accounting duties or provide adequate oversight of financial functions and records. The Deputy was primarily responsible for all accounting duties, including receiving monies, recording transactions, maintaining accounting records, making deposits, transmitting and disbursing monies, and preparing month-end bank reconciliations for the two bank accounts held by the Sheriff's office. Additionally, the Deputy was an approved signer on Sheriff bank accounts and only one signature was required. The Sheriff or other office staff did not perform a comparison of the composition of monies received to the composition of monies transmitted or deposited.

Recommendation

The Sheriff adequately segregate accounting duties to the extent possible or ensure supervisory reviews of accounting records are performed and documented.

Status

Partially Implemented

The Sheriff does not have plans to segregate accounting duties due to limited personnel. The Sheriff reviewed bank reconciliations and monthly reports for December 2013, and documented his review and approval. However, the Sheriff's reviews were not adequate as further discussed in finding section 2.3 status.

2.2 Receipting and depositing

Controls and procedures over receipting and depositing monies were not sufficient. The Deputy did not issue one-write receipt slips for some monies received, and the method of payment (cash, check, or money order) was not recorded on either the bond or one-write receipt slips and reconciled to deposits. Additionally, the Deputy did not issue one-write receipt slips immediately upon receipt of monies and some one-write receipt entries represented a combination of multiple payments received, not individual payments received. The Deputy did not deposit receipts intact or timely and did not include an itemized listing of cash, checks, and money orders on the deposit slips.

Recommendation

The Sheriff issue receipt slips for all monies received, with the method of payment documented, and reconcile the composition of receipt slips to the composition of deposits. The Sheriff should also maintain documentation of which receipts are included in deposits, and deposit receipts intact and in a timely manner.

Status

Partially Implemented

We reviewed receipt slips issued from December 2013 through February 2014, and determined one-write receipt slips were not issued for all bond monies, the method of payment was not always documented, and the composition of receipt slips was not always reconciled to the composition of deposits. In addition, receipts were not always deposited intact and timely. Documentation was maintained indicating which receipts are included in deposits.

2.3 Bond monies

Controls and procedures for receipting and recording bond monies were not sufficient. Jail personnel did not always issue bond receipt slips in numerical sequence, and original copies of some voided and skipped receipt slips were not retained. Additionally, bond forms used by the Sheriff's office were not prenumbered and copies of bond forms issued were not always retained. Further, documentation was not maintained to support the transmittal of bond monies from deputies and jailers to the Deputy, or to the New Madrid County Circuit Court.

Recommendation

The Sheriff ensure bond receipt slips are issued in numerical sequence, all copies of voided and skipped receipt slips are retained, and the numerical sequence of receipt slips is accounted for properly. The Sheriff should also ensure the transmittal of bond monies between persons is documented, and issue prenumbered bond forms and account for the numerical sequence.

Status

Partially Implemented

Bond procedures were not adequately improved. We reviewed December 2013 through February 2014 bond records and determined the numerical sequence of bond receipt slips was not accounted for, copies of some voided and skipped bond receipt slips were not retained, the transmittal of bond monies between persons was not adequately documented, and pre-numbered bond forms were not used. In addition, some bond forms could not be located and were incomplete. Also, bond receipt slips were not issued by jailers for some cash bonds collected, and a reconciliation of bond receipt slips issued by jailers to one write receipt slips issued by the Office Manager were not performed.

As a result of continued problems with records and inadequate reviews, the Sheriff and the Office Manager did not identify an unaccounted for $500 cash bond received in December 2013, until we requested records for the AFTER program in January 2014. After we interviewed Sheriff's office personnel and reviewed various records, it was determined a former jailer was likely responsible for the missing bond monies, and some inmate monies and personal property items have not been accounted for properly. The records reviewed indicate various jailers and deputies were involved in the booking and release process and had access to inmate monies and property items, therefore, we cannot conclude as to who is responsible for the missing monies and property. We reviewed records pertaining to the handling of inmate monies and personal property items and identified various concerns. The results and conclusions are addressed in a letter to the New Madrid County Sheriff dated August 13, 2014.

In June 2014, the Sheriff established new policies and procedures regarding the booking of inmates, which provide for a review of bond forms and receipts by the Office Manager. On July 10, 2014, the County Commission approved closing the county jail for reasons unrelated to this follow-up work; the remaining prisoners were transferred to another county jail; and July 25, 2014, was the last day of employment for jail employees. The County Clerk indicated the County Commission will reevaluate the status of the jail during the 2015 budget process.

2.4 Concealed carry weapon fees

The Deputy did not maintain records to account for all CCW renewal monies received, did not account for the numerical sequence of CCW initial applications or reconcile the applications to CCW receipt slips and deposits, and only recorded $50 as received on one-write receipt slips for some initial CCW applications when it was the Sheriff's policy to charge $100. Additionally, the Sheriff's office had not disbursed to the County Treasurer CCW fees collected from March 2004 to February 2013. These funds were not budgeted or reported to the County Commission.

Recommendation

The Sheriff ensure the CCW permit log is complete and accurate and reconciled to deposits, and CCW fees are disbursed to the County Treasurer monthly for deposit into the Sheriff's Revolving Fund.

Status

Implemented

The Sheriff's office is reconciling the CCW permit log maintained to deposits and is ensuring its accuracy. CCW fees collected from November 2013 through February 2014, were disbursed to the County Treasurer monthly.

2.5 Civil and criminal process fees

The Sheriff's office does not track civil and criminal process papers served or reconcile papers served to monies received. As a result, numerous unrecorded checks for civil and criminal process fees were substituted in deposits for recorded cash receipts and were not remitted to the County Treasurer. In addition, the Sheriff did not remit the full amount of Deputy Sheriff Salary Supplementation Fund (DSSSF) fees charged on civil process papers to the County Treasurer for disbursement to the State Treasurer as required by state law.

Recommendation

The Sheriff track civil and criminal process papers served and perform a comparison of papers served to the related fees collected and deposited. The Sheriff should disburse DSSSF fees in compliance with state law.

Status

Partially Implemented

The Sheriff's office is not performing a comparison of papers served to the related fees; however, the Office Manager is reconciling civil and criminal process fees collected to deposits. Civil and criminal process fees collected from November 2013 through February 2014 were disbursed to the County Treasurer monthly.

2.6 Physical controls

The Sheriff did not have physical controls over monies received, blank checks, and signature stamps.

Recommendation

The Sheriff maintain monies collected, blank checks, and signature stamps in a secure location, and review use of his facsimile stamps.

Status

In Progress

Monies collected, blank checks, and the signature stamps were located in a locking drawer or a lock box. However, during our February 2014 visit to the Sheriff's office, we noted the key to the locking drawer was easily accessible to other employees. The Office Manager also indicated the key to the lock box was sometimes left unsecured. A $500 cash bond collected in December 2013 is believed to have been improperly taken from the lock box. The Office Manager indicated access to keys, monies collected, blank

checks, and signature stamps has been further limited since the time of our visit.

THOMAS A. SCHWEICH
Missouri State Auditor

August 13, 2014

Honorable Terry Stevens
New Madrid County Sheriff
New Madrid County Jail
Courthouse Square
New Madrid, MO 63869

This letter communicates the results of our review of the handling of inmate monies and personal property by the New Madrid County Sheriff's office. This review was initiated during the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program when a $500 cash bond was determined to be missing, and additional concerns related to the handling of inmate monies and personal property were identified. The State Auditor evaluated the information provided and determined the concerns met the criteria for activating the Auditor's Swift Assessment Program (ASAP)[1] on February 20, 2014. The objectives of our review were to evaluate the Sheriff's internal controls over the handling of inmate monies and personal property, determine if inmate monies and personal property were returned to the inmates upon release from custody, and determine the extent of inmate monies and personal property missing from the Sheriff's office. The Follow-Up Report on Audit Findings - New Madrid County Sheriff, Report No. 2014-054, was issued in August 2014.

Methodology

Our methodology included obtaining an understanding of procedures and records related to handling of inmate monies and personal property items from inmate arrest to inmate release; reviewing inmate arrest records, case files, and other pertinent documents; interviewing various personnel of the Sheriff's office, as well as certain external parties; and testing selected transactions.

Background

The Sheriff's office does not have written policies or procedures related to handling inmate monies and personal property, but provided us with a description of procedures and records utilized to account for inmate monies and personal property. According to Sheriff's office personnel, monies and property surrendered by inmates during the booking process are recorded on an arrest record and the inmate and the jailer verify the amount of money/description of property by signing the arrest record. The jailer then enters information, including inmate name, date of birth, age, race, arresting officer, booking and release date and time, warrant information, and monies and property surrendered, into the Sheriff's computerized

---

[1] The State Auditor activates the ASAP when there is substantial, credible evidence to believe there is:

(1) Fraud, violations of state or federal law, rule or regulation, or significant misappropriation, mismanagement, or waste of public resources; or
(2) Significant risk of loss of confidence of the people in their government due to fiscal abuse or mismanagement; and
(3) The need for immediate action to preserve relevant evidence and/or prevent continued harm.

booking system. Inmate monies and personal property are placed in an envelope and amounts are recorded on the outside of the envelope, and the envelopes are placed inside a locker or safe in the booking area of the jail. Upon an inmate's release or transfer, monies and property are returned to the inmate, and the inmate and releasing officer sign the original arrest record in a different location on the form. In addition, the inmate signs a release receipt generated from the computerized booking system, which is attached to the arrest record, to document the return of monies and personal property.

Results and Conclusions

Arrest records prepared during the booking process were not always signed by the inmate or jailer. Some arrest records indicated monies were received; however, the release receipt indicated no monies were returned to the inmate. Arrest records and release receipts contained conflicting information related to inmate monies and property and there was no explanation for the differences. Some arrest records were incomplete and inaccurate. For example, some arrest records documented monies received as "yes," "no," or "don't know" instead of providing the amount; the date of arrest denoted on another arrest record was after the date of release; and another arrest record showed the date of birth of an inmate as May 3, 2039. Sheriff's office and jail personnel do not periodically compare inmate arrest records to the computerized booking system, and we identified some inmate arrest records that were not entered into the Sheriff's computerized booking system.

Numerous jailers, deputies, and the Office Manager have access to the lockers and safe where inmate monies and property were held. Release receipts were not always attached to arrest records and could not be located, some release receipts were not signed by the inmate, and some release receipts listed two different amounts of monies being released (one amount on a trust fund balance line item and another amount on the confiscated balance line item). Some arrest records and release receipts documented that inmate monies or personal property could not be found in the safe and were not returned to the inmate, and some arrest records documented inmate complaints that monies and property were not returned. No explanation or documentation was provided by the Sheriff related to these alleged missing monies and personal property items.

Due to incomplete information and unexplained discrepancies in records reviewed, we sent confirmations to some former inmates to verify whether monies and personal property items were returned upon their release. Based on the inmate records and corresponding information learned from returned confirmations, we identified $1,457 of inmate monies and some personal property items (cell phones and rings) that were surrendered during the arrest and booking process but are unaccounted for and appear to be missing. Arrest records pertaining to the 2 cell phones and 2 rings contained comments indicating monies and property were missing, and 1 confirmation returned provides consistent information regarding an unreturned cell phone. Records reviewed indicate various jailers and deputies were involved in the booking and release process and had access to inmate monies and property items; therefore, we cannot conclude as to who is responsible for the missing monies and property.

On July 10, 2014, the County Commission approved closing the county jail for reasons unrelated to this review; the remaining prisoners were transferred to another county jail; and July 25, 2014, was the last day of employment for jail employees. The County Clerk indicated the County Commission will reevaluate the status of the jail during the 2015 budget process.

Recommendations

The Sheriff should further investigate the missing inmate monies and personal property items and take necessary action to recover as appropriate. If the Sheriff and County Commission re-open the jail, the Sheriff should develop a system to properly account for all inmate monies and personal property items surrendered during the booking process and held until inmate release.

Sincerely,

Thomas A. Schweich
State Auditor

INDEPENDENT AUDITORS' REPORT

To the County Commission and
Officeholders of Hickory County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Hickory County, Missouri as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Hickory County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Hickory County, Missouri, as of December 31, 2013 and 2012, or the changes in its financial position for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash balances of each fund of Hickory County, Missouri, as of December 31, 2013 and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended, on the basis of the financial reporting provisions prescribed or permitted by Missouri Law described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 22, 2014, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of these statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Hickory County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Recorder, Prosecuting Attorney, Public Administrator, Treasurer and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Hickory County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

Certain elected County officials, particularly the County Collector, Treasurer, Circuit Clerk and Sheriff, collect and hold monies in a trustee capacity as an agent of individuals, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are not reported on the accompanying financial statements.

B. Basis of Presentation

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those

principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. The estimated fund balance at the beginning of the year as well as estimated revenues to be received are available for budgeting of appropriations.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets. The County did not have any funds which had actual expenditures exceed budgeted amounts.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for calendar years 2013 and 2012 were:

	2013	2012
Real Estate	$ 79,836,250	$ 78,977,860
Personal Property	26,319,422	23,325,931
Railroad and Utilities	7,512,285	6,792,680

For calendar years 2013 and 2012, the County Commission approved tax levies per $100 of assessed valuation of tangible taxable property as follows:

	2013	2012
General Revenue	$0.1979	$0.1733
Special Road & Bridge	$0.2405	$0.2405

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash and investments include both deposits and short-term investments. Investments are considered short-term when original maturities are less than one year. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions, and short-term U.S. Treasury bills.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013 and 2012, the carrying amount of the County's deposits was $1,264,599 and $1,434,474, respectively, and the bank balances were $1,563,037 and $1,495,490, respectively. Of the bank balances, $311,113 and $291,207 for December 31, 2013 and 2012, respectively, were covered by federal depository insurance and the remainder was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2013 and 2012, the County Collector held, in addition to the cash and investments listed above, cash representing collections of property taxes on behalf of various taxing districts in the County, including the County General Revenue and Special Road & Bridge funds. These amounted to $3,252,438 and $2,842,463 at December 31, 2013 and 2012, respectively. The bank balance at December 31, 2012 of $2,118,209 was adequately secured by pledged collateral, however, $40,343 of the bank balance of $2,489,851 was not secured by pledged collateral at December 31, 2013.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employee's Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 573-632-9203.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002, in order to participate in CERF. During 2013 and 2012, the County collected and remitted to CERF employee contributions of approximately $49,976 and $47,689.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

Full time employees accumulate sick leave at the rate of one day for each month of employment. Part-time employees accumulate four hours of sick leave each month. Sick leave may be carried over from one year to the next. Unused sick leave will be forfeited upon resignation, retirement, dismissal or death. No compensation shall be paid for unused sick leave. Employees are entitled to five days of vacation leave after one full year of employment, ten days after two full years of employment, and fifteen days after ten full years of employment. Vacation leave cannot be carried over from one year to the next. Years are based on the employee’s anniversary date for leave purposes.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Rural Workers Compensation Insurance Trust. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had no long-term debt outstanding or obligations under leases as of December 31, 2013.

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2013 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through May 22, 2014, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and
Officeholders of Hickory County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Hickory County, Missouri as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise Hickory County, Missouri's basic financial statements and have issued our report thereon dated May 22, 2014.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered Hickory County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hickory County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Hickory County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hickory County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and recommendations as item 1.

We also noted other matters that we reported to management of Hickory County, Missouri, in the accompanying schedule of findings and recommendations section as items 2 and 3.

Hickory County, Missouri's Response to Findings

Hickory County, Missouri's response to the findings identified in our audit is described in the accompanying schedule of findings and recommendations. Hickory County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

1. Accounting for Law Enforcement Sales Tax

Condition: The County is recording the proceeds of the Law Enforcement Sales Tax as a line item within the General Fund rather than in a separate special revenue fund. The Funds are assumed to be spent on sheriff's department line items within the General Fund, however, there is no tracking of the amount of the funds spent and how they were allocated. RSMo 67.582.3 requires the proceeds from a Law Enforcement Sales Tax to "be deposited in a special trust fund and shall be used solely for providing law enforcement services for such County for so long as the tax shall remain in effect." Accounting for these funds separately ensures that the proceeds of the tax are spent in accordance with the original purpose of the tax as approved by the voters of the County. The County received $290,175 and $286,598 from the Law Enforcement Sales Tax for the years ended December 31, 2013 and 2012, respectively.

Recommendation: We recommend that the County establish a separate fund to account for the revenues and expenditures of Law Enforcement Sales Tax funds in accordance with state statutes.

County's Response: The County will implement a separate fund for Law Enforcement Sales Tax Revenues and Expenditures as stated in RSMo 67.582.3. The County does however believe the tracking of the funds through General Fund have been more than adequate. Within the Sheriff's department each line item has a budgeted amount and the expenditures are tracked and posted monthly. The Sheriff and Deputy Sheriff's gross salaries without benefits and the cost of patrol cars, which are Law Enforcement expenditures, equaled $361,294 in 2013 and $358,954 in 2012, this more than exceeded the Law Enforcement Sales Tax Revenues of $290,175 and $286,598 respectively.

Auditor's Evaluation: The response is appropriate to correct the concern.

OTHER MATTERS

2. Collateralization of Collector's Deposits

Condition: The bank deposits of the County Collector as of December 31, 2013 were not adequately collateralized. The Collector's bank balances totaled $2,489,851 on December 31, 2013. These balances were covered by $250,000 of FDIC deposit insurance and securities pledged in the name of the County Collector with a market value of $2,199,508, leaving $40,343 of deposits not covered by insurance or pledged securities. In order to ensure the safety of public funds deposited in the bank, state statutes require deposits of Counties to be adequately covered by securities pledged as collateral in the County's name. RSMo 110.010.1 states that, "The public funds of every county…which are deposited in any banking institution acting as a legal depositary of the funds…shall be secured by the deposit of securities…."

Recommendation: We recommend that the County monitor bank balances and pledged collateral to ensure that the deposits of all County officeholders are adequately collateralized at all times.

County's Response: The County will work with the Collector and Treasurer through the months of November, December and January to closely monitor the Collector's bank balances. Possibly the Treasurer could work with the bank during these months to redirect bank collateral for Treasurer accounts to Collector accounts if balances allow. Most taxes are collected in the last months of the year and are distributed the following month, so this should not be a major issue.

Auditor's Evaluation: The response is appropriate to correct the concern.

3. Outstanding Checks

Condition: The bank reconciliations of the Treasurer's Warrant Account for December 31, 2013 and December 31, 2012 included checks listed as outstanding that were more than a year old. The December 31, 2013 reconciliation listed as outstanding four checks totaling $786 that were outstanding for 12 to 15 months and the December 31, 2012 reconciliation included one check for $1,078 that had been outstanding for over 14 months.

Recommendation: We recommend that stale checks be investigated and removed from bank reconciliations in a timely manner in order to facilitate that accuracy of the bank balances being reported. New checks should be issued if necessary and the old check should be stopped or the funds should be turned over to the state unclaimed fees fund.

County's Response: The Treasurer with the next purchase of checks will include the statement Void after 120 days, this will allow for a more comfortable and timely voiding and reissuing of checks if necessary. Also, this will give a time period for completing reconciliation and cut down on the length of time a check can be outstanding. A time period will expedite the investigation of stale checks and improve the accuracy of the bank balances being reported.

Auditor's Evaluation: The response is appropriate to correct the concern.

HICKORY COUNTY, MISSOURI
SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditors' follow-up on action taken by Hickory County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2009 and 2008.

1. *Condition:* The County did not adopt a formal budget for one fund in 2008 and one fund in 2009. Also, the expenditures of the Deputy Sheriff Salary Supplement fund exceeded budgeted amounts in both 2008 and 2009.

   Status: Resolved.

2. *Condition*: Several variances were noted between the County Clerk's records and the Treasurer's records while reviewing the reconciliation process between the two officeholders.

   Status: Resolved.

3. *Condition*: The County did not consistently solicit bids and/or retain bid documentation for various purchases of goods and services.

   Status: Resolved.

Report No. 2014-057

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Fourth Judicial Circuit, City of Tarkio Municipal Division

Accounting Controls and Procedures	The municipal division does not adequately segregate accounting duties or perform adequate supervisory reviews of accounting records. The Court Administrator performs all duties related to the collection and disbursement of fines, court costs, and bonds with no supervisory review. The Court Administrator does not always timely deposit receipts and does not reconcile the composition of receipts (cash, check, or money order) to the composition of deposits. Our review of deposits for the year ended March 31, 2014, identified 13 instances when receipts were held approximately 2 weeks before being deposited, and 2 instances when receipts were held approximately 3 weeks before being deposited. Section IV.C of the Municipal Court Operating Order requires the Court Administrator to deposit municipal division receipts on a daily basis, or when the amount on hand reaches $100.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

State Auditor's Report 2

Management Advisory Report - State Auditor's Findings
1. Accounting Controls and Procedures 4

Organization and Statistical Information 6

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge
Fourth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Tarkio, Missouri

We have audited certain operations of the City of Tarkio Municipal Division of the Fourth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended March 31, 2014. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's compliance with certain legal provisions and court rules.

3. Evaluate the city's compliance with Section 302.341.2, RSMo, which restricts the amount of fines and court costs that may be retained from traffic violations.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions and noncompliance with court rules, and (3) no noncompliance with Section 302.341.2, RSMo. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Tarkio Municipal Division of the Fourth Judicial Circuit.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Robert Showers, CPA, CGAP
In-Charge Auditor:	Richard Stuck
Audit Staff:	Colby Dollens, CPA

1. Accounting Controls and Procedures

Accounting duties are not adequately segregated and depositing procedures need improvement.

1.1 Segregation of duties

The municipal division does not adequately segregate accounting duties or perform adequate supervisory reviews of accounting records. The Court Administrator performs all duties related to the collection and disbursement of fines, court costs, and bonds. The Court Clerk, who works part-time, aids the Court Administrator in collecting and receipting fines and court costs. Neither the Municipal Judge nor other personnel independent of the cash custody and record-keeping functions provide adequate supervision or review the work performed by the Court Administrator and Court Clerk.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible. If proper segregation of duties is not possible, the Municipal Judge should establish procedures to ensure a documented independent review of accounting records is performed.

1.2 Deposits

The Court Administrator does not always deposit receipts timely and does not reconcile the composition (cash, check, or money order) of receipts to the composition of deposits. Our review of deposits for the year ended March 31, 2014, identified 13 instances when receipts were held approximately 2 weeks before being deposited and 2 instances when receipts were held approximately 3 weeks before being deposited. In addition, the Court Administrator does not indicate the composition of the monies deposited on deposit slips (only the total amount deposited is listed) or perform any other reconciliation to ensure the composition of receipts agrees to the composition of deposits.

Depositing monies in a timely manner and reconciling the composition of receipts to the composition of deposits decreases the risk of loss, theft, or misuse of funds. In addition, Section IV.C. of the Municipal Court Operating Order requires the Court Administrator to deposit municipal division receipts on a daily basis, or when the amount on hand reaches $100.

Recommendations

The City of Tarkio Municipal Division:

1.1 Segregate accounting duties to the extent possible. If it is not possible to segregate duties, documented periodic reviews of municipal division records should be performed by a person independent of accounting functions.

1.2 Deposit monies in a timely manner and reconcile the composition of receipts to the composition of deposits.

Auditee's Response

The Municipal Judge provided the following written responses:

1.1 The City of Tarkio does not have the funds to employ many people; Becky is the City Clerk and the Court Administrator. The City has hired a new Court Clerk to help her in the office and she will be trained to check Becky's record keeping.

1.2 Becky has done most all of the work for the City and the Municipal Division. In the future Becky intends to deposit at least weekly and will reconcile the composition of receipts to the composition on the deposit slip; I believe Becky will have more time available to do so with the additional help.

Fourth Judicial Circuit
City of Tarkio Municipal Division
Organization and Statistical Information

The City of Tarkio Municipal Division is in the Fourth Judicial Circuit, which consists of Atchison, Gentry, Holt, Nodaway, and Worth Counties. The Honorable Roger M. Prokes serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury.

Personnel

At March 31, 2014, the municipal division employees were as follows:

Title	Name
Municipal Judge	Patrick McLaughlin
Court Administrator	Rebecca (Becky) Jones
Court Clerk	Rosalie Woodring

Financial and Caseload Information

	Year Ended March 31, 2014
Receipts	$63,490
Number of cases filed	359

Thomas A. Schweich

Missouri State Auditor

Atchison County

August 2014

Report No. 2014-058

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Atchison County

Fuel	The county does not properly monitor fuel use or reconcile fuel billings to fuel use records. Logs are kept for bulk fuel tanks for each road and bridge vehicle, but these logs are not used to reconcile to fuel purchased, and the road and bridge supervisor does not review the logs for reasonableness.
Property Tax System Access	Prior to May 2014, access to the property tax system was not adequately restricted. The County Collector had administrative access rights to the property tax system despite being responsible for collecting tax monies, which created the possibility of unauthorized changes to property tax records. When we discussed this with the County Collector, she had the software programmer change the access rights so she does not have the ability to change property tax records.
Prosecuting Attorney Segregation of Duties	The Prosecuting Attorney has not adequately segregated accounting duties or performed a supervisory review of accounting records. The Prosecuting Attorney's secretary is primarily responsible for receipting, recording, and transmitting monies received with no supervisory review. Proper segregation of duties or an independent or supervisory review is necessary to ensure transactions are accounted for properly and assets are safeguarded.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 6

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Atchison County

We have audited certain operations of Atchison County in fulfillment of our duties under Section 29.230, RSMo. In addition, Nichols, Stopp & VanHoy, LLC, Certified Public Accountants, was engaged to audit the financial statements of Atchison County for the 2 years ended December 31, 2013. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

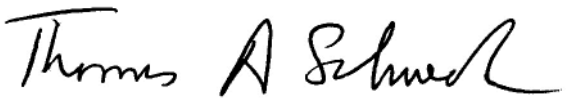
3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Atchison County.



Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Robert Showers, CPA, CGAP
In-Charge Auditor:	Richard Stuck
Audit Staff:	Colby Dollens, CPA
	Waleed Atout
	Nancy McDowell

1. Fuel

The county does not properly monitor fuel use or reconcile fuel billings to fuel use records. The road and bridge department maintains 24 vehicles and equipment items. According to county records, road and bridge department fuel purchases totaled approximately $198,000 for the year ended December 31, 2013. The road and bridge department purchases bulk diesel and unleaded fuel from local vendors for 6 bulk fuel tanks at three locations throughout the county.

Logs of fuel dispensed from bulk fuel tanks are maintained for each road and bridge vehicle; however, these logs are not used to reconcile to fuel purchased, and these reports are not reviewed by the road and bridge supervisor for reasonableness.

Procedures for maintaining and reviewing fuel usage logs and reconciling log information to fuel purchased and related records are necessary to ensure vehicles and equipment are properly utilized, prevent paying vendors for improper amounts, and decrease the risk of loss, theft, or misuse of fuel occurring without detection.

Recommendation

The County Commission ensure logs are reconciled to fuel purchases. Reconciliation should be completed to ensure all fuel billed was indeed delivered. Any significant discrepancies should be promptly investigated.

Auditee's Response

The County Commission provided the following written response:

The road and bridge department supervisor will document total gallons on the meter of each bulk tank at each barn on a monthly basis and report the number to the County Clerk who will keep a spreadsheet with the meter total from each month. She will then document the total number of gallons from the fuel tickets when the bulk tanks are filled and reconcile to make sure the fuel purchased and fuel used is within an acceptable percentage of each other.

2. Property Tax System Access

Access to the property tax system was not adequately restricted prior to May 2014. The County Collector had administrative access rights in the property tax system, which provided her with unlimited access to all information in the system and allowed her to potentially make changes to individual tax records. The County Collector is responsible for collecting tax monies, therefore, having administrative access rights to be able to alter or delete tax rates, assessed values, and property tax billings is a significant control weakness. When this issue was discussed with the County Collector in May 2014, she had the software programmer change the access rights so she does not have the ability to change property tax records.

To prevent unauthorized changes to the property tax records, access should be limited based on user needs. Unrestricted access can result in the deletion

or alteration of data files and programs, and increases the risk of loss, theft, or misuse of funds.

Recommendation

The County Commission ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

Auditee's Response

The County Commission provided the following written response:

The County Collector has already had the software programmer make the necessary changes to the system so she is not able to adjust or abate tax bills. Adjustments can only be done by creating an incident report with the programmer and the programmer will have to make the adjustments. This was the policy the County Collector was already following, even though the software allowed this ability. It no longer does.

3. Prosecuting Attorney Segregation of Duties

The Prosecuting Attorney has not adequately segregated accounting duties or performed a supervisory review of accounting records. The Prosecuting Attorney's secretary is primarily responsible for receipting, recording, and transmitting monies received for bad checks and court-ordered restitution and no supervisory review is performed by the Prosecuting Attorney. The Prosecuting Attorney's office processed bad check restitution and victim fees, bad check fees, and court-ordered restitution totaling approximately $10,000 during the year ended December 31, 2013.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are safeguarded. If proper segregation of duties cannot be achieved, the Prosecuting Attorney should implement and document an independent or supervisory review of accounting records.

Recommendation

The Prosecuting Attorney adequately segregate accounting duties or ensure an independent or supervisory review of accounting records is performed and documented.

Auditee's Response

The Prosecuting Attorney provided the following written response:

A system will be implemented to segregate the accounting duties so there is adequate oversight within the office.

Atchison County
Organization and Statistical Information

Atchison County is a county-organized, third-class county. The county seat is Rock Port.

Atchison County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. The county employed 47 full-time employees and 11 part-time employees on December 31, 2013.

In addition, county operations include Senate Bill 40 Board, Senior Citizens' Services Board, drainage and levee districts established by the county commission, Enhanced Enterprise Zone Board, and Tax Increment Financing Commission.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2014	2013
Curtis Livengood, Presiding Commissioner	$	35,755
David P. Chapin, Associate Commissioner		33,758
Richard C. Burke, Associate Commissioner		33,758
Lorie Hall, Circuit Clerk and Ex Officio Recorder of Deeds (1)		54,588
Susette M. Taylor, County Clerk (2)		56,487
Dan Smith, Prosecuting Attorney		60,819
Dennis D. Martin, Sheriff		56,867
Debbie True, County Treasurer		49,629
Shawn Minter Jr., County Coroner		14,768
Teresa Jayne Scott, Public Administrator		29,765
Diane Livengood, County Collector (3), year ended February 28,	66,194	
Lori Brown Jones, County Assessor, year ended August 31,		51,210

(1) Compensation is paid by the state.
(2) Includes $5,278 of commissions earned for preparing city property tax books.
(3) Includes $13,015 of commissions for collecting city and drainage district property taxes.

THOMAS A. SCHWEICH
Missouri State Auditor

HARRY J. OTTO, CPA
DEPUTY STATE AUDITOR

August 19, 2014

Members of the Missouri State Board of Education
and
Dr. Chris L. Nicastro, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

This letter relates to our review of the procurement process used by the Department of Elementary and Secondary Education (DESE) to award the contract for a study of options to address chronic under-performance in struggling school districts (School District Governance Reform) to The Mind Trust via the Cities For Education Entrepreneurship Trust (CEE-Trust), on August 8, 2013. To avoid a conflict of interest, the State Auditor has recused himself from the report pertaining to this contract and has directed me to oversee procedures performed by the State Auditor's professional audit staff.

The objectives of our review were to determine if the DESE:

1. Utilized effective procurement processes to ensure the contract was awarded in a fair and unbiased manner.

2. Eliminated potential conflicts of interest between funding entities and potential contractors.

3. Maintained sufficient documentation to support the decisions of the bid evaluation committee.

Our review determined (1) the DESE did not ensure personnel selected to evaluate bids received for this contract were independent and free of bias, (2) the DESE accepted grant monies to fund the study from a foundation affiliated with CEE-Trust, a potential conflict of interest that raises questions regarding the independence and objectivity of the report's findings, and (3) documentation prepared by the bid evaluation committee does not adequately support the significant variances in subjective points awarded to each bid, and the difference in subjective points awarded by the DESE was not reasonable when compared to other contracts awarded. We did not attempt to determine the need for the contract or to evaluate the reasonableness of the resulting recommendations made by CEE-Trust at the study's conclusion.

Methodology

The methodology to accomplish our objectives included (1) reviewing and evaluating the bids and bid evaluation documents related to the contract for a study of the options to address chronic under-performance in struggling school districts, (2) reviewing bid proposals, evaluation documents, and other pertinent documents prepared by the DESE and the Office of Administration (OA) relating to other DESE

contracts, (3) obtaining an understanding of applicable legal provisions, and (4) reviewing the publication *State and Local Government Procurement: A Practical Guide* issued by the National Association of State Procurement Officials (NASPO) as criteria for bidding and procurement best practices.

Background

From April through May 2013, DESE personnel held discussions with two Kansas City area foundations and CEE-Trust regarding the impact of potential legislation on the Kansas City Public Schools and other unaccredited school districts in the state. This legislation, Senate Bill 125, was passed and signed into law, effective August 28, 2013.

Personnel from the foundations, CEE-Trust, and the DESE met to discuss CEE-Trust conducting a study of state options for school district governance reform. DESE personnel indicated they were unaware of other vendors who had the national exposure and experience, or had performed similar work, in developing recommendations related to alternative governance structures for a school district. DESE personnel began drafting a Memorandum of Understanding (MOU) requiring the CEE-Trust to conduct a study that would be externally funded by the two foundations at a cost of $375,000. DESE personnel stated it was the original intent of the two foundations to pay CEE-Trust directly for the cost of the study, with the DESE not being involved in funding the study or handling the funding for the study. In late May 2013, the DESE contacted CEE-Trust to determine if CEE-Trust was a single/sole source vendor for the services to be provided. However, the DESE and CEE-Trust determined that CEE-Trust would not be eligible to be a single/sole source vendor. In June 2013, the State Board of Education received a report regarding the draft MOU, but raised concerns that the DESE was proposing to move forward with a group that was not identified through the typical procurement process.

Section 34.040, RSMo, and the OA's procurement policy requires bids be obtained for purchases over $3,000. In addition, pursuant to Section 34.100, RSMo, the OA may delegate procurement authority to state agencies. On June 27, 2013, the DESE requested special delegation of authority from the OA for procurement of the School District Governance Reform plan, and was granted such authority by the OA on July 9, 2013. As a result, the DESE was responsible for advertising, soliciting competitive bids, selecting contractors, and executing binding contracts for services to be performed. Section 34.040, RSMo, required the DESE to solicit competitive bids, evaluate bids in accordance with established evaluation criteria identified in the bid solicitation document, and select the contractor based upon the lowest and best bid available at the time of selection.

The DESE advertised for and received bids from four vendors in July 2013, and awarded the contract on August 8, 2013, to The Mind Trust via CEE-Trust with a total cost of $385,000. The contract cost was solely funded by grants the DESE received from the two foundations in the amount of $192,500 each. Contrary to the initial intent of the foundations to pay CEE-Trust directly, the foundations instead provided the grant monies to the DESE, and the DESE then made the contract payments to The Mind Trust.

Results, Conclusions, and Recommendations

Independence and Conflict of Interest

The DESE did not ensure the independence of bid evaluation committee members. Also, the DESE accepted grant monies to fund the study from a foundation that is a member of the contract vendor, a potential conflict of interest, and raises questions regarding the independence and objectivity of the report's findings.

The CEE-Trust may have benefited from favorable treatment during the evaluation process because DESE employees had been working with the firm for several months before competitive proposals were

solicited. Two of four DESE employees comprising the bid evaluation committee had prior knowledge of and were involved in discussions with the CEE-Trust and helped draft the MOU. This prior relationship with the firm may have impaired the evaluators' ability to act impartially when evaluating the bids. According to Chapter 7 of the NASPO publication (best practices) *State and Local Government Procurement: A Practical Guide,* the independence of the evaluation committee is essential to its fairness.

In addition, the DESE did not take action to eliminate potential conflicts of interest before accepting grant monies to fund the study. One of the foundations contributing $192,500 to fund the study is a member of CEE-Trust, and began working with CEE-Trust as early as December 2012, on a project regarding a comprehensive analysis of unaccredited school districts. According to the organization's website, CEE-Trust works with a growing network of city-based non-profits and foundations that are leading efforts to dramatically improve public education in their cities. CEE-Trust currently has 35 members and affiliates working in cities across the United States. While representatives of the foundations were not included on the bid evaluation committee, foundation representatives were involved in the initial discussions with CEE-Trust and in drafting the MOU.

CEE-Trust bid documents mentioned three fee-for-service consulting projects CEE-Trust was currently engaged in. Two of these projects related to CEE-Trust providing advice to two foundations in support of education reform and these foundations were identified as CEE-Trust members. However, CEE-Trust did not disclose in the bid that one of the foundations partially funding the study was also a member. Accepting grant monies for direct expenses of a contract from entities that are associated with the contract vendor is a potential conflict of interest, and any findings resulting from the study may not be deemed independent and objective.

We recommend the DESE ensure future evaluation committees evaluate vendor proposals in a fair and impartial manner. In addition, the DESE should ensure potential conflicts of interest are eliminated before accepting funds from entities affiliated with a contractor.

Evaluation of Subjective Points

The DESE did not ensure documentation prepared by the evaluation committee was sufficient to support the subjective points awarded to each bidder. In addition, the difference in subjective points awarded by the DESE was not reasonable when compared to other contracts awarded.

The DESE awarded the contract to the vendor that scored the highest based on the evaluation criteria. The evaluators used both objective analysis and subjective judgment in conducting a comparative assessment of the bids received. The evaluation criteria consisted of an objective analysis based on cost (45 maximum points), subjective judgment criteria based on experience, reliability, and expertise of personnel (45 maximum points), and method of performance (10 maximum points), for a total maximum score of 100 points. According to the bid solicitation, the subjective evaluation of experience, reliability, and expertise of personnel would consider information regarding the bidder's organization, experience in past performances related to the requirements of the bid, and qualifications of personnel. For method of performance, the subjective evaluation would consider the bidder's proposed methodology for conducting the study. The bids received and the points awarded for the School District Governance Reform plan are as follows:

	Bid Amount	Cost Points	Experience, Reliability, Expertise	Method of Performance	Total Assigned Points
CEE-Trust	$385,000	15	45	10	70
Bid #2	$124,700	45	20	4	69
Bid #3	$196,872	29	15	3	47
Bid #4	$224,976	25	5	0	30

The low cost bidder appears to have more experience and professional expertise, but received only 24 total subjective points while CEE-Trust, the highest cost bidder, received the maximum total of 55 subjective points.

	Experience, Reliability, Expertise	Subjective Points Assigned	Method of Performance	Subjective Points Assigned	Total Subjective Point Assigned
CEE-Trust	* Launched in June 2010 as an initiative of the Mind Trust founded in 2006 * Currently engaged in 3 consulting projects * 3 professionals with a combined total of 35.5 years of experience	45	* 3 professionals to manage subcontractors * Cannot determine economic impact to Missouri, but will have local subcontractors	10	55
Bid #2	* Founded in 1979 * Currently engaged in district projects in 7 states * 8 professionals with a combined total of 257 years of experience	20	* 8 professionals to manage 19 employees * Economic impact to Missouri is that improving student outcomes would improve economy in the state	4	24
	Assigned Point Difference	25	Assigned Point Difference	6	
				Total Assigned Point Difference	31
			Percentage Difference (31) of Total Subjective Points Possible (55)		56%

The allocation of total points between the objective analysis and subjective judgment criteria appeared comparable to other service type contracts we reviewed that had been awarded by the DESE, as well as other contracts awarded by the OA on behalf of the DESE. However, the subjective point difference between these two bids represents 56 percent of total subjective points, which does not appear reasonable when considering other DESE contracts. For example, we reviewed 9 contracts awarded by OA on behalf of DESE from May through September, 2013, and noted the subjective point percentage difference for the 2 highest evaluated bidders for each of these contracts ranged from 4 to 17 percent.

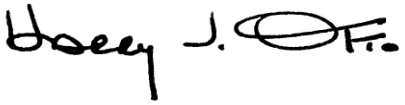
While the evaluation committee provided comments regarding the subjective points awarded for each bid, the comments provided for the low cost bid do not appear adequate to substantiate the significant point differences when compared to the CEE-Trust bid. In addition, the comments provided for the CEE-Trust bid do not appear sufficient to support maximum points awarded for both subjective evaluation categories.

The NASPO best practices state it is critical that the written record of each key step in the procurement be sufficient to demonstrate that decision. The NASPO best practices further state the procurement officer needs to look at the documentation in the file from the view of competing bidders, the public, the press,

and auditors and ask whether it tells a reasonable story about the process, particularly about the basis for award.

We recommend the DESE ensure adequate documentation is prepared by the evaluation committee to support the points awarded to bidders.

Sincerely,



Harry J. Otto, CPA
Deputy State Auditor

CITIZENS SUMMARY

Findings in the audit of the Fourth Judicial Circuit, Atchison County

Segregation of Duties

The Circuit Clerk has not adequately segregated duties, and supervisory reviews of accounting records are not adequate. In addition, the Circuit Clerk has not limited user access rights in the Justice Information System (JIS). The Circuit Clerk and 3 of the 4 other clerks have access to perform all accounting duties within the JIS. These employees are assigned cash receipting responsibilities, with all but one having access to assess fees, receipt monies, void transactions, adjust costs, and approve cashier sessions. Segregation of duties, or adequate independent reviews, is necessary to help ensure all transactions are accounted for properly and assets are adequately safeguarded.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Management Advisory Report - State Auditor's Findings
Segregation of Duties 4

Organization and Statistical Information 6

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Fourth Judicial Circuit
Atchison County, Missouri

We have audited certain operations of the Fourth Judicial Circuit, Atchison County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

2. Evaluate the court's compliance with certain legal provisions and court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Atchison County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) no significant noncompliance with legal provisions and court rules. The accompanying Management Advisory Report presents our finding arising from our audit of the Fourth Judicial Circuit, Atchison County.

Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Robert Showers, CPA, CGAP
In-Charge Auditor:	Richard Stuck
Audit Staff:	Alexander Druzenko, MBA, CPA

Segregation of Duties

The Circuit Clerk has not adequately segregated accounting duties or limited user access rights in the Justice Information System (JIS), the Missouri Courts automated case management system; and supervisory reviews of accounting records are not adequate. Fines, court costs, and bonds are collected, recorded in the JIS, and deposited into the Circuit Clerk's main bank account by personnel of the Circuit Clerk's office. According to court records, receipts collected during the year ended December 31, 2013, totaled approximately $560,000.

The Circuit Clerk and 3 of the 4 other clerks have access to perform all accounting duties within the JIS. These employees are assigned cash receipting responsibilities, with all but one having access to assess fees, receipt monies, void transactions, adjust costs, and approve cashier sessions. Disbursement duties are primarily performed by the Deputy Circuit Clerk, but other clerks can also perform disbursement duties as needed. These employees also have the ability to print and sign checks, which require only one signature. As a result, there are instances where some clerks are responsible for monetary transactions from initial receipt to disbursement without involvement from other clerks. Neither the Circuit Clerk nor other personnel independent of the cash custody and record-keeping functions provide adequate supervision or review of the work performed by court employees to ensure transactions are appropriate.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible and limiting user access rights within the JIS. If proper segregation of duties is not possible, a documented independent review of work performed by the clerks is necessary.

Recommendation

The Circuit Clerk segregate accounting duties to the extent possible, limit user access rights within the JIS to only those necessary for the user to perform job duties, and implement appropriate reviews and monitoring procedures.

Auditee's Response

The Circuit Clerk provided the following written response:

The Circuit Clerk recognizes and appreciates the State Auditor's recommendations that greater segregation of clerical duties is desirable. Like so many rural counties, the Atchison County Circuit Clerk operates with a limited number of clerks. Upon consultation with the Office of State Courts Administrator, the Circuit Clerk has determined to segregate responsibilities of staff to the extent feasible and possible while maintaining commitment to meeting the needs of the public in a timely and efficient fashion.

The various job duties are being reviewed and changes will be made to segregate duties to the extent possible. The number of clerks allowed to sign checks will be reduced and plans are to require dual signatures, at a minimum, for amounts over $500. A clerk that is not authorized to sign checks will assist in reviewing disbursements each month. The password needed to void transactions in the JIS will be changed periodically and the number of clerks authorized to void transactions will be reduced. Every attempt will be made to remove a clerk from the receipting process and that clerk will be responsible for approving cashier sessions and making the deposits. Bank reconciliations will be prepared by either the Deputy Circuit Clerk or the Circuit Clerk and reviewed by the one not preparing the reconciliation. Once the changes in job duties are in place the court will contact OSCA to make the appropriate changes to the JIS user access. The court will work on developing formal supervisory reviews. A list of the various receipts, disbursement, and payment plan reports available to the court is being developed and the court will establish procedures for running and reviewing these reports. Plans are to assign various reports to staff that are not directly responsible for the process being reviewed, and where that is not possible the Circuit Clerk and Deputy Circuit Clerk will be responsible for reviews.

Fourth Judicial Circuit
Atchison County
Organization and Statistical Information

The Fourth Judicial Circuit consists of Atchison County as well as Gentry, Holt, Nodaway, and Worth Counties.

The Fourth Judicial Circuit consists of one circuit judge and five associate circuit judges. The circuit judge hears cases throughout the circuit. The associate circuit judges hear cases in their respective counties, however the scope of our audit only includes Atchison County.

Personnel

At December 31, 2013, the judges, Circuit Clerk, and Juvenile Officer of the Fourth Judicial Circuit, Atchison County, were as follows:

Title	Name
Circuit Judge	Roger M. Prokes
Associate Circuit Judge	Corey K. Herron
Circuit Clerk	Lorie Hall
Juvenile Officer	Tracy Stone

Financial Information

Receipts of the Fourth Judicial Circuit, Atchison County, were as follows:

	Year Ended December 31, 2013
Court deposits, fee, bonds, and other	$344,555
Interest Income	25
Total	$344,580

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Fourth Judicial Circuit, Atchison County, were as follows:

	Year Ended June 30, 2013
Civil	194
Criminal	868
Juvenile	15
Probate	41
Total	1,118

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Twenty-Sixth Judicial Circuit, Laclede County

Accounting Controls and Procedures

The Circuit Clerk has not adequately segregated accounting duties or limited computer access rights, and supervision is not adequate. All clerks and supervisors can prepare checks for the main bank accounts, all employees receive and record monies, and 2 of the 8 clerks also have access rights that allow them to approve their own cashier sessions. Court personnel do not maintain a log for monies received by mail and do not restrictively endorse checks immediately upon receipt. Court personnel do not issue receipts for all monies received or timely record electronic credit cards payments, and the Criminal Division Supervisor held checks in her desk drawer for over a month before depositing. Neither the Circuit Clerk nor the supervisors document their review and approval of non-monetary transactions, adjustments, or voided transactions. During 2013, the court recorded $11 million in non-monetary transactions, $575,458 in adjustments, and approximately $8.6 million in voided transactions. The Circuit Clerk does not periodically review accrued case costs, and we noted inaccuracies and misclassifications. Some amounts listed as liabilities are inaccurate, and court personnel do not review liabilities to ensure monies are disbursed timely. We reviewed 25 cases and found 16 had monies totaling $4,843 that should have been disbursed, and another 4 cases totaling $3,350 should be reviewed for bond forfeiture. The Circuit Clerk does not record bank account balances or activity in the Justice Information System for several bank accounts, resulting in some accounts not being included in the reconciliation process and adjustments being required to bank reconciliations so that total liabilities and available cash can be compared. State law allows for reimbursement of certain costs in criminal cases where the state has been rendered liable, but the Circuit Clerk's office does not always timely submit these claims to the state.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

State Auditor's Report 2

Management Advisory Report - State Auditor's Findings
1. Accounting Controls and Procedures 4

Organization and Statistical Information 11

THOMAS A. SCHWEICH
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Twenty-Sixth Judicial Circuit
Laclede County, Missouri

We have audited certain operations of the Twenty-Sixth Judicial Circuit, Laclede County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2013. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

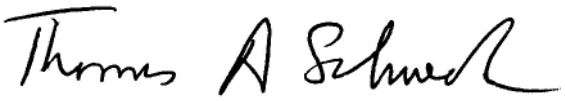
2. Evaluate the court's compliance with certain legal provisions and court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Laclede County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) no significant noncompliance with legal provisions and noncompliance with court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Twenty-Sixth Judicial Circuit, Laclede County.



Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Pamela Allison Tillery, CPA
In-Charge Auditor:	Natalie B. McNish, CGAP
Audit Staff:	Connie James
	Katelyn Crosson

1. Accounting Controls and Procedures

Significant weaknesses were identified with accounting controls and procedures.

According to court records, receipts collected during the year ended December 31, 2013, totaled approximately $1.7 million. Fines, court costs, and bonds are collected; recorded in the Justice Information System (JIS), the Missouri Courts automated case management system; and deposited into one main bank account by personnel of the Circuit Clerk's office. The Circuit Clerk's office also maintains several other bank accounts for the handling of specific case activity, interest, and fees.

1.1 Segregation of duties and supervisory review

The Circuit Clerk has not adequately segregated accounting duties or limited user access rights in the JIS, and supervision is not adequate.

All employees, including 8 clerks and 3 supervisors, in the circuit court receive and record monies, and 2 of the 8 clerks also have access rights in the JIS that would allow them to approve their own cashier sessions. In addition to receiving monies, the Chief Deputy and the Criminal Division Supervisor have the ability to record transactions, review and approve daily cashier session reports for all clerks and supervisors (including their own cashier sessions), and the Criminal Division Supervisor also prepares the deposits and bank reconciliations. The Circuit Clerk does not document her review of deposits and does not review monthly bank reconciliations. As a result, there are instances where the Criminal Division Supervisor is responsible for transactions from initial receipt to deposit, without involvement from other clerks or supervisory review.

The Circuit Clerk has not adequately segregated the disbursement duties. All clerks and supervisors can prepare checks for the main bank account. These checks are signed either by the Circuit Clerk or the Chief Deputy, and only one signature is required. As a result, the Chief Deputy may be responsible for transactions from initial receipt to disbursement without involvement from other clerks or the Circuit Clerk.

Additionally, an Associate Circuit Judge and the secretary to the other Associate Circuit Judge have access rights to the accounting functions of the JIS including the ability to assess fees, receipt monies, void transactions, adjust costs, approve cashier sessions, and issue disbursements in the JIS. The access provided is not needed because these two individuals do not complete any accounting duties. In addition, this secretary has been given the authority to document judicial orders (transactions where no money is received; however, credits are applied or the amount due is changed) in the JIS (see section 1.3). Having access to the accounting functions of the JIS, along with the authority to document judicial orders further increases the risk of errors and misuse going undetected.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by segregating duties to the extent possible and limiting user access rights within the JIS. If proper segregation of duties is not possible, a documented independent or supervisory review of work performed is necessary.

1.2 Receipting, recording, and depositing

The Circuit Clerk does not have adequate receipting, recording, and depositing procedures in place.

- Monies received in the mail are not recorded on a mail log and checks are not restrictively endorsed immediately upon receipt. A clerk initially opens and delivers the mail to the appropriate supervisor, who then distributes the mail to the division clerks for processing. Neither the clerk nor the supervisor records the payments or restrictively endorses the checks upon receipt.

- Electronic credit card payments received were not recorded in the JIS timely. For example, a $71 electronic credit card transaction processed on December 10, 2013, and transferred to the court's bank account on December 11, 2013, was not recorded in the JIS until January 29, 2014.

- The Criminal Division Supervisor held checks in her desk drawer (issued from the main bank account to the Family Services and Justice Fee bank account and the Time Payment Fee bank account) for over a month before depositing. Two checks dated October 1, 2013, one for $810 to the Family Services and Justice Fee bank account and the other for $472 to the Time Payment Fee bank account, were not deposited until November 12, 2013. Two checks dated December 3, 2013, one for $630 to the Family Services and Justice Fee bank account and the other for $379 to the Time Payment Fee bank account, were not deposited until January 8, 2014. It is unclear why these checks were being held and not deposited timely.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected.

1.3 Non-monetary, adjusting, and voided transactions

Neither the Circuit Clerk nor the supervisors document their review and approval of non-monetary transactions, adjustments to the JIS, or voided transactions, In addition, documentation supporting these transactions was not always adequate and some transactions were not processed timely. All clerks are allowed to enter non-monetary transactions, adjust costs, and void receipts in the JIS without supervisory review or approval. The JIS can generate various reports to monitor these transactions; however, these reports are not generated and reviewed.

During the year ended December 31, 2013, court personnel recorded approximately $11 million in non-monetary transactions in the JIS. These transactions consist of bond applications and transfers; judicial orders; and write-offs and transactions where no monies are received however, a credit is applied or the amount due is changed. The majority of these non-monetary transactions ($10.2 million) pertain to recording surety bonds.

Nine of 10 cases reviewed did not have a written judicial order to support court personnel's removal of court costs. Also for a case, a judicial order dated February 10, 2012, was not processed until January 30, 2013. For another case, a $4,000 bond was ordered to be applied to fines and court costs on January 7, 2013, but was not applied until June 13, 2013.

During the year ended December 31, 2013, 1,862 adjustments totaling $575,458 were recorded in the JIS. Adjustment transactions include the correction of errors in the assessment of court costs, reallocation of costs for state reimbursement, removal of court costs when cases are dismissed, etc. We identified one adjustment for a case where restitution was ordered in the amount of $11,355 in 2004. According to the Circuit Clerk, the responsibility to collect court ordered restitution was deferred to the Prosecuting Attorney's office in 2005 and the restitution ordered should have been removed from the balance due at that time; however, that adjustment was not made until February 1, 2013.

During the year ended December 31, 2013, the court voided 638 non-monetary transactions totaling nearly $8.6 million and 129 monetary transactions totaling approximately $27,000. Approximately $8.5 million or 545 of the 638 voided non-monetary transactions were for the release of surety bonds upon disposition.

To ensure all non-monetary, adjusting, and voided transactions are valid and reduce the risk of loss, theft, or misuse of funds, proper documentation should be maintained and someone independent of receipting and recording functions should review and approve these transactions, and these transactions should be processed timely.

1.4 Accrued case costs

The Circuit Clerk does not periodically review accrued case costs (court costs, incarceration costs, court-ordered restitution, fines, and other), which totaled approximately $15.1 million as of January 2, 2014.

We noted cases in which costs were not accurately reflected on the JIS list of accrued case costs. For example, one case with total incarceration costs of $65,205, was incorrectly recorded in the JIS as $53,415 classified as due to county and $35,708 classified as due to state, for a total incarceration costs due of $89,123. As a result, total incarceration costs receivable were overstated by $23,918.

We also noted cases in which costs were not properly classified on the JIS list of accrued case costs. For example, one case with total incarceration costs of $21,263 was classified as $19,260 due to state and $2,003 due to county; however, the state only reimbursed $10,424. Therefore, costs classified as due to state should have been $10,424 and costs classified as due to county should have been $10,839.

To ensure the accuracy of the accrued case costs, and to provide the Circuit Clerk with the necessary information to ensure amounts owed are collected and make a determination about collectability, accrued case costs should be reviewed at least monthly. In addition, the Twenty-Sixth Judicial Circuit adopted an administrative plan for the collection of court debt (effective January 1, 2012) requiring the court to review accounts receivable reports at least monthly.

1.5 Liabilities and bank accounts

Cases with liabilities are not adequately reviewed to ensure monies are disbursed timely and some amounts listed as liabilities are inaccurate. As of December 2, 2013, the court held outstanding liabilities totaling $276,861 in 3 separate bank accounts (the main bank account holds $223,682 and 2 separate bank accounts for 2 active court cases hold $53,179). Court personnel indicated the liabilities list is printed at the end of the month, but it is not reviewed.

Of the 25 cases we reviewed (totaling $21,190) from the bonds and suspense portion of the liabilities list, 16 cases had monies totaling $4,843 that should have been disbursed and another 4 cases totaling $3,350 should be reviewed for bond forfeiture. For 1 case the court received a $1,000 bond in 2009; however, following a 2011 judgment ordering the defendant to serve time and pay costs totaling $134, no action was taken to apply or refund the bond. For the 4 cases needing evaluation for possible bond forfeiture, the court received the bonds in 2001, 2005, 2006, and 2009.

In addition, the Circuit Clerk maintains 2 separate bank accounts for active court cases, and the related case information is recorded in the JIS; however, the balances of the related bank accounts are not recorded in the JIS. As a result, an adjustment to the bank reconciliation is necessary each month so that total liabilities can be compared to the balances in the main bank account and these 2 separate bank accounts. Further, the reconciled bank balance as of December 31, 2013, for one of these separate bank accounts was $26,447, while the liabilities balance listed in the JIS for the cases associated with this account was $28,253. We determined the court had earned $709 in interest on the account and had disbursed $2,515 from the account in accordance with a court order in May 2013, but had failed to record this information in the JIS.

The Circuit Clerk also maintains 4 other separate bank accounts for the deposit of interest monies, time payment fees, juvenile fees, and family service and justice fees; however, these monies and related bank accounts are not recorded in the JIS. Further, the court's month-end bank and liabilities (open items) reconciliation process does not include these bank accounts. Therefore, the reconciliation is incomplete and does not account for all monies held by the court, which increases the risk of loss, theft, or misuse of monies.

Procedures to routinely investigate monies remaining on the liabilities list over a specific period of time are necessary to properly monitor and ensure monies are appropriately disbursed as provided by state law. In addition, the Circuit Clerk should attempt to identify and distribute the funds held and dispose of any unclaimed or unidentified funds. To ensure the cash balances in the courts bank accounts can be properly identified, all monies received and the related bank accounts should be recorded in the JIS and reconciliations be performed between book and bank balances.

1.6 Billings for criminal costs

The Circuit Clerk's office does not have adequate procedures to ensure criminal costs are billed and submitted to the state timely, resulting in a delay in the state's reimbursement of the county's costs. For example, billings were prepared for 107 cases totaling $212,954 in March, April, May, June, and July 2013; however, these billings were not submitted to the state until September 6, 2013, and reimbursement was not received by the county until September 18, 2013. Of these 107 cases, billings were prepared for 29 cases totaling $70,886 on March 20, 2013, 14 cases totaling $22,588 on April 8, 2013, 11 cases totaling $18,529 on May 20, 2013, 19 cases totaling $41,884 on June 17, 2013, 9 cases totaling $16,688 on July 8, 2013, and 25 cases totaling $42,379 on July 30, 2013. We noted numerous other instances where criminal cost bills were not submitted to the state timely.

Section 221.105, RSMo, allows for the reimbursement of certain costs in criminal cases where the state has been rendered liable, and Section 33.120, RSMo, requires all such claims be submitted to the state within 2 years after reimbursable expenses have been accrued. To ensure timely reimbursement of incarceration costs, procedures should be established to ensure billings are submitted timely to the state.

Recommendations

The Circuit Clerk:

1.1 Segregate accounting duties to the extent possible or ensure an adequate independent or supervisory review of bank and accounting records is performed and documented. In addition, the Circuit Judge and Circuit Clerk should limit user access rights within the JIS to only those necessary for the user to perform job duties.

1.2 Improve controls over mail receipts, restrictively endorse all checks immediately upon receipt, record credit card transactions in the JIS timely, and deposit monies timely.

1.3 Ensure adequate documentation is maintained to support all non-monetary, voided, and adjusting transactions, and ensure an independent review and approval of these transactions is performed and documented. In addition, the Circuit Clerk should periodically generate and review reports of these transactions.

1.4 Review the list of accrued case costs for accuracy and follow up on amounts due at least monthly.

1.5 Establish procedures to review the accuracy and status of liabilities monthly to determine the appropriate disposition of funds held on closed and inactive cases. The Circuit Clerk should record all separate bank account activity in the JIS, and ensure the bank and liability reconciliation process is complete and accounts for all monies held by the court.

1.6 Establish procedures to ensure criminal costs billings are submitted to the state timely.

Auditee's Response

The Circuit Clerk provided the following written responses:

1.1 I have always reviewed the cashier sessions, deposits, and the monthly bank reconciliations, but I had not documented my reviews. I now initial the end of the day financial packet, the daily cashier sessions of the 2 cashier supervisors, and the monthly reports and reconciliations. All checks prepared by the Chief Deputy are now signed by the Circuit Clerk.

Some accesses to the accounting functions were given to staff, including one of the Associate Circuit Judges through the OSCA in 2003, not the Circuit Clerk. The JIS system was not put fully into place in the Circuit Clerk's office until 2005. The OSCA has corrected these access issues. The Associate Circuit Judge and the Secretary to the other Associate Circuit Judge no longer have access to the accounting functions of JIS.

1.2 I am working on a mail log to be implemented. Checks are now restrictively endorsed by the mail clerk upon receipt.

In December 2013, we were unable to take credit card payments in my office because of new software installed by OSCA. Our clients were going directly to the credit card vendor. OSCA resolved the

software issue the following month (January 2014), and credit card payments are now being receipted timely.

I will ensure all checks written to disburse fees from one bank account to another are deposited timely.

1.3 *My office cannot operate without adjustments, non-monetary transactions and voided transactions. I will select adjustments, non-monetary transactions, and voided transactions for review monthly and will initial records as documentation. I have directed staff to note on their daily cashier sessions the reason for the voided transactions.*

1.4 *I have always reviewed accrued case costs on individual cases and will continue to do so. In the future, I will review the accrued case report from OSCA periodically.*

1.5 *The OSCA has developed a new report to assist in identifying liabilities that need to be disposed of, and I am using the new report to ensure liabilities are paid out timely. I will contact OSCA to assist in setting up all bank accounts in the JIS system, and will ensure the reconciliation on JIS is accurate and complete.*

1.6 *Criminal reimbursements will be submitted as recommended.*

Twenty-Sixth Judicial Circuit
Laclede County
Organization and Statistical Information

The Twenty-Sixth Judicial Circuit consists of Laclede County, as well as Camden, Miller, Moniteau, and Morgan Counties.

The Twenty-Sixth Judicial Circuit consists of two circuit judges and seven associate circuit judges. The two circuit judges hear cases in Laclede, Camden, Miller, Moniteau, and Morgan Counties. Two of the seven associate circuit judges are located in Laclede County and preside over the Laclede County Associate Circuit Court. Of the other five associate circuit judges, two are located in Camden County, one is located in Miller County, one is located in Moniteau County, and one is located in Morgan County. Circuit personnel located in Camden, Miller, Moniteau and Morgan counties are not included in the scope of this audit.

Personnel

At December 31, 2013, the judges, Circuit Clerk, and Juvenile Officer of the Twenty-Sixth Judicial Circuit, Laclede County, were as follows:

Title	Name
Circuit Judge, Division 1	Stanley Moore
Circuit Judge, Division 2	Kenneth M. Hayden
Associate Circuit Judge	Steven B. Jackson
Associate Circuit Judge	Larry Winfrey
Circuit Clerk	Wanda Tyre
Juvenile Officer	Tammy Walden

Financial Information

Receipts of the Twenty-Sixth Judicial Circuit, Laclede County, were as follows:

	Year Ended December 31, 2013
Court deposits, fee, bonds, and other	$1,710,989
Interest Income	2,043
Total	$1,713,032

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Twenty-Sixth Judicial Circuit, Laclede County, were as follows:

	Year Ended June 30, 2013
Civil	1,824
Criminal	4,293
Juvenile	127
Probate	191
Total	6,435

Thomas A. Schweich

Missouri State Auditor

Grandview C-4 School District

August 2014

Report No. 2014-062

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Grandview C-4 School District

Bonds	The district needs to improve its handling of bond projects and methods for issuing bonds. The district utilized the federal Qualified Zone Academy (QZA) program to issue some bonds. The federal government assists a school district with the financing costs on these type bonds, resulting in significant savings to the district, but some QZA program requirements are not being met. The district took no action from 2008 to 2013 to ensure it received the contributions committed to by the private business partner. Agreements with the business partner indicated contributions valued at approximately $57,000 per year will be made related to the 3 QZA issuances since 2008, but none have been made to date. In addition, the district used some QZA bond proceeds in a manner not allowed under the QZA specific restrictions or state law that limits the use of bond proceeds by a school district to purchasing land for a school site, erecting or furnishing a school or library, building additions or repairs to existing buildings, and purchasing school buses or other transportation equipment. The district spent $117,000 of these funds on various band and athletic uniforms. The district used the same provider to serve as both financial advisor and bond underwriter for all of its bond issuances and sold these bonds using a negotiated sale rather than a competitive bid process. The district did not prepare and make available to the public specific plans and budgets to document how bond issuance proceeds would be used, and it was unable to provide a summary, including budgeted and actual amounts spent, for the proceeds from the $7 million May 2012 bond issuances.
Bank Reconciliations	The district's bank account did not balance with its general ledger fund for fiscal years 2011 through 2013, and there is an unidentifiable difference of approximately $35,000 in the general ledger as of July 2013. The district should timely investigate and correct bank reconciliation differences.
Procurement Practices	District personnel do not timely issue purchase orders for all goods and services. For 6 of the 30 items tested, the district issued purchase orders after the goods or services were purchased. The district has used the same law firm as the district counsel since June 2009 without soliciting proposals.
Computer Controls	The district does not require passwords be changed periodically, and its computers do not shut down after a certain period of inactivity or lock after a specified number of incorrect logon attempts. The district does not store data backups at a secure off-site location, which increases the risk a disaster impacting the district systems would also adversely impact the backups.
Sunshine Law	Agendas and/or minutes were not available for some monthly audit and facilities improvement team committee meetings.

Capital Assets	The district lacks adequate property procedures and records for capital assets other than tablet computers. Individual assets are not listed, the list is not updated as assets are purchased, and the district does not perform a physical inventory.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH
Missouri State Auditor

To the Board of Education
Grandview C-4 School District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Grandview C-4 School District. We have audited certain operations of the district in fulfillment of our duties. The district engaged DSWA, Certified Public Accountants, P.C., to audit the district's financial statements for the year ended June 30, 2013. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2013. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

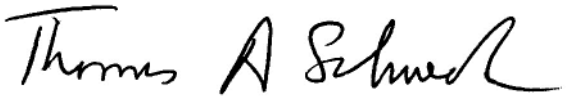
3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; site visits; inspection of capital assets; analysis of comparative data obtained from external or internal sources and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Grandview C-4 School District.



Thomas A. Schweich
State Auditor

The following auditors participated in the preparation of this report:

Deputy State Auditor:	Harry J. Otto, CPA
Director of Audits:	Regina Pruitt, CPA
Audit Manager:	Todd M. Schuler, CPA
In-Charge Auditor:	Richard Stuck
Audit Staff:	Richard Mosha, MBA
	Andrew Behrens

Grandview C-4 School District
Management Advisory Report
State Auditor's Findings

1. Bonds

Improvement is needed in the handling of bond projects and methods for issuing bonds.

Background

District voters approved a $6 million general obligation (GO) bond issue in April 2007, a $7 million GO bond issue in April 2011, and a $9 million GO bond issue in April 2013. These approved bonds were sold through 7 separate issuances beginning in 2008. Some of the GO bond issuances qualified under the Qualified Zone Academy (QZA) and Qualified School Construction (QSC) bond programs.

Election Date	Bond Type	Issue Date	Amount
April 3, 2007			
	2008 QZA	April 5, 2008	$ 1,500,000
	2008 GO	July 31, 2008	1,500,000
	2010 QSC	June 2, 2010	1,837,413
	2010 QZA	September 1, 2010	1,162,587
			$ 6,000,000
April 4, 2011			
	2012 QZA	May 1, 2012	$ 5,500,000
	2012 GO	May 1, 2012	1,500,000
			$ 7,000,000
April 2, 2013			
	2014 GO	January 8, 2014	$ 5,000,000
	Not yet issued		4,000,000
			$ 9,000,000

Qualified Zone Academy bonds

The QZA program is a federal government program available to school systems that provides the bondholder with a federal tax credit in lieu of a cash interest payment (for 2010 QZA program bond issuances the school systems paid interest to bondholders and received reimbursement from the federal government). A district must have a source of funding available (a voter approved GO bond) before applying with the Missouri Department of Elementary and Secondary Education (DESE) to have its bonds approved for the QZA program. To be eligible for the QZA program, the district must have written commitments from private entities to make qualified contributions valued at no less than 10 percent of the proceeds of the bond issue. Eligible contribution methods include cash, equipment, and technical assistance in developing curriculum or training teachers, as well as internships and field trips that allow students to learn outside the classroom. The QZA program funds are restricted by federal regulations to repairing and renovating existing buildings, acquiring new and more up-to-date equipment, developing educational programs, and training quality teachers, although state law only authorizes bond monies to be spent for the first two of these four areas.

Qualified School Construction bonds

The QSC program is a federal government program that can be used for renovation and rehabilitation projects, equipment purchases, and can also be used for new building construction and land acquisition. Similar to the QZA program, the district must also have available funding for this program and applications to issue bonds using this program must be submitted to the DESE for approval. Once the QSC bonds are issued by the district, bondholders receive a federal tax credit in lieu of a cash interest payment.

The Internal Revenue Service (IRS) is responsible for the administration of both the QZA and QSC programs and may audit accounting records and other program related documentation.

General Obligation Refunding bonds

The district has also refunded bonds on multiple occasions over the past several years.

Refunding Bonds	Issue Date	Amount	Bonds Retired
2008A	June 25, 2008	$ 8,410,000	2003A
2009	February 18, 2009	4,000,000	2003B
2010A	July 14, 2010	6,495,000	2005
2012B	April 12, 2012	9,650,000	2007A, 2008A, 2009
2013	February 28, 2013	3,000,000	2004
		$31,555,000	

GO refunding bonds are similar to GO bonds but proceeds are used to refund previously issued bonds at a lower interest rate. Refunding bonds do not require a public vote.

Our review of the district's procedures for monitoring bond projects and program compliance requirements identified the following concerns.

1.1 QZA bonds partnership and expenditures

The district is not complying with QZA program requirements. The district has issued QZA bonds 3 times since 2008, with a total issuance of approximately $8.2 million.

Partnership

The district has taken no action from 2008 to 2013 to ensure it received the contributions committed to by the private business partner. The district's business partner, a local bank, entered into written agreements in conjunction with the 3 QZA issuances since 2008 to provide a contribution, which as of the third QZA issuance totaled approximately $820,000 (10% of the value of the bonds issued), mainly through providing summer internships to district students. The written agreements detailing the pledges each indicate a specified amount that will be contributed over a certain number of years (typically 12 to 15 years). Currently, the pledges associated with the 3 QZA issuances since 2008 total approximately $57,000 per year. The district has not implemented a student internship program with the

private business partner and the business partner made no contributions of any kind to the district from 2008 to 2013. The applications made to DESE for each of the last 3 QZA issuances (in 2008, 2010, and 2012) all include a certification the business partner commitments were in place, which they were, but district officials knew the contributions had not begun for the 2008 issuance at the time of the second application and both the 2008 and 2010 issuances at the time of the third application. It is questionable whether district officials and the business partner expected the partnership commitments to be fulfilled. District officials indicated the bank has been the district's business partner since at least 2002 and they contacted the bank in late 2013 to inquire about the contributions. Bank representatives informed them the bank was now under new ownership and did not plan to honor the prior agreements with the district.

Enforcing the agreement with the current business partner, or identifying a new partner, will help ensure the compliance requirements and IRS regulations of this program are met, as well as providing a substantial amount of valuable services and/or equipment beneficial to the students of the district.

Expenditures

Some uses of QZA bond proceeds were not allowable under state law or QZA program restrictions. During the 2011-2012 school year, district records show use of approximately $117,000 in QZA bond proceeds for the purchase of various uniforms for athletic programs, the band, and choir. State law and QZA program restrictions do not allow use of bond proceeds for such purposes.

Section 164.121.1, RSMo, states the allowable uses of bond proceeds by a school board and these include, purchasing land for a school site, erecting or furnishing a school or library, building additions or repairs to existing buildings, and purchasing school buses or other transportation equipment.

1.2 Bond financing

The district used the same provider to serve as both financial advisor and bond underwriter for all of its bond issuances, and sold these bonds using a negotiated sale rather than a competitive bid process.

During fiscal years 2008 through 2013, the district sold 5 general refunding bond issues totaling approximately $31.6 million and 6 general obligation bond issues (including the QZA and QSC bond issues) totaling approximately $13 million through negotiated sales. For each sale, the bond underwriter also served as a financial advisor to the district. Using the same provider to act in the dual capacity of underwriter and financial advisor for a bond issue creates an inherent conflict of interest. In addition, the district relied on the advice of the bond underwriter instead of seeking open bids to assure the most competitive rate of return for taxpayers. The district's bond

underwriter, who also acted as the financial advisor received underwriter fees for the 13 bond issues totaling approximately $500,000.

The lack of independent financial advice could result in the district not being adequately informed of bond issuance options or being unable to adequately evaluate bond proposals. The underwriter does not have a fiduciary responsibility to the district.

The State Auditor's office completed a statewide review of general obligations bond sales practices[1] that determined negotiated bond sales historically result in increased interest costs. While Missouri law does not require competitive sales of these types of financing instruments or competition in selecting bond underwriters and financial advisors, competitive sales would likely result in lower interest costs for the district, and competition in selecting bond underwriters and financial advisors is important to ensure services are obtained from the best qualified providers at a fair price.

1.3 Planning and monitoring bond projects

The district did not prepare and make available to the public specific plans and budgets to document how bond issuance proceeds would be used. Ballot language for each bond issue is broad-based allowing usage of the bond proceeds for various potential capital improvement projects at district schools. The district did not prepare a listing of the specific projects or planned uses of the funds, along with cost estimates, related to each bond issuance. In addition, the district has not developed a mechanism for tracking costs related to projects completed using bond proceeds. The district was unable to provide a summary, including budgeted and actual amounts spent, for the projects completed with the proceeds from the $7 million May 2012 bond issuances. District records tracked overall spending of these monies, but not by specific project.

To ensure bond monies are spent for the intended purposes, the district should prepare budgets showing how the proceeds of each bond issuance will be used and develop a system for budgeting and tracking costs related to each project funded from each bond issue. In addition, monitoring of these reports periodically will help identify how projects are progressing and timely identify any funding problems.

Recommendations

The School Board:

1.1 Comply with the private business partnership requirements of the QZA program and ensure all expenditures using QZA bond proceeds are allowable and reasonable.

[1] Report No. 2013-116, *General Obligation Bond Sales Practices*, issued in November 2013.

1.2 Pursue open competition in any future bond sales and discontinue using an underwriter who also acts in a dual capacity as financial advisor.

1.3 Ensure written plans are developed for uses of each bond issue detailing specific projects that will be completed, along with cost estimates. In addition, ensure adequate monitoring of budgeted and actual project costs is performed and documented on future projects.

Auditee's Response

The School Board provided the following written responses:

1.1 The district agrees it should comply with the private business partnership requirements of the QZA program and ensure all expenditures using QZA bond proceeds are allowable and reasonable.

The private business partner provided some internships through the Grandview Education Foundation for bonds issued prior to 2008. District staff continue efforts with both the current and previous owners of the partner to determine whether the requirements will be met. Moving forward, should the district participate in the QZA program, the partnership agreement will be specific in how the contribution will be met, and a tracking mechanism will be established and monitored on an on-going basis.

The district's identification of uniforms as a QZA expenditure was an oversight. When brought to staff's attention, an alternative funding source was identified, releasing the QZA funds for other projects, correcting this error.

1.2 The district agrees that competitive sales of bonds may result in lower interest costs for the district and that competition in selecting bond underwriters and financial advisors will ensure services are obtained from the best qualified providers at a fair price.

The district will consider a competitive sale the next time bonds are issued. Additionally, administration will solicit proposals for underwriters and financial advisors during the current fiscal year.

1.3 The district agrees that specific projects, with budgets, should be identified and made available to the public to document how bond issuance proceeds will be used. Additionally, monitoring of each project funded from each bond issue should be maintained and reported.

The district's Facilities Improvement Team, working in concert with the Superintendent, will recommend specific projects for the next

bond issuance. The listing, with budget estimates for each project, will be presented to the Board of Education.

District staff will prepare a monitoring mechanism to track costs associated with each project funded from each bond issue this fiscal year. The report will be presented to the Board of Education periodically.

2. Bank Reconciliations

The district was unable to reconcile its bank account with its general ledger fund balances for fiscal years 2011 through 2013. In the district's financial statement audit for the year ended June 30, 2011, the district's independent auditor reported the difference between the general ledger fund balance and the fund cash accounts for the year ended June 30, 2011, was approximately $241,000. In February 2012, the district entered into an agreement with its auditor to provide consulting services to identify the reasons for the discrepancy. Approximately $221,000 of the difference was identified. At June 30, 2012, the difference between the general ledger fund balances and the fund cash accounts was reduced to approximately $9,000, which was related to errors in the general ledger balance of the Debt Service Fund. The June 30, 2013, bank reconciliation again indicated a difference of approximately $49,000 between general ledger balances and fund cash balances. In July 2013, the district, after additional consultation services from its auditor, identified the cause of the previous year's difference (approximately $9,000) and approximately $14,000 of the current year's difference, leaving an unidentifiable difference of approximately $35,000 in the general ledger.

Bank reconciliation differences should be investigated and corrected on a timely basis to ensure bank activity and accounting records are in agreement. Accurate general ledger balances should be maintained for each fund to allow for a comparison to reconciled bank balances.

Recommendation

The School Board ensure adequate bank reconciliations are performed and discrepancies are promptly investigated and corrected.

Auditee's Response

The School Board provided the following written response:

The district agrees that adequate bank reconciliations should be performed with any discrepancies promptly investigated and corrected.

District staff has worked diligently to correct the cumulative errors reported in the past and as of June 30, 2014, the accounts reconciled to all general ledger balances.

3. Procurement Practices

District procurement practices need improvement.

3.1 Purchase orders

The district does not ensure purchase orders are issued timely for all goods and services. The district issued purchase orders after the related good or service was purchased for 6 of 30 items tested. District staff purchased 5 of these items using district activity funds for items such as yearbooks and fundraising supplies, with a total cost of approximately $14,000. Some district staff were apparently unaware purchase orders were required for purchases from the activity funds. For 2 of the activity fund purchases tested, the district staff completed the purchase order approximately 1 year after the purchase.

District policy DJF-AP1 requires preparation and approval of purchase orders prior to ordering the applicable goods or services. Purchase orders should be prepared and approved prior to incurring the related expenditures to help ensure expenditures are reasonable and necessary.

3.2 Legal services

The district does not solicit proposals for legal services. The district has used the same law firm as the district's counsel since June 2009 without periodically soliciting proposals for these services. During the year ended June 30, 2013, the district incurred legal services fees totaling approximately $60,000.

While professional services, such as attorneys, are not subject to standard bidding procedures, the district should solicit proposals for legal services to the extent practical. Soliciting proposals and subjecting such services to a competitive selection process does not preclude the district from selecting the vendor or individual best suited to provide the service required. Such practices help provide a range of possible choices and allow the district to make a better-informed decision to ensure necessary services are obtained from the best-qualified vendor at the lowest and best cost.

Recommendations

The School Board:

3.1 Ensure purchase orders are prepared and approved prior to incurring the related expenditure.

3.2 Ensure competitive proposals are solicited for legal services to the extent practicable, and maintain all related documentation, including reasons for the district's decisions.

Auditee's Response

The School Board provided the following written responses:

3.1 The district agrees that, in accordance with Board Policy, purchase orders should be prepared and approved prior to incurring the related expenditure. The Administrative Cabinet periodically reviews policies with the administrative team and addresses policy violations with specific employees and their supervisor, when they occur.

3.2 The district agrees that competitive proposals for legal services will help ensure necessary services are obtained from the best qualified vendor at the lowest and best cost. The district will seek competitive proposals for legal services this fiscal year and will maintain all related documentation, including the reasons for the district's decision.

4. Computer Controls

Controls over district computer systems are not sufficient to prevent unauthorized access. As a result, district records are unprotected and susceptible to damage or theft.

4.1 Password controls

The district has not established adequate password controls to reduce the risk of unauthorized access to computer systems and data. Passwords are required to authenticate access to computer systems. However, passwords are not required to be changed on a periodic basis to help ensure they remain known only to the assigned user and to reduce the risk of a compromised password.

The security of a password system is dependent upon keeping passwords confidential. However, since passwords do not have to be periodically changed, there is less assurance passwords are effectively limiting access to computer systems and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of unauthorized access to and use of systems and data.

4.2 Security controls

Security controls are not in place in any of the district offices to shut down a computer after a certain period of inactivity or lock it after a specified number of incorrect logon attempts. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Logon attempt controls lock the capability to access a system after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a system by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to systems and the unauthorized use, modification, or destruction of data.

4.3 Backup data

Backup data for the district's financial, food service and email systems and all student related information may not be available for restoring systems following a disaster or computer failure. Data backups are performed daily. However, the backups are not stored at a secure off-site location but are stored at the same location as the original data and periodic testing of the data for adequacy is not performed. As a result, there is an increased risk a disaster or other disruption impacting the district systems and original data would also adversely impact the backups. The unavailability of both the original and backup data would be significant and detrimental to the district accomplishing its mission.

Failure to store computer backup data at a secure off-site location results in backup data being susceptible to the same damage as the data on the computer. Preparation of backup data, preferably on a daily or at least weekly basis, periodic testing to ensure the backup process is adequate, and off-site storage would provide increased assurance district data could be recovered if necessary.

Recommendations

The School Board:

4.1 Require a unique password for each employee that is confidential and periodically changed to prevent unauthorized access to district computer systems and data.

4.2 Require each district computer have security controls in place to shut down the computer after a certain period of inactivity and lock it after a specified number of incorrect logon attempts.

4.3 Ensure backup data is stored in a secure off-site location and tested on a regular, predefined basis.

Auditee's Response

The School Board provided the following written responses:

4.1 The district agrees with the need for unique passwords for each employee that are confidential and periodically changed to prevent unauthorized access to district computer systems and data. All employees have a confidential, unique password for the network and data systems. The financial system and student information system currently require users to change their password every 90 days. The network login, which includes email, will move to a 90 day cycle during the first semester of the 2014-2015 school year.

4.2 The district agrees that each district computer should have controls in place to lock the computer after a certain period of inactivity and lock users out after a specified number of incorrect login attempts. The district has already implemented the control to lock the computer after a certain period of inactivity. The district will

implement the control to lock out a user after a specified number of incorrect login attempts this fiscal year.

4.3 The district agrees that back up data should be stored in an off-site location and tested on a regular, predefined basis.

The district's finance records are uploaded to the vendor daily. The vendor maintains off-site storage of all client data. The district's food service system was migrated last year to be a module within the student information system. In July 2013, the district moved the student information system to be web hosted by the vendor. The vendor maintains a data center with off-site back up for all the data the company manages. In the fall of 2013, the district migrated to Gmail, which is a web hosted environment and we are currently utilizing "VAULT" on line storage for the backup of email.

The district's Information Technology Department will periodically review the backup processes to ensure their adequacy.

5. Sunshine Law

Agendas and/or minutes were not available for some of the monthly audit and facilities improvement team (FIT) committee meetings held during the 2012-2013 school year. The district did not have agendas for audit committee meetings for July 2012, January 2013, March 2013, and May 2013, and only had minutes for the August 2012 and September 2012 meetings, which had not been formally approved. The district had agendas for only 4 FIT committee meetings and had no minutes for those meetings.

Minutes serve as the only official permanent record of decisions made by the district and committees appointed by the district. The Sunshine Law, specifically Section 610.020, RSMo, requires a tentative agenda and a meeting notice be posted at least 24 hours prior to all meetings of a public governmental body and minutes be taken of meetings of all public governmental bodies. Section 610.010, RSMo, defines committees appointed by and reporting to public governmental bodies as subject to Sunshine Law requirements. Minutes should be approved and signed to provide an independent attestation that the minutes are an accurate record of the matters discussed and actions taken during the meetings. Furthermore, approval of minutes not only adds assurance to the authenticity of official minutes, but allows a timely review of the contents to ensure the minutes include all important information regarding the meetings held.

Recommendation

The School Board maintain complete and accurate minutes for meetings for all committees as well as tentative agendas.

Auditee's Response

The School Board provided the following written response:

The district agrees that tentative agendas, as well as complete and accurate minutes for the audit and FIT committee meetings need to be maintained and available, in compliance with the Sunshine Law.

In January 2014 the district subscribed to eBOARDsolutions, a software application for web-based management and publication of meetings. This program will be utilized by the audit and FIT committees to ensure all information is available to the public in a timely manner.

6. Capital Assets

The district has not developed adequate property procedures and records for capital assets other than tablet computers. As a result, assets are more susceptible to theft or misuse. Complete and accurate records of capital assets are not maintained and periodic physical inventories of assets are not performed. A general summary listing of assets is maintained for depreciation purposes; however, individual assets are not listed but are grouped together by type of asset, such as computers or vehicles. District personnel indicated this depreciation listing is updated annually at year end, rather than as assets are purchased. At June 30, 2013, the depreciation listing shows district assets had a cost of $42.3 million.

The district needs to perform a physical inventory of all property and maintain adequate capital asset records to secure better internal control over district property and provide a basis for determining proper insurance coverage on district property. Capital asset records should be maintained on a perpetual basis, accounting for property acquisitions and dispositions as they occur, and include a detailed description of the assets such as acquisition cost, descriptions, make and model numbers, and asset identification numbers; the physical location of the assets; and the date and method of disposition of the assets.

Recommendation

The School Board ensure complete, accurate, and detailed capital asset records are maintained and annual physical inventories are performed and compared to detailed records.

Auditee's Response

The School Board provided the following written response:

The district agrees that detailed capital asset records and annual physical inventories are needed to secure better internal control over district property and provide a basis for determining proper insurance coverage on district properties.

District staff initiated the database for computer equipment while the auditors were on site. The database is complete and annual inventories will be conducted. For all other capital assets, the district will determine the appropriate threshold to be utilized. Items identified, along with items

highly susceptible to theft, will be tracked and inventories will be conducted on an annual basis and compared to detailed records. District staff is currently evaluating software options for automated tracking and would anticipate implementation this fiscal year.

Grandview C-4 School District
Organization and Statistical Information

The Grandview C-4 School District is located in Jackson County, Missouri and was established in 1914. The district covers 15 square miles and is located southeast of downtown Kansas City.

The district operates one high school (grades 9-12), one middle school (grades 6-8), one combination school (K-8), four elementary schools (K-5), an Early Childhood Center, and the Center for Alternative Instructional Resources. Enrollment was 3,844 for the 2012-2013 school year. The district employed 535 full-time and 77 part-time employees at June 30, 2013.

The Grandview C-4 School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

School Board

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2013, were:

Cindy Bastian, President
Leonard Greene, Vice-President
Paul Alexander, Treasurer
Barbara Polette, Member
Michelle Shackelford, Member
Wayne Terpstra, Member
Jon Brax, Member

Superintendent

The district's superintendent at June 30, 2013, was Dr. Ralph Teran, and his compensation for the 2012-2013 school year was $179,569, which included a vehicle allowance of $6,000. The district also provided the superintendent with a $200,000 life insurance policy, up to $1,000 per year for professional and community memberships, and up to $1,000 per year for subscriptions and professional literature costs. The Board establishes the superintendent's compensation.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Osage County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Osage County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Osage, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Osage ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Osage's basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 12, 2014, on our consideration of the County of Osage's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Osage's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this financial statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Osage, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1841 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Treasurer, Collector, Sheriff, Coroner, Surveyor, Public Administrator, Recorder and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present the County's financial accountability.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of the County of Osage, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of useing this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation, was:

	2013	2012
Real Estate	$ 121,841,620	$ 121,409,400
Personal Property	42,880,737	39,252,687
Railroad and Utilities	29,061,761	27,973,667
	$ 193,784,118	$ 188,635,754

During 2013 and 2012, the County Commission approved a $0.2863 and $0.2604, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.0713	$ 0.0454
Special Road and Bridge Fund	0.2150	0.2150
	$ 0.2863	$ 0.2604

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amount of the County's deposits was $1,676,994.48 and $1,330,178.02, and the bank balance was $1,823,852.68 and $1,461,657.87, respectively. The total bank balances as of December 31, 2013, and 2012 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	1,120,532.56
Investments		556,461.92
Total Deposits and Investments as of December 31, 2013	$	1,676,994.48

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	785,716.10
Investments		544,461.92
Total Deposits and Investments as of December 31, 2012	$	1,330,178.02

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2013, and 2012.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. LONG-TERM DEBT

The County was involved in the following debt instruments during the 2013 and 2012 years.

	Balance as of 12/31/2013	Balance as of 12/31/2012
Certificate of Participation Series 2009		
On October 1, 2009, Osage County entered into a Certificate of Participation with First Bank of Missouri. The County issued Certificate of Participation Series 2009 in the amount of $1,910,000 with a maturity date of October 1, 2027. The Certificate of Participation agreement calls for 18 payments. The proceeds of the Certificates were used for the renovation of the County Courthouse. Principal is payable on October 1, while interest is payable on October 1 and April 1. Interest rates are variable from 3.5% to 5.125%.	$ 1,590,000.00	$ 1,675,000.00
Total Certificates of Participation	$ 1,590,000.00	$ 1,675,000.00
Capital Leases		
On June 6, 2013, Osage County entered into an annually renewable lease purchase agreement with Legends Bank. The lease purchase is for $134,332.29 with a maturity date of June 2017. The lease purchase agreement calls for 48 monthly payments of $2,990.00. The proceeds of the lease purchase were used to purchase 6 police vehicles. Interest rate is 3.25%.	$ 115,537.55	$ -
On January 25, 2012, Osage County entered into an annually renewable lease purchase agreement with Legends Bank. The lease purchase is for $44,425.00 with a maturity date of January 2014. The lease purchase agreement calls for 24 monthly payments of $1,911.31. The proceeds of the lease purchase were used for network wiring at the county courthouse. Interest rate is 3.25%. This was paid in full in 2013.	-	24,372.03
On February 25, 2009, Osage County entered into an annually renewable lease purchase agreement with Legends Bank. The lease purchase is for $1,665,000.00 with a maturity date of January 2018. The lease purchase agreement calls for 107 monthly payments of $19,200.00. The proceeds of the lease purchase were used to renovate the county courthouse. Interest rate is 5%.	845,580.47	1,029,292.33
Total Capital Leases	$ 961,118.02	$ 1,053,664.36

III. LONG-TERM DEBT (continued)

As of December 31, 2013, the unpaid principal balances of the Certificate of Participation and capital leases were as follows:

Description	Account Balance 12/31/2012	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2013	Interest paid Fiscal Year 2013
Certificate of Participation	$ 1,675,000.00	$ -	$ 85,000.00	$ 1,590,000.00	$ 75,161.26
2013 Lease Purchase	-	134,332.29	18,794.74	115,537.55	2,135.26
2012 Lease Purchase	24,372.03	-	24,372.03	-	465.31
2009 Lease Purchase	1,029,292.33	-	183,711.86	845,580.47	46,688.14
Total	$ 2,728,664.36	$ 134,332.29	$ 311,878.63	$ 2,551,118.02	$ 124,449.97

The future payments for the Certificate of Participation agreement are as follows:

Year Ending December 31,	Principal	Interest	Total
2014	$ 85,000.00	$ 72,186.26	$ 157,186.26
2015	90,000.00	69,211.26	159,211.26
2016	90,000.00	66,106.26	156,106.26
2017	95,000.00	62,776.26	157,776.26
2018	100,000.00	59,023.76	159,023.76
2019-2023	570,000.00	226,358.80	796,358.80
2024-2027	560,000.00	73,543.76	633,543.76
	$ 1,590,000.00	$ 629,206.36	$ 2,219,206.36

The future payments for the capital lease agreements are as follows:

Year Ended December 31,	Principal	Interest	Total
2014	$ 225,100.43	$ 41,179.57	$ 266,280.00
2015	236,024.40	30,255.60	266,280.00
2016	247,487.71	18,792.29	266,280.00
2017	238,026.01	6,940.84	244,966.85
2018	14,479.47	60.33	14,539.80
	$ 961,118.02	$ 97,233.95	$ 1,058,346.65

III. LONG-TERM DEBT (concluded)

As of December 31, 2012, the unpaid principal balances of the loan and capital leases were as follows:

Description	Account Balance 12/31/2011	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2012	Interest paid Fiscal Year 2012
Certificate of Participation	$ 1,755,000.00	$ -	$ 80,000.00	$ 1,675,000.00	$ 77,961.26
2012 Lease Purchase	-	44,424.97	20,052.94	24,372.03	971.47
2009 Lease Purchase	1,219,951.88	-	190,659.55	1,029,292.33	58,940.45
Total	$ 2,974,951.88	$ 44,424.97	$ 290,712.49	$ 2,728,664.36	$ 137,873.18

The future payments for the Certificate of Participation agreement are as follows:

Year Ending December 31,	Principal	Interest	Total
2013	$ 85,000.00	$ 75,161.26	$ 160,161.26
2014	85,000.00	72,186.26	157,186.26
2015	90,000.00	69,211.26	159,211.26
2016	90,000.00	66,106.26	156,106.26
2017	95,000.00	62,776.26	157,776.26
2018-2022	545,000.00	250,276.30	795,276.30
2023-2027	685,000.00	108,650.02	793,650.02
	$ 1,675,000.00	$ 704,367.62	$ 2,379,367.62

The future payments for the capital lease agreements are as follows:

Year Ended December 31,	Principal	Interest	Total
2013	$ 206,182.27	$ 47,153.45	$ 253,335.72
2014	194,394.14	37,912.80	232,306.94
2015	202,340.81	28,059.19	230,400.00
2016	212,692.95	17,707.05	230,400.00
2017	223,574.72	6,825.28	230,400.00
2018	14,479.47	60.33	14,539.80
	$ 1,053,664.36	$ 137,718.10	$ 1,191,382.46

IV. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013, and 2012, are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 560,800.00	$ 43,890.00	$ 642,000.00	$ 47,816.00
Special Road and Bridge Fund	-	10,000.00	-	10,000.00
Assessment Fund	6,600.00	30,192.00	6,600.00	5,000.00
911 Fund	13,472.91	80,800.00	-	150,000.00
Emergency Management Fund	30,192.00	13,472.91	5,000.00	-
Courthouse Rehabilitation Fund	-	350,000.00	-	470,000.00
Election Services Fund	905.22	-	2,627.45	11,000.00
Use Tax Fund	-	120,000.00	-	1,000.00
Extension Services Fund	37,290.00	-	41,216.00	-
Special Services Fund	-	905.22	-	2,627.45
TOTAL	$ 649,260.13	$ 649,260.13	$ 697,443.45	$ 697,443.45

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any City not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (Concluded)

A. Plan Description (Concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012, were $190,809.12 and $205,920.32, respectively.

VI. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had one COBRA participant at December 31, 2013 and one participant at December 31, 2012, and those participants paid $3,037.21 and $552.22, respectively.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,244 and $2,431, respectively, for the years ended December 31, 2013, and 2012.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in pending litigation as of the report date. The financial impact to the County is considered immaterial, if any.

B. Compensated Absences

The County provides employees with up to 24 days of paid vacation based upon the number of years of continuous service. Vacation days do carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue eight hours of sick leave per month for a total of twelve days for the year. The County allows employees to carry forward any and all unused sick leave up to 720 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

There are no subsequent events to report up to the date of the audit report.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2013, expenditures exceeded those budgeted for the following: Assessment Fund, Emergency Management Fund, Law Enforcement Training Fund, Conceal and Carry Fund, Civil Fees Fund, Tax Maintenance Fund, and the Courthouse Rehabilitation Fund.

B. For the year ended December 31, 2012, expenditures exceeded those budgeted for the following: Assessment Fund, 911 Fund, Emergency Management Fund, Recorder Technology Fund, Tax Maintenance Fund, Domestic Violence Fund, Annex Building Fund, Courthouse Rehabilitation Fund, Lease Purchase Fund, Use Tax Fund, and the H.A.V.A. Fund.

C. For the year ended December 31, 2013, a budget was not prepared for the B.R.O. Fund and Inmate Security Fund.

D. For the year ended December 31, 2012, a budget was not prepared for the C.D.B.G. Housing Rehab Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Osage, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Osage ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 12, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [FS 13/12-01, FS 13/12-02 and FS 13/12-03]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditor's Report

To The County Commission
The County of Osage, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Osage's ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2013, and 2012. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013, and 2012.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items SA 13/12-01 and SA 13/12-02. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items SA 13/12-01 and SA 13/12-02 that we consider to be significant deficiencies.

The County's response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Osage County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and, if applicable, noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUB-RECIPIENTS

The County provided federal awards to sub-recipients during the years ended December 31, 2013, and 2012. The sub-recipients are as follows:

Program Title	Subrecipient	Federal CFDA Number		Amount Provided to Subrecipient
Community Development	Meramec Community		2012	$ 3,848.00
Block Grant	Enhancement Corporation	14.228	2013	853,447.35
	Total Provided to Subrecipients			$ 857,295.35

THE COUNTY OF OSAGE
LINN, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2013 ___ Yes	X No	
	2012 ___ Yes	X No	
b. Significant deficiencies identified?	2013 X Yes	___ None Reported	
	2012 X Yes	___ None Reported	

3. Noncompliance material to financial statements noted?

2013 ___ Yes	X No	
2012 ___ Yes	X No	

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2013 ___ Yes	X No	
	2012 ___ Yes	X No	
b. Significant deficiencies identified?	2013 X Yes	___ None Reported	
	2012 X Yes	___ None Reported	

2. Type of auditor's report issued on compliance for major programs:

2013 - Unmodified

2012 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

2013 X Yes	___ No	
2012 X Yes	___ No	

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2013/2012	14.228	Community Development Block Grant

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2013 ___ Yes X No

2012 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 13/12-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County will begin the process of internal control documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 13/12-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County's walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County will begin the process of fraud risk assessment documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

FS 13/12-03 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Collector and Treasurer.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

II. FINANCIAL STATEMENT FINDINGS (concluded)

FS 13/12-03 Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County Collector's (Doris Keilholz) office and the County Treasurer's (Tim Neuner) has informed us that the County will look into making proper segregation of duties within their offices. The Collector's office phone number is 573-897-3706 and the Treasurer's office phone number is 573-897-3095.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012

The following findings, recommendations, and questioned costs are the results of the single audit of Osage County, Missouri for the fiscal years ended December 31, 2013, and 2012. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (continued)

B. Category of Noncompliance Findings (concluded)

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

C. Federal Award Findings and Questioned Costs

SA 13/12-01	Federal Grantor:	U.S. Department of Housing and Urban Development
Other Information	Pass-Through Grantor:	Missouri Department of Economic Development
Significant Deficiency	Federal CFDA Number:	14.228
	Program Title:	Community Development Block Grant

Information on the federal program: The County was non-compliant with the sub-recipient monitoring requirement set forth by OMB Circular A-133.

Criteria: OMB Circular A-133 requires that pass-through entities monitor the activities of sub-recipients to ensure compliance with laws, regulations and the provisions of contracts or grant agreements.

Condition: During our testing of CDBG funds, we noted that the County did not monitor the sub-recipient's activities performed for the requirements of the Davis-Bacon Act and procurement and suspension and debarment.

Questioned Costs: Not applicable

Context: During our testing of compliance, we noted that the County did not monitor the sub-recipient's activities relating to the requirements of the Davis-Bacon Act and procurement and suspension and debarment.

Effect: The County was non-compliant with the sub-recipient monitoring requirement.

Cause: County personnel were not aware of monitoring responsibilities beyond obtaining and approving invoices.

Recommendation: The County should review the activities of the sub-recipient to ensure that the Davis-Bacon Act is being followed and that entities being used are not on the suspension and debarment list.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (continued)

SA 13/12-01 *Views of responsible officials and planned corrective actions:* Going forward the County Clerk's (Patrick Steele) office will require clarification of monitoring processes, procedures and reimbursement. His phone number is (573) 897-2139.

SA 13/12-02

	Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Interior, U.S. Department of Transportation, U.S. Department of Health and Human Services, and U.S. Department of Homeland Security
Other Information	Pass-Through Grantor:	Department of Health and Senior Services, Office of Homeland Security Grants and Training, Missouri Department of Public Safety, and Highway and Transportation Commission
Significant Deficiency	Federal CFDA Number:	All programs except 14.228
	Program Title:	All programs except CDBG

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements.

Views of responsible officials and planned corrective actions: The County Clerk's (Patrick Steele) office will focus more attention on defining sources of funds going forward. His phone number is (573) 897-2139.

THE COUNTY OF OSAGE
LINN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no financial statement findings in the prior year since the County's last audit was for the 2009/2008 year end.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no federal awarding findings or questions costs in the prior year since the County's last audit was for the 2009/2008 year end.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 12, 2014

To the Board of Commissioners
County of Osage

In planning and performing our audit of the regulatory based financial statements of the County of Osage (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

FS 13/12-01

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County will begin the process of internal control documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

FS 13/12-02

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the County walkthroughs, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

FS 13/12-02 Views of Responsible Officials and Planned Corrective Actions: The County will begin the process of fraud risk assessment documentation in 2014 with the direction from the County Commission. The County Clerk's (Patrick Steele) office phone number is (573) 897-2139.

FS 13/12-03 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Collector and Treasurer.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The County Collector's (Doris Keilholz) office and the County Treasurer's (Tim Neuner) has informed us that the County will look into making proper segregation of duties within their offices. The Collector's office phone number is 573-897-3706 and the Treasurer's office phone number is 573-897-3095.

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

SA 13/12-02 *Views of responsible officials and planned corrective actions:* The County Clerk's (Patrick Steele) office will focus more attention on defining sources of funds going forward. His phone number is (573) 897-2139.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated March 31, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 12, 2014.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditures of federal awards which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Scott, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Scott ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the years then ended.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Scott's basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2014, on our consideration of the County of Scott's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Scott's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Scott, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1821 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Treasurer, Collector of Revenue, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the County of Scott, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation, was:

	2013	2012
Real Estate	$ 266,530,960	$ 265,103,890
Personal Property	124,679,480	117,708,550
Railroad and Utilities	43,441,974	41,200,376
	$ 434,652,414	$ 424,012,816

During 2013 and 2012, the County Commission approved a $0.3536 and $0.3536, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.0000	$ 0.0000
Special Road and Bridge Fund	0.3036	0.3036
Johnson Grass Fund	0.0100	0.0100
Senate Bill 40 Fund	0.0400	0.0400
Total	0.3536	0.3536

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Cash Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013 and 2012, the carrying amounts of the County's deposits were $2,437,088.19 and $3,156,395.34, and the bank balances were $12,814,276.93 and $9,765,704.87, respectively. The total bank balances as of December 31, 2013, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions. The bank balances were under-pledged by $29,264.16 for the year ended December 31, 2012.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:		
Statements of Receipts, Disbursements and Changes in Cash Balances– Governmental Funds:		
Deposits	$	2,437,088.19
Total Governmental Funds		2,437,088.19
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:		
Deposits		7,310,827.33
Total Agency Funds		7,310,827.33
Total Deposits and Investments as of December 31, 2013	$	9,747,915.52

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:		
Statements of Receipts, Disbursements and Changes in Cash Balances– Governmental Funds:		
Deposits	$	3,156,395.34
Total Governmental Funds		3,156,395.34
Statement of Assets and Liabilities Arising From Cash Transactions – Agency Funds:		
Deposits		6,916,088.83
Total Agency Funds		6,916,088.83
Total Deposits and Investments as of December 31, 2012	$	10,072,484.17

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2013. The County's deposits, however, were exposed to custodial credit risk for the year ended December 31, 2012 in the amount of $29,264.16.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013, and 2012 are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 30,000.00	$ 2,393,899.11	$ 50,000.00	$ 2,121,104.22
Special Road and Bridge Fund	-	10,000.00	-	10,000.00
Assessment Fund	10,282.50	-	10,324.00	-
Law Enforcement Fund	1,789,285.10	-	1,726,330.36	-
911 Communications Center Fund	361,716.51	-	244,449.86	-
Inmate Security Fund	-	-	-	10,000.00
Collector's Maintenance Fund	-	20,000.00	-	40,000.00
Reserve Fund	232,615.00	-	150,000.00	-
TOTAL	$ 2,423,899.11	$ 2,423,899.11	$ 2,181,104.22	$ 2,181,104.22

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

IV. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

IV. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $85,994.09 and $82,701.72, respectively.

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Scott County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries.

LAGERS was created and governed by statute section RSMo. 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt.

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

A. Plan Description (concluded)

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Status

Full-time employees of Scott County do not contribute to the pension plan. The June 30th statutorily required contribution rates are 9.1% (General) and 11.6% (Police) for 2013 and 9.2% (General) and 10.6% (Police) for 2012, of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

The subdivision's annual pension cost and net pension obligation for the current years 2013 and 2012, were as follows:

2013

Annual required contribution	$	267,922
Interest on net pension obligation		4,287
Adjustment to annual required contribution		(5,056)
Annual pension cost		267,153
Actual contributions		267,654
Increase (decrease) in NPO		(501)
NPO beginning of year		59,137
NPO end of year	$	58,636

The annual required contribution (ARC) was determined as part of the February 28, 2011, and February 29, 2012, annual actuarial valuations using the entry age actuarial cost method. The actuarial assumptions as of February 28, 2013, included: (a) a rate of return on the investment of present and future assets of 7.25% per year, compounded annually, (b) projected salary increases of 3.5% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement mortality based on 75% of the RP-2000 Combined Healthy table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on 105% of the 1994 Group Annuity Mortality table set back 0 years for men and 0 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period as of February 28, 2011, was 10 years for the General division and 30 years for

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

For a complete description of the actuarial assumptions used in the annual valuations, please contact the LAGERS office in Jefferson City.

VI. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had four COBRA participants at December 31, 2013, and the County had three COBRA participants at December 31, 2012.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,244 and $2,244, respectively, for the years ended December 31, 2013 and 2012.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Employees receive one week of vacation after the first year of service, two weeks of vacation per year after two years of employment, three weeks of vacation per year after twelve years of employment, and four weeks of vacation per year after twenty years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue four hours of sick leave per month for a total of six days for the year. The County allows employees to carry forward any and all unused sick leave up to 560 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

IX. RISK MANAGEMENT (concluded)

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

On March 6, 2014, Scott County purchased a 2014 John Deere 6115M Cub Tractor in the amount of $72,751.00. The County entered into a one year lease purchase agreement with First State Bank and Trust Company, Inc. to finance $41,194.75 of the purchase. The lease purchase agreement calls for one annual payment of $42,865.43. The lease purchase agreement carries an interest rate of 4.245%.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Scott, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Scott ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 27, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. [FS 13/12-01]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditor's Report

To The County Commission
The County of Scott, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Scott's ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2013, and 2012. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013, and 2012.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

The notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Scott County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and, if applicable, noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUB-RECIPIENTS

The County provided federal awards to the following sub-recipients during the year ended December 31, 2012.

Sub-Recipient	CFDA No.	Year	Amount
DAEOC	14.231	2012	$ 38,883.04
House of Refuge	14.231	2012	7,847.00
			$ 46,730.04

THE COUNTY OF SCOTT
BENTON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2013 ___	Yes	X No
	2012 ___	Yes	X No
b. Significant deficiencies identified?	2013 ___	Yes	X None Reported
	2012 X	Yes	___ None Reported

3. Noncompliance material to financial statements noted?

	2013 ___	Yes	X No
	2012 ___	Yes	X No

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2013 ___	Yes	X No
	2012 ___	Yes	X No
b. Significant deficiencies identified?	2013 ___	Yes	X None Reported
	2012 ___	Yes	X None Reported

2. Type of auditor's report issued on compliance for major programs:

2013 - Unmodified

2012 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

	2013 ___	Yes	X No
	2012 ___	Yes	X No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2013/2012	20.205	Department of Transportation – Highway Planning and Construction
2013/2012	93.563	Child Support Enforcement

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2013 ___ Yes X No

2012 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 13/12-01 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2012.

Context: The County bank accounts with a financial institution were under collateralized by $29,264.16 at December 31, 2012.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. This problem was corrected in the 2013 fiscal year. The Treasurer is Glenda Enderle and her office phone number is (573)545-3543.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013, AND 2012

There were no findings related to federal awards for the years ended December 31, 2013, and 2012.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 11/10-01

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During walkthroughs, the County informed us that internal control documentation had not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions: The County is in the process of preparing the needed documentation to document its internal control structure in conformity with the COSO framework.

Status: The County has resolved this finding in the current year.

FS 11/10-02

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During the walkthroughs of the County, we noted there is no formal fraud risk assessment in place.

Context: During walkthroughs, the County informed us that the necessary risk assessment documentation had not been prepared.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 11/10-02 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of Responsible Officials and Planned Corrective Actions: The County is in the process of preparing the needed documentation to document its internal control structure in conformity with the COSO framework.

Status: The County has resolved this finding in the current year.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

We noted no federal award findings or questioned costs during the County's audit of the years ending December 31, 2011, and 2010.

June 27, 2014

To the Board of Commissioners
County of Scott

In planning and performing our audit of the regulatory based financial statements of the County of Scott (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the County's internal control to be a significant deficiency as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiency Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided a written response to the finding in this report that was identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.

ARNOLD, MISSOURI

I. DEFICIENCY CONSIDERED TO BE SIGNIFICANT

FS 13/12-01 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's accounts were under-pledged for the year ended December 31, 2012.

Context: The County bank accounts with a financial institution were under collateralized by $29,264.16 at December 31, 2012.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. This problem was corrected in the 2013 fiscal year. The Treasurer is Glenda Enderle and her office phone number is (573)545-3543.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 27, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 27, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditures of federal awards which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. The County's accounting software has limited capabilities of providing an audit trail for transaction corrections. The County Clerk appears to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Washington County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Washington County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Washington, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Washington ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Washington's basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 13, 2014, on our consideration of the County of Washington's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Washington's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this financial statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Washington, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1835 by an Act of the Missouri Territory. In addition to the three Commissioners, there are eleven elected Constitutional Officers: Assessor, County Clerk, Treasurer, Collector, Circuit Clerk, Sheriff, Coroner, Surveyor, Public Administrator, Recorder and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present the County's financial accountability.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Washington County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation was:

	2013	2012
Real Estate	$ 122,288,720	$ 121,621,730
Personal Property	44,913,002	44,634,569
Railroad and Utilities	70,278,681	66,041,578
	$ 237,480,403	$ 232,297,877

The County Commission approved a $0.7132 and $0.7101, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.2178	$ 0.2147
Special Road and Bridge Fund	0.2591	0.2591
Senior Citizen Services Fund	0.0472	0.0472
Senate Bill 40 Fund	0.1891	0.1891
	$ 0.7132	$ 0.7101

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions (Concluded)

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County’s funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amount of the County's deposits was $6,661,850.62 and $6,037,918.20, and the bank balance was $13,355,610.22 and $11,452,555.76, respectively. The total bank balances as of December 31, 2013, and 2012 were not insured through the Federal Deposit Insurance Corporation and securities set by the County’s financial institutions by $460,175.84 and $335,515.29, respectively.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	6,151,704.94
Investments		510,145.68
Total Deposits and Investments as of December 31, 2013	$	6,661,850.62

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	5,479,793.42
Investments		558,124.78
Total Deposits and Investments as of December 31, 2012	$	6,037,918.20

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were exposed to custodial credit risk for the years ended December 31, 2013, and 2012 by $460,175.84 and $335,515.29, respectively.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. LONG-TERM DEBT

The County was involved in the following debt instruments during the 2013 and 2012 years.

	Balance as of 12/31/2013	Balance as of 12/31/2012
Loan		
The County entered into a line of credit in 2013 and had $70,025.00 in draw downs with an interest rate of 3.00%. The purpose of the line of credit is to support the general operation of the County. The County did not make any payments during the audit period.	$ 70,025.00	$ -
The County entered into a loan in the amount of $350,000 on June 2, 2009, with an interest rate of 3.25%. The purpose of the loan was to support the County's general operation. The loan is due on an annual basis and the terms can be renegotiated. The County made interest payments during 2012 of $1,875.49 and paid the loan off in full.	-	-
Total Loan	$ 70,025.00	$ -

As of December 31, 2013, the unpaid principal balances of the loan were as follows:

Description	Account Balance 12/31/2012	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2013	Interest paid Fiscal Year 2013
Loans	$ -	$ 70,025.00	$ -	$ 70,025.00	$ -
Total	$ -	$ 70,025.00	$ -	$ 70,025.00	$ -

The future payments for the loan agreement as of December 31, 2013 were as follows:

Year Ending December 31,	Principal	Interest	Total
2014	$ 34,795.61	$ 1,864.64	$ 36,660.25
2015	35,229.39	1,056.88	36,286.27
	$ 70,025.00	$ 2,921.52	$ 72,946.52

III. LONG-TERM DEBT (concluded)

As of December 31, 2012, the unpaid principal balances of the loan were as follows:

Description	Account Balance 12/31/2011	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2012	Interest paid Fiscal Year 2012
Loans	$ 108,602.00	$ -	$ 108,602.00	$ -	$ 1,875.49
Total	$ 108,602.00	$ -	$ 108,602.00	$ -	$ 1,875.49

IV. CAPITAL LEASES

Capital Leases

Road and Bridge District #1

The County entered into a capital lease on June 17, 2010, for a 2010 John Deere Skid Steer Loader in the amount of $39,500 with an interest rate of 9.950%. The balance will be repaid through four annual payments. The County made interest payments during 2013 and 2012 in the amount of $2,151.35 and 3,091.00.	$ 11,323.17	$ 21,621.63
The County entered into a capital lease on February 22, 2010, for a 2010 Ford Pickup in the amount of $48,650 with an interest rate of 9.40%. The balance will be repaid through three annual payments. The County made interest payments during 2013 and 2012 in the amounts of $1,130.75 and 2,818.87, and paid the lease off in full.	-	19,025.25
The County entered into a capital lease on October 15, 2007, for two John Deere tractors, two 2007 Freightliner Trucks and 2 Tiger mowers in the amount of $327,113.58 with an interest rate of 7.357%. The balance will be repaid through sixty monthly payments. The County made interest payments during 2012 in the amounts of $3,067.36 and paid the lease off in full.	-	-
The County entered into a capital lease on October 21, 2011, for a 1999 International dump truck in the amount of $25,213.50 with an interest rate of 3.5%. The balance will be repaid through one payment. The County made interest payments during 2012 in the amount of $245.13 and paid the lease off in full.	-	-

IV. CAPITAL LEASES (continued)

The County entered into a capital lease on September 24, 2009, for two 2009 John Deere graders in the amount of $103,707.45 with an interest rate of 8.318%. The balance will be repaid through five monthly payments and four additional annual payments. The County made interest payments during 2013 and 2012 in the amounts of $2,052.41 and $3,947.22 and paid the lease off in full.	-	24,674.34
Road and Bridge District #2		
The County entered into a capital lease on July 31, 2009, for a 1998 GMC Truck in the amount of $16,000.00 with an interest rate of 11.277%. The balance will be repaid through three annual payments. The County made interest payments during 2012 in the amount of $666.74 and paid the lease off in full.	-	-
The County entered into a capital lease on December 22, 2008, for a 2010 Freightliner Truck, 2009 John Deere grader, spreader and snow plow in the amount of $252,129.00 with an interest rate of 8.016%. The balance will be repaid through five annual payments. The County made interest payments during 2013 and 2012 in the amounts of $9,515.83 and $13,733.04.	59,491.14	114,414.31
The County entered into a capital lease on October 21, 2011, for a 2011 John Deere grader in the amount of $186,720.00 with an interest rate of 3.50%. The balance will be repaid through four annual payments. The County made interest payments during 2013 and 2012 in the amounts of $4,858.63 and $1,718.85.	93,297.48	138,438.85
Sheriff's Office		
The County entered into a capital lease on March 15, 2010, for a 2010 Ford Explorer in the amount of $26,565 with an interest rate of 6.90%. The balance will be repaid through 36 monthly payments. The County made interest payments during 2013 and 2012 in the amounts of $4.51 and $409.49, and paid the lease off in full.	-	809.84
The County entered into a capital lease on March 8, 2012, for two 2011 Ford Crown Victoria's in the amount of $52,575.00 with an interest rate of 3.25%. The balance will be repaid through 3 annual payments. The County made interest payments during 2013 and 2012 in the amounts of $1,157.24 and $1,708.69.	18,088.39	35,607.42
The County entered into a capital lease on March 8, 2012, for four 2012 Chevy Tahoes in the amount of $127,395.00 with an interest rate of 3.25%. The balance will be repaid through 4 annual payments. The County made interest payments during 2013 and 2012 in the amounts of $3,535.94 and $79.40.	84,317.00	108,798.13

IV. CAPITAL LEASES (continued)

Prosecuting Attorney's Office

The County entered into a capital lease on July 21, 2008, for a 2008 Ford Focus in the amount of $16,305.00 with an interest rate of 7.25%. The balance will be repaid through 48 monthly payments. The County made interest payments during 2012 in the amount of $48.62 and paid the lease off in full.	-	-
Total Capital Leases	$ 266,517.18	$ 463,389.77

As of December 31, 2013, the unpaid principal balances of the capital leases were as follows:

Description	Account Balance 12/31/2012	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2013	Interest paid Fiscal Year 2013
Capital Leases	$ 463,389.77	$ -	$ 196,872.59	$ 266,517.18	$ 24,406.66
Total	$ 463,389.77	$ -	$ 196,872.59	$ 266,517.18	$ 24,406.66

The future payments for the capital lease agreements as of December 31, 2013 are as follows:

Year Ended December 31,	Principal	Interest	Total
2014	$ 172,943.74	$ 11,945.07	$ 184,888.81
2015	93,573.44	3,203.90	96,777.34
	$ 266,517.18	$ 15,148.97	$ 281,666.15

As of December 31, 2012, the unpaid principal balances of the capital leases were as follows:

Description	Account Balance 12/31/2011	Current year Additions	Current year Refunding & Payments	Account Balance 12/31/2012	Interest paid Fiscal Year 2012
Capital Leases	$ 586,347.17	$ 179,970.00	$ 302,927.40	$ 463,389.77	$ 31,534.41
Total	$ 586,347.17	$ 179,970.00	$ 302,927.40	$ 463,389.77	$ 31,534.41

IV. CAPITAL LEASES (continued)

The future payments for the capital lease agreements as of December 31, 2012 were as follows:

Year Ended December 31,	Principal	Interest	Total
2013	$ 196,872.59	$ 24,406.66	$ 221,279.25
2014	172,943.74	11,945.07	184,888.81
2015	93,573.44	3,203.90	96,777.34
	$ 463,389.77	$ 39,555.63	$ 502,945.40

V. OPERATING LEASES

The County entered into an operating lease through Cannon Financial Services for copier equipment for the Surveyor's office as of January 26, 2009. The lease is effective for 48 months with monthly payments of $89.50. During the 2013 and 2012 year, the County made payments totaling $89.50 and $1,074.00.

The County entered into an operating lease through Xerox for copier equipment for the County Clerk's office as of September 3, 2008. The lease is effective for 60 months with monthly payments of $182.02 which changed later to $195.99 and yet again to $202.54. During the 2013 and 2012 year, the County made payments totaling $1,822.86 and $2,351.01.

The County entered into an operating lease through Xerox for copier equipment for the Recorder's office as of May 14, 2007. The lease is effective for 76 months with monthly payments of $266.56 which later changed to $275.96. During the 2013 and 2012 year, the County made payments totaling $1,379.80 and $2,684.40.

The County entered into an operating lease through Xerox for copier equipment for the Prosecuting Attorney's office as of August 7, 2008. The lease is effective for 60 months with monthly payments of $246.40 which changed later to $260.37 and yet again to $266.92. During the 2013 and 2012 year, the County made payments totaling $2,135.36 and $3,130.12.

The County entered into an operating lease through GFI Digital Inc. for copier equipment for the County Sheriff's office as of June 26, 2009. The lease is effective for 48 months with monthly payments of $195.00. During the 2013 and 2012 year, the County made payments totaling $585.00 and $2,340.00.

The County entered into an operating lease through Xerox for copier equipment for the Circuit Clerk's office as of March 3, 2011. The lease is effective for 60 months with monthly payments of $224.32 which changed later to $225.32. During the 2013 and 2012 year, the County made payments totaling $2,921.16 and $2,467.52.

The County entered into an operating lease through Ricoh for copier equipment for the Prosecuting Attorney's office as of July 3, 2013. The lease is effective for 49 months with monthly payments of $117.63. During the 2013 year, the County made payments totaling $588.15.

V. OPERATING LEASES (Concluded)

The County entered into an operating lease through Ricoh for copier equipment for the Assessor's office as of October 24, 2010. The lease is effective for 60 months with monthly payments of $87.08. During the 2013 and 2012 year, the County made payments totaling $783.72 and $1,044.96.

The County entered into an operating lease through Pitney Bowes for a postage meter for the Clerk's office as of March 26, 2012. The lease is effective for 60 months with monthly payments of $1,655.00. During the 2012 year, the County made payments totaling $3,310.00, this lease was replaced with another after the first two payments.

The County entered into an operating lease through Xerox for copier equipment for the Recorder's office as of March 28, 2013. The lease is effective for 48 months with monthly payments of $128.63. During the 2013 year, the County made payments totaling $1,029.04.

The County entered into an operating lease through Total Image Management for copier equipment for the Sheriff's office as of March 14, 2013. The lease is effective for 60 months with monthly payments of $248.47. During the 2013 year, the County made payments totaling $2,236.23.

The County entered into an operating lease through Pitney Bowes for a postage meter for the Clerk's office as of June 26, 2012. The lease is effective for 48 months with quarterly payments of $252.00. During the 2013 and 2012 year, the County made payments totaling $1,008.00 and $252.00.

2013 Future Minimum Payments for Operating Leases:

Year Ending December 31,	Total Minimum Payments
2014	$ 12,032.92
2015	11,961.08
2016	8,362.84
2017	6,652.05
2018	2,346.13
	$ 41,355.02

2012 Future Minimum Payments for Operating Leases:

Year Ending December 31,	Total Minimum Payments
2013	$ 14,796.06
2014	12,032.92
2015	11,961.08
2016	8,362.84
2017	6,652.05
2018	2,346.13
	$ 56,151.08

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013 and 2012 are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 110,030.01	$ 539,797.24	$ 145,313.68	$ 301,594.00
Special Road and Bridge Fund	-	91,455.00	-	95,760.00
Assessment Fund	22,273.00	-	28,590.00	-
Sheriff L.E.F. Fund	292,306.00	-	308,204.00	-
Prosecuting Attorney Training Fund	-	-	-	7,644.00
Sheriff's Civil Fund	-	50,000.00	-	57,785.07
Building Fund	250,000.00	-	6,800.00	14,562.50
Emergency Fund	25,218.24	-	8,000.00	-
L.E.F. Restitution Fund	-	-	-	7,921.35
Tax Maintenance Fund	-	18,575.01	-	11,640.76
TOTAL	$ 699,827.25	$ 699,827.25	$ 496,907.68	$ 496,907.68

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the city of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $12,911.88 and $14,378.31, respectively.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County did not have any COBRA participants at December 31, 2013, and December 31, 2012.

IX. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $7,752 and $7,752, respectively, for the years ended December 31, 2013, and 2012.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is involved in pending litigation as of the audit report date. The financial impact to the County is considered immaterial, if any.

B. Compensated Absences

The County provides employees with annual leave. Each employee earns leave based upon his or her term of service with the County earning 72 hours after the first year, 120 hours per year for 2-5 years of service, 144 hours per year for 6-10 years of service, 168 hours per year for 11-15 years of service, 192 hours per year for 16-20 years of service, 216 hours per year for 21-25 years of service, and 240 hours per year after 26 years of service. Annual leave must be used in the year it is earned. Any unused leave time will be forfeited at the end of the calendar year. Any employee with benefits, who has worked for one full year, leaving the County service due to resignation, death or termination, shall be compensated for vacation credit unused to the date of termination.

Employees in the County earn 8 days of sick leave per year and this can be accrued to an unlimited number. It is not paid to the employee upon separation of employment of the County.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

XI. RISK MANAGEMENT (concluded)

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There are no subsequent events to report up to the date of the audit report.

XIII. CHANGE IN REPORTING

The beginning fund balance at January 1, 2012, has increased by $84,732.70 due to the inclusion of the Tax Maintenance Fund. In prior audit periods, this fund was included with the Collector accounts as an agency fund.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2013, expenditures exceeded those budgeted for the following: L.E.F. Fund, Prosecuting Attorney Training Fund, Assessor Technology Fund, Sur Tax Fund and L.E.F. Restitution Fund.

B. For the year ended December 31, 2012, expenditures exceeded those budgeted for the following: Prosecuting Attorney Delinquent Fund, Prosecuting Attorney Training Fund, Prosecuting Attorney Bad Check Fund, Sheriff's Civil Fund, Recorder User Fund, Revolving Loan Fund, Election Service Fund, Recorder Technology Fund, Shelter Fund, Economic Development Fund, Building Fund, Assessor Technology Fund, Sur Tax Fund, Senior Citizen Services Fund, Sheriff Salary Supplement Fund, Sheriff's Inmate Security Fund and L.E.F. Restitution Fund.

C. For the year ended December 31, 2012, the County deficit budgeted the following funds: General Revenue Fund and the Sheriff L.E.F. Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Washington, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Washington ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 13, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. [FS 13/12-01]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditor's Report

To The County Commission
The County of Washington, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Washington's ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2013, and 2012. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013, and 2012.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item SA 13/12-01. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item SA 13/12-01, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

The accompanying notes to the Schedule of Expenditures of Federal Awards are an integral part of this statement.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Washington County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-Federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and, if applicable, noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUB-RECIPIENTS

The County provided federal awards to sub-recipients during the years ended December 31, 2013, and 2012. The sub-recipients are as follows:

Program Title	Subrecipient	Federal CFDA Number		Amount Provided to Subrecipient
Schools and Roads - Grants to States	Bourbon CR-1		2012	$ 50,634.47
		10.665	2013	46,558.41
Schools and Roads - Grants to States	Valley R-6		2012	$ 139,591.49
		10.665	2013	128,354.44
Schools and Roads – Grants to States	Potosi R-3		2012	$ 108,874.69
		10.665	2013	100,087.29
Community Development Block Grant	PWSD #1		2012	$ 388,638.59
		14.228	2013	3,886.69
Community Development Block Grant	PWSD #2		2012	$ 108,039.61
		14.228	2013	-
	Total Provided to Subrecipients			$1,074,665.68

THE COUNTY OF WASHINGTON
POTOSI, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2013 ___ Yes	X No	
	2012 ___ Yes	X No	
b. Significant deficiencies identified?	2013 X Yes	___ None Reported	
	2012 X Yes	___ None Reported	

3. Noncompliance material to financial statements noted?

2013 ___ Yes	X No	
2012 ___ Yes	X No	

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2013 ___ Yes	X No	
	2012 ___ Yes	X No	
b. Significant deficiencies identified?	2013 X Yes	___ None Reported	
	2012 X Yes	___ None Reported	

2. Type of auditor's report issued on compliance for major programs:

2013 - Unmodified

2012 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

2013 X Yes	___ No	
2012 X Yes	___ No	

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2013/2012	20.205	Department of Transportation – Highway Planning and Construction
2013/2012	14.228	Community Development Block Grant

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2013 ___ Yes X No

2012 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 13/12-01 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's Senate Bill 40's accounts were under-pledged for the years ended December 31, 2013 and 2012.

Context: The County Senate Bill 40's bank accounts with a financial institution were under collateralized by $460,175.84 at December 31, 2013 and $335,515.29 at December 31, 2012.

Effect: There is a risk that the County Senate Bill 40's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County Senate Bill 40 periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County Senate Bill 40 will review account balances with the financial institution to ensure that they are collateralized on a regular basis.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012

The following findings, recommendations, and questioned costs are the results of the single audit of Washington County, Missouri for the fiscal years ended December 31, 2013, and 2012. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding that discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (continued)

C. Federal Award Findings and Questioned Costs

SA 13/12-01	Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Housing and Urban Development, U.S. Department of Interior, U.S. Department of Justice, U.S. Department of Transportation, General Services Administration, U.S. Environmental Protection Agency, Election Assistance Commission, and U.S. Department of Homeland Security.
Other Information	Pass-Through Grantor:	Office of Administration, Missouri Department of Economic Development, Missouri Highway and Transportation Commission, Missouri Department of Public Safety, Missouri Highway Safety Division, Missouri Department of Transportation, and Missouri Office of Secretary of State
Significant Deficiency	Federal CFDA Number:	10.665, 14.228, 14.251, 15.226, 16.804, 20.205, 20.600, 20.601, 20.607, 39.011, 66.802, 90.401, 97.036
	Program Title:	Schools and Roads – Grants to States, Community Development Block Grant, EDI – Special Project, PILT – Payment in Lieu of Taxes, Edward Byrne Memorial State and Local Law Enforcement, Highway Planning and Construction, State and Community Highway Safety, Alcohol Impaired Driving Countermeasures Incentive Grants I, DWI Enforcement, Election Reform Payments, ARRA – Superfund State, Political Subdivision, and Indian Tribe Site – Specific Cooperative Agreements, Help America Vote Act Requirements Payments, and Presidentially Declared Disasters

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (concluded)

C. Federal Award Findings and Questioned Costs (concluded)

SA 13/12-01 *Cause*: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's Office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correctly prepared going forward. The County Clerk's Office (Jeanette Allen) phone number is (573) 438-6111 ext. 221.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 10/11-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of its audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitating the entity's auditor to provide such assistance are at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Status: This finding has been resolved in the current year.

FS 10/11-02 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (continued)

FS 10/11-02 Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Status: This finding has been resolved in the current year.

FS 10/11-03 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Status: This finding has been resolved in the current year.

FS 10/11-04 Criteria: The County's Senate Bill 40 Board did not accurately track payroll and prepared IRS Form 941 incorrectly.

Condition: During our audit, we noted Senate Bill 40 Board was not able to accurately reconcile general ledger to IRS Form 941 for the year ended December 31, 2011.

Context: During our attempts to properly reconcile the general ledger to the 941s, for the County's Senate Bill 40 Board, it became evident there was an error of $9,529 that the client was unable to reconcile.

Effect: Lack of proper accounting for payroll expense may result in inaccurate balances being budgeted for future expenditures.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 10/11-04 Cause: The County's Senate Bill 40 Board was unable to reconcile the general ledger to the 941's with accuracy

Recommendation: We recommend that the County obtain sufficient training in the recognition of payroll expenses to avoid further error.

Status: This finding has been resolved in the current year.

FS 10/11-05 Criteria: The County recorded a negative fund balance for the Sheriff Law Enforcement Fund at December 31, 2010.

Condition: During our audit, we noted a negative fund balance for the Sheriff Law Enforcement Fund.

Context: During our auditing processes on fund balance, we noted a negative balance in one of the County's funds.

Effect: Lack of positive fund balance can create issues for budgeting and preparing accurate financial statements.

Cause: The County did not follow budget for the Sheriff Law Enforcement Fund, creating a deficit fund balance.

Recommendation: We recommend that the County follow budget for proper allocation of funds to stop this from occurring in the future.

Status: This finding has been resolved in the current year.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

SA 10/11-01	Federal Grantor:	U.S. Department of Homeland Security
Activities Allowed and Disallowed	Pass-Through Grantor:	State
Significant Deficiency	Federal CFDA Number:	97.036
Internal Control Over Compliance		Disaster Grants –
Material Weakness - Compliance	Program Title:	Public Assistance Grants

Information on the federal program: The County was unable to provide supporting documentation to test expenditures for this grant.

Criteria: OMB Circular A-133 requires the auditee to maintain all backup information for all federal expenditures.

Condition: Through auditing procedures, we were not able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA) for Federal Emergency Management Agency (FEMA).

Questioned Costs: Not applicable

Context: During the audit of Federal Emergency Management Agency (FEMA), we could not test the expenditures reported on the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by Governmental Accounting and Financial Reporting Standards.

Cause: Adequate emphasis was not placed on documenting and retaining detailed expenditures for the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office. All expenditure documentation should be maintained.

Status: This finding has been resolved in the current year.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

SA 11/10-02	Federal Grantor:	All Programs
Other Information	Pass-Through Grantor:	All Programs
Significant Deficiency	Federal CFDA Number:	All Programs
	Program Title:	All Programs

The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Status: Corrective action has not been implemented in the current year being audited. See single audit finding SA 13/12-01.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 13, 2014

To the Board of Commissioners
County of Washington

In planning and performing our audit of the regulatory based financial statements of the County of Washington (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided a written response to the finding in this report that was identified in our audit. This response has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

FS 13/12-01

Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County's Senate Bill 40's accounts were under-pledged for the years ended December 31, 2013 and 2012.

Context: The County Senate Bill 40's bank accounts with a financial institution were under collateralized by $460,175.84 at December 31, 2013 and $335,515.29 at December 31, 2012.

Effect: There is a risk that the County Senate Bill 40's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County Senate Bill 40 periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County Senate Bill 40 will review account balances with the financial institution to ensure that they are collateralized on a regular basis.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 14, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (continued)

Significant Audit Findings (concluded)

Qualitative Aspects of Accounting Practices (concluded)

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 13, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Other Matters

We were engaged to report on the schedule of expenditures of federal awards, which accompany the financial statements but are not required supplementary information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of New Madrid County

We have conducted follow-up work on certain audit report findings contained in Report No. 2013-142, *New Madrid County*, issued in December 2013, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the county about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and indicates that it will not do so.

Our methodology included working with the county, prior to completion of the audit report, to develop a timeline for the implementation of corrective action related to the audit recommendations. As part of the AFTER work conducted, we reviewed supporting documentation submitted by county officials and held discussions with county officials. Documentation included County Commission meeting minutes, bank statements, receipt and deposit records, check registers, payroll records, and various other financial records. This report is a summary of the results of this follow-up work, which was substantially completed during June and July 2014.

Thomas A. Schweich
State Auditor

1.1 Public Administrator Controls and Procedures-Trust Fund bank account

The former Public Administrator withdrew $2,178 from the Trust Fund bank account in January 2013, closed the account, and claimed this money was his personal funds. However, he could not provide documentation to support that $602 of the $2,178 withdrawn were personal funds.

The former Public Administrator also held funds belonging to 5 wards in the Trust Fund bank account for more than one year, which could have been distributed to the ward/estate in a more timely manner.

Additionally, the former Public Administrator did not provide adequate supporting documentation for any of the $4,998 of indigent expenses requested for reimbursement from the county during the 2 years ended December 31, 2012. At our request, the former Public Administrator provided supporting documentation for $2,964 of the $4,998 reimbursed; but did not have supporting documentation, other than cancelled checks, for the remaining $2,034.

Our review of the supporting documentation provided, reimbursement requests, and activity of the Trust Fund bank account noted the following additional concerns:

- The former Public Administrator did not properly account for the purchase of 21 gift cards totaling $525, and there was no evidence that the wards received the gift cards.
- The former Public Administrator did not document which ward received a television that cost $128, and did not include it in any ward's inventory.
- The county reimbursed the former Public Administrator $240 for the same expenses on two separate occasions.
- The former Public Administrator requested reimbursement from the county's indigent funds for alcoholic beverages purchased on behalf of a ward. The County Clerk indicated such a use of indigent funds was against county policy.
- The former Public Administrator did not always obtain documentation from the wards or wards' residential facilities verifying the receipt of cash.

Further, the Associate Circuit Court did not review the activity of the Trust Fund bank account.

Recommendation

The Public Administrator work with the Associate Circuit Judge and County Commission to seek reimbursement of amounts owed from the former

Public Administrator. The County Commission should require submission of adequate supporting documentation for indigent expense reimbursement requests. The Public Administrator should establish procedures for the proper handling of the Trust Fund bank account, and the Associate Circuit Judge should require the Public Administrator to submit documentation of the Trust Fund bank account activity.

Status

Implemented

The former Public Administrator reimbursed various wards/estates $602 and the county $240 in September 2013. The current Public Administrator is no longer depositing personal funds into the Public Administrator Trust account. The County Commission has provided $700 to the Public Administrator to be used for indigent expenses. This money is held in the Public Administrator Trust account and is being handled on a imprest basis, with the County Commission reimbursing the Public Administrator for indigent related purchases made upon presentation of receipts. The Associate Circuit Judge has implemented a process to review trust fund activity annually and reviewed 2013 trust account activity in January 2014.

1.3 Public Administrator Controls and Procedures-Annual settlements

The Associate Circuit Court did not perform sufficient reviews of the activity of cases assigned to the former Public Administrator. The court reviewed annual settlements submitted, but the review of disbursements was limited to verifying the accuracy of amounts reported by reviewing cancelled checks. The former Public Administrator did not file supporting documentation such as invoices with the Associate Circuit Court when filing annual settlements.

Recommendation

The Associate Circuit Judge establish procedures to adequately monitor the activity of all cases assigned to the Public Administrator, and require supporting documentation such as invoices to be filed with the court.

Status

Implemented

The Associate Circuit Judge has established a checklist for use by the Probate Clerk when reviewing settlements filed by the Public Administrator, which includes reviewing supporting documentation for all claims paid.

1.4 Public Administrator Controls and Procedures-Disbursements and checks

The former Public Administrator did not obtain adequate supporting documentation for some disbursements from individual ward bank accounts. In addition, the former Public Administrator did not always issue checks in numerical sequence and properly deface and retain voided checks.

Further, the former Public Administrator could not account for 213 checks (not listed on annual settlements and are unaccounted for) from 13 individual ward bank accounts during the 2 years ended December 31, 2012.

In addition, 36 checks from the Trust Fund bank account for the period October 2008 to December 2012 were skipped and not properly accounted for. According to the former Public Administrator, all of these checks (ward and trust accounts) had been voided, were torn up and thrown away, and were not retained in case files.

Recommendation

The Public Administrator ensure disbursements are supported by adequate documentation, checks are issued in numerical sequence and recorded in numerical sequence in the check registers, and all voided checks are properly defaced and retained.

Status

Implemented

We reviewed 5 ward/estate check registers and bank statements for December 2013. Checks were issued in numerical sequence and recorded in numerical sequence in the check registers. We did not note any voided checks in these 5 estates for the month reviewed.

2. Personnel Policies and Procedures

Controls and procedures over payroll disbursements need improvement.

2.1 Personnel policies

Nonworking time was included in total hours worked for some employees when determining the amount of overtime earned, against county policy. Three Sheriff's office deputies also accrued compensatory time in excess of the maximum balance allowed by the Fair Labor Standards Act (FLSA).

Six employees carried forward vacation hours from December 2012 to January 2013 in excess of the maximum allowed by county policy. In addition, 2 employees carried forward sick leave hours from December 2012 to January 2013 in excess of the maximum allowed by county policy.

The county and Sheriff's office personnel policies did not adequately address holiday leave. Personnel policies indicated an employee would receive an additional day off to accommodate for working on a holiday. However, those employees who worked 12 and 10-hour days on holidays earned up to 32 more hours of holiday leave each year than other county employees.

Payroll records and the Sheriff's office and county's personnel policies did not consistently address how overtime would be calculated. Both the county and Sheriff's office personnel policies indicated overtime was to be paid at time and one-half for any hours over 40 hours in a workweek, and the county paid overtime in this manner. However, a separate section of the Sheriff's office policy manual stated that time would be computed on the basis of 171 hours per month. The County Clerk's salary schedule for all county employees indicated commissioned officers annual salaries were

based upon 171 hours in a 28-day pay period, even though the county paid on a monthly pay period. Further, the Sheriff indicated he believed his deputies were supposed to be compensated for overtime hours worked in excess of 171 hours in a 28-day period.

Dispatcher work schedules were based on a payroll workweek that was different from the personnel policy and county's payment practice.

Recommendation

The County Commission ensure compliance with county overtime and leave policies and the FLSA. The County Commission should also revise personnel policies as needed.

Status

In Progress

We reviewed payroll records for the payroll period ending January 15, 2014, and noted nonworking time was included in total hours worked for some employees when determining the amount of overtime earned, in violation of county policy. Two Sheriff's office deputies also accrued compensatory time in excess of the maximum balance allowed by the FLSA. Additionally, 1 employee carried forward vacation hours from December 2013 to January 2014, in excess of the maximum allowed by county policy, and 3 employees carried forward sick leave hours from December 2013 to January 2014, in excess of the maximum allowed by county policy.

The County Clerk indicated full implementation of the recommendations is taking considerably longer than originally anticipated. The reason for the delay was primarily due to the acquisition and changeover to a new financial software system at the same time the county was trying to implement these recommendations. The County Clerk and County Commission intend to implement the auditor's recommendations and will report to the State Auditor's office as each stage of implementation is fully completed.

2.2 Reviews

The County Clerk's office and other supervisory officials did not perform adequate reviews of employee timesheets, leave and compensatory time records, and other payroll records, increasing the potential for errors to go undetected. A Sheriff's office deputy worked 194.5 hours of overtime from December 2011 to February 2013. The deputy was paid by the county from drug task force grant funding as the work was performed, but the deputy also accrued compensatory time of 291.75 (194.5 * 1.5) hours for this same work.

Recommendation

The County Commission ensure adequate reviews of timesheets, leave records, and other payroll records are performed and adjust compensatory time records for duplicate hours reported.

Status

In Progress

We reviewed timesheets for the pay period ending January 15, 2014, and noted adequate reviews of timesheets had not been performed. The records indicated 2 Sheriff's office deputies accrued compensatory time in excess of the maximum balance allowed by the FLSA. Had an adequate review of timesheets been performed, these issues should have been identified and corrected.

The County Clerk indicated full implementation of the recommendations is taking considerably longer than originally anticipated. The reason for the delay was primarily due to the acquisition and changeover to a new financial software system at the same time the county was trying to implement these recommendations. In addition, the County Clerk indicated his office personnel have re-calculated approximately one third of the deputies and dispatchers accrued compensatory leave balances and are re-calculating others as time permits. The County Clerk and County Commission intend to implement the auditor's recommendations and will report to the State Auditor's office as each stage of implementation is fully completed.

2.3 Timesheets

The County Commission did not require the Emergency Management Director, 911 Administrator, Flood Plain Administrator, Assistant Coroner, and Search and Rescue Director to prepare and submit timesheets or other records documenting work performed. These employees received salaries and worked essentially on call on a 24-hour basis without established work schedules or a set number of work hours each pay period.

Recommendation

The County Commission ensure all county employees prepare and submit a timesheet or other documentation of work performed.

Status

Not Implemented

The County Commission and County Clerk indicated they do not feel timesheets are needed for the positions noted in the finding and have chosen to not require these positions to submit timesheets or other documentation of work performed on a monthly basis.

3.2 Disbursements and Budget Amendments- Health insurance

The county had not solicited proposals for health insurance since 2007, and paid approximately $821,000 for employee health insurance for the year ended December 31, 2012. The insurance broker received $14,190 of this amount for his services.

The health insurance broker is County Clerk Cravens' brother and County Commissioner Baker's brother-in-law. Commissioner Baker made the motion and voted to approve purchasing the health insurance from this

vendor/broker according to the November 17, 2011, and December 13, 2012, meeting minutes.

As elected officials, County Commissioner Baker and County Clerk Cravens serve in a fiduciary capacity and have an obligation to the public to avoid the appearance of impropriety. In addition, Section 67.150, RSMo, requires competitive bidding at least every 3 years for health insurance.

Recommendation

The County Commission refrain from entering into business transactions with related parties unless such services or transactions are properly bid in accordance with state law and the selection process is documented.

Status

Implemented

The County Commission advertised for health insurance bids in November 2013. County Commission minutes indicate County Commissioner Baker abstained from all decisions related to the purchase of health insurance effective February 1, 2014.

4. Recorder of Deeds Controls and Procedures

The Recorder of Deeds' month-end reconciliation, distribution of fees, and depositing procedures need improvement.

4.1 Overages, bank reconciliations and disbursements

The Recorder of Deeds did not investigate overages in her bank account or properly dispose of those monies, and an overage of $8,875 existed at May 31, 2013. Based on our last audit for the 2 years ended December 31, 1999, and representations made by the Recorder of Deeds, overages had accumulated in this account over several years and had not been resolved.

Various controls and procedural weaknesses in the office contributed to the unidentified overage in the account. Monthly bank reconciliations and lists of liabilities were not prepared for the Recorder of Deeds' bank account. Deposits were not recorded timely and a running balance was not maintained in the check register. At each month end, the Recorder of Deeds disbursed amounts related to charges made throughout the month by various individuals and institutions even though amounts charged had not yet been collected.

Recommendation

The Recorder of Deeds dispose of the unidentified overage in accordance with state law, post deposits timely, maintain running balances in the check register, perform bank reconciliations, and reconcile bank balances to liabilities monthly. Any differences between accounting records and reconciliations should be investigated and resolved. In addition, the Recorder of Deeds should not disburse fees until the related monies are collected.

Status

Implemented

The Recorder of Deeds indicated she changed accounting procedures in October 2013, to distribute fees based on date of receipt instead of the transaction date. At the end of October 2013, the Recorder of Deeds determined $8,611 in her bank account was unidentified. The following month, she distributed $8,411 of this money to the state and county and used $200 of it to establish a change fund. The Recorder of Deeds is now reconciling the bank balance to liabilities at the end of each month.

In addition, we reviewed the bank reconciliation, list of liabilities, check book register, and receipts and disbursements for January 2014. Deposits were posted timely, a running balance was maintained in the check register, a bank reconciliation was prepared, and the bank balance was reconciled to liabilities.

4.2 Deposits

The Recorder of Deeds office did not reconcile the amount and composition of recorded receipts to deposits. In addition, the Recorder of Deeds withheld cash from deposits to maintain a change fund; however, the change fund was not maintained at a constant amount and the amount of the change fund was not tracked.

Recommendation

The Recorder of Deeds reconcile the composition of receipts to the composition of deposits and deposit all receipts intact. If a change fund is needed, it should be maintained at an established amount.

Status

Implemented

We reviewed January 2014 receipt and deposit records. The composition of receipts reconciled to the composition of deposits and all receipts were deposited intact. The Recorder of Deeds indicated she established a $200 change fund in November 2013.

6. Prosecuting Attorney Controls and Procedures

Accounting duties are not adequately segregated and supervisory reviews are not performed. Receipting and monitoring procedures are not adequate.

6.1 Segregation of duties and waivers

The Prosecuting Attorney had not adequately segregated accounting duties or performed a supervisory review of accounting records. The Prosecuting Attorney's secretary was primarily responsible for receipting, recording, and transmitting monies received for bad checks and court-ordered restitution. In addition, the secretary waived bad check fees without the documented approval of the Prosecuting Attorney and did not retain adequate documentation of the reasons for such waivers.

Recommendation

The Prosecuting Attorney adequately segregate accounting duties or ensure an independent or supervisory review of accounting records is performed and documented, and require someone independent of the accounting system to review and approve all waivers and ensure adequate documentation is retained to support such waivers.

Status

Not Implemented

The Prosecuting Attorney refused to participate in the follow-up review process to update the State Auditor's office regarding efforts to implement audit recommendations.

6.2 Receipting

Manual receipt slips were only issued for court-ordered restitution monies.

Recommendation

The Prosecuting Attorney require receipt slips be issued for all monies received.

Status

Not Implemented

The Prosecuting Attorney refused to participate in the follow-up review process to update the State Auditor's office regarding efforts to implement audit recommendations.

6.3 Tracking procedures

Court-ordered restitution payments were manually recorded in the defendants' case file; however, the total restitution amount ordered was not always clearly documented. Additionally, the Prosecuting Attorney did not have a system set up to alert office personnel when restitution payments were due or a defendant's probationary period was nearing completion. The Prosecuting Attorney's office staff indicated it was the probation officer's responsibility to ensure restitution was paid.

Bad check complaint forms submitted by merchants when bad checks were turned over to the Prosecuting Attorney for collection were not assigned a sequential tracking number and complaint forms were filed by the date of the 10-day letter. Additionally, the Prosecuting Attorney's office only used the computerized bad check system to generate letters notifying the bad check writers they had 10 days to pay before charges were filed. While the bad check complaint and disposition information was entered into the computerized bad check system, the system was not utilized to track the collection and disposition of each bad check complaint. The office maintained a manual ledger of bad check complaints (by date the complaint was filed) for purposes of filing charges, however, this manual ledger did not allow for compilation of amounts collected by date.

Recommendation

The Prosecuting Attorney develop procedures and records to adequately track court-ordered restitution and the receipt and disposition of all bad check complaints.

Status

Not Implemented

The Prosecuting Attorney refused to participate in the follow-up review process to update the State Auditor's office regarding efforts to implement audit recommendations.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Lewis County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Lewis County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Lewis, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Lewis ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

The County was unable to provide bank reconciliations for the Collector's accounts. We were unable to determine the book cash balance as a reconciliation between cash balance and bank balance. Since we were unable to determine the cash balance of the Collector's account, we used the bank balances of $4,067,554.75 and $3,236,304.02 for the years ended December 31, 2013, and December 31, 2012, respectively. Bank statements are now being reconciled on a monthly basis.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion on Regulatory Basis of Accounting paragraph, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Lewis' basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2014, on our consideration of the County of Lewis' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Lewis' internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this financial statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Lewis, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1833 by an Act of the Missouri Territory. In addition to the three Commissioners, there are 11 elected Constitutional Officers: County Clerk, Treasurer, Collector, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Surveyor, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only Lewis County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similarly to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation, was:

	2013	2012
Real Estate	$ 68,693,510	$ 64,892,950
Personal Property	33,969,800	34,725,320
Railroad and Utilities	16,226,896	14,020,245
	$ 118,890,206	$ 113,638,515

During 2013 and 2012, the County Commission approved a $0.7777 and $0.7672, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.2950	$ 0.2940
Special Road and Bridge Fund	0.4827	0.4732
	$ 0.7777	$ 0.7672

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amount of the County's deposits was $884,116.21 and $815,779.08, and the bank balance was $5,157,717.45 and $4,211,758.24, respectively. The total bank balances as of December 31, 2013, and 2012 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances - Deposits	$	884,116.21
Total Deposits and Investments as of December 31, 2013	$	884,116.21

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances - Deposits	$	815,779.08
Total Deposits and Investments as of December 31, 2012	$	815,779.08

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2013, and 2012.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. CAPITAL LEASES

In April 2009, Lewis County purchased a 2009 John Deere Backhoe in the amount of $79,950. The County entered into an annually renewable lease purchase agreement with Bank of Monticello to finance $39,950 of the purchase. The lease purchase agreement calls for eight semi-annual payments of $5,517.28. The lease purchase agreement carries an interest rate of 4.00%. As of December 31, 2013, and 2012, the outstanding balance on this lease purchase agreement was $0.00 and $10,696.82, respectively. Lease purchase payments are made out of the Special Road and Bridge Fund.

III. CAPITAL LEASES (continued)

In May 2009, Lewis County purchased a 2010 Mack truck in the amount of $78,450. The County entered into an annually renewable lease purchase agreement with Bank of Monticello to finance $65,000 of the purchase. The lease purchase agreement calls for 16 quarterly payments of $4,519.01. The lease purchase agreement carries an interest rate of 4.00%. As of December 31, 2013, and 2012, the outstanding balance on this lease purchase agreement was $0.00 and $17,440.35, respectively. Lease purchase payments are made out of the Special Road and Bridge Fund.

In October 2011, Lewis County purchased a 2011 Ford truck in the amount of $25,135. The County entered into a one year lease purchase agreement with Bank of Monticello to finance $12,135 of the purchase. The lease purchase agreement calls for one annual payment of $12,514.34. The lease purchase agreement carries an interest rate of 3.50%. As of December 31, 2012, the lease was paid off. Lease purchase payments are made out of the Special Road and Bridge Fund.

In June 2012, Lewis County purchased a 2012 John Deere Motor Grader in the amount of $199,236. The County entered into an annually renewable lease purchase agreement with John Deere Financial to finance $158,236 of the purchase. The lease purchase agreement calls for seven annual payments of $25,241.21. The lease purchase agreement carries an interest rate of 2.80%. As of December 31, 2013, and 2012, the outstanding balances on this lease purchase agreement were $137,482.72 and $158,236, respectively. Lease purchase payments are made out of the Special Road and Bridge Fund.

In April 2013, Lewis County purchased a 2013 Ford truck in the amount of $33,293. The County entered into a one year lease purchase agreement with Bank of Monticello to finance $16,293 of the purchase. The lease purchase agreement calls for one annual payment of $17,026.18. The lease purchase agreement carries an interest rate of 4.50%. As of December 31, 2013, the outstanding balance on this lease purchase agreement was $16,293.00. Lease purchase payments are made out of the Special Road and Bridge Fund.

In September 2013, Lewis County purchased a 2013 John Deere Tractor in the amount of $74,751.36. The County entered into an annually renewable lease purchase agreement with Bank of Monticello to finance $59,000 of the purchase. The lease purchase agreement calls for three annual payments of $20,858.83. The lease purchase agreement carries an interest rate of 3.00%. As of December 31, 2013, the outstanding balance on this lease purchase agreement was $59,000.00. Lease purchase payments are made out of the Special Road and Bridge Fund.

As of December 31, 2013, the unpaid principal balances for capital leases were $212,775.72. The payments for the lease purchase agreements of the County are as follows:

Capital Leases	Balance 12/31/12	Additions	Payments	Balance 12/31/13	Interest Paid
2009 John Deere Backhoe	$ 10,696.82	$ -	$ 10,696.82	$ -	$ 323.25
2010 Mack Truck	17,440.35	-	17,440.35	-	437.26
2012 JD Motor Grader	158,236.00	-	20,753.28	137,482.72	4,487.93
2013 JD Tractor	-	59,000.00	-	59,000.00	-
2013 Ford Truck	-	16,293.00	-	16,293.00	-
	$186,373.17	$75,293.00	$48,890.45	$212,775.72	$5,248.44

III. CAPITAL LEASES (concluded)

The future payments for capital leases as of December 31, 2013, are as follows:

Year Ending December 31,	Interest	Principal	Total
2014	$ 6,402.47	$ 56,723.75	$ 63,126.22
2015	4,491.35	41,608.69	46,100.04
2016	3,280.68	42,819.36	46,100.04
2017	2,031.40	23,209.81	25,241.21
2018	1,373.12	23,868.09	25,241.21
2019	696.19	24,546.02	25,242.21
	$ 18,275.21	$ 212,775.72	$ 231,050.93

As of December 31, 2012, the unpaid principal balances for capital leases were $186,373.17. The payments for the lease purchase agreement of the County are as follows.

Capital Leases	Balance 12/31/11	Additions	Payments	Balance 12/31/12	Interest Paid
2009 John Deere Backhoe	$ 20,993.89	$ -	$ 10,297.07	$ 10,696.82	$ 737.49
2010 Mack Truck	34,424.94	-	16,984.59	17,440.35	1,091.45
2011 Ford Truck	12,135.00	-	12,135.00	-	379.34
2012 JD Motor Grader	-	158,236.00	-	158,236.00	-
	$67,553.83	$158,236.00	$39,416.66	$186,373.17	$2,208.28

The future payments for capital leases as of December 31, 2012, are as follows:

Year Ending December 31,	Interest	Principal	Total
2013	$ 5,248.44	$ 48,890.45	$ 54,138.89
2014	3,899.29	21,341.92	25,241.21
2015	3,294.01	21,947.20	25,241.21
2016	2,671.53	22,569.68	25,241.21
2017	2,031.40	23,209.81	25,241.21
2018-2019	2,069.31	48,414.11	50,483.42
	$ 19,213.98	$ 186,373.17	$ 205,587.15

IV. OPERATING LEASES

On September 14, 2012, Lewis County Recorder entered into an operating lease agreement with CIT Finance LLC for a Toshiba Copier. The lease agreement calls for 48 monthly payments of $125.26. The County made lease payments of $1,503.12 and $375.78 for the years ended December 31, 2013, and 2012, respectively.

IV. OPERATING LEASES (concluded)

The future payments for operating leases as of December 31, 2013, are as follows:

Year Ending December 31,	Lease Payments
2014	$ 1,503.12
2015	1,503.12
2016	1,127.34
	$ 4,133.58

The future payments for operating leases as of December 31, 2012, are as follows:

Year Ending December 31,	Lease Payments
2013	$ 1,503.12
2014	1,503.12
2015	1,503.12
2016	1,127.34
	$ 5,636.70

V. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013, and 2012 are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ -	$ 402,500.00	$ -	$ 396,167.00
Special Road and Bridge Fund	2,867.03	-	10,649.51	-
Assessment Fund	22,500.00	-	27,167.00	-
Road and Bridge Capital Improvement Fund	-	-	-	10,649.51
County Farm Fund	-	2,867.03	-	-
Law Enforcement Operating Fund	380,000.00	-	369,000.00	-
TOTAL	$ 405,367.03	$ 405,367.03	$ 406,816.51	$ 406,816.51

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $48,000.82 and $49,970.16, respectively.

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Lewis County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries.

LAGERS was created and governed by statute, Section RSMO 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Status

Full-time employees of Lewis County do not contribute to the pension plan. The June 30th statutorily required contribution rates are 9.7% (General) and 13.0% (Police) for 2013 and 8.7% (General) and 13.5% (Police) for 2012, of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

The subdivision's annual pension cost and net pension obligation for the current years 2013 and 2012 were as follows:

2013

Annual required contribution	$	120,110
Interest on net pension obligation		4,242
Adjustment to annual required contribution		(3,899)
Annual pension cost		120,453
Actual contributions		109,540
Increase (decrease) in NPO		10,913
NPO beginning of year		58,508
NPO end of year	$	69,421

VII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO) (continued)

The annual required contribution (ARC) was determined as part of the February 28, 2011, and February 29, 2012, annual actuarial valuations using the entry age actuarial cost method. The actuarial assumptions as of February 28, 2013, included: (a) a rate of return on the investment of present and future assets of 7.25% per year, compounded annually, (b) projected salary increases of 3.5% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement mortality based on 75% of the RP-2000 Combined Healthy table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on 105% of the 1994 Group Annuity Mortality table set back 0 years for men and 0 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period as of February 28, 2011, was 30 years for the General division and 16 years for the Police division. The amortization period as of February 29, 2012, was 30 years for the General division and 15 years for the Police division.

THREE-YEAR TREND INFORMATION

Year Ended June 30	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2011	$ 110,030	77.7%	$ 39,686
2012	114,374	83.5	58,508
2013	120,453	90.9	69,421

The actuarial assumptions were changed in conjunction with February 28, 2011, annual actuarial valuations. For a complete description of the actuarial assumptions used in the annual valuations, please contact the LAGERS office in Jefferson City.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had zero COBRA participants at December 31, 2013, and December 31, 2012.

IX. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,244 and $2,244, respectively, for the years ended December 31, 2013, and 2012.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

X. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

B. Compensated Absences

The County provides employees with up to 15 days of paid vacation based upon the number of years of continuous service. Employees receive five days of vacation after the first year of service, ten days of vacation per year after two years of employment, 15 days of vacation per year after seven years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The County allows employees to have a maximum of thirty days. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

On April 21, 2014, the County purchased a 2014 Ford Police Interceptor Utility vehicle in the amount of $26,703. The County entered into an annually renewable lease purchase agreement with Ford Motor Credit to finance $12,896.88 of the purchase. The lease purchase agreement calls for one annual payment of $13,806.12. The lease purchase agreement carries an interest rate of 7.05%.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Lewis, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Lewis ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness. [FS 13/12-04]

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies. [FS 13/12-01, FS 13/12-02, FS 13/12-03, FS 13/12-05]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The County of Lewis, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Lewis' ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2013, and 2012. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013, and 2012.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item SA 13/12-01. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item SA 13/12-01, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Lewis County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and, if applicable, noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUB-RECIPIENTS

The County provided no federal awards to sub-recipients during the years ended December 31, 2013, and 2012.

THE COUNTY OF LEWIS
MONTICELLO, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Qualified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2013	X Yes	___ No
	2012	X Yes	___ No
b. Significant deficiencies identified?	2013	X Yes	___ None Reported
	2012	X Yes	___ None Reported

3. Noncompliance material to financial statements noted?

	2013	___ Yes	X No
	2012	___ Yes	X No

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2013	___ Yes	X No
	2012	___ Yes	X No
b. Significant deficiencies identified?	2013	X Yes	___ None Reported
	2012	X Yes	___ None Reported

2. Type of auditor's report issued on compliance for major programs:

2013 - Unmodified

2012 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

2013	X Yes	___ No
2012	X Yes	___ No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2013/2012	20.205	Department of Transportation – Highway Planning and Construction

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2013 ___ Yes X No

2012 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 13/12-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 13/12-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

FS 13/12-03 Criteria: Formal bank reconciliations must be prepared monthly on a timely basis by the Treasurer's office.

Condition: We noted that bank reconciliations were not being documented, though the general ledger was being reviewed and reconciled to the bank statements.

Context: This deficiency became apparent through our testing of the Treasurer's cash accounts.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management's software does not place adequate emphasis upon creating bank reconciliations that allow the reviewing of cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Treasurer prepare and document monthly bank reconciliations and adjustments to the cash accounts.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 13/12-03 Views of Responsible Officials and Planned Corrective Actions: The Treasurer already documents the bank reconciliations on a monthly basis. The Treasurer has asked the software designer to provide bank reconciliations with outstanding check lists and currently maintain a separate spreadsheet until the software is updated. The Treasurer is Kim Porter and her office number is (573)767-5446.

FS 13/12-04 Criteria: Formal bank reconciliations and check registers must be prepared on a timely basis by the Collector's office.

Condition: We noted that bank reconciliations or check registers were not being maintained by the Collector's office by the former Collector.

Context: This deficiency became apparent through our testing of the Collector's cash accounts.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions. Negative balances may occur if outstanding items are not documented.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector prepare monthly bank reconciliations and adjustments to the cash accounts while maintaining an accurate check register.

Views of Responsible Officials and Planned Corrective Actions: The new Collector has begun a check register subsequent to the audit report date and is working to maintain accurate bank reconciliations. The new County Collector took office in November 2013 and has been working diligently to reconcile all bank accounts. The County Collector is Denise Goodwin, and her office number is (573)767-5438.

FS 13/12-05 Criteria: SAS No. 109, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement* and SAS No. 110, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained* which supersede SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit.*

Condition: Lack of segregation of duties and lack of controls over information technology.

Context: During our testing of internal controls and the cash for the Collector's office, we noted a lack of segregation of duties in the areas of receipts and disbursements as well as a software issue that allowed unmonitored changes to be made within the system.

Effect: Potential errors and changes could be made within the Collector's office financial records due to a lack of segregation of duties and internal control over the informational technology.

II. FINANCIAL STATEMENT FINDINGS (concluded)

FS 13/12-05 Cause: The Collector's office assigned a limited number of personnel with insufficient segregation of duties between staff to review and manage cash for this account. Also, the software allows unauthorized changes to be performed.

Recommendation: These areas should be reviewed periodically by management and consideration should be given to the improving of segregation of duties.

Views of responsible officials and planned corrective actions: The Collector's office will work to strengthen internal controls to mitigate the risks of a segregation of duties issue. The new County Collector took office in November 2013 and has been working diligently to strengthen internal controls within the office. The County Collector is Denise Goodwin, and her office number is (573)767-5438.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012

The following findings, recommendations, and questioned costs are the results of the single audit of Lewis County, Missouri for the fiscal years ended December 31, 2013, and 2012. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (continued)

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

C. Federal Award Findings and Questioned Costs

SA 13/12-01	Federal Grantor:	U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Transportation, Election Assistance Commission, U.S. Department of Homeland Security, U.S. Department of Justice, U. S. Department of Housing and Urban Development, General Services Administration
Other Information	Pass-Through Grantor:	Office of Chief Engineers, State of Missouri, Highway and Transportation Commission, University of Central Missouri, Office of Secretary of State, State Department of Public Safety, State Emergency Management Agency, Northeast Missouri Regional Planning and Economic Development Commission
Significant Deficiency	Federal CFDA Number:	12.112, 14.228, 15.226, 16.607, 16.585, 20.205, 20.600, 20.601, 20.607, 39.011, 90.401, 97.036, 97.042
	Program Title:	Payments to States in Lieu of Real Estate Taxes, PILT - Payment in Lieu of Taxes, Bulletproof Vest Partnership Program, Drug Court Discretionary Grant Program, Highway Planning and Construction, State and Community Highway Safety, Alcohol Impaired Driving Countermeasures Incentive Grants I, DWI Enforcement, Help America Vote Act Requirements Payments, Presidentially Declared Disasters, Emergency Management Performance Grants, Community Development Block Grant, Election Reform Payments

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (concluded)

C. Federal Award Findings and Questioned Costs (concluded)

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correctly prepared going forward. In order for the County Clerk to prepare an accurate SEFA all officeholders must submit detailed documentation of federal awards received and expended. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

THE COUNTY OF LEWIS
MONTICELLO, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no prior year financial statement findings to report.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no prior year federal award findings to report.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 17, 2014

To the Board of Commissioners
County of Lewis

In planning and performing our audit of the regulatory based financial statements of the County of Lewis (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in the County's internal control to be material weaknesses as noted in section II:

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Deficiency Considered to be a Material Weakness
III. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

FS 13/12-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

FS 13/12-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

FS 13/12-02 Views of responsible officials and planned corrective actions: The County is in the process of preparing the needed documentation to document their internal control structure in conformity with the COSO framework. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

FS 13/12-03 Criteria: Formal bank reconciliations must be prepared monthly on a timely basis by the Treasurer's office.

Condition: We noted that bank reconciliations were not being documented, though the general ledger was being reviewed and reconciled to the bank statements.

Context: This deficiency became apparent through our testing of the Treasurer's cash accounts.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions.

Cause: Management's software does not place adequate emphasis upon creating bank reconciliations that allow the reviewing of cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Treasurer prepare and document monthly bank reconciliations and adjustments to the cash accounts.

Views of Responsible Officials and Planned Corrective Actions: The Treasurer already documents the bank reconciliations on a monthly basis. The Treasurer has asked the software designer to provide bank reconciliations with outstanding check lists and currently maintain a separate spreadsheet until the software is updated. The Treasurer is Kim Porter and her office number is (573)767-5446.

FS 13/12-05 Criteria: SAS No. 109, *Understanding the Entity and Its Environment and Assessing the Risks of Material Misstatement* and SAS No. 110, *Performing Audit Procedures in Response to Assessed Risks and Evaluating the Audit Evidence Obtained* which supersede SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit.*

Condition: Lack of segregation of duties and lack of controls over information technology.

Context: During our testing of internal controls and the cash for the Collector's office, we noted a lack of segregation of duties in the areas of receipts and disbursements as well as a software issue that allowed unmonitored changes to be made within the system.

Effect: Potential errors and changes could be made within the Collector's office financial records due to a lack of segregation of duties and internal control over the informational technology.

Cause: The Collector's office assigned a limited number of personnel with insufficient segregation of duties between staff to review and manage cash for this account. Also, the software allows unauthorized changes to be performed.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

FS 13/12-05 Recommendation: These areas should be reviewed periodically by management and consideration should be given to the improving of segregation of duties.

Views of responsible officials and planned corrective actions: The Collector's office will work to strengthen internal controls to mitigate the risks of a segregation of duties issue. The new County Collector took office in November 2013 and has been working diligently to strengthen internal controls within the office. The County Collector is Denise Goodwin, and her office number is (573)767-5438.

SA 13/12-01	Federal Grantor:	U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Transportation, Election Assistance Commission, U.S. Department of Homeland Security, U.S. Department of Justice, U.S. Department of Housing and Urban Development, General Services Administration
Other Information	Pass-Through Grantor:	Office of Chief Engineers, State of Missouri, Highway and Transportation Commission, University of Central Missouri, Office of Secretary of State, State Department of Public Safety, State Emergency Management Agency, Northeast Missouri Regional Planning and Economic Commission
Significant Deficiency	Federal CFDA Number:	12.112, 14.228, 15.226, 16.607, 16.585, 20.205, 20.600, 20.601, 20.607, 39.011, 90.401, 97.036, 97.042
	Program Title:	Payments to States in Lieu of Real Estate Taxes, PILT - Payment in Lieu of Taxes, Bulletproof Vest Partnership Program, Drug Court Discretionary Grant Program, Highway Planning and Construction, State and Community Highway Safety, Alcohol Impaired Driving Countermeasures Incentive Grants I, DWI Enforcement, Help America Vote Act Requirements Payments, Presidentially Declared Disasters, Emergency Management Performance Grants, Community Development Block Grant, Election Reform Payments

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards.*

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

SA 13/12-01 *Cause*: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correctly prepared going forward. In order for the County Clerk to prepare an accurate SEFA all officeholders must submit detailed documentation of federal awards received and expended. The County Clerk is Sharon Schlager, and her office phone number is (573)767-5205.

II. DEFICIENCY CONSIDERED TO BE A MATERIAL WEAKNESS

FS 13/12-04 Criteria: Formal bank reconciliations and check registers must be prepared on a timely basis by the Collector's office.

Condition: We noted that bank reconciliations or check registers were not being maintained by the Collector's office by the former Collector.

Context: This deficiency became apparent through our testing of the Collector's cash accounts.

Effect: Errors may go undetected if proper controls are not in place to review cash transactions. Negative balances may occur if outstanding items are not documented.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate reconciliations.

Recommendation: We recommend that the Collector prepare monthly bank reconciliations and adjustments to the cash accounts while maintaining an accurate check register.

Views of Responsible Officials and Planned Corrective Actions: The new Collector has begun a check register subsequent to the audit report date and is working to maintain accurate bank reconciliations. The new County Collector took office in November 2013 and has been working diligently to reconcile all bank accounts. The County Collector is Denise Goodwin, and her office number is (573)767-5438.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated March 31, 2014. Professional standards also require that we communicate to you the following information related to our audit.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (continued)

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 17, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Other Matters

We were engaged to report on the schedule of expenditures of federal awards which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Reynolds County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Reynolds County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Reynolds, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Reynolds ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Reynolds' basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2014, on our consideration of the County of Reynolds' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Reynolds' internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Reynolds, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1845 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Public Administrator, and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the county of Reynolds County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation was:

	2013	2012
Real Estate	$ 103,169,161	$ 100,218,668
Personal Property	27,201,237	27,583,397
Railroad and Utilities	47,214,879	47,403,130
	$ 177,585,277	$ 175,205,195

During 2013 and 2012, the County Commission approved a $0.8458 and $0.8388, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.3900	$ 0.3830
Special Road and Bridge Fund	0.3258	0.3258
Senior Services Fund	0.0300	0.0300
Senate Bill 40 Fund	0.1000	0.1000
	$ 0.8458	$ 0.8388

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash investment pool that is available for all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amount of the County's deposits was $1,628,490.88 and $1,675,555.49, and the bank balances were $4,795,212.81 and $4,222,798.87, respectively. The total bank balances as of December 31, 2013, were under-pledged by $530,112.30. The total bank balances as of December 31, 2012, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances	
Deposits	$ 1,628,490.88
Total Deposits as of December 31, 2013	1,628,490.88

The carrying values of deposits shown above are included in the financial statements at December 31, 2012, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash Balances	
Deposits	$ 1,675,555.49
Total Deposits as of December 31, 2012	1,675,555.49

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2012. The County's deposits were exposed to custodial credit risk for the year ended December 31, 2013 by $530,112.30.

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. LONG-TERM DEBT

On March 7, 2011, the County obtained a $46,295.00 Case Tractor and Alamo Brush cutter loan through Great Southern Bank (Formerly Sun Security Bank) for the County. The principle payments are due in monthly payments of $1,990.27 from April 3, 2011, through March 3, 2013. The interest rate is fixed at 3.00%. The loan was paid off in advance in 2012.

	Balance at December 31, 2011	Amount Borrowed	Amount Repaid	Balance at December 31, 2012	Interest Paid During Year
Loans payable	$ 27,325.94	$ -	($27,325.94)	-	$ 420.74
Totals	$ 27,325.94	$ -	($27,325.94)	-	$ 420.74

IV. INTERFUND TRANSFERS

There were no transfers made for the years ended December 31, 2013, and 2012.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $90,187.23 and $75,601.49, respectively.

VI. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County did not have any COBRA participants at December 31, 2013, and December 31, 2012.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,244 and $2,244, respectively, for the years ended December 31, 2013 and 2012.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. This ranges from getting one week after the first year of service, and four weeks after fifteen years of service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable. County employees receive two personal days when they start, after one year they get six days. An employee is not reimbursed for unused personal time upon termination of employment. These have not been subjected to auditing procedures.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

X. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2013, the General Revenue Fund, Special Road and Bridge Fund, Assessment Fund, and Senate Bill 40 Fund were not amended to match the actual cash balances.

B. For the year ended December 31, 2013, expenditures exceeded those budgeted for the following funds: Children's Trust Fund, Senate Bill 40 Fund, Sheriff's Revolving Fund, County Law Enforcement Fund, and Tax Maintenance Fund.

C. For the year ended December 31, 2012, expenditures exceeded those budgeted for the following funds: Assessment Fund, Sheriff's Training Fund, Senior Services Fund, Senate Bill 40 Fund, Sound Recording Fund, Sheriff's Revolving Fund, County Law Enforcement Fund, and Tax Maintenance Fund.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Reynolds, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Reynolds ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [FS 13/12-01, FS 13/12-02, FS 13/12-03, FS 13/12-04]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Independent Auditor's Report

To The County Commission
The County of Reynolds, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Reynolds' ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the years ended December 31, 2013, and 2012. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2013, and 2012.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item SA 13/12-01. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item SA 13/12-01, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Total Expenditures of Federal Awards			**$ 1,028,832.12**	**$ 763,034.98**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each major program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Reynolds County, Missouri.

B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

*Federal financial assistanc*e means assistance that non-federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means federal financial assistance and federal cost-reimbursement contracts that non-Federal entities receive directly from federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and, if applicable, noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

NOTE 2 – SUB-RECIPIENTS

Of the federal expenditures presented in the accompanying schedule of expenditures of federal awards, the County provided federal awards to sub-recipients as follows:

Program Title	Sub-Recipients	Federal CFDA Number		Amount Provided to Sub-Recipients
Schools and Roads – Grants	Centerville R-1 School	10.665	2013	$97,739.04
to States and National Forest	District		2012	$68,608.72
Schools and Roads – Grants	Bunker R-III School	10.665	2013	$121,249.85
to States and National Forest	District		2012	$172,587.51
Schools and Roads – Grants	Lesterville R-IV School	10.665	2013	$98,520.63
to States and National Forest	District		2012	$140,234.61

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified?	2013	___ Yes	X No
	2012	___ Yes	X No
b. Significant deficiencies identified?	2013	X Yes	___ None Reported
	2012	X Yes	___ None Reported

3. Noncompliance material to financial statements noted?

	2013	___ Yes	X No
	2012	___ Yes	X No

B. Federal Awards

1. Internal control over major programs:

a. Material weakness(es) identified?	2013	___ Yes	X No
	2012	___ Yes	X No
b. Significant deficiencies identified?	2013	X Yes	___ None Reported
	2012	X Yes	___ None Reported

2. Type of auditor's report issued on compliance for major programs:

2013 - Unmodified

2012 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 510 (a) of *Circular A-133*?

	2013	X Yes	___ No
	2012	X Yes	___ No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2013/2012	10.665	Schools and Roads – Grants to States and National Forest
2013/2012	97.036	Disaster Grants – Public Assistance Grants

5. Dollar threshold used to distinguish between type A and type B programs: $ 300,000

6. Auditee qualified as low-risk auditee? 2013 ___ Yes X No

2012 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

FS 13/12-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to further understand COSO internal controls. The County Clerk is Mike Harper's and his office phone number is (573)648-2494.

II. FINANCIAL STATEMENT FINDINGS (continued)

FS 13/12-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statement. The County questions if county governments of its size are required to comply with SAS standards. The County Clerk is Mike Harper's and his office phone number is (573)648-2494.

FS 13/12-03 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Recorder of Deeds.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

II. FINANCIAL STATEMENT FINDINGS (concluded)

FS 13/12-03 Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The Recorder's office will continue to be monitored and additional personnel will be added when possible. The County Recorder of Deed is Myra Turner and her office phone number is (573)648-2494.

FS 13/12-04 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the Collector of Revenue's accounts were under-pledged for the year ended December 31, 2013.

Context: The Collector of Revenue holds bank accounts with a financial institution that was under collateralized by $530,112.30 at December 31, 2013.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The County stated that the merger within the bank holding the deposits caused the pledged securities to be overlooked. The Collector of Revenue is Cindy Jenkins and her office phone number is (573) 648-2494.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012

The following findings, recommendations, and questioned costs are the results of the single audit of Reynolds County, Missouri for the fiscal years ended December 31, 2013 and 2012. Each finding is referenced with a two-digit number representing the fiscal years audited, an "SA" to indicate that it is a single audit finding, and a sequential number. The findings are presented by federal program and are classified according to federal and state department, type of compliance requirement, category of internal control weakness, and category of noncompliance.

A. Category of Internal Control Weakness

If the finding represents a weakness in internal control, one of the following designations will appear:

1. Significant Deficiency: A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

2. Material Weakness: A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

B. Category of Noncompliance Findings

If the finding represents an instance of noncompliance, one of the following designations will appear:

1. Material Noncompliance: A material noncompliance finding is a finding related to a major federal program which discusses conditions representing noncompliance with federal laws, regulations, contracts, or grants, the effects of which have a material effect in relation to a type of compliance requirement or audit objective identified in OMB Circular A-133 *Compliance Supplement*.

2. Questioned Cost Finding: A questioned cost finding is a finding which discusses known or likely questioned costs that are greater than $10,000 for a type of compliance requirement, unless the conditions giving rise to the questioned costs are otherwise reported as a material noncompliance finding.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (continued)

C. Federal Award Findings and Questioned Costs

SA 13/12-01	Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Housing and Urban Development, U.S. Department of Homeland Security, and Election Assistance Commission
Other Information	Pass-Through Grantor:	Office of Administration, Forest Service, Department of Public Safety, Missouri Department of Transportation, Missouri Department of Economic Development, Missouri State Emergency Management Agency, and Office of Secretary of State
Significant Deficiency	Federal CFDA Number:	10.665, 10.xxx, 14.228, 12.xxx, 15.226. 16.575, 20.607, 90.401, 97.036
	Program Title:	Schools and Roads – Grants to States and National Forest, Forest Service Meth Contract, Clearwater Lake Program, Community Development Block Grant, PILT – Payment in Lieu of Taxes, Crime Victim Assistance, DWI Enforcement, Help America Vote Act Requirements Payments, and Disaster Grants – Public Assistance Grants

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEARS ENDED DECEMBER 31, 2013 AND 2012 (concluded)

C. Federal Award Findings and Questioned Costs (concluded)

SA 13/12-01 *Recommendation:* The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correct. The County Clerk's office (Mike Harper) phone number is (573) 648-2494.

THE COUNTY OF REYNOLDS
CENTERVILLE, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

FS 11/10-01 Criteria: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, under Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which is effective for periods ending on or after December 15, 2009, conditions necessitating the entity's auditor to provide such assistance is at least indicative of a significant deficiency. SAS No. 115 supersedes SAS No. 112.

Condition: During the current year, auditors of the County assisted with the preparation of the financial statements and the notes to the financial statements.

Context: During discussions with management, we noted that we will be assisting the County with the preparation of its audited financial statements and footnotes.

Effect: Auditors may continue to assist clients with the preparation of the financial statements now and in the future. However, SAS 115 indicates that conditions necessitate the entity's auditor to provide such assistance is at least indicative of a significant deficiency in internal control over financial reporting.

Cause: Management did not prepare the financial statements or the notes to the financial statements.

Recommendation: Due to the changing standards, the County may wish to consider alternatives available that would eliminate this situation.

Views of responsible officials and planned corrective actions: Reynolds County will look into corrective action.

Status: This finding has been resolved by the County in the current year.

FS 11/10-02 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 115 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (continued)

FS 11/10-02 Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to determine various risk assessments.

Status: This finding has not been resolved and is repeated in the current year audit as FS 13/12-01.

FS 11/10-03 Criteria: Antifraud programs and controls are the policies and procedures an organization puts in place to ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our engagement, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statement. The County was not aware of new SAS requirements and questions if county governments of its size are required to comply with SAS standards.

Status: This finding has not been resolved and is repeated in the current year audit as FS 13/12-02.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (continued)

FS 11/10-04 Criteria: The Collector's bank accounts are not reconciled in detail on a monthly basis.

Condition: During our audit, we noted that there is not a formal reconciliation of the Collector's bank accounts.

Context: Supporting documentation for the Collector's reconciliations for December 31, 2011 and 2010 do not exist.

Effect: Lack of proper reconciliation and monitoring of accounts may lead to errors that may not be found in a timely manner.

Cause: The Collector's office has not completed a formal reconciliation for its bank accounts.

Recommendation: We recommend that the Collector’s office complete reconciliations for its accounts on a monthly basis and monitor the reconciliations to be sure supporting documentation is provided to support the reconciliations. These reconciliations will ensure meaningful and accurate financial statements. Unreconciled differences that appear immaterial can obscure significant but offsetting items that would cause investigation if the items were apparent.

Views of responsible officials and planned corrective actions: The Collector has implemented new controls for the bank accounts effective April, 2012. The account will be reconciled on a monthly basis and the Collector will monitor the reconciliations to be sure that supporting documentation is provided.

Status: This finding has been resolved in the current year.

FS 11/10-05 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the County was under-pledged for the year ended December 31, 2011.

Context: The County holds bank accounts with a financial institution that was under collateralized by $1,980,797.26 at December 31, 2011, until the next business day of January 3, 2012, when it was then fully collateralized.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS (concluded)

FS 11/10-05 Views of responsible officials and planned corrective actions: By the time the County realized that a large deposit that was made on the last business day of the year made us under collateralized, it was too late to do anything. We ensured that the County was fully collateralized on the next available business day. The County will review account balances and ensure that they are collateralized on a regular basis.

Status: This finding has not been resolved and is repeated in the current year audit as FS 13/12-04.

FS 11/10-06 Criteria: The Senate Bill 40 Board does not complete at least an annual compilation of its financial position - a profit and loss statement.

Condition: During our audit, we noted that there is not a formal compilation of income and expenses for the Senate Bill 40 financial data.

Context: Supporting documentation for the Senate Bill 40's revenues and expenses for December 31, 2011 and 2010 do not exist.

Effect: Lack of proper compiling and monitoring of revenues and expenses may lead to errors that may not be found in a timely manner.

Cause: The Senate Bill 40 Board has not completed a formal compilation of revenues and expenses for the years ended December 31, 2011 and 2010.

Recommendation: We recommend that the Senate Bill 40 Board complete compilations of its revenues and expenses on a monthly basis, or at least on an annual basis and monitor the revenues and expenses as compared to the budgeted items.

Views of responsible officials and planned corrective actions: The Senate Bill 40 Board has implemented new controls compiling the revenues and expenses. The data will now be compiled in excel at least on an annual basis.

Status: This finding has been resolved in the current year.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

SA 11/10-01	Federal Grantor:	U.S. Department of Homeland Security
Other Information	Pass-Through Grantor:	State
Significant Deficiency - Internal Control over Compliance Material Weakness - Compliance	Federal CFDA Number:	97.036
	Program Title:	Disaster Grants – Public Assistance Grants

Information on the federal program: The County was unable to provide supporting documentation to test expenditures for this grant.

Criteria: OMB Circular A-133 requires the auditee maintain all backup information for all federal expenditures.

Condition: Through auditing procedures, we were not able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA) for FEMA.

Questioned Costs: Not applicable

Context: During the audit of FEMA, we could not support some of the detailed expenditures related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by Governmental Accounting and Financial Reporting Standards.

Cause: Adequate emphasis was not placed on documenting and retaining detailed expenditures for the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correct and will maintain backup for all detailed expenditures. A new employee had taken over for a previous one that was not organized.

Status: This finding has been resolved in the current year.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 17, 2014

To the Board of Commissioners
County of Reynolds

In planning and performing our audit of the regulatory based financial statements of the County of Reynolds (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

FS 13/12-01 Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County is willing to review this recommendation with the state auditor and the contract auditor to further understand COSO internal controls. The County Clerk is Mike Harper's and his office phone number is (573)648-2494.

FS 13/12-02 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

FS 13/12-02 Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is currently complying with all state statutes relating to the preparation of the financial statements with the preparation of the County's annual budget document and annual financial statement. The County questions if county governments of its size are required to comply with SAS standards. The County Clerk is Mike Harper's and his office phone number is (573)648-2494.

FS 13/12-03 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Recorder of Deeds.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The Recorder's office will continue to be monitored and additional personnel will be added when possible. The County Recorder of Deed is Myra Turner and her office phone number is (573)648-2494.

FS 13/12-04 Criteria: All cash and investments held by financial institutions must be secured through the Federal Deposit Insurance (FDIC) or securities pledged by the financial institution.

Condition: During our testing of cash and pledged securities, it was noted that the Collector of Revenue's accounts were under-pledged for the year ended December 31, 2013.

Context: The Collector of Revenue holds bank accounts with a financial institution that was under collateralized by $530,112.30 at December 31, 2013.

Effect: There is a risk that the County's under collateralized balance may not be returned to the County because the balance is not covered under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (continued)

FS 13/12-04 Recommendation: We recommend that the County periodically review all account balances to ensure they are fully secured.

Views of responsible officials and planned corrective actions: The County will review account balances with the financial institution to ensure that they are collateralized on a regular basis. The County stated that the merger within the bank holding the deposits caused the pledged securities to be overlooked. The Collector of Revenue is Cindy Jenkins and her office phone number is (573)648-2494.

SA 13/12-01	Federal Grantor:	U.S. Department of Agriculture, U.S. Department of Defense, U.S. Department of Interior, U.S. Department of Justice, U.S. Department of Transportation, U.S. Department of Housing and Urban Development, U.S. Department of Homeland Security, and Election Assistance Commission
Other Information	Pass-Through Grantor:	Office of Administration, Forest Service, Department of Public Safety, Missouri Department of Transportation, Missouri Department of Economic Development, Missouri State Emergency Management Agency, and Office of Secretary of State
Significant Deficiency	Federal CFDA Number:	10.665, 10.xxx, 12.xxx, 14.228, 15.226. 16.575, 20.607, 90.401, 97.036
	Program Title:	Schools and Roads – Grants to States and National Forest, Forest Service Meth Contract, Clearwater Lake Program, Community Development Block Grant, PILT – Payment in Lieu of Taxes, Crime Victim Assistance, DWI Enforcement, Help America Vote Act Requirements Payments, and Disaster Grants – Public Assistance Grants

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: OMB Circular A-133 requires the auditee to prepare the Schedule of Federal Expenditures and Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (concluded)

SA 13/12-01 *Recommendation:* The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA. The cost center listing that identifies federal expenditures should be defined and cross matched in a table that is updated monthly by a designee of the County Clerk's office.

Views of responsible officials and planned corrective actions: The County will ensure that the Schedule of Expenditures of Federal Awards (SEFA) is correct. The County Clerk's office (Mike Harper) phone number is (573) 648-2494.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 17, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 17, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditures of federal awards which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Laclede County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Laclede County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the year ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by KPM, Certified Public Accountants, is attached.

Report on Financial Statements

We have audited the accompanying cash basis financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Laclede County, Missouri as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note A; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Laclede County, Missouri, as of December 31, 2013, and the respective changes in the cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the basis of accounting described in Note A.

Basis of Accounting

As described in Note A, Laclede County, Missouri, prepares its financial statements on the cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Disclaimer of Opinion on Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Laclede County, Missouri's basic financial statements. The budgetary comparison information, which is the responsibility of management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Laclede County, Missouri's basic financial statements. The Combining Non-Major Fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

Laclede County Commission
Laclede County
Lebanon, Missouri

The Combining Non-Major Fund financial statements and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2014, on our consideration of Laclede County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Laclede County, Missouri's internal control over financial reporting and compliance.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Laclede County, Missouri (the County) is a county of the 3rd class and operates under a three member County Commission.

The accounting methods and procedures adopted by the primary government of Laclede County, Missouri, and the Developmentally Disabled Board conform to the cash basis of accounting as applied to governmental entities. The following is a summary of the more significant policies.

Financial Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. Financially accountable means the primary government is accountable for the component unit and the primary government is able to impose its will or the component unit may provide financial benefits or impose a burden on the primary government. In addition, component units can be other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The County is a primary government, which is governed by a three member county commission. As required by accounting principles generally accepted in the United States of America, the County has evaluated the above criteria to determine whether any other entity meets the definition of a component unit and must be included in these financial statements. The component unit discussed below is included in the County's reporting entity because of the significance of its operational or financial relationship with the County.

Component Unit

Developmentally Disabled Board

The Developmentally Disabled Board, which is governed by a board of directors appointed by the County Commission, provides disability services to the residents of Laclede County. The Developmentally Disabled Board is included in the financial statements of the County as a component unit due to its financial relationship with the County.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements display information about the primary government and its component unit. Interfund activity has been eliminated from these statements to minimize the duplication of internal activities. Governmental activities, which are supported by taxes and intergovernmental receipts, are reported separately from business-type activities, which rely on fees and charges for services for support.

In the government-wide Statement of Net Position, the governmental activities are consolidated and presented on the cash basis of accounting.

The government-wide Statement of Activities presents a comparison between direct disbursements and program receipts for each function of the County's governmental activities. Direct disbursements are those that are specifically associated with a program or a function. Program receipts include charges for goods or services offered by the programs and grants and contributions that are restricted to meet operating and capital disbursements of a particular program. Receipts that are not classified as program receipts, including all taxes, are presented as general receipts.

FUND FINANCIAL STATEMENTS

Separate fund financial statements report information on the County's governmental and proprietary funds. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining funds are aggregated and reported as nonmajor funds in their respective categories.

The County reports the following major governmental funds:

General Fund: The General Fund is the general operating fund of the County. It is used to account for all financial resources not accounted for in other funds.

Road and Bridge Fund: The Road and Bridge Fund of the County is used to account for resources restricted, committed, or assigned for highway and road disbursements.

Capital Improvement Fund: The Capital Improvement Fund is used to account for the resources restricted, committed, or assigned for capital improvements.

County Development Tax Fund: The County Development Tax Fund is used to account for sales taxes restricted, committed, or assigned for road improvements within the County.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The County also reports the following fund types:

The Internal Service Fund accounts for the health insurance benefits of the County on a cost reimbursement basis.

Agency funds account for miscellaneous assets held by the County for other funds, governmental units, and individuals. The agency funds are custodial in nature and do not involve measurement of results of operations.

Basis of Accounting

The government-wide Statement of Net Position and Statement of Activities and the fund financial statements for the County and the Developmentally Disabled Board, are presented using the cash basis of accounting. This basis recognizes assets, net position/fund balance, receipts, and disbursements when they result from cash transactions. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) *are not recorded* in these financial statements. Also as a result of the cash basis, capital assets and long-term debt of the County and Developmentally Disabled Board are not presented in the financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for the governmental funds would use the modified accrual basis of accounting. All government-wide financial statements and proprietary fund financial statements would be presented on the accrual basis of accounting.

Cash and Cash Equivalents

The County pools cash and cash equivalent resources of various funds in the County Treasurer's office in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. Some County offices also hold cash in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements. Cash equivalents of the County consist of money market accounts and are carried at cost, which approximates fair value.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position

In the government-wide and proprietary fund financial statements, net position is displayed in two components as follows:

A. *Restricted* – This consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

B. *Unrestricted* – This consists of net position that does not meet the definition of restricted.

It is the County's policy to first use restricted net position prior to the use of unrestricted net position when a disbursement is made for purposes for which both restricted and unrestricted net position are available.

Fund Balance Classification

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on constraints imposed on the use of these resources as follows:

Nonspendable fund balance – This classification includes amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact.

Restricted fund balance – This classification reflects the constraints imposed on resources either a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the County Commission – the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the County removes the specified use by taking the same type of action imposing the commitment.

Assigned fund balance – This classification reflects the amounts constrained by the County's "intent" to be used for specific purposes, but are neither restricted nor committed. Assigned fund balances include all remaining amounts (except negative balances) that are reported in the governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

In circumstances when a disbursement is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

Compensated Absences

The County has a county-wide policy on vacation and sick leave for all employees. Leave is taken at the discretion of each officeholder. The accumulated liability for compensated absences is not expected to be liquidated with expendable available financial resources.

NOTE B – CASH AND CASH EQUIVALENTS

The County maintains a cash and cash equivalent pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and cash equivalents". In addition, cash and cash equivalents are separately held by several of the County's funds. State statutes require that County deposits be fully collateralized in the name of the County. As of December 31, 2013, all bank balances on deposit are entirely insured or collateralized with securities.

NOTE C – CLAIMS, JUDGMENTS AND CONTINGENCIES

Federal and State Grants

The County participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Disbursements financed by grants are subject to audit by the appropriate grantor government. If disbursements are disallowed due to noncompliance with grant program regulations, the County may be required to reimburse the grantor government. As of December 31, 2013, significant amounts of grant disbursements have not been audited by grantor governments, but the County believes that disallowed disbursements, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall financial position of the County.

NOTE C – CLAIMS, JUDGMENTS AND CONTINGENCIES (continued)

Legal Matters

There are a number of claims and/or lawsuits to which the County is a party as a result of certain injuries and various other matters and complaints arising in the ordinary course of County activities. The County's management and legal counsel anticipate that the potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

NOTE D – PENSION PLAN – CERF

STATE OF MISSOURI COUNTY EMPLOYEES' RETIREMENT FUND

Plan Description

Laclede County participates in the County Employees' Retirement Fund (CERF), a cost-sharing multiple-employer pension plan. CERF is a defined benefit pension plan which provides retirement and death benefits to plan members and beneficiaries. CERF was created and is governed by state statute, RSMo 50.1000 to 50.1200. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401a and it is tax exempt.

The County Employees' Retirement Fund issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101 or by calling 1-877-632-2373.

Funding Policy

Laclede County's full-time employees hired before February 25, 2002, are required by state statute to contribute 2% of annual payroll to the pension plan. Laclede County's full-time employees hired after February 25, 2002, are required by state statute to contribute 6% of annual covered payroll to the pension plan. The County is required by state statute to remit the fees collected under RSMo, Sections 52.290, 150.150, 137.280, 137.345 and Chapters 59 and 54, RSMo, plus interest. The required contributions have been made.

NOTE E – ASSESSED VALUATION, TAX LEVY AND LEGAL DEBT MARGIN

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1, and are payable by December 31.

The 2013 assessed valuation of the tangible taxable property and the tax levies per $100 assessed valuation of that property were as follows:

ASSESSED VALUATION	2013
Real estate	$ 301,183,684
Personal property	103,968,759
	$ 405,152,443
TAX LEVY	
General Fund	$ .1400
Developmentally Disabled Board	.0669
	$ .2069

The legal debt margin at December 31, 2013, is computed as follows:

	2013
Constitutional debt limit	$ 40,515,244
General obligation bonds payable	(24,000)
LEGAL DEBT MARGIN	$ 40,491,244

Under Article VI, Section 26(b) and (c), Missouri Constitution, the County, by a vote of its qualified electors voting therein, may incur an indebtedness for any purpose authorized by law of the County or by any general law of the State of Missouri. The borrowings authorized by this section shall not exceed ten percent of the value of the taxable tangible property in the County.

NOTE F – LONG-TERM DEBT

In 1997, the County issued $78,000 in Limited General Obligation Bonds. The bonds bear interest at 6.5% with principal and interest payments due on March 1 of each year. The annual debt service requirements to amortize the principal of the Limited General Obligation Bonds outstanding at December 31, 2013, are listed in the table below.

Year Ended December 31,	Principal	Interest	Total
2014	$ 5,000	$ 1,560	$ 6,560
2015	6,000	1,235	7,235
2016	6,000	845	6,845
2017	7,000	455	7,455
	$ 24,000	$ 4,095	$ 28,095

In 2011, the County entered into a loan agreement with the Missouri Department of Natural Resources through the Energy Efficiency Leveraged Loan Program in the amount of $133,010 with zero interest. Semi-annual principal payments are due in February and August each year. The debt service requirements to amortize the principal of the loan outstanding at December 31, 2013, are listed in the table below.

Year Ended December 31,	Principal
2014	$ 36,285
2015	36,285
2016	24,155
	$ 96,725

In August 2011, the County entered into a promissory note agreement in the amount of $33,180 for the purpose of constructing certain road improvements within the Neighborhood Improvement District of Harrill Lane. The note shall bear interest at a rate of 6.75%. Principal and interest payments are due annually on March 20. Annual debt service requirements to amortize the principal at December 31, 2013, are as follows:

NOTE F – LONG-TERM DEBT (continued)

Year Ended December 31,	Principal	Interest	Total
2014	$ 6,636	$ 1,344	$ 7,980
2015	6,636	896	7,532
2016	6,636	448	7,084
	$ 19,908	$ 2,688	$ 22,596

Capital Leases

In 2009, the County entered into a cancelable lease purchase agreement to finance the purchase of a grader at a total cost of $202,866. The agreement requires annual payments of $10,113 through 2013 with a balloon payment of $157,833 due in 2014. The payments include interest at 3.15%.

In 2009, the County entered into a cancelable lease purchase agreement to finance the purchase of a grader at a total cost of $202,866. The agreement requires annual payments of $13,859 through 2013 with a balloon payment of $161,579 due in 2014. The payments include interest at 3.15%.

In 2010, the County entered into a cancelable lease purchase agreement to finance the purchase of two graders at a total cost of $412,000. The agreement requires annual payments of $29,190 through 2014 with a balloon payment of $318,000 due in 2015. The payments include interest at 3.00%.

In 2011, the County entered into a cancelable lease purchase agreement to finance the purchase of a grader at a total cost of $226,850. The agreement requires annual payments of $13,970 through 2015 with a balloon payment of $157,000 due in 2016. The payments include interest at 3.38%.

In 2012, the County entered into a cancelable lease purchase agreement to finance the purchase of a backhoe at a total cost of $196,227. The agreement requires annual payments of $28,742, which includes interest at 2.65% with a balloon payment of $110,000 in 2015.

In 2012, the County entered into a cancelable lease purchase agreement to finance energy upgrades in the amount of $3,100,000. The agreement requires semi-annual payments of $133,881 through 2026. The payments include interest at 3.01%.

NOTE F – LONG-TERM DEBT (continued)

In 2013, the County entered into a cancelable lease purchase agreement to finance the purchase of a motor grader in the amount of $181,821. The agreement requires annual payments of $17,745 through 2016 with a balloon payment of $119,645 due in 2016. The payments include interest at 1.56%.

In 2013, the County entered into a cancelable lease purchase agreement to finance the purchase of a motor grader in the amount of $155,321. The agreement requires annual payments of $12,279 through 2016 with a balloon payment of $114,179 due in 2017. The payments include interest at 1.5%.

Although the agreements provide for cancellation of the leases if the County should fail to appropriate funds at the annual renewal dates, the County does not foresee exercising its options to cancel.

The annual requirements to amortize the principal of the leases are as follows:

Year Ended December 31,	2009 Grader Lease	2009 Grader Lease	2010 Graders Lease	2011 Graders Lease	2012 Backhoe Lease	2012 Energy Upgrades Lease	2013 Grader Lease	2013 Grader Lease	Total
2014	$ 157,833	$ 161,579	$ 29,190	$ 13,970	$ 28,742	$ 267,762	$ 17,745	$ 12,279	$ 689,100

NOTE F – LONG-TERM DEBT (continued)

The following table is the change in long-term debt for the year ended December 31, 2013:

	Balance December 31, 2012	Additions	Retirements	Balance December 31, 2013
Capital Lease Obligations				
2009 Grader Lease	$ 157,645	$ -	$ 5,075	$ 152,570
2009 Grader Lease	164,793	-	8,593	156,200
2010 Graders Lease	346,869	-	18,784	328,085
2011 Grader Lease	176,681	-	7,998	168,683
2012 Backhoe Lease	156,977	-	24,583	132,394
2012 Energy Upgrades Lease	3,036,808	-	177,109	2,859,699
2013 Grader Lease	-	181,821	17,745	164,076
2013 Grader Lease	-	155,321	12,279	143,042
1997 Limited General Obligation Bonds	29,000	-	5,000	24,000
2011 Harrill Lane Promissory Note	26,544	-	6,636	19,908
2012 Energy Loan	133,010	-	36,285	96,725
Compensated Absences	8,455	1,345	-	9,800
	$ 4,236,782	$ 338,487	$ 320,087	$ 4,255,182

NOTE G – RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has transferred its risk by obtaining coverage from commercial insurance companies. In addition, it has effectively managed risk through various employee education and prevention programs. There has been no significant reduction in insurance coverage from the previous year.

NOTE H – INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2013, consisted of the following:

	Transfers In (Out)
General Fund	$ 26,752
Road and Bridge Fund	1,063,833
Capital Improvement Fund	55,000
County Development Tax Fund	(1,505,000)
Assessment Fund	(31,424)
E-911 Fund	(42,021)
Tax Maintenance Fund	(6,200)
Sheriff Revolving Fund	(10,000)
Health Insurance Fund	449,060
	$ -

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statue or budget requires to disburse them, and (2) use unrestricted receipts in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE I – COMMITMENTS

At December 31, 2013, the County was committed to Great Rivers Associates for design and construction on two bridge projects in the amount of $68,735.

Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1) In accordance with Chapter 50, RSMo, the County adopts a budget for each fund.

2) Prior to January 15, the County Clerk, who serves as the Budget Officer, submits to the Commission a proposed budget for the fiscal year beginning on January 1. The budget includes estimated receipts and proposed disbursements for all County funds. Budgeted disbursements cannot exceed beginning available monies plus estimated receipts for the year.

3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Commission, the budget document is available for public inspection.

4) Prior to February 1, the budget is legally enacted by a vote of the Commission.

5) Subsequent to its formal approval of the budget, the Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information included in the financial statements. Budgeted amounts are as originally adopted, or as amended by the Commission. Individual amendments were not material to the original appropriations, which were amended.

6) Budgets for County funds are prepared and adopted on the cash basis (budget basis), recognizing receipts when collected and disbursements when paid.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Laclede County Commission
Laclede County
Lebanon, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Laclede County, Missouri, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise Laclede County, Missouri's basic financial statements and have issued our report thereon dated June 24, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Laclede County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or, significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control that we consider to be a material weakness.

Laclede County Commission
Laclede County
Lebanon, Missouri

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness. It is identified as item 2013-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Laclede County, Missouri's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Laclede County, Missouri's Response to the Finding

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Laclede County, Missouri's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Laclede County, Missouri's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Laclede County Commission
Laclede County
Lebanon, Missouri

Report on Compliance for Each Major Federal Program

We have audited Laclede County, Missouri's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the County's major federal program for the year ended December 31, 2013. Laclede County, Missouri's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance of the Laclede County, Missouri's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination on Laclede County, Missouri's compliance.

Opinion on the Major Federal Program

In our opinion, Laclede County, Missouri, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2013.

Report on Internal Control Over Compliance

Management of Laclede County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Laclede County Commission
Laclede County
Lebanon, Missouri

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

1. Summary of Significant Accounting Policies

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Laclede County, Missouri.

B Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

C. Basis of Accounting

The schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

2. Subrecipients

The County did not provide funds to subrecipients in the current year.

LACLEDE COUNTY, MISSOURI
SUMMARY SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year ended December 31, 2013

A. SUMMARY OF AUDIT RESULTS

1. The independent auditors' report expresses an unmodified opinion on the basic financial statements prepared on the cash basis of accounting.

2. One material weakness disclosed during the audit of the financial statements is reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. No significant deficiencies were reported.

3. No instances of noncompliance material to the financial statements were disclosed during the audit.

4. No significant deficiencies or material weaknesses were disclosed during the audit of the major federal award program.

5. The auditors' report on compliance for the major federal award program expresses an unmodified opinion.

6. There were no findings required to be reported in accordance with Section 510(a) of OMB Circular A-133.

7. The program tested as a major programs was:

Public Assistance Grant	97.036

8. The threshold for determining Type A programs was $300,000.

9. Laclede County, Missouri, was not determined to be a low-risk auditee.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESS

2013-1 Segregation of Duties

Condition: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

Criteria: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT (continued)

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring this lack of segregation of duties to your attention in this report.

Response: The limited number of available personnel prohibits segregation of incompatible duties.

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAM AUDIT

There were no findings or questioned costs for the major federal award programs.

LACLEDE COUNTY, MISSOURI
SCHEDULE OF PRIOR AUDIT FINDINGS
Year ended December 31, 2013

There were no prior year Circular A-133 audit findings.

KPM CPAs

CERTIFIED PUBLIC ACCOUNTANTS AND BUSINESS ADVISORS

Laclede County Commission
Laclede County
Lebanon, Missouri

In planning and performing our audit of the basic financial statements of Laclede County, Missouri, for the year ended December 31, 2013, we considered the County's internal control to determine our auditing procedures for the purpose of expressing an opinion on the basic financial statements and not to provide assurance on the internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. As discussed in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we identified a deficiency in internal control over financial reporting that we consider to be a material weakness.

In addition to the material weakness discussed in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*, we became aware of additional matters to bring to your attention. The following paragraphs summarize our comments and suggestions regarding these matters.

1. Tax Maintenance Fund and Prosecuting Attorney Delinquent Tax Fund

   The County currently maintains a Tax Maintenance Fund for the benefit of the Collector's office, and the Prosecuting Attorney Delinquent Tax Fund. Although the monies are to be used for the benefit of the Collector's office and the Prosecuting Attorney's office, these monies represent County funds. Therefore, the same policies of the County regarding budgeting, receipts, and disbursements should be followed for these funds as with other funds of the County.

   We Recommend:

   The County require receipts and disbursements from these funds to be budgeted and the approval process for receipts and disbursements out of these funds should follow the same procedures as with other County funds.

2. Payroll Processing

The County utilizes direct deposit to employees for all payroll disbursements and the payroll is processed by one person who does the direct deposit without having someone not involved in the process review the direct deposit listing.

We Recommend:

The County assign someone not involved in the payroll process to review the listing for direct deposit payroll and initial the listing prior to the disbursement of funds. The approved listing should be retained to indicate the approval of the disbursement of funds.

3. Sheriff Inmate Trust Account

During our audit, we noted the Sheriff's Department was not performing monthly bank reconciliations in a timely manner on the Sheriff's Inmate Trust account. The Sheriff maintains commissary commissions along with inmate monies in this account. Commissary commissions are to be used for the benefit of the Sheriff's Department and represent County funds, however they should be turned over to the County Treasurer on a monthly basis to ensure disbursements paid with these funds are properly budgeted and approved by the County Commission. While the Sheriff's Department turned over commissions to the County Treasurer during 2013, the Sheriff's Department clerk was unable to explain how the commissions were identified and did not do so on a monthly basis. The Sheriff's Department should also maintain a listing of inmate balances held in the account.

We Recommend:

The County along with the Sheriff's Department establish policies and procedures to ensure the Sheriff Inmate Trust account is reconciled on a monthly basis to determine commissary commissions to be turned over to the County Treasurer each month. We further recommend the Sheriff's Department maintain a listing of inmate balances held in the account.

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters or to assist you in implementing the recommendations.

We appreciate this opportunity to serve as Laclede County's independent auditor and the courtesies and assistance extended to us by the County's employees.

CERTIFIED PUBLIC ACCOUNTANTS AND BUSINESS ADVISORS

Laclede County Commission
Laclede County
Lebanon, Missouri

We have audited the financial statements of the governmental activities, the discretely presented component unit, and the major fund of Laclede County, Missouri, for the year ended December 31, 2013. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated March 12, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Laclede County, Missouri, are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2013. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

3828 South Avenue • Springfield, Missouri 65807 • **417-882-0904** • fax 417-882-4343
500 West Main Street, Suite 200 • Branson, Missouri 65616 • **417-334-2987** • fax 417-336-3403
www.kpmcpa.com
Member CPA Associates International, Inc., with offices in principal U.S. and International cities.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. We noted no misstatements regarding assets or net position.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 24, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the cash basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the County Commission and management of Laclede County, Missouri, and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Thomas A. Schweich

Missouri State Auditor

Governor's Withholdings and Estimated Appropriations

September 2014

Report No. 2014-070

http://auditor.mo.gov

Thomas A. Schweich
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Governor's Withholdings and Estimated Appropriations

Background

The state fiscal year begins on July 1 each year. Funding is provided annually to state agencies through the appropriation process. Appropriations provide a cap to the amount of spending for various components of agency operations. The Missouri Constitution separates the powers of state government into 3 branches: legislature, executive, and judiciary. It requires the Governor to submit to the General Assembly a proposed budget, and it authorizes the General Assembly to make specific appropriations. The Constitution forbids any state revenue from being diverted or withdrawn from the state treasury unless it is in accordance with an appropriation made by law. The Governor has the power to veto any portion of an appropriation bill, but the General Assembly may override a veto with a two-thirds majority in each house. The Constitution also gives the Governor the power to (1) control the rate at which any appropriation is expended during the year by allotment or other means, and (2) reduce the expenditures below appropriated amounts (withhold) when actual revenues are less than the revenue estimates upon which the appropriations were based.

Amounts withheld by the Governor cannot be spent unless released by the Governor. There are two types of withholdings, reserves and restrictions. State law requires 3 percent of each appropriation be set aside as a reserve fund and expended only with approval of the Governor. Governor withholdings in excess of the 3 percent reserves are referred to as restrictions. The Governor made withholdings during fiscal years 2013 and 2012. For the General Revenue Fund (GRF), the Governor subsequently released all fiscal year 2013 restrictions, but net fiscal year 2012 restrictions totaled approximately $53.3 million.

General Revenue Fund Restrictions and Appropriations

The Governor's actions to restrict fiscal year 2012 GRF expenditures violated the Missouri Constitution because actual revenues exceeded estimated revenues. Lawful mechanisms that would preserve the constitutionally-mandated separation of powers were available to address any crisis impacting the budget. When a significant event occurs that requires additional spending authority, all or most of that funding can be included in the next year's budget. For example, in fiscal year 2012, the Governor restricted approximately $172 million (excluding the $56 million Facilities Maintenance Reserve Fund transfer restriction) to pay for disaster recovery related to spring 2011 flooding and a massive tornado that struck the City of Joplin on May 22, 2011, but less than $7.8 million was actually spent on these disasters that year. The Governor could have lawfully reduced planned spending by vetoing line item budget items (subject to a potential override vote of the General Assembly). In addition, if additional spending authority is needed during a budget year, the Governor could recommend a supplemental appropriation(s), or utilize the Budget Reserve Fund.

If approved by voters in November, House Joint Resolution No. 72 will narrow the Governor's ability to violate constitutional provisions by giving the General Assembly the power to override the Governor's restrictions.

Estimated (E) Appropriations and Documentation	The use of E appropriations violated state law and allowed the Governor to spend from certain appropriations with no spending limits. Certain appropriations have been designated with an "E" because they are hard to estimate and/or could vary based on external factors. In fiscal year 2013, expenditures from 16 of 64 GRF E appropriations exceeded appropriation amounts in approved house bills by $35 million, while in fiscal year 2012, 26 of 79 exceeded approved amounts by $59 million. In June 2012, the Cole County Circuit Court ruled that the use of E appropriations specifically violates Article IV, Section 23, of the Constitution, which states each appropriation shall specify the amount and purpose of the appropriation. The Office of Administration (OA) does not prepare formal documentation or calculations to support the need for restrictions and does not use a formula to establish restriction amounts. According to the state Budget Director, the Governor and OA prioritize programs and restrict those of lower priority, and consider the programs' other funding sources when deciding upon restrictions. In fiscal year 2012, the Governor's most significant unrestored restrictions included $13.9 million from the Department of Social Services Medicaid appropriations, and $17 million from colleges and universities.
Accounting for Governor Withholdings	The OA has not recorded Governor withholding activities in the state's accounting system, SAM II, in a fully transparent manner. OA personnel record both reserve and restriction amounts in the "reverted" field in SAM II, making it impossible for users to separately identify reserves and restrictions. In addition, offsetting adjustments when the agencies redistribute reserve funds from one appropriation to another, are not separately identified. OA personnel prepare spreadsheets to separately record reserves, restrictions, and releases of restrictions, but these spreadsheets do not reflect the release of reserves or offsetting adjustments. Section 37.070.1, RSMo, requires each state department to carry out its mission with full transparency to the public.

Because of the limited objectives of this review, no overall rating is provided.

THOMAS A. SCHWEICH
Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Members of the General Assembly
and
Douglas Nelson, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain aspects related to Governor's Withholdings and Estimated Appropriations in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to determine:

1. Amounts restricted and subsequently released from General Revenue Fund appropriations during the fiscal years ended June 30, 2013, and 2012.

2. Whether actual General Revenue Fund revenues exceeded the consensus revenue estimates.

3. Whether amounts restricted from appropriated expenditures were accurately calculated and adequately supported.

4. Whether methods used to make withholdings and the utilization of estimated appropriations comply with applicable legal provisions.

We determined (1) all fiscal year 2013 amounts restricted were subsequently released, but fiscal year 2012 net General Revenue Fund restrictions totaled approximately $53.3 million; (2) actual General Revenue Fund revenues exceeded consensus revenue estimates in both years; (3) documentation to support the amounts restricted was not maintained; and (4) fiscal year 2012 restrictions and the utilization of estimated appropriations appear to violate constitutional provisions. We also determined the restrictions appear to circumvent the separation of powers of the Missouri Constitution, and withholding activities are not recorded in a fully transparent manner in the state's accounting system.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Thomas A. Schweich
State Auditor

In-Charge Auditor:	John Lieser, CPA

Governor's Withholdings and Estimated Appropriations Introduction

Background

Funding is provided annually to agencies of state government through the appropriation process. Appropriations provide a cap to the amount of spending for the various components of agency operations for the fiscal year, which begins each July 1st.

Constitutional provisions

Various sections of the Missouri Constitution establish the roles of the Governor and General Assembly related to setting appropriations for the upcoming fiscal year as follows.

- Article II, Section I, separates the powers of the state government into 3 branches - legislature, executive, and judiciary, and Article IV, Section I, vests supreme executive power with the Governor, and Article III, Section I, vests legislative power with the General Assembly.

- Article IV, Section 24, requires the Governor to submit to the General Assembly, within 30 days of it convening (usually in January each year), a budget for the ensuing fiscal year that contains the estimated available revenues, a complete and itemized plan of proposed expenditures of the state, and any recommendations of laws necessary to provide sufficient revenues to meet expenditures.

- Article IV, Section 23, authorizes the General Assembly to make appropriations and requires each appropriation bill specify the amount and purpose of each appropriation.

- Article IV, Section 26, authorizes the Governor to veto any portion of an appropriation bill while approving other portions of the bill. The Governor is required to attach a statement of the items or portions of items to which he objects.

- Article III, Section 32, allows the General Assembly to vote to override a Governor's veto, with a two-thirds majority needed in each house.

- Article IV, Section 27, grants the Governor the power (1) to control the rate at which any appropriation is expended during the year by allotment or other means, and (2) to reduce the expenditures below appropriated amounts (withhold) when actual revenues are less than the revenue estimates upon which the appropriations were based.

- Article IV, Section 27(a), establishes the Budget Reserve Fund. The Governor may request the General Assembly to appropriate emergency funds from this fund with certain restrictions, if there is a budget need due to a disaster.

- Article IV, Section 27(b), requires an annual transfer from the General Revenue Fund (GRF) to the Facilities Maintenance Reserve Fund

(FMRF) equal to one percent of the net GRF revenue collections of the preceding year. This section allows the Governor to reduce or eliminate the amount of the transfer during any year, or following a year the Governor made withholdings. The FMRF is to be used for maintenance, repair, or renovation of state facilities.

- Article IV, Section 28, and Article III, Section 36, provide that no state revenue may be diverted or withdrawn from the state treasury unless it is in accordance with an appropriation made by law.

House Joint Resolution No. 72

In May 2014, the General Assembly passed House Joint Resolution No. 72 (HJR 72), which proposes to amend Article IV, Sections 24 and 27 of the Constitution. These proposed amendments will be presented to state voters in November 2014.

If approved by voters, HJR 72 will not change existing state law which limits the Governor's authority to make restrictions, but will (1) prohibit the Governor from including new revenues that are dependent on proposed legislation in revenue estimates contained in the recommended budget, (2) require the Governor to notify the General Assembly of any expenditure restrictions, and (3) allow the General Assembly to override those restrictions with a two-thirds vote.

General Revenue Fund

The GRF is the chief operating fund of the state and accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Individual income and sales and use taxes comprise most of the receipts of the GRF. GRF collections occur throughout the year with collections in April typically being larger than other months as it coincides with the filing deadline for individual income taxes. Most state agencies receive funding (appropriations) from the GRF. During fiscal years 2013 and 2012, appropriations of the GRF represented about one-third of total appropriations from all funds, with federal and other restricted funds representing about two-thirds of the total.

Consensus revenue estimates

Since the early 1990s, the state has used a consensus revenue estimate (CRE) to estimate GRF revenues. The CRE was an amount agreed upon by the Governor and the General Assembly, based on recommendations prepared by the state Budget Director and the Directors of the House Appropriations and Senate Appropriations Committee Staff. The CRE would comprise a significant portion of the resources available from the GRF for appropriations by the General Assembly. A meeting was held in December each year to agree upon a CRE for the next fiscal year's budget and to revise the CRE for the current fiscal year. While these parties agreed on the CRE for fiscal years 2012 through 2014, they did not agree to a CRE for fiscal year 2015. The initial and revised CRE for fiscal years 2013 and 2012 are presented on Appendix A.

Governor's GRF Summary

The GRF budgets prepared by the Governor and submitted to the General Assembly included a summary analysis of the GRF activities for the previously ended fiscal year and estimates for the current and upcoming fiscal years. The summaries include beginning balances, sources (revenues) and uses (appropriations), and ending balances. The principal funding sources included in the analyses are the CRE, except for fiscal year 2015 when the CRE was not agreed upon and revenues were estimated by the Governor. The analyses also consider lapsed appropriation amounts, transfers, and expenditure restrictions. The data pertaining to fiscal years 2013 and 2012 included in the Governor's GRF Summary for fiscal years 2012 through 2015 are shown at Appendix A.

While the CRE was developed jointly by the Governor and General Assembly, the Governor estimates and adds other GRF revenues to CRE amounts. The Governor's budgets for fiscal years 2013 and 2012 included "other collections" from proposed legislation for tax amnesty and other legislation to enhance revenues. The legislation for most of these items was not approved by the General Assembly and consequently, the Governor reduced the revenue estimates for those items in the subsequent years' budgets.

Governor withholdings

Amounts withheld from appropriations by the Governor cannot be spent unless released by the Governor. There are two primary types of withholdings, reserves and restrictions. OA staff enter both reserves and restrictions in the "reverted" field in the state's accounting system, SAM II.

Reserves

Section 33.290, RSMo, provides that 3 percent of each appropriation, except for those for salaries fixed by law, shall be set aside as a reserve fund and expended only with approval by the Governor. An OA official indicated the 3 percent reserve is routinely applied to all appropriations at the beginning of each fiscal year, except for certain appropriations exempted from reserves. Exempt appropriations are those used:

- To pay debt.
- To refund overpayments.
- As maintenance of effort or matching for a federal program.
- To make court-ordered payments.
- To pay another state agency for a mandatory service.
- For a Governor determined high priority.
- To pay statutory salaries.
- To generate revenues.
- To make mandatory payments.
- In entirety every year (exempting the reserve avoids the need for supplemental appropriations).
- To fund elected officials, the General Assembly, or the judicial branch.

OA officials allow agencies to redistribute (offset) their total reserve amounts among their appropriations, as long as the total reserve amount is not changed. In addition, OA officials indicated reserve amounts can be increased throughout the year when it is determined appropriated amounts are not needed, such as contracts that are not awarded, proposed legislation that does not pass, or identification of other funding sources. Additionally, OA officials will release all or part of a reserve for some appropriations when determined necessary.

Restrictions

Governor withholdings beyond the 3 percent reserves are referred to as restrictions. To support restrictions imposed, the OA prepares documents listing restrictions, amounts, and a brief explanation of each restriction. Similar documentation is prepared for most restriction releases.

During fiscal years 2013 and 2012 the Governor made withholdings on appropriations of the GRF and other funds as noted below.

Appropriations and withholdings (millions)

	General Revenue Fund		Other Funds	
	Fiscal Year 2013	Fiscal Year 2012[1]	Fiscal Year 2013	Fiscal Year 2012[1]
Appropriation Authority[2]	$ 10,834.4	10,937.1	24,753.9	25,967.8
Withholdings				
Restrictions	81.9	113.2	9.3	117.3
Restrictions released	(81.9)	(59.9)	(8.4)	(9.7)
Net restrictions	0	(53.3)	(.9)	(107.6)
Reserves	79.0	80.5	14.0	111.1
Reserves released	(13.7)	(6.1)	(5.4)	(18.7)
Net reserves	(65.3)	(74.4)	(8.6)	(92.4)
Available Appropriations	$ 10,769.1	10,809.4	24,544.5	25,767.8

[1] Fiscal year 2012 restrictions made in June 2011, excluding the $56 million restriction of the FMRF transfer, totaled approximately $172 million.

[2] Biennial appropriations for capital improvements, except for the appropriated transfers for the FMRF, are presented entirely in the first year of the biennial period.

Our analysis of GRF activities noted the OA established the withholdings at the beginning of each year and releases were made primarily during the second half of the fiscal year. All restrictions were released during fiscal year 2013. During fiscal year 2012, the Governor released approximately half of the restrictions, leaving approximately $53 million in monies not released and not available for expenditure. Most of the restriction releases in fiscal year 2012 pertained to the appropriated transfer to the FMRF ($56 million), which was released entirely in accordance with Article IV, Section 27(b) of the Constitution. Detailed schedules of GRF restrictions, reserves, and releases are included in Appendix B and Appendix C.

Allotments

Section 33.290, RSMo, requires departments, within 2 weeks after approval of appropriation bills, to submit to the OA Budget Director requested allotments by quarterly periods for approval by the Governor. OA staff allot the appropriations, net any withhold amounts, into quarterly installments. OA staff enter these quarterly amounts into the "allotment" field in SAM II. Expenditures during any quarter cannot exceed the total allotments year-to-date for any appropriation. For most appropriations, the OA allots 40 percent to first quarter and 20 percent to each of the 3 succeeding quarters during the fiscal year. Section 33.290, RSMo, provides that at the end of a quarterly period, the Governor may reduce the allotments of any department if it appears revenues for the fund for the fiscal year will be less than revenue estimates.

Estimated appropriations

Appropriation bills passed by the General Assembly and signed by the Governor designate certain appropriations as estimated (E) appropriations. Expenditures for E appropriations can exceed the appropriation amount without further legislative approval. E appropriations are utilized as a budgetary practice for those appropriations where the amount is difficult to estimate and/or could vary based on external factors. E appropriations are included in the appropriation bills approved by the Governor and the General Assembly. A $1 E appropriation is typically used for expenditures that cannot be readily estimated such as tax refunds, disasters, and costs of the National Guard when ordered by the Governor to respond to emergency situations. In addition, many E appropriations have no net budgetary effect as they involve refunds or transfers of related receipts.

Extraordinary circumstances

Several extraordinary occurrences affected the GRF budget during the 2 state fiscal years ended June 30, 2013. In Spring 2011, immediately preceding fiscal year 2012 and while fiscal year 2012 appropriations bills were being legislated, the state experienced major natural disasters brought by floods and tornadoes, including the Joplin tornado. In addition, during fiscal years 2013 and 2012, the state's economy was recovering from the 2007 to 2009 recession; and according to the fiscal year 2015 budget summary, in fiscal year 2013, GRF revenues increased at the fastest rate in almost 20 years.

Court Decisions

The State Auditor filed a petition in August 2011 in Cole County Circuit Court contending the Governor unconstitutionally withheld more than $170 million from fiscal year 2012 appropriations (including $300,000 from the Auditor's appropriations) prior to the beginning of the fiscal year and reallocated the withholdings to E appropriations.

In June 2012, the Cole County Circuit Court (*Schweich v. Nixon*, 11 AC-CC00567) ruled the Governor may:

- control the rate of expenditures in any manner he chooses, by spending it all on one day or waiting to the end of the year to release it all or anything in between, regardless of whether revenues are lesser than budgeted.

- withhold expenditures below appropriations any time where actual revenues are less than revenue estimates.

- not increase or pay expenditures for any E appropriation beyond the numerical amount of that appropriation.

On appeal, the Supreme Court dismissed the Auditor's petition without prejudice, and ruled, in October 2013, the Auditor had standing to bring the case with respect to withholdings from the Auditor's budget. With respect to withholdings of other agencies' budgets, the Court held the Auditor had no standing at that time because the 2012 fiscal year had not ended before he brought the suit, and the Constitution does not allow the Auditor to conduct pre-audits of other state official's spending. Additionally, the court ruled the challenge regarding the withholdings from the Auditor's appropriations could not be brought before the end of the year as it could not be determined before year-end whether the Governor was reducing the Auditor's budget or merely controlling the rate of expenditure (*Schweich v. Nixon*, 408 S.W. 32 769 (Mo. 2013).

Scope and Methodology

We reviewed and analyzed the withholdings of the GRF for the 2 fiscal years ended June 30, 2013. The methodology to accomplish our objectives included:

1. Interviewing key personnel from the OA.
2. Reviewing appropriations and withholdings data from the SAM II system, and the OA's data and documentation regarding expenditure restrictions and reserves, and separately identifying restriction and release, reserve and release, and reserve offset activities.
3. Reviewing and evaluating certain applicable legal provisions.
4. Reviewing state budgets and appropriation house bills.
5. Reviewing other records as necessary.

We also determined the amounts of withholdings and releases from other funds, but our audit primarily focused on the GRF due to the size of the fund and its pervasive effect on the operations throughout much of the state government, and because CRE only relates to the GRF.

Governor's Withholdings and Estimated Appropriations Management Advisory Report State Auditor's Findings

1. General Revenue Fund Restrictions and Appropriations

The Governor's actions to restrict fiscal year 2012 General Revenue Fund (GRF) expenditures violated constitutional provisions because actual revenues exceeded estimated revenues. Lawful constitutional mechanisms were available that could have been utilized to address unforeseen circumstances impacting the budget, and would have provided the separation of powers provided for in the Constitution.

Restrictions

The Governor ordered restrictions totaling approximately $82 million and $113 million for the fiscal years 2013 and 2012. Approximately $70 million and $56 million of these amounts were restrictions related to the Facilities Maintenance Reserve Fund (FMRF) transfers as allowed by Article IV, Section 27(b), of the Constitution. While the Governor subsequently released all fiscal year 2013 restrictions, he released only $60 million (including all of the FMRF related restrictions) of the fiscal year 2012 restrictions. The Governor ordered the fiscal year 2012 restrictions in June 2011, and the fiscal year 2013 restrictions in June 2012, before the fiscal years had begun. These restrictions were entered as reverted amounts in SAM II, reducing applicable appropriations by those amounts.

Actual revenues exceeded revenue estimates for fiscal years 2013 and 2012, as noted in the following table.

Estimated and Actual Revenues (millions)

	Fiscal Year 2013			Fiscal Year 2012		
	Initial Estimate	Revised Estimate	Actual[1]	Initial Estimate	Revised Estimate	Actual[1]
Consensus Revenue Estimate (CRE)	$ 7,586	7,692		7,295	7,301	
Other collections[2]	90	19		59	0	
Total CRE and other collections	$ 7,676	7,711	8,083	7,354	7,301	7,341

[1] OA officials were unable to separately identify actual revenues for CRE and other collections.

[2] Amounts estimated by the Governor.

The OA Budget Director explained the OA and the Governor monitor the state's budget on an on-going basis and the restrictions were necessary to balance the budget because of a number of reasons, including the occurrence of unforeseen circumstances requiring additional expenditures. However, the Constitution allows expenditure restrictions only when revenue shortfalls occur. The Missouri Supreme Court, in three prior cases, has upheld such permanent restrictions only in cases involving actual revenues coming in below the CRE for that fiscal year.[1]

[1] *State ex re. Liberty School District v. Holden*, 121 S.W.3d 232, 233 (Mo. banc 2003)
Missouri Health Care Association v. Holden, 89 S.W.3d 504, 512 (Mo. 2002)
State ex re. Sikeston R-VI School District v. Ashcroft, 828 S.W.2d 372, 376 (Mo. banc 1992)

The Cole County Circuit Court ruled the Governor can make restrictions at any time of the year as long as the revenues received to date have not exceeded estimates; and release funds at the time revenues received to date equal or exceed estimates. The court explained in a perfectly balanced budget, this would occur on the last day of the fiscal year. Furthermore, the Missouri Supreme Court ruled the determination of revenue shortfalls cannot be made until the fiscal year has ended. However, from a financial management standpoint, it is not fiscally prudent to wait until the fiscal year has ended to determine whether shortfalls have occurred and restrictions/releases are needed.

Constitutional mechanisms for addressing budgetary needs

State law outlines lawful mechanisms to address budgetary needs.

The most obvious mechanism for reducing the budget provided for in the Constitution is the Governor's veto power. The Governor may veto line item budget items, subject to a potential override vote of the General Assembly. The Governor generally vetoes some budget items each year. In fiscal years 2013 and 2012, the Governor vetoed appropriated expenditures totaling $240,000 and $30,000, respectively. According to the state Budget Director, the Governor and the OA prefer to use the restriction process, rather than the veto process, because of their ability to release funds restricted later in the fiscal year. By approving budget items and not exercising the veto power, and instead restricting and not releasing the associated appropriations even when revenues exceed estimates, the Governor is effectively vetoing the budget items and precluding the General Assembly from overriding the veto, which circumvents the separation of powers of the Missouri Constitution.

The constitutional means for providing additional spending authority after the budget is approved is the supplemental appropriation process in which the Governor recommends and General Assembly approves supplemental appropriations. When additional spending authority is needed, this process should be utilized rather than spending from estimated appropriations (see MAR finding number 2), because it provides for separation of powers. Approximately $23 million of the $39 million (59 percent) in supplemental GRF appropriations recommended by the Governor were approved by the General Assembly in fiscal year 2013, and approximately $70 million of $72 million (97 percent) in fiscal year 2012.

When a significant event occurs that requires additional spending authority, all or most of that funding can be included in the next year's budget, without the need for supplemental appropriation(s) in the current year. For example, in fiscal year 2012, the Governor restricted approximately $172 million (includes approximately $117 million in non-GRF restrictions but excludes the $56 million FMRF transfer restriction) to pay for disaster recovery related to spring 2011 flooding and a massive tornado that struck the City of Joplin on May 22, 2011. However, according to officials of the Department

of Public Safety, State Emergency Management Agency, less than $7.8 million was spent related to these disasters during that year.

A final means available for funding emergency expenses, including disaster-related expenses, is to utilize the Budget Reserve Fund. This means is not the optimal means, but is available and should be considered only when the above three options are not feasible. This option requires the Governor to request an emergency appropriation and two-thirds of the members of each house of the General Assembly to approve it. During fiscal years 2012 and 2013, the Governor made no requests for emergency appropriations from the Budget Reserve Fund.

During fiscal year 2012, any of the above mechanisms were available to address the state's budgetary needs; however, the Governor utilized unconstitutional restrictions and E appropriations (see MAR finding number 2) instead.

HJR No. 72

HJR 72 includes provisions which narrow the Governor's ability to violate constitutional provisions by providing the General Assembly the power to override the Governor's restrictions. If approved by the voters in November 2014, HJR 72 will require the Governor to notify the General Assembly of any restrictions imposed as a result of actual revenues being less than revenue estimates upon which the appropriations were based, and provides for an override of those restrictions with a two-thirds vote in both the House and the Senate. HJR 72 would also prevent the Governor from estimating revenues in the budget dependent on proposed legislation.

Conclusions

Fiscal prudence, including close monitoring of the state budget and taking necessary actions in response to changes, is necessary; however, these procedures should be performed in compliance with constitutional provisions. The failure to adhere to constitutional provisions regarding the Governor's authority to restrict funds circumvents the checks and balances provided for in the Constitution, and could result in the Governor controlling certain appropriations without input or approval from the General Assembly. By determining which appropriations are subjected to restrictions and determining the amount of those restrictions, the Governor can effectively veto parts of appropriations and circumvent the legislative process.

Utilizing veto powers, requesting appropriations from the Budget Reserve Fund, and requesting supplemental appropriations involve both the Governor and the General Assembly in the budgetary decisions, and provides greater accountability and transparency for decisions related to revenue shortfalls or funding unanticipated obligations.

Recommendation

The Governor and the Office of Administration should ensure expenditure restrictions are imposed in accordance with state law.

Auditee's Response

Expenditure restrictions placed on appropriations by Governor Nixon have been in accordance with state law.

In several places, the audit conveys inaccurate information regarding the consensus revenue estimate (CRE) and its relevance to the Governor's responsibility to ensure the budget remains balanced. First, it is important to understand that the CRE is not created by statute or the constitution and does not legally bind anyone - Governor or General Assembly - in the budget writing process. Moreover, contrary to the audit's suggestion, the CRE is not an agreement between the Governor and the General Assembly. At no point does the General Assembly approve the CRE. Instead, in some years, the Governor and the chairs of the House Budget Committee and Senate Appropriations Committee agree to a revenue estimate as a matter of convenience for the budget process. Furthermore, the audit erroneously suggests that the CRE is equal to the amount of revenue that is available for the state budget. It is not. It is instead simply an estimate of net general revenue collections and does not include multiple other sources of revenue that make up the total revenue available for expenditure. The Governor's responsibility to ensure there is a balanced budget must take all sources of revenue into account.

The audit incorrectly indicates that the CRE is relevant to determining when the gubernatorial powers outlined in Article IV, Section 27 of the Constitution are triggered. This assertion is completely wrong. First, the CRE did not exist at the time Article IV, Section 27 was inserted in our Constitution and clearly is not a trigger contemplated by the framers of the Constitution. Moreover, the audit's assumption that the CRE is somehow equal to the amount of appropriations is wholly false. The General Assembly can appropriate more or less than the CRE. In addition, legislation passed during the legislative session - and after a CRE is determined - impacts revenue collection and is not accounted for in the CRE and frequently is not accounted for in the final budget. The Governor's authorities established in Article IV, Section 27 involve analyzing actual appropriations and the availability of revenue and are not founded on an estimate made several months before the start of a fiscal year.

The audit asserts that vetoes, supplemental appropriations, and the Budget Reserve Fund would have been better ways to deal with budget shortfalls than expenditure reductions. While the auditor is entitled to his opinion, it is not the auditor's responsibility to make such policy decisions. Moreover, this assertion is inaccurate for several reasons.

- *The suggestion that the use of supplemental budget appropriations is a tool to address budget shortfalls illustrates a fundamental lack of understanding of the budget process. Supplemental budget appropriations provide additional spending authority. In a time of budget shortfalls, the problem is a lack of revenue not spending*

authority. Creating more spending authority does not mitigate the need for expenditure restrictions when revenue is short but instead creates a larger shortfall and the need for more expenditure restrictions.

- *Line item vetoes are one method of reducing expenditures, but can only be used prior to a budget being enacted, not during a fiscal year. In addition, once an appropriation is vetoed, it is permanently extinguished. A line item veto does not provide flexibility to release money in the event revenue collections increase as the fiscal year progresses. Finally, it should be noted that vetoes can be used to reduce spending regardless of whether or not there is a revenue shortfall.*

- *While borrowing from the Budget Reserve Fund (BRF) is an option to find additional funding, such an action, which would require the concurrence of both the Governor and General Assembly, would put the state into debt. Such an approach is short-sighted and would merely push the fiscal problem into the next fiscal year when repayment of borrowed BRF dollars would need to start to be repaid.*

As a final note, the audit editorializes that HJR 72, which is to appear on the November 2014 ballot, is designed " ... to prevent the Governor from violating constitutional provisions." In fact, HJR 72 does not say that and the courts of this state have repeatedly ruled that the current and previous governors have acted within their constitutional authority when controlling the rate of expenditures to maintain balanced budgets.

Auditor's Comment

The Governor's response is clearly an attempt to muddy the issues at hand and to avoid agreeing on any measure designed to support compliance with constitutional provisions. The Governor argues the CRE is not relevant to the determination that actual revenues are less than budget revenue estimates. However, the revenue estimates (which include CRE) presented in the budgets, are the only documented revenue estimates prepared and retained by the Governor; the practice of utilizing the CRE in the budget process has existed for over 20 years; and the CRE has been recognized in Missouri Supreme Court cases challenging restrictions made by past Governors. In fact, the Governor while he was Attorney General, successfully argued on behalf of former Governor Holden ". . . that the only relevant estimate of revenues for constitutional withholding purposes is the consensus revenue estimate of general revenue . . ." [*Missouri Health Care Association v. Holden*, 89 S.W.3d 504, 510 (Mo. banc 2002)]. The Governor's assertion the SAO does not understand the concept of the CRE is inaccurate. Pages 5 and 6 of this audit report outline the CRE process, and page 6 clearly indicates additional amounts are added to the CRE to arrive at the total estimated amount that appropriations were based on. Finally, the Governor's response says the audit report points out better ways to deal with budgetary shortfalls than expenditure reductions; however, this report actually points out **lawful** ways to address budgeting needs.

2. Estimated (E) Appropriations and Documentation

The use of estimated appropriations violated state law. In addition, the OA did not prepare documentation to support the need for the expenditure restrictions imposed during the 2 years ended June 30, 2013.

E appropriations

The use of E appropriations violated state law and allowed the Governor to spend from certain appropriations with no spending limits.

In fiscal year 2013, expenditures from 16 of 64 GRF E appropriations having budgetary effect exceeded appropriation amounts in approved house bills by approximately $35 million, or 46 percent. Similarly, in fiscal year 2012, expenditures from 26 of 79 GRF E appropriations exceeded appropriations by approximately $59 million, or 36 percent.

In June 2012, the Cole County Circuit Court ruled that the use of E appropriations specifically violates the Article IV, Section 23, of the Constitution which states each appropriation shall specify the amount and purpose of the appropriation, and that allowing E appropriations permits the Governor to amend appropriation amounts without the separation of powers doctrine set out in the Constitution.

Documentation

The OA does not prepare formal documentation or calculations to support the need for restrictions, and does not use a formula to establish restriction amounts. Instead the Governor's office and the Budget Director negotiate restriction amounts and the amounts are ultimately based on what the Governor believes is necessary.

According to the state Budget Director, when making decisions regarding which appropriations to restrict and restriction amounts, the Governor and the OA prioritize programs, and restrict those of lower priority. In addition, the state Budget Director indicated the Governor and the OA consider programs' other funding sources when making these decisions. For example, restrictions were imposed on certain higher education institutions in 2012, because these institutions had imposed tuition increases, and could therefore handle the appropriation restrictions better than other agencies without such revenue sources. The restrictions imposed and reasons provided by the OA for some of the most significant restrictions are noted below:

- For both fiscal years 2013 and 2012, the Governor restricted most or all of the appropriated transfer from the GRF to the FMRF. These restrictions were included in the Governor's budget summaries for those years. For fiscal year 2013, the entire $70 million appropriation was restricted; and for fiscal year 2012, approximately $56 million of the appropriated $71 million was restricted. OA officials explained the restriction was needed to balance the budget and was authorized by Article IV, Section 27(b) of the Constitution.

- For fiscal year 2012, the Governor restricted college and university GRF appropriations at or below initial Governor-recommended appropriation amounts. The General Assembly had approved appropriations totaling approximately $785 million, or $12 million more than the approximately $773 million recommended by the Governor. Governor-imposed restrictions on these appropriations totaled approximately $17 million. According to OA officials, restrictions that reduced the available appropriation to amounts below the initial Governor-recommended appropriations were imposed on certain colleges and universities that had implemented tuition increases. For fiscal year 2013, the Governor imposed restrictions totaling about $9 million on these appropriations, effectively reducing the available appropriations to fiscal year 2012 levels. The 2013 restrictions imposed on the GRF appropriations represented about 1 percent of the total GRF and Lottery Fund appropriations for each institution.

- For the other fiscal year 2013 restrictions and many of the other fiscal year 2012 restrictions, the Governor restricted appropriations to the Governor-recommended amount or the previous year's appropriation or expenditure amount. For example, restrictions totaling about $13.9 million were imposed in fiscal year 2012 on Department of Social Services Medicaid appropriations, reducing those appropriations to fiscal year 2011 spending levels.

In fiscal year 2012 few restrictions were released, except for the FRMF transfer, which was released in full. In fiscal year 2013, all restrictions were released, with most releases made during February, May, and June 2013. OA officials indicated restrictions were released when it was prudent to do so based on revenues, available cash and appropriations.

To document compliance with constitutional provisions and ensure transparency of budgetary decisions, documented analyses should be prepared and retained to support the need for the restrictions.

Recommendation

The Governor and the Office of Administration discontinue proposing the use of E appropriations. In addition, the OA should prepare and retain documentation to support the need for any expenditure restrictions imposed.

Auditee's Response

The Governor and Office of Administration only use E appropriations that have been authorized by the General Assembly. The FY2015 appropriations bills, approved by the General Assembly, include over 100 lines with "E" appropriations. The Office of Administration only authorizes use of "E" appropriations based on the General Assembly's actions. Also, the audit references a ruling from the Cole County Circuit Court, a ruling that was vacated by the Missouri Supreme Court when it dismissed a case brought by the Auditor. Finally, the OA does maintain adequate documentation to

support the need for expenditure restrictions and such documentation was made available during the audit.

Auditor's Comment

The Governor's assertion that E appropriations are solely authorized by the General Assembly is disingenuous, as the budgets the Governor submitted to the General Assembly each year included E appropriations. In addition, while OA personnel did provide us with annual expenditure restriction/line item veto reports showing amounts and comments supporting appropriations restricted, at no point during the audit did they provide any calculations or other documentation to support (1) that actual revenues did not exceed estimated revenues, or (2) how the amounts restricted from each appropriation were determined.

3. Accounting for Governor Withholdings

The OA has not recorded Governor withholding activities in SAM II in a fully transparent manner.

Expenditure reserves and restrictions are not separately identified within SAM II. OA personnel record both reserve and restriction amounts in the "reverted" field in SAM II. Consequently, it is impossible for users to separately identify reserves and restrictions. In addition, offsetting adjustments to reserve amounts, for agency redistributions of reserve amounts among appropriations, are not separately denoted in the system. Consequently, reserves and restrictions cannot be effectively tracked by agencies, OA, and other users of SAM II.

OA personnel prepare spreadsheets to separately record reserve, restriction, and releases of restriction transactions; however the release of reserve transactions or offsetting reserve activity are not recorded on the spreadsheets. As a result, neither SAM II nor OA spreadsheets provide complete and transparent information regarding Governor withholdings.

Section 37.070.1, RSMo, requires that it shall be the policy of each state department to carry out its mission with full transparency to the public. Any data collected in the course of its duties shall be made available to the public in a timely fashion, and any data, reports, or other information resulting from any activities conducted by the department in the course of its duties shall be easily accessible by any member of the public. To allow for more complete and transparent information regarding expenditure reserve and restriction transactions, appropriate modifications should be made to the SAM II. Such modifications should provide for separate recording of reserves, restrictions, releases, and offsetting reserve activity. In July 2014, the OA implemented SAM II enhancements to separately account for restrictions and reserves; however, the modifications will not provide a separate accounting for offsetting reserve activity.

Recommendation

The Office of Administration utilize the modifications to SAM II to separately record reserves, restrictions, and releases. The OA should consider further modifications to SAM II to separately account for offsetting reserve activity transactions.

Auditee's Response

The Office of Administration has made modifications to the SAM II system to separately record reserves and restrictions and has begun using and will continue to use this modified accounting. The OA will consider further modifications to the accounting system to separately account for offsetting reserve activity and will make such modifications when it is determined such modifications would be economically viable.

Appendix A

Governor's Withholdings and Estimated Appropriations
Consensus Revenue Estimates and Budget Summary - General Revenue Fund

	Year Ended June 30,					
	2013			2012

Notes to Budget Summary:

[1] Unexpended appropriations are counted as a resource in the next fiscal year to avoid premature commitment of uncertain resources until actual lapses are known. This amount includes reserves authorized by Section 33.290, RSMo.

[2] Includes tax amnesty, centralized debt collection, integrated tax system, federal reciprocity, and other collection initiatives.

[3] Includes appropriations for the State's Emergency Management Agency within the Department of Public Safety and the National Guard within the Governor's Office.

[4] Initial amounts for fiscal years 2013 and 2012 include expenditure restrictions applied to the Facilities Maintenance Reserve Fund and the initial amount for fiscal year 2013 includes $5 million confirmed lapse in Judiciary appropriations.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Gasconade County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Gasconade County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Gasconade, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Gasconade ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 16, 2014, on our consideration of the County of Gasconade's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Gasconade's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Gasconade, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1820 by an Act of the Missouri Territory. In addition to the three Commissioners, there are 10 elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, County Surveyor, Circuit Clerk/Recorder of Deeds, Sheriff, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of Gasconade County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

The County is also responsible for appointing a majority of the members of the board of the Community Mental Health Services Board but the County's accountability for this organization does not extend beyond making appointments.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation, was:

	2013	2012
Real Estate	$ 151,028,930	$ 151,444,890
Personal Property	40,731,984	40,220,414
Railroad and Utilities	22,933,720	21,831,664
	$ 214,694,634	$ 213,496,968

The County Commission approved a $0.4274 and $0.4180, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.1602	$ 0.1516
Special Road and Bridge Fund	0.2672	0.2664
	$ 0.4274	$ 0.4180

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some County offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions (concluded)

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County’s funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amounts of the County's deposits were $1,523,095.88 and $1,349,615.95, and the bank balances were $1,498,789.59 and $1,242,943.16, respectively. The total bank balances as of December 31, 2013, and 2012 were insured through the Federal Deposit Insurance Corporation and securities set by the County’s financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash – Governmental Funds	
Deposits	$ 1,523,095.88
Total Deposits as of December 31, 2013	1,523,095.88

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash – Governmental Funds	
Deposits	$ 1,349,615.95
Total Deposits as of December 31, 2012	1,349,615.95

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2013, and 2012.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. CAPITAL LEASES

On June 9, 2010, the County entered into a lease purchase agreement with Ford Motor Credit for a 2010 Chevrolet Tahoe 4x4. The total cost was $29,435 with 12 consecutive quarterly payments of $2,700.66 and an interest rate of 7.20%. The maturity date is March 9, 2013. These payments are made out of the Sheriff's Law Enforcement Civil Fee Fund.

On December 30, 2010, the County entered into a lease purchase agreement with Ford Motor Credit for three 2011 Chevrolet Impalas. The total cost was $58,994 with 12 consecutive quarterly payments of $5,307.69, and an interest rate of 5.70%. The maturity date is September 30, 2013. These payments are made out of General Revenue Fund.

III. CAPITAL LEASES (continued)

On October 19, 2011, the County entered into a lease purchase agreement with the Ford Motor Credit for two 2012 Chevrolet Impalas and one 2012 Chevrolet Silverado 1500 4x4. The total cost was $71,077 with 12 consecutive quarterly payments of $6,436.88 and interest rate of 6.20%. The maturity date is July 19, 2014. These payments are made out of the General Revenue Fund.

On May 16, 2013, the County entered into a lease purchase agreement with Ford Motor Credit for one 2013 Ford Police Interceptor Utility and one 2013 Ford Escape. The total cost was $50,893 with 12 consecutive quarterly payments of $4,644.10 and an interest rate of 5.70%. The maturity date is May 16, 2016. These payments are made out of the Sheriff's Law Enforcement Civil Fee Fund.

The change in capital lease obligations for the year ended December 31, 2013 is as follows:

Capital Leases	Balance 12/31/12	Additions	Payments	Balance 12/31/13	Interest Paid
1- 2010 Chevrolet Tahoe	$ 2,653.11	$ -	$ 2,653.11	$ -	$ 47.55
3- 2011 Chevrolet Impalas	15,479.92	-	15,479.92	-	443.15
2- 2012 Chevrolet Impalas & 1 - 2012 Silverado	42,389.59	-	23,662.47	18,727.12	2,085.05
1- 2013 Ford Police Interceptor & 1 – 2013 Escape	-	50,893.00	7,893.59	42,999.41	1,394.61
	$ 60,522.62	$ 50,893.00	$49,689.09	$61,726.53	$ 3,970.36

As of December 31, 2013, the schedule of future payments for the capital leases of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2014	$ 2,686.51	$ 35,200.53	$ 37,887.04
2015	1,143.76	17,432.64	18,576.40
2016	194.83	9,093.36	9,288.19
	$ 4,025.10	$ 61,726.53	$ 65,751.63

The change in capital lease obligations for the year ended December 31, 2012 is as follows:

Capital Leases	Balance 12/31/11	Additions	Payments	Balance 12/31/12	Interest Paid
1- 2010 Chevrolet Tahoe	$ 12,803.87	$ -	$ 10,150.76	$ 2,653.11	$ 651.88
3- 2011 Chevrolet Impalas	39,863.21	-	24,383.29	15,479.92	2,155.16
2- 2012 Chevrolet Impalas & 1 - 2012 Silverado	64,640.12	-	22,250.53	42,389.59	3,496.99
	$ 117,307.20	$ -	$ 56,784.58	$ 60,522.62	$ 6,304.03

III. CAPITAL LEASES (concluded)

As of December 31, 2012, the schedule of future payments for the capital leases of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2013	$ 2,575.75	$ 41,795.50	$ 44,371.25
2014	583.52	18,727.12	19,310.64
	$ 3,159.27	$ 60,522.62	$ 63,681.89

IV. LONG-TERM DEBT

On November 14, 2012, the County entered into a promissory note with Missouri Department of Natural Resources in the amount of $17,298.27 with 0% interest and a maturity date of August 1, 2020. The funds are to be used to implement Energy Conservation Measures. These payments are made out of the General Revenue Fund.

The change in long-term debt obligations for the year ended December 31, 2013 is as follows:

Promissory Note	Balance 12/31/12	Additions	Payments	Balance 12/31/13	Interest Paid
MO DNR Loan	$ 17,298.27	$ -	$ 2,272.00	$ 15,026.27	$ -
	$ 17,298.27	$ -	$ 2,272.00	$ 15,026.27	$ -

As of December 31, 2013, the schedule of future payments for the promissory note of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2014	$ -	$ 2,272.00	$ 2,272.00
2015	-	2,272.00	2,272.00
2016	-	2,272.00	2,272.00
2017	-	2,272.00	2,272.00
2018	-	2,272.00	2,272.00
2019-2020	-	3,666.27	3,666.27
	$ -	$ 15,026.27	$ 15,026.27

The change in long-term debt obligations for the year ended December 31, 2012 is as follows:

Promissory Note	Balance 12/31/11	Additions	Payments	Balance 12/31/12	Interest Paid
MO DNR Loan	$ -	$ 17,298.27	$ -	$ 17,298.27	$ -
	$ -	$ 17,298.27	$ -	$ 17,298.27	$ -

IV. LONG-TERM DEBT (concluded)

As of December 31, 2012, the schedule of future payments for the promissory note of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2013	$ -	$ 2,272.00	$ 2,272.00
2014	-	2,272.00	2,272.00
2015	-	2,272.00	2,272.00
2016	-	2,272.00	2,272.00
2017	-	2,272.00	2,272.00
2018-2020	-	5,938.27	5,938.27
	$ -	$ 17,298.27	$ 17,298.27

V. OPERATING LEASES

During 2012, the Sheriff had a storage locker which cost $95 per month. The total fee paid in 2012 was $1,140. The lease did not exist in 2013.

During 2013 and 2012, the County paid $200 per year to store stock piles at various locations: during 2013, Scott Ruffner and St. John's UCC – Bem received $200 each and John and David VanBooven received $400 ($200 for 2013 and $200 for 2012); during 2012, Scott Ruffner and St. John's UCC – Bem received $200 each.

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013, and 2012 are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 90,429.54	$ -	$ 96,168.90	$ -
Special Road and Bridge Fund	-	88,942.97	-	93,927.98
Union Electric SOP Fund	-	1,486.57	-	2,240.92
TOTAL	$ 90,429.54	$ 90,429.54	$ 96,168.90	$ 96,168.90

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $24,963.68 and $23,554.88, respectively.

VIII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Gasconade County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries.

LAGERS was created and governed by statute section RSMo. 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Status

Full-time employees of Gasconade County do not contribute to the pension plan. The June 30th statutorily required contribution rates are 9.0% (General) and 10.7% (Police) for 2013 and 10.3% (General) and 11.5% (Police) for 2012, of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

VIII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

The subdivision's annual pension cost and net pension obligation for the current years 2013 and 2012 were as follows:

2013

Annual required contribution	$	130,365
Interest on net pension obligation		749
Adjustment to annual required contribution		(890)
Annual pension cost		130,224
Actual contributions		130,365
Increase (decrease) in NPO		(141)
NPO beginning of year		10,331
NPO end of year	$	10,190

The annual required contribution (ARC) was determined as part of the February 28, 2011, and February 29, 2012, annual actuarial valuations using the entry age actuarial cost method. The actuarial assumptions as of February 28, 2013, included: (a) a rate of return on the investment of present and future assets of 7.25% per year, compounded annually, (b) projected salary increases of 3.5% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement mortality based on 75% of the RP-2000 Combined Healthy table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on 105% of the 1994 Group Annuity Mortality table set back 0 years for men and 0 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period as of February 28, 2011 was 15 years for the General division and 15 years for the Police division. The amortization period as of February 29, 2012 was 15 years for the General division and 16 years for the Police division.

THREE-YEAR TREND INFORMATION

Year Ended June 30	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2011	$ 140,617	96.3%	$ 10,480
2012	142,367	100.1	10,331
2013	130,224	100.1	10,190

IX. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had one COBRA participant at December 31, 2013, and one COBRA participant at December 31, 2012, with respective employee premiums of $5,361.36 and $135.90.

X. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Chapter 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $2,244 and $2,244, respectively, for the years ended December 31, 2013 and 2012.

XI. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. This ranges from getting two weeks after the first year of service. Upon termination from county employment, an employee is reimbursed for unused vacation and overtime, if applicable. All regular full-time employees, working 30 hours a week or more, in the County earn four hours of sick leave for each calendar month of employment. Sick leave for new and terminated full time employees is prorated based on when the employee starts or terminates employment during the month. The employee receives one hour of sick leave for each week worked the first and last month of employment. Upon termination from county employment, an employee is reimbursed for unused sick leave, if applicable.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XII. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Chapter 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XIII. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Gasconade, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Gasconade ("County") as of and for the years ended December 31, 2013, and 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 16, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies. [FS 13/12-01, FS 13/12-02, FS 13/12-03]

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I. FINANCIAL STATEMENT FINDINGS

FS 13/12-01

Criteria: Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (573) 486-5427.

FS 13/12-02

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

I. FINANCIAL STATEMENT FINDINGS (concluded)

FS 13/12-02 Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County Clerk's Office (Lesa Lietzow) will consider preparing the needed documentation to document their internal control structure and risk assessment in conformity with the COSO framework under the guidance given by the County Commission. The County Clerk's office phone number is (573) 486-5427.

FS 13/12-03 Criteria: SAS No. 55, *Consideration of Internal Control in a Financial Statement Audit*, as amended by SAS No. 78, *Consideration of Internal Control in a Financial Statement Audit*: An Amendment to SAS No. 55.

Condition: Lack of sufficient segregation of duties within the office of the Collector's and Treasurer's offices.

Context: During the engagement, we noted that an individual is allowed to receive, record, deposit, as well as write, approve, sign and reconcile expenditures and receipts to the bank statement.

Effect: The design of the internal control over financial reporting could adversely affect the ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Cause: Size and budget constraints limiting the number of personnel within each of the corresponding departments.

Recommendation: These areas should be reviewed periodically and consideration should be given to improving the segregation of duties.

Views of responsible officials and planned corrective actions: The Collector's and Treasurer's offices will continue to be monitored and additional personnel will be added when possible. The County Collector is Shawn Schlottach and her office phone number is (573) 486-2711 and the County Treasurer is Joey Gross and his office phone number is (573) 486-2411.

THE COUNTY OF GASCONADE
HERMANN, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RESPONSES
YEARS ENDED DECEMBER 31, 2013 AND 2012

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no prior year financial statement findings to report. The State Auditor's office completed an audit of the County for the year ended December 31, 2009.

Daniel Jones
& Associates
CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 16, 2014

To the Board of Commissioners
County of Gasconade

In planning and performing our audit of the regulatory based financial statements of the County of Gasconade (the "County") as of and for the years ended December 31, 2013, and December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination0 of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the County's internal control to be significant deficiencies as noted in section I:

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 5, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2013-2012 fiscal years. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (continued)

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 16, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Other Matters

We were engaged to report on the schedule of state findings, schedule of findings and responses and the summary of prior year findings and responses, which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

THOMAS A. SCHWEICH
Missouri State Auditor

To the County Commission
and
Officeholders of Miller County, Missouri

The Office of the State Auditor is responsible under Section 29.230, RSMo, for auditing certain operations of Miller County, and issues a separate report on that audit. In addition, the Office of the State Auditor has contracted for an audit of the county's financial statements for the 2 years ended December 31, 2013, through the state Office of Administration, Division of Purchasing and Materials Management. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Miller, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Miller ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2013, and 2012, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2013, and 2012, or changes in financial position or cash flows thereof for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2013, and 2012, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Miller's basic financial statements. The schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 13, 2014, on our consideration of the County of Miller's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Miller's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Miller, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1837 by an Act of the Missouri Territory. In addition to the three Commissioners, there are 11 elected constitutional officers: County Clerk, Treasurer, Circuit Clerk, Collector of Revenue, County Surveyor, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only Miller County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Comparative Statement of Receipts and Disbursements – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2013 and 2012, for purposes of taxation was:

	2013	2012
Real Estate	$ 307,234,386	$ 301,732,230
Personal Property	80,802,849	74,858,615
Railroad and Utilities	18,348,790	17,883,740
	$ 406,386,025	$ 394,474,585

The County Commission approved a $0.4861 and $0.3886, respectively, tax levy per $100 of assessed valuation of tangible taxable property for the calendar year 2013 and 2012, for purposes of County taxation, as follows:

	2013	2012
General Revenue Fund	$ 0.1840	$ 0.0845
Special Road and Bridge Fund	0.2559	0.2557
Senior Citizens Service Fund	0.0462	0.0484
	$ 0.4861	$ 0.3886

F. Cash and Investments

The County pools cash and investment resources of various funds in the County Treasurer's office in order to facilitate the management of cash and investments. Cash and investments applicable to a particular fund are readily identifiable. Some county offices also hold cash and investments in their own separate bank accounts as required by state statute. The balance in the pooled cash account is available to meet current operating requirements.

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2013, and 2012, the carrying amount of the County's deposits was $1,544,167.87 and $1,527,229.65, and the bank balance was $11,074,468.45 and $10,500,390.78, respectively. The total bank balances as of December 31, 2013, and 2012 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2013, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	1,544,167.87
Investments		-
Total Deposits and Investments as of December 31, 2013	$	1,544,167.87

The carrying values of deposits and investments at December 31, 2012, are as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in Cash and Investment Balances -		
Deposits	$	1,527,229.65
Investments		-
Total Deposits and Investments as of December 31, 2012	$	1,527,229.65

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the years ended December 31, 2013, and 2012.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the years ended December 31, 2013, and 2012.

III. CAPITAL LEASES

In May of 2005, a capital lease of $339,736.80 was obtained for a John Deere Grader. The lease matured on June 1, 2013, and the interest rate was 4.55%.

In August of 2008, a capital lease of $405,750 was obtained for a John Deer Grader. The lease matures on August 22, 2015, and the interest rate is 5.15%.

In March of 2009, a capital lease of $27,836.40 was obtained for a 2009 Chevrolet truck. The lease matured on May 24, 2012, and the interest rate was 4.25%.

In June of 2011, a capital lease of $94,100 was obtained for a John Deere Grader. The lease matures on June 29, 2016, and the interest rate is 3.55%.

III. CAPITAL LEASES (continued)

In October of 2011, a capital lease of $80,000 was obtained for a 2013 International 7500 SFA. The lease matures on October 31, 2016, and the interest rate is 3.523%.

In November of 2012, a capital lease of $35,872 was obtained for a 2012 Chevrolet truck. The lease matures on July 15, 2017, and the interest rate is 3.50%.

In January of 2013, a capital lease of $25,576.50 was obtained for 2013 Chevrolet truck. The lease matures on January 9, 2014, and the interest rate is 3.00%.

In June of 2013, a capital lease of $145,901 was obtained for a John Deere Grader. The lease matures on May 1, 2018, and the interest rate is 2.80%.

The change in capital lease obligations for the year ended December 31, 2013 is as follows:

Capital Leases	Balance 12/31/12	Additions	Payments	Balance 12/31/13	Interest Paid
John Deere Grader - 2005	$ 36,932.95	$ -	$ 36,932.95	$ -	$ 1,715.94
John Deere Grader - 2008	191,871.66	-	60,699.69	131,171.97	10,118.10

TOTAL	$ -	141,716.85	$ 28,540.00	$ 113,176.85	$ 1,664.42

V. OPERATING LEASES

On December 31, 2013, the County entered into a 48-month financing agreement with Gibbs Technology Company for a Ricoh Aficio copier. The lease payments are made quarterly for $150.00.

On August 22, 2012, the County entered into a 60-month financing agreement with Ricoh USA to lease a MPC 400SR copier. The monthly payment for the lease is $198.00.

On January 5, 2013, the County entered into a 60-month financing agreement with Ricoh USA to lease a MPC 5002 copier. The monthly payment for the lease is $147.27.

On May 2, 2013, the County entered into a 60-month financing agreement with Ricoh USA to lease a Ricoh Aficio copier. The monthly payment for the lease is $156.48.

On November 15, 2013, the County entered into a 48-month financing agreement with GreatAmerican Financial Services for a Lemark XM7163 copier. The monthly payment for the lease is $117.00.

V. OPERATING LEASES (concluded)

The future payments for operating leases entered into by the County for the year ended December 31, 2013, are as follows:

Year Ending December 31,		Future Lease Payments
2014	$	7,875.00
2015		7,425.00
2016		7,425.00
2017		6,516.00
2018		929.67
TOTAL	$	30,171.67

The future payments for operating leases entered into by the County for the year ended December 31, 2012, are as follows:

Year Ending December 31,		Future Lease Payments
2013	$	5,808.33
2014		7,875.00
2015		7,425.00
2016		7,425.00
2017		6,516.00
2018		929.67
TOTAL	$	35,979.00

VI. INTERFUND TRANSFERS

Transfers between funds for the years ended December 31, 2013, and 2012 are as follows:

	2013		2012	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	$ 247.43	$ 152,822.98	$ 424.98	$ 88,400.22
Special Road and Bridge Fund	336,036.39	-	75,000.00	-
Emergency Management Fund	-	-	11,165.22	-
911 Fund	317,070.00	247.43	350,000.00	424.98
Capital Improvement Fund	-	764,531.00	-	1,000,000.00
FEMA Disaster Money Fund	-	131,036.39	-	-
Oak Terrace NID Fund	2,822.98	-	2,235.00	-
Jail Fund	392,461.00	-	650,000.00	-
TOTAL	$ 1,048,637.80	$ 1,048,637.80	$ 1,088,825.20	$ 1,088,825.20

VI. INTERFUND TRANSFERS (concluded)

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions (concluded)

6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the years ended December 31, 2013, and 2012 were $99,586.39 and $102,646.20, respectively.

VIII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

A. Plan Description

Miller County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries.

LAGERS was created and governed by statute section RSMo. 70.600 - 70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and it is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, MO 65102 or by calling 1-800-447-4334.

B. Funding Status

Full-time employees of Miller County contribute 4% of their gross pay to the pension plan. The June 30th statutorily required contribution rates are 8.2% (General) and 0.3% (Police) for 2013 and 8.5% (General) and 0.3% (Police) for 2012, of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute.

VIII. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

C. Annual Pension Cost (APC) and Net Pension Obligation (NPO)

The subdivision's annual pension cost and net pension obligation for the current years 2013 and 2012 were as follows:

2013

Annual required contribution	$	159,114
Interest on net pension obligation		5,301
Adjustment to annual required contribution		(7,581)
Annual pension cost		156,834
Actual contributions		155,454
Increase (decrease) in NPO		1,380
NPO beginning of year		73,122
NPO end of year	$	74,502

The annual required contribution (ARC) was determined as part of the February 28, 2011 and February 29, 2012 annual actuarial valuations using the entry age actuarial cost method. The actuarial assumptions as of February 28, 2013, included: (a) a rate of return on the investment of present and future assets of 7.25% per year, compounded annually, (b) projected salary increases of 3.5% per year, compounded annually, attributable to inflation, (c) additional projected salary increases ranging from 0.0% to 6.0% per year, depending on age and division, attributable to seniority/merit, (d) pre-retirement mortality based on 75% of the RP-2000 Combined Healthy table set back 0 years for men and 0 years for women and (e) post-retirement mortality based on 105% of the 1994 Group Annuity Mortality table set back 0 years for men and 0 years for women. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period as of February 28, 2011 was 30 years for the General division and 19 years for the Police division. The amortization period as of February 29, 2012 was 1 year for the General division and 18 years for the Police division.

THREE-YEAR TREND INFORMATION

Year Ended June 30	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2011	$ 165,809	79.4%	$ 55,491
2012	168,706	89.5	73,122
2013	156,834	99.1	74,502
